UKRAINIAN SERIALS	1

INTRODUCTION

The present edition is an updated revision of the edition published in 1983 under the same title. The Ukrainian serials collection in the University of Alberta Library has almost doubled since 1983. Also, cataloguing practice is in flux and there is an ongoing revision of cataloguing entries and classification. In the task of updating and revising the data, my co-compiler, Nadia Cyncar, has done a prodigious amount of careful checking and verification of Library files.

Most of the new acquisitions have been retrospective runs of newspapers and journals on microfilm. A notable example is the collection of Ukrainian Canadian newspapers microfilmed by the Canadian Institute of Ukrainian Studies at the University of Alberta. That collection, which consists of 166 newspapers and periodicals and 44 almanacs, is listed in the Library's catalogue under a single entry (with title added entries for individual items) and kept together as a set. In the checklist we have included each title of this collection with place of publication, dates and holdings information, integrated into the alphabetic sequence. To do this we loaded the data from Frances Swyripa's published guide to the collection (*Guide to Ukrainian Canadian Newspapers, Periodicals and Calendar-Almanacs on Microfilm, 1903-1970*: Edmonton, 1985) into our SPIRES data base and revised each entry to conform to the style of the checklist. For the purposes of the checklist the definition of a Ukrainian serial remains any serial or periodical publication that is:

1. in Ukrainian, regardless of the place of publication
2. published in Ukraine, regardless of the language, or
3. devoted primarily to Ukrainian topics regardless of place of publication or language.

While the majority of the titles are in Ukrainian, there are also English, German, Polish and Russian titles. Although most of the titles deal with the humanities or social sciences, many mathematical and scientific journals are included, mostly published in Ukraine.

The compilers would like to give a special acknowledgement to Mrs. Patricia Rempel, Co-ordinator of Computer Search Services at the University of Alberta Library, for her invaluable assistance with SPIRES and the problems of converting to Textform.

Alan Rutkowski

CONVENTIONS USED TO INDICATE HOLDINGS

Complete Holdings & Current Subscriptions

Library has : v. 1, 1925-

The Library has all volumes, beginning with v. 1, 1925. The dash following 1925, and the absence of any closing date, indicate that the Library continues to subscribe to this title.

Incomplete Volumes

Library has : v. 6 <7-10, 12-13> 14, 1965-

The Library has volumes 6 and 14 (dated 1965) and all volumes thereafter. Arrowheads enclosing volumes 7-10, 12-13, indicate that these volumes are incomplete.

Missing Numbers

Library has : v. 1-7, 9-

The Library has nos. 1-7 and 9 and all nos. thereafter. No. 8 is missing.

Titles Not Currently Subscribed to

Library has : v. 1-15, 1950-64.

Library has all volumes to volume 15, 1964, but ceased to subscribe at that point.

Title No Longer Published

Library has : t. 1-10, 1955-66//

Title ceased publication with volume 10, 1966 (indicated by a double slash). The Library has all volumes published.

Holdings in Microform

Library has : v. 1-5, 1898-1902 // (Microfilm)

Library has complete holdings on microfilm.

SPCOLL	Bruce Peel Special Collections Library, Basement, Rutherford Library South.

Note on forms of Ukrainian cities

In the University of Alberta Library catalogue Ukrainian cities which occur in main entries are given in their Russian forms, e.g. Kiev, Kharkov, Lvov. To avoid confusion we have not changed these forms in main entries, but, in accordance with CIUS style, we have used the forms Kharkiv and Lviv in the line identifying place of publication. The form Kiev is used in both.
