## INTRODUCTION

The present checklist owes much to the *List of Micromaterials for Slavic and East European Studies* compiled by C. N. Suchowersky in 1980. Our initial task was to extract from that list all Ukrainian and Ukrainian-related titles. This provided the core on which we were able to build. As in *Ukrainian Serials* (Edmonton: Canadian Institute of Ukrainian Studies, 1983), criteria for inclusion are that a title be:

1. in Ukrainian, regardless of the place of publication,
2. published in Ukraine, regardless of the language, or
3. devoted primarily to Ukrainian topics, regardless of place of publication or language.

Each entry contains author (personal or corporate), title, place of publication, publisher, date, collation including the type of microform, and call number. The transliteration is that of the Library catalogue. We have omitted all notes, including those which indicate that a reel of microfilm contains more than one title, so that different entries may have the same call number.

We would like to thank J.-P. Himka, B. Krawchenko, P. Rolland and M. Yurkevich, all of whom helped at various stages in the selection of material and editing. Final responsibility for errors or inconsistencies lies, of course, with the compilers.
