***To the memory of countless  
immigrants,  
their clergy, their descendants  
and their combined  
labor of love and dedication,  
that preserves our religious  
and cultural heritage.***

We are at the beginning of a second century of  
Ukrainian settlement in the Province of Manitoba..

We are proud to have made a contribution to the spiritual life,  
diversity of church architecture, and economic progress  
as one of the many national groups that  
found a new home in the Province of Manitoba.

Special thanks to Peter Victor Polanskyj,  
who got stuck with my misplaced commas,  
lapses in grammar, and misspellings.

My sincere thanks to all who responded to my  
request for church data.

**Ukrainian Orthodox Church of the Holy Trinity  
Poplarfield**

This church was constructed in 1942 by area parishioners under the direction of master carpenter, Michael Troschuk. Built in the Ternopil Cruciform style, it possesses arms of equal length, with a central dome supported by an octagonal drum opening onto the church interior. The ornate iconostasis and other religious paintings were created by noted religious artist, Hnat Sych.

Holy Trinity served the residents of a wide area, including the High Plains, Leeland, and Chatfield districts. During the 1970s, the size of the congregation was greatly reduced by rural depopulation. It continues to be used on special occasions and has been lovingly restored by former parishioners. On September 6, 1989, the R.M. of Fisher designated the Ukrainian Orthodox Church of the Holy Trinity a municipal heritage site.
