

CARPATHO UKRAINE

POSTAL HISTORY AND STAMPS 1786 – 2000

COMPILED BY: ING. J. VERLEG

Private edition

CARPATHO UKRAINE
POSTAL HISTORY AND STAMPS 1786 – 2000

Cover illustrations:

Top: Registered airmail cover sent during period 7.

Middle: Pre-philatelic folded letter, sent during period 2

showing the postmaster postmark of Bereghszász in the rare colour red.

Lowermost: Registered cover, sent during period 11, showing Užhorod overprint

COMPILED BY: ING. J. VERLEG

Private edition, May 2012

First published: September 2007
2nd Enlarged edition February 2008
Private edition prepared as a concept for a possible 3rd edition

*And some history
as background information*

Coat of arms of Carpatho Ukraine

*To my wife Annie
who was my support and anchor
during the years the preparation of this book required.*

*Also in memory of Henry Hahn,
who passed away so suddenly
on the 7th of June 2007.*

*He was a great philatelist and
and a man with a great heart.
I was privileged having known him
and to call him my friend.*

INTRODUCTION

Carpatho Ukraine has only been a truly independent state for no more than 24 hours during 1939, when it declared itself independent from the almost collapsed Czechoslovak state. Another period when it experienced a kind of de facto independence was during the tumultuous times after the end of WWII, when the area was “liberated” by the Soviet Army. Since this handbook tries to deal with the postal history of the area from 1786 till 2000, it is necessary first to define the area which the writer considers to be Carpatho Ukraine. Up to the beginning of World War II and the reintegration into Hungary this is the area incorporated within the Czechoslovak republic in line with the Trianon peace treaty and to which the Czechoslovaks refer to as Podkarpatská or Zákarpatská Rus. During the return to Hungary (period 9), it is the area which was under Hungarian rule again. (This is inclusive of the town of Čop (Csap) and the area known as zone 3). During the following periods it is the area that in 1945 was ceded to the Soviet Union and which in 1992 became part of the independent Ukraine.

The year 1786 is chosen as the start of the period dealt with in this handbook because in that year the first regular mail service started to operate in the area. The year 2000 is chosen to end it as those tumultuous times, the little country had to go through, seem to have ended.

During the period this book deals with, it was ruled by the Habsburg Empire, the Hungarian kingdom and republic, the Czechoslovak republic, the Soviet Union and presently the newly established republic of Ukraine. Many wars left scars and so has the fight for its short lived independence. All the different states it once has been part of, makes its postal history challenging to any collector of postal history. It also makes it complex and far from transparent. It is not easy to remain neutral when referring to all of the historical events. Perhaps it was a help being a Dutchman and not being hindered by any nationalistic feeling, but on the other hand my interest in the area developed from my interest in the Czechoslovak philately and postal history, which could be considered as a disadvantage. So if I used the incorrect terminology in your eyes with regard to the words “occupation”, “return to” and so on please excuse me and bear in mind I have been really struggling with it.

Why a book in English? Well much information is available but most of it is in Czech or Hungarian language and a book in the English language hopefully generates a wider interest in the postal history of this interesting area. As already mentioned, many publications on the postal history of Carpatho-Ukraine are available and many subjects, dealt with in this book, are based on information already published earlier and in connection with this I would like to pay homage to Dr. Simady who wrote the most used handbook and which also has been a great help to me. Also the little book Miroslav Blaha wrote was the first one which came to hand to me when starting to collect postal history of Carpatho Ukraine.

Why referring to the area as Carpatho Ukraine, as so many different names are also used for the area such as Ruthenia, Trans-Carpathia, Karpatalja, Podkarpatská Rus, Zakarpatská and Zakarpattia. The reason is that this name is the most widely used in the English speaking world, but also because it is the name the little country chose for itself during the only day of its independence.

Of course it is impossible to compile such a handbook without the help of many friends collectors who provided me with advice, translated texts, commented on my drafts and made illustrations available. In particular I want to thank Juan Page, Denes Czirok, Jan Rompes, Walter Rauch, Alex Popowitch, Vladimir Markus, Otto Hornung, Otokar Beneš and Tønnes Ore. A special word of thanks I want to devote to Brian Day, who undertook the unthankful task of translating my “Dutch-English” into proper English.

Introduction to the 2nd enlarged edition.

Many positive reactions were received as a reaction on the introduction of this monograph. Much additional information was made available to the writer from sources unknown to him. The available copies of the first printing were sold out within 4 months and this made us decide to prepare a second enlarged edition. The changes and additions are listed on page 228.

Ing. Jan Verleg AEP

Introduction to the 3rd completely revised edition

Many request were received for further copies as soon as the last ones of the 2nd edition were sold. This made me decide to update the 2nd edition which resulted in quite a number of extra pages. The numbering of the pages of the fore going editions is maintained and the new pages have a letter suffix similar to the procedure for the 2nd enlarged edition. The changes are listed on page 229.

The monograph also obtained the Julian G. Maksymczuk award from the Ukrainian Philatelic and Numismatic Society of the USA for an outstanding contribution to Ukrainian philately

SOME PRESENT-DAY FACTS AND EARLY HISTORY IN A NUTSHELL

Transcarpathia (as Carpatho Ukraine is referred to nowadays) is located in the extreme south-west of the Republic of Ukraine, occupying the south-western part of the Eastern Carpathians and the north-eastern part of the Central Danubian Lowlands. The region covers an area of 12,800 sq.km. and today has approximately 1,300,000 inhabitants (2004) of which 10% lives in Uzhgorod. The population consists of Ruthenians, Hungarians, Romanians and Slovaks. The Ruthenians (sometimes referred to as Ukrainians) are divided into several ethnographic groups: the valley-dwellers who settled on the plains and in the foothills of Transcarpathia, the Lemki who live to the west of the river Uzh in the north-west, the Boiki who inhabit the central mountainous regions and the Hutzul who live in the mountains in the south-east of the region at the source of the river Tisza. Transcarpathia is one of the 24 provinces (Oblasts) of Ukraine; its capital and administrative centre is Uzhgorod.

In the early centuries A.D. many tribes and peoples crossed Transcarpathia. From the east there came the Scythians, the Huns and the Avars, from the west the Celts and the Teutons and from the south the Dacians and the Gepidae. In the fifth century the White Croats, a Slav tribe, settled in Transcarpathia. In the second half of the first millennium several settlements of White Croats developed on the territory of Uzhgorod, but gradually the importance of the settlement on Castle Hill (Zamkovaya Gora) grew. When noblemen, emerged among the Slavs, large fortified settlements appeared, Castle Hill being one of them. Other settlements developed into trading stations. During the eighth and ninth centuries when the society was a feudal one, larger settlements with castles developed into towns and became administrative centres of the tribal principalities.

Among the Slav princes in the western part of Transcarpathia and eastern Slovakia in the ninth century, Prince

Statue of Anonymus in Budapest

Laborec distinguished himself by establishing a political union of an early feudal nature, dependent on the kingdom of Bulgaria. The fortified settlement on Castle Hill overlooking the Uzh river became the center of this union. How strong the fortifications were is illustrated by Anonymous a Hungarian chronicler who describes that conquering Hungarian tribes besieged the fortress of Hung for four days before prince Laborec and his warriors were forced to leave. Anonymous refers to the Magyar tribes which came from the east to the territory of the Carpathian Basin. They were lead by Árpád, founder of the first Hungarian dynasty. The Hungarian tribes did not stay in Transcarpathia as the forested region was not suitable for nomadic livestock-breeding and they moved to the area between the rivers Tisza and Danube. During the tenth century Transcarpathia came under the political influence of the

feudal Ukrainian state of Kievan Rus., which existed from the ninth to the beginning of the twelfth century. But at the beginning of the eleventh century the plains and foothills of Transcarpathia began to be ruled by the Kingdom of Hungary. The mountainous regions in the north and east, however, remained outside the influence of the Hungarian Kingdom. In the thirteenth century Mongol-Tartar forces swept across the Carpathian passes onto the Danubian plain and destroyed Uzhgorod in 1241. It was, however, already referred to again in documents dated 1250 as Ungujvar. At the end of the thirteenth century the borders of the Hungarian Kingdom moved nearer to the Carpathian passes. This may be explained by the fact that in the year 1290 the Hungarian King Endre III (1290 –1301) gave the feudal domain including Uzhgorod to his chancellor, the palatine Aba Amadé. In 1317 Uzhgorod and its domain came into the possession of the chief of the royal forces, Count Drugeth who originally came from Italy. The Drugeths were in possession of the domain for 350 years.

At the beginning of the sixteenth century the kingdom of Hungary disintegrated due to the aggression of the Ottoman Empire. The Ottoman Turks seized the central part with its capital, Buda. The heir to the Hungarian crown Louis Jagiellon (Louis II), who was married to Maria, the daughter of the Austrian Emperor Maximilian, died in the marshes at Mohács during battle with the Turks. This happened on 29 August 1526. Ferdinand of the House of Habsburg now claimed the Hungarian crown as he was the brother-in-law of Louis Jagiellon. His claim

however, was opposed by John I Zápolya and his son John II Sigismund Zápolya. The latter renounced his Royal claim in 1570 but remained Prince of Transylvania until his death in 1571.

In 1563 Hungary was split into three parts: the northern part, to which Transcarpathia belonged, was not occupied by the Turks, (this part is normally referred to as Royal Hungary); the south, occupied by the Turks; and the principality of Transylvania in the east.

After the Great Turkish War and the peace treaty of Karlowitz in 1699, Hungary was again united and ruled by the Habsburg kings and became part of the Dual Monarchy. The Hungarian nobility was against Habsburg rule, mainly because their lands, formerly taken away by the Ottoman Empire, were returned only if proof was given of the right to own the property and 10% of its value was paid to the Habsburgs. The peasant class turned against the Empire due to the hardships the long war brought upon them.

With the help of Louis XIV of France, rebels led by a young nobleman, Imre Thököly rose against the Empire in 1678. Thököly occupied most of northern Hungary (including Transcarpathia). In 1681 the Ottomans joined to help him, and Thököly was recognized as King of Upper Hungary by Sultan Mehmet IV. However, after the Ottomans lost the Battle of Vienna in 1683, Thököly was eventually defeated in 1685.

Remnants of Thököly's peasant army started a new uprising in the Hegyalja region of north-eastern present-day Hungary, which was part of the property of the Rákóczi family. They captured the castles of Tokaj, Sárospatak and Sátoraljaújhely, and asked Rákóczi to become their leader. Ferenc Rákóczi was the son of an old noble family and one of the richest landlords in Hungary. After his father died his mother Ilona Zrinyi married Imre Thököly in 1682. After Thököly was defeated, Zrinyi held the castle of Munkács (Mukacheve) for three years. Rákóczi had remain in Vienna under Habsburg supervision. He befriended Count Miklós Bercsényi, whose property at Ungvár (Uzhgorod), lay next to his own. Bercsényi was very rich and related to most of the Hungarian aristocracy.

The War of the Spanish Succession caused a large part of the Austrian forces in the Kingdom of Hungary to temporarily leave the country. Taking advantage of the situation, Kuruc forces began a new uprising in Munkács and Rákóczi was asked to head it. On 15 June 1703, another group of about 3000 armed men headed by Tamás Esze joined him near the Polish city of Lawoczne. Bercsényi also arrived with 600 Polish mercenaries.

Ultimately, Rákóczi was defeated in the battle of Trenčín in present Slovakia.. Rákóczi went into exile in Turkey, where he lived for 22 years under the protection of the Sultan.

The further developments of the often tragic history of Carpatho Ukraine are dealt with in the successive chapters on the several postal history periods of Transcarpathia

Ferenc II Rákóczi

Prince (fejedelem) of the Estates Confederated for liberty of the Kingdom of Hungary, member of the Order of the Golden Fleece, etc, etc.

Born: Borsí 27-03-1676.

Died: Rodosto (Ottoman Empire) 08-04-1735.

During his childhood lived at the castle of Munkács present day Mukatchevo in Ukraine.

Buried in Košice (Kassa) Slovakia.

Joseph II

Emperor of the Holy Roman Empire
Archduke of Austria, King of Hungary, etc, etc, etc.
Reigned from 1765 until 1790.

During his reign the first regular mail connections were established in Carpatho Ukraine.

PERIOD I

AUSTRIAN POSTAL ADMINISTRATION FROM 1786 UNTIL THE INTRODUCTION OF THE POSTMASTER POSTMARKS

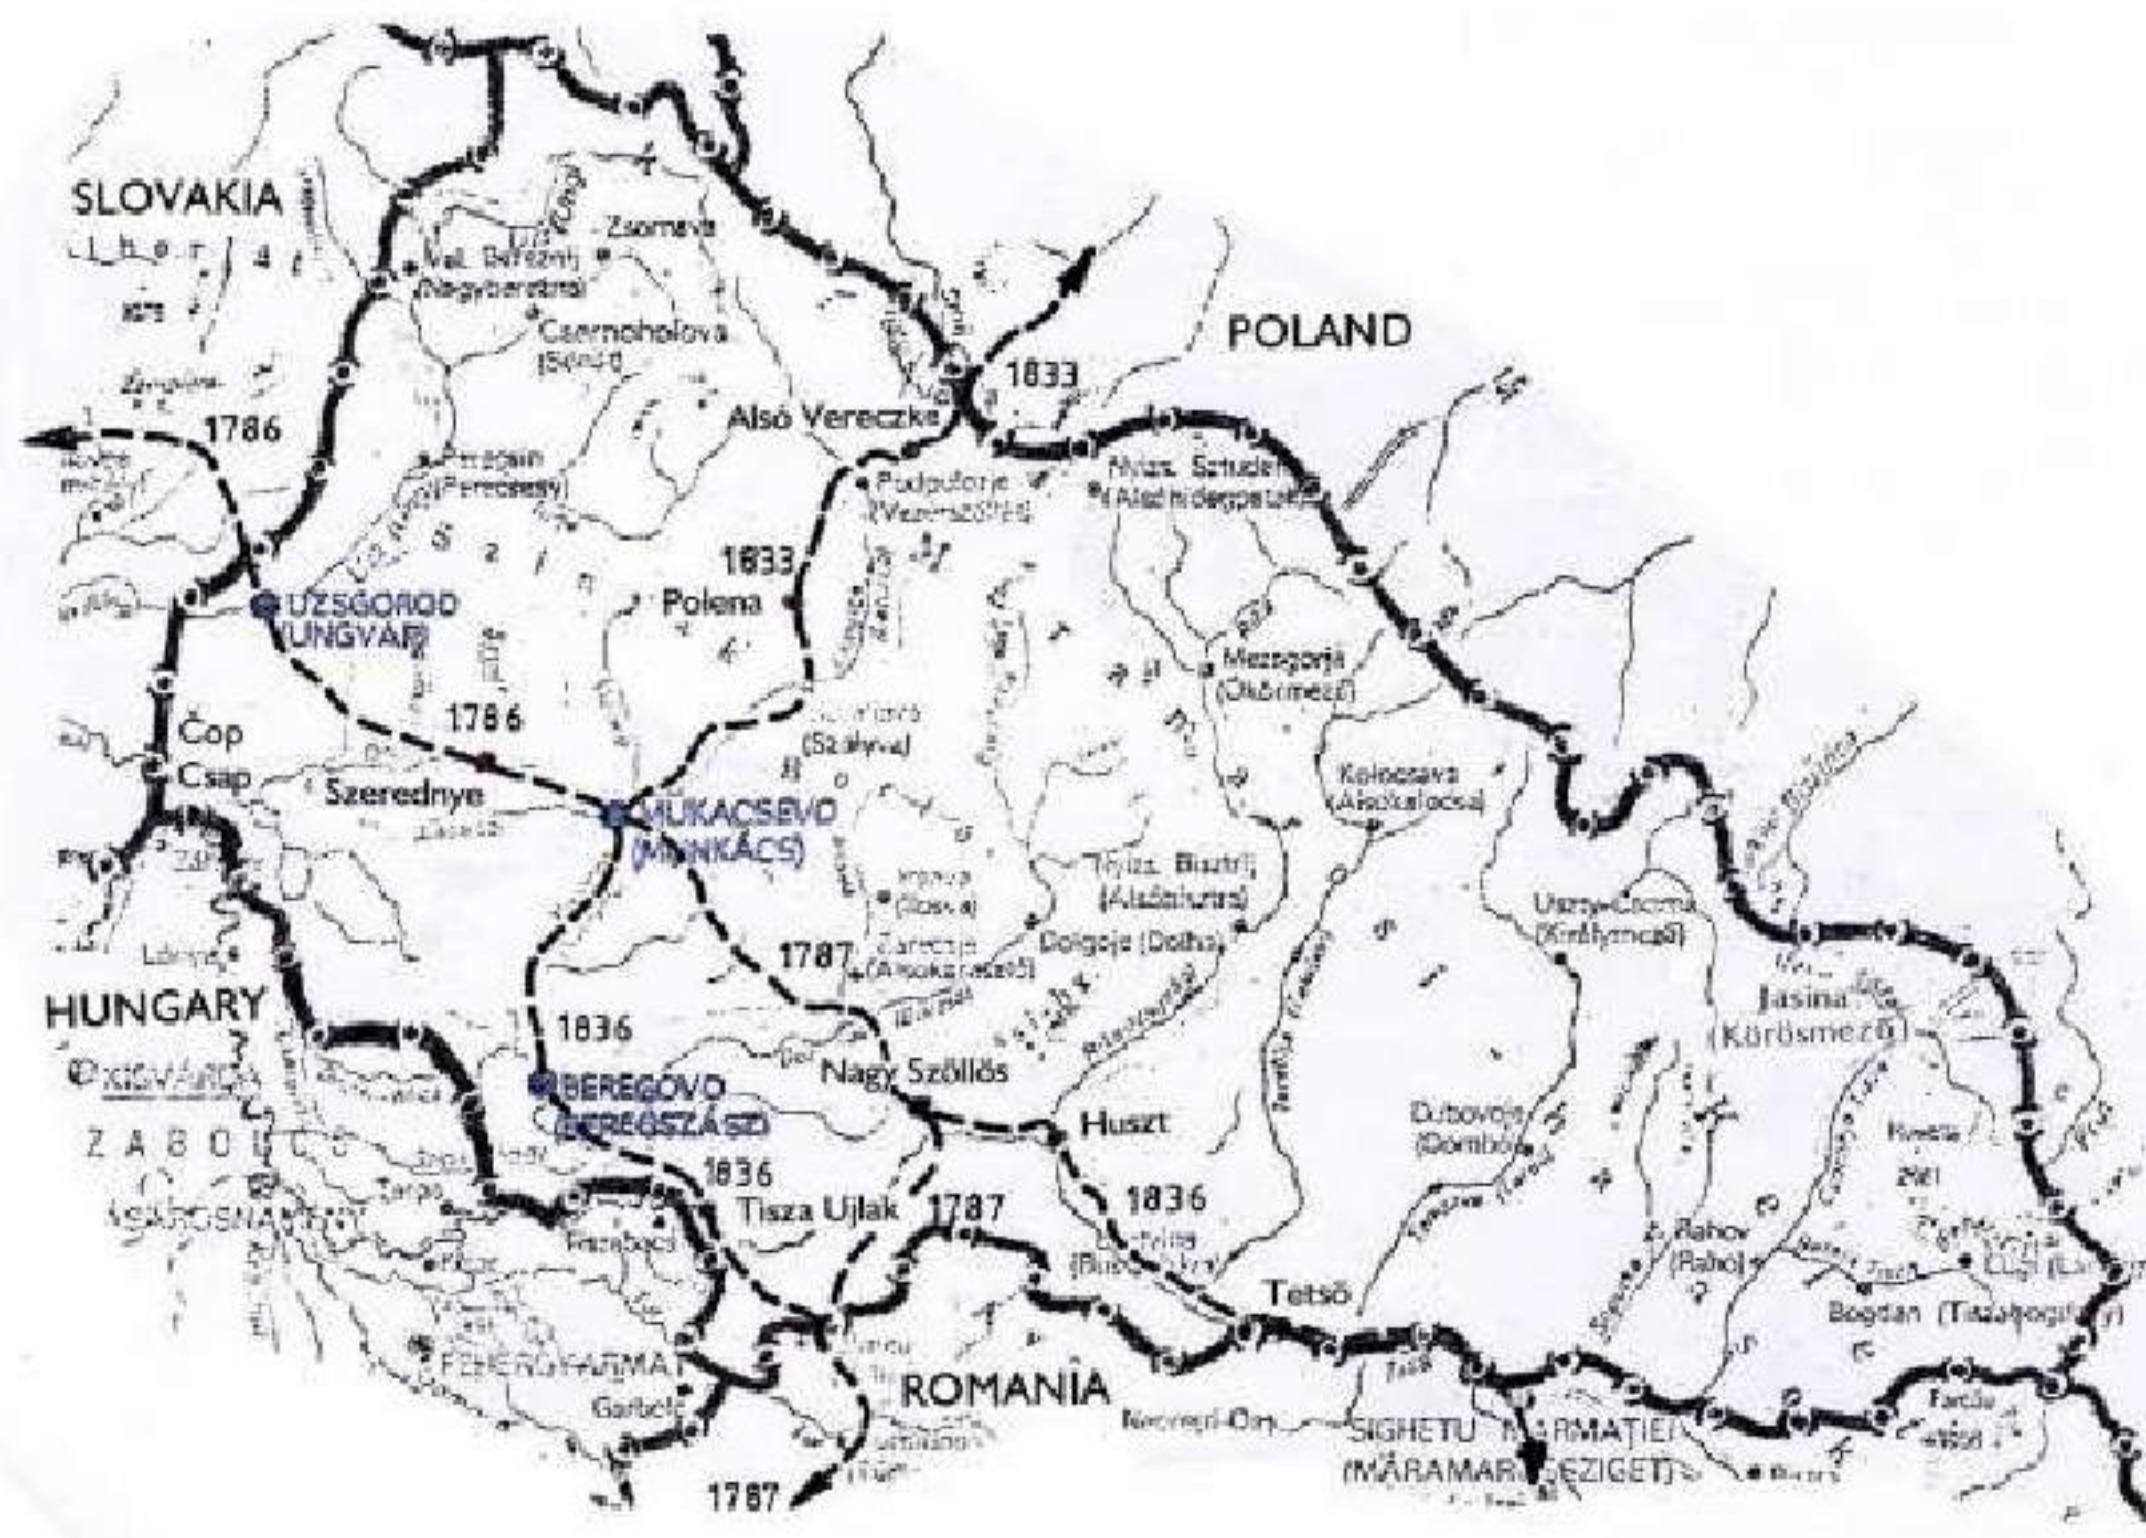

The postmaster postmarks were not introduced at the same time at each of the 10 postal stations operational during this period, see below.

- 1786 The first regular mail connection came into service between Kassa in Slovakia and Munkács in the Carpatho Ukraine via Ung(h)var and Szerednye.
- 1787 This first connection was now extended from Munkács via Nagyszöllös to Halmi, which is just at the other side of to-day's border with Romania. From there it went on to Szatmárnémeti. The service on the section Munkács – Nagyszöllös was terminated during 1838
- 1833 A new connection was established between Lemberg, in what is now Poland and Munkács via Alsóverecke and Polena.
- 1836 The existing connection Lemberg – Munkács was extended to Halmi via Beregszász and Tiszaújlak.
- 1836 Opening of the new mail connection from Nagyszöllös via Huszt and Tecső to Máramarossziget in Romania.

PERIOD I differs for each of the 10 postal stations in Carpatho Ukraine. The first year mentioned, is the year the mail connection with this postal station was established and the second is the year the postmaster postmark was introduced.

1	ALSÓ VERECZKE	1833 – 1839
2	BEREGHSZÁSZ	1836 – 1838
3	HUSZT	1836 – 1839
4	MUNKÁTS	1786 – 1818
5	NAGY SZÖLLÖS	1787 – 1826
6	POLENA	1833 – 1840
7	SZEREDNYE	1786 – 1830
8	TETSŐ	1836 – 1839
9	TISZA UJLAK	1836 – 1838
10	UNGHVÁR	1786 – 1814

MAIL CONNECTIONS DURING THE AUSTRIAN POSTAL ADMINISTRATION (Periods I and 2)

The postal rates during periods 1 and 2

As the first mail connection started its services in Carpatho Ukraine in the year 1786. Starting from this year the details of the postal tariffs, which were applied during these two periods, are as follows:

01-11-1751 until 31-10-1789 Domestic rates

Half-paid letters

The amounts mentioned in the tables below were to be paid by both the sender of the letter and the addressee.

Mail traffic between main postal stations

Weight in Lot(h)	½	1	1½	2	3	4	5	6	7	8	9	10
Forint+Kreuzers	4	8	12	16	24	32	40	46	52	58	1F4	1F10

Mail traffic between a main postal station and an ordinary postal station

Weight in Lot(h)	½	1	1½	2	3	4	5	6	7	8	9	10
Kreuzers	4	8	10	12	16	20	24	26	28	30	32	34

Mail traffic between two ordinary postal stations, without passing a main postal station

Weight in Lot(h)	½	1	1½	2	3	4	5	6	7	8	9	10
Kreuzers	3	6	8	10	12	14	16	17	18	19	20	21

01-11-1789 till 31-10-1791 Domestic rates

Half paid letters

The amounts mentioned in the table below were to be paid by both the sender and the addressee.

However both amounts could be paid together for almost all destinations within the Danube Monarchy.

Weight in Lot(h)	½	1	1½	2	2½	3	3½	4	4½	5
Kreuzers	4	8	10	12	14	16	18	20	22	24

Registration fee: 6 Kreuzer, to be paid by the sender

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kreuzer to be paid by both sender and addressee.

01-11-1791 till 31-07-1798

Weight in Lot(h)	½	1	1½	2	2½	3	3½	4	4½	5
Kreuzers	4	8	12	16	20	24	28	32	36	40

Extra's had the same tariffs as the foregoing period.

01-08-1798 till 14-11-1803

Half paid letters

The amounts mentioned in the table below were to be paid by both the sender and addressee.

However both amounts could be paid together for almost all destinations within the Danube Monarchy.

Weight in Lot(h)	½	1	1½	2	2½	3	3½	4	4½	5
Forint +Kreuzers	6	12	18	24	30	36	42	48	54	1 F

Registration fee: 6 Kreuzer, to be paid by the sender.

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

15-11-1803 till 30-10-1806

Half paid letters

The amounts mentioned in the table below were to be paid by both sender and addressee. However both amounts could be paid together for almost all destinations within the Danube Monarchy.

Weight in Lot(h)	½	1	1½	2	2½	3	3½	4	4½	5
Forint+Kreuzers	8	16	24	32	40	48	56	1F 4K	1F+12	1F+20

Registration fee: 6 Kreuzer, to be paid by the sender.

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

01-11-1806 till 30-9-1810Half paid letters

The amounts mentioned in the table below were to be paid by both sender and addressee. However both amounts could be paid together for almost all the destinations within the Danube Monarchy.

Weight in Lot(h)	½	1	1½	2	2½	3	3½	4	4½	5
Forint+kreuzers	12	24	36	48	1 F	IF 12	IF 24	IF 36	IF 48	2 F

Registration fee: 6 Kreuzer, to be paid by the sender

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

01-10-1810 till 14-03-1811Half paid letters

The tariff changed, now related to weight and distance. The amounts mentioned in the table below, were to be paid by both sender and addressee.

Weight in Lot

		½	1	1½	2	2½	3	3½	4	4½	5
Up to 4 postal zones	Forint+kreuzer	8	16	24	32	40	48	56	IF 4	IF 12	IF 20
More than 4 postal zones	Forint+kreuzer	16	32	48	IF 4	IF 20	IF 36	IF 52	2F 8	2F 24	2F 40

Registration fee: 6 Kreuzer, to be paid by the sender.

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

15-03-1811 till 31-01-1814Half paid letters

Postage related to weight and distance. The amounts mentioned in the table below, were to be paid by both sender and addressee.

Weight in Lot

		½	1	1½	2	2½	3	3½	4	4½	5
Up to 4 postal zones	Forint+kreuzer	4	7	10	14	18	21	24	28	32	35
More than 4 postal zones	Forint+kreuzer	7	14	21	28	35	42	49	56	IF 3	IF 10

Registration fee: 6 Kreuzer, to be paid by the sender.

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

01-02-1814 till 15-05-1815Half paid letters

Postage related to weight and distance. The amounts mentioned in the table below, were to be paid by both sender and addressee.

Weight in Lot

		½	1	1½	2	2½	3	3½	4	4½	5
Up to 4 postal zones	Forint+kreuzer	4	8	12	16	20	24	28	32	36	40
More than 4 postal zones	forint+kreuzer	8	16	24	32	40	48	56	IF 4	IF 12	IF20

Registration fee: 6 Kreuzer, to be paid by the sender.

Fee for a return receipt: 3 Kreuzer, to be paid by the addressee.

Fee for a delivery receipt: Only applicable to registered letters, 2 Kr. to be paid by both sender and addressee.

16-05-1815 till 31-05-1817Half paid letters

Postage related to weight and distance. The amounts mentioned in the table below, were to be paid by both sender and addressee.

Weight in Lot

		½	1	1½	2	2½	3	3½	4	4½	5
Up to 4 postal zones	Forint+kreuzer	6	12	18	24	30	36	42	48	54	1 F

Registration fee: 4Kr, to be paid by the sender.

Fee for a return receipt: 12Kr, to be paid by the addressee. (In the book of Bér-Makkai erroneously 3Kr. is mentioned.)

Fee for a delivery receipt: Only applicable to registered letters, 2Kr. to be paid by both sender and addressee.

Official letters:

The postage for official letters sent by authorities to private persons had to be paid by the addressee.

The postage of letters sent by private persons to authorities were to be half paid by the sender.

This was in line with a regulation issued in the year 1818. The "Hofkammer" issued a certified list of authorities and persons which were exempt from paying postage.

WEIGHTS

1 Lot(h) = 17.5 grams

1 Austrian pound(Pfund) = 32 Lots

1 Austrian pound = 0.56 kilograms.

On letters the weight could be written in red pencil or black ink on the front. The abbreviation "L" for Lot(h) or Lat was frequently used. Occasionally however the "L" or Lot" does not appear after the weight notation.

The weight however was not always written on normal or registered letters, because it could be determined from the postage payable. On official letters in particularly the postmaster or his clerk often did not bother to mention the weight. For the handling of the official letters the postmaster obtained reimbursement from the "Schatzkammer" which was the Austrian ministry of finance or treasury.

CURRENCY

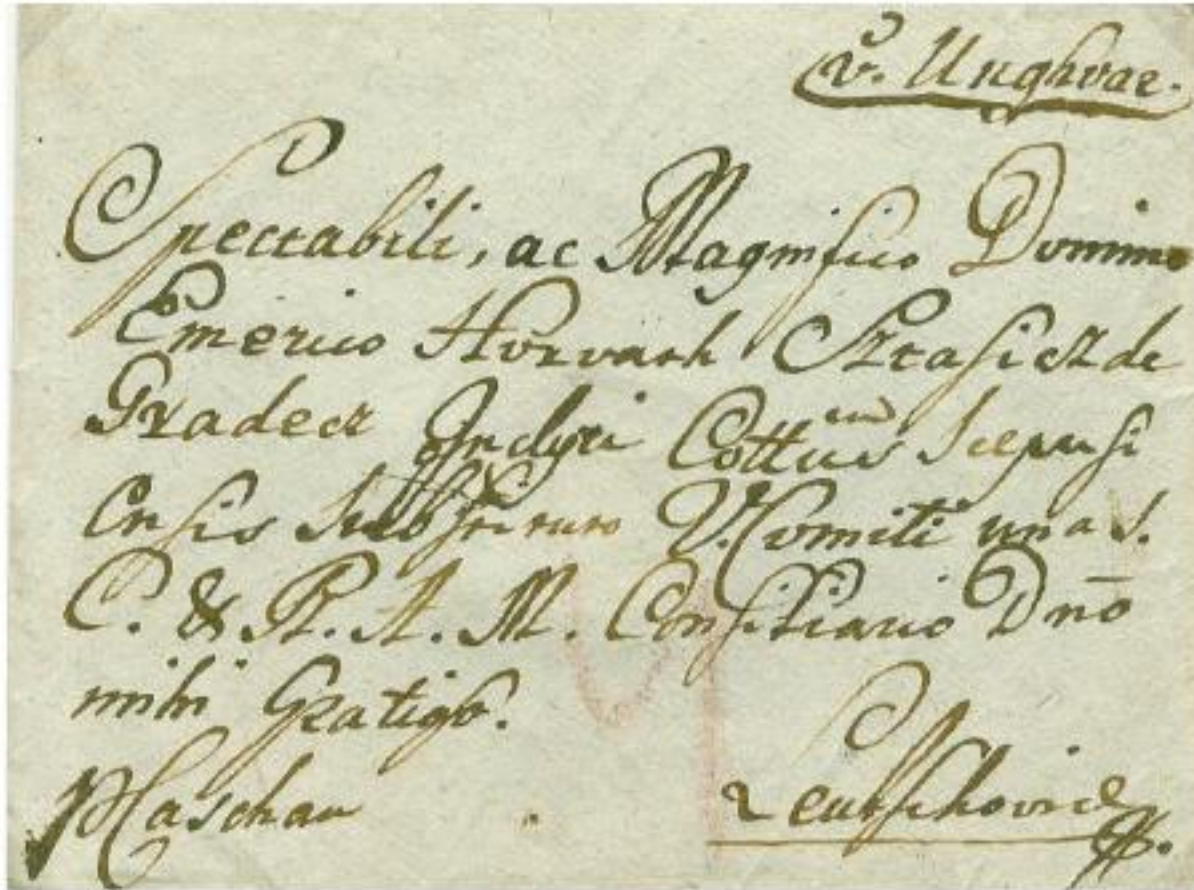

1 Forint (Gulden) = 60 Krajcár (Kreuzer)

During periods 1 and period 2 this was the currency the postmasters in Carpatho Ukraine used for marking the tariffs on the covers. The introduction of the so-called "Conventionsmünze" on the 1st of June 1816, did not change this practice.

MANUALLY WRITTEN REMARKS ON FOLDED LETTERS

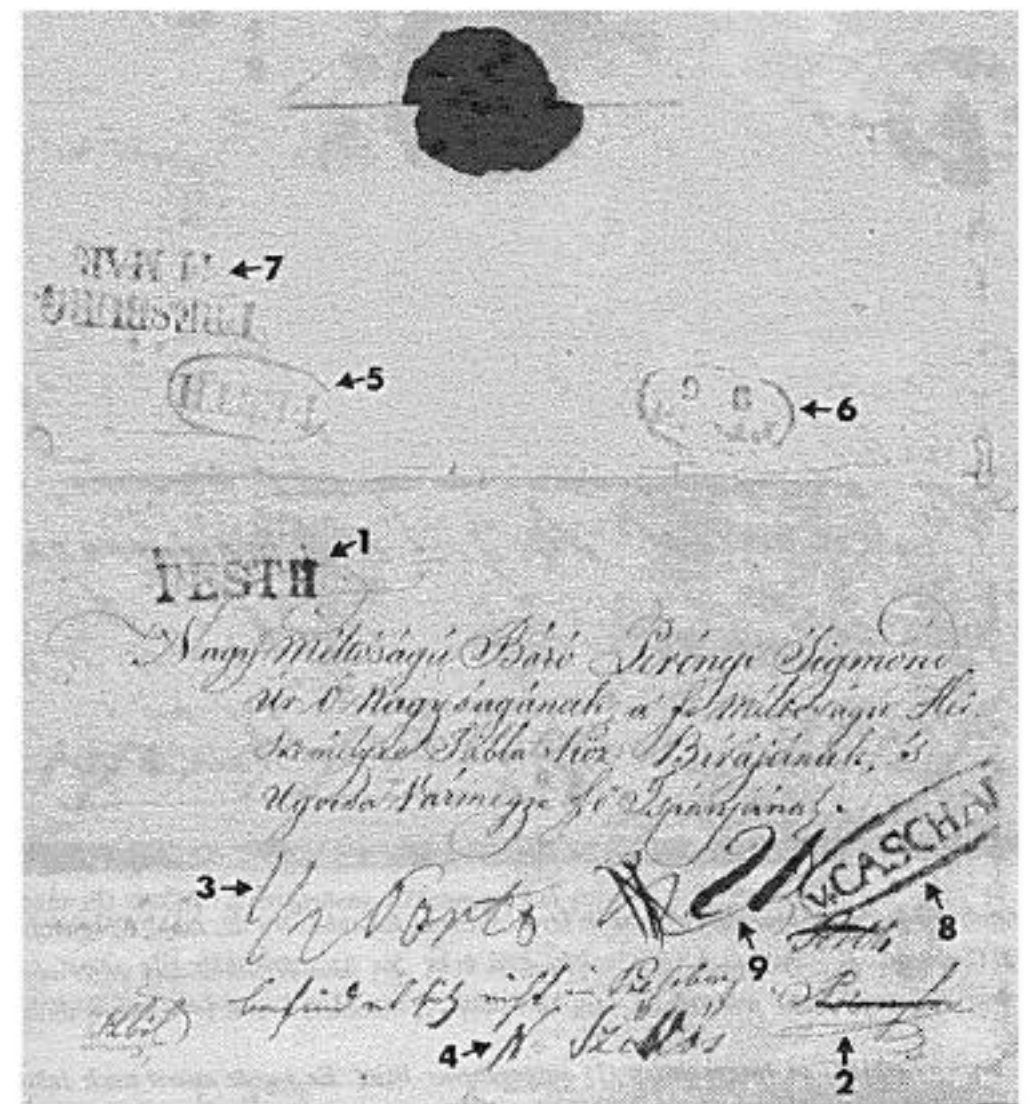

1) The name of the postal station where the letter was handed over to the postmaster.

Due to a postal regulation issued on the 1st July 1750, the postal station from where the letter was mailed had to be stated in the upper right corner, above the address. If the sender had forgotten to do this, the postmaster was supposed to take care of it. Many times however this was forgotten.

This letter has been forwarded by the regular mail coach service, which started in 1786 between Unghvar and Kassa (Košice). In the left bottom corner the route mark p(er)Kaschau (the German name for Kassa) is noted and the right hand upper corner shows the station of dispatch (v.Unghvar). The "v" is an abbreviation from the German "von", which means from. The letter was sent to Leutschovia (Levoča in Slovakia). There is no date on the unfolded letter. The weight is less than 1/2 a Loth. It is an unpaid letter, which travelled the mails most probably between 1-11-1789 and 31-7-1798. During this period only half paid letters were allowed. The share of the postage to be paid by the addressee was 4 Kreuzer, which amount was marked on the front by the postmaster at the station of dispatch, by using a red pencil (Rötel).

A letter mailed in 1840 from Pest (1) to Pozsony (Bratislava) (2). The postmaster charged half postage because of repeated forwarding (3). The addressee was found ultimately in Nagy Szöllös (4). On the front and on the rear side different transit (5) and arrival (6), (7) cancels have been applied. The "V.CASCHAU" (9) mark is also a transit mark. The figure "21" indicates the new postage to be paid on receipt (9).

Forerunner of a postmaster postmark

Folded letter sent in the year 1828, from Szerednye to Unghvár. The postmaster has drawn a postmark manually, probably inspired by other postmasters, who already used a postmark. In Szerednye the postmaster postmark was introduced in 1830.

PERIOD 2

AUSTRIAN POSTAL ADMINISTRATION FROM THE INTRODUCTION OF POSTMASTER POSTMARKS UNTIL 1848

At the 10 existing post offices in Carpatho Ukraine the postmaster postmarks were introduced at different times. That is the reason why the beginning of period 2 is different for each post office. It ends in the year 1848, when the Hungarian uprising started. One year before the uprising in the year 1847, the Austrian postal administration introduced new standard double circle date stamps, which were used at 9 of the existing post offices in Carpatho Ukraine. These date stamps are dealt with on page 12 of this chapter.

During the time of the Austrian postal administration, five postal districts existed in the Hungarian part of the empire. The post offices in Carpatho Ukraine were subordinate to the district office of Kassa or Kaschau as it was named by the Austrians.

The list below indicates when period 2 began for each of the post offices mentioned.

1.	ALSÓ VERECZKE	1839		6.	POLENA	1840
2.	BEREGHSZÁSZ	1838		7.	SZEREDNYE	1830
3.	HUSZT	1839		8.	TETSÖ	1839
4.	MUNKÁCS	1818		9.	TISZAÚJLAK	1838
5.	NAGYSZÖLLÖS	1826		10.	UNGHVÁR	1814

LIST OF ALL POSTMASTER POSTMARKS KNOWN SO FAR

	post office and year of opening type of postmark used	used from till	colour of handstamp	remarks
1	ALSÓVERECZKE 1833 ALSÓ-VERECZKE	1839 – 1847	black	also reported to be found in red, but proved to be a fake
1	BEREGSZÁSZ 1836 v:BEREGSZÁZ	1838 – 1840	black	The postmark in red is very rare, only 3 covers are recorded.
2	V.BEREGHSZÁSZ	1839 – 1843	black and red	
3	BEREGSZÁZ	1840 – 1847	black	
1	HUSZT 1836 HUSZT	1839 - 1847	black	
1	MUNKÁCS 1786 V.MUNKÁTS	1818 – 1827	black and red	One cover has been recorded with a red fake as 2. but without "v" as 4 but without "v"
2	v:MUNKÁTS	1827 – 1838	black and red	
3	MUNKÁTS	1838 – 1844	black	
4	v:MUNKÁTS	1839 – 1847	black and red	
5	MUNKÁTS	18?? – 1848	black	

At the time the second printing of this monograph was prepared a number of covers were reported to the writer having type 5 of the MUNKATS postmaster postmark. The earliest originating from 1842.

	post office and year of opening type of postmark used	used from till	colour of handstamp	remarks
1	NAGYSZÖLLÖS 1787 N.SZÖLLÖS	1826 – 1850	black and red	
2	N.SZÖLLÖS.	1830 – 1831	black	rare
1	POLENA 1833 POLENA	1840 – 1844	black	
1	SEREDNYE 1786 	1830 – 1843	black	Several covers with forged postmarks in black have been recorded. Up till now all red ones recorded were fakes.
1	TETSŐ 1836 TETSŐ	1839 – 1850	black	
1	TISZAUJLAK 1836 v:TISZAUJLAK	1838	black	This postmark has been forged as well
2	v:TISZAUJLAK	1838 – 1847	black	
3	v:TISZAUJLAK	1841	black	The difference with "2" is that in TisZA, the letters I,Z and A are in capitals. Same for K in UjlaK.
1	UNGVAR 1786 	1814	red	This is the rarest postmaster postmark. Only the one in the Post Museum in Budapest is genuine beyond any doubt. See also page 8.
2	UNGHVAR	1815 – 1847	black and red	
3		1817 – 1842	black and red	Some covers are recorded with green postmarks, all were fakes. Also forged red postmarks are recorded
4	UNGVAR.	1843 – 1847	red	One fake cover has been recorded

Some remarks to the list of postmaster postmarks seem to be appropriate.

1. The postmarks listed under Munkáts 3 and 5 may have happened either by the breaking of the "v" or by deliberately removing the "v".
2. The postmark listed under Tiszaujlak 3 is the result of a repair after some letters broke and only capitals were available to repair it.

The postal rates during period 2

Partially the same postal rates were applicable as mentioned in the chapter on PERIOD 1. As however period 2 ends at the year 1847, the following tariff period is added

01-08-1842 till 30-06-1848

Paid letters

The postage had to be paid by either the sender or the addressee.

Distance	Weight in Lot										
	1/2	3/4	1	1 1/2	2	2 1/2	3	3 1/2	4	4 1/2	5
	Postage in forint+kreuzer										
Up to 10 miles	6	9	12	18	24	30	36	42	48	54	60
Over 10 miles	12	18	24	36	48	60	1+12	1+24	1+36	1+48	2 f

The postage for local letters up to 2 Lot amounted to 2 Kr. to be paid by the sender.

Registration fee: 6 Kr.

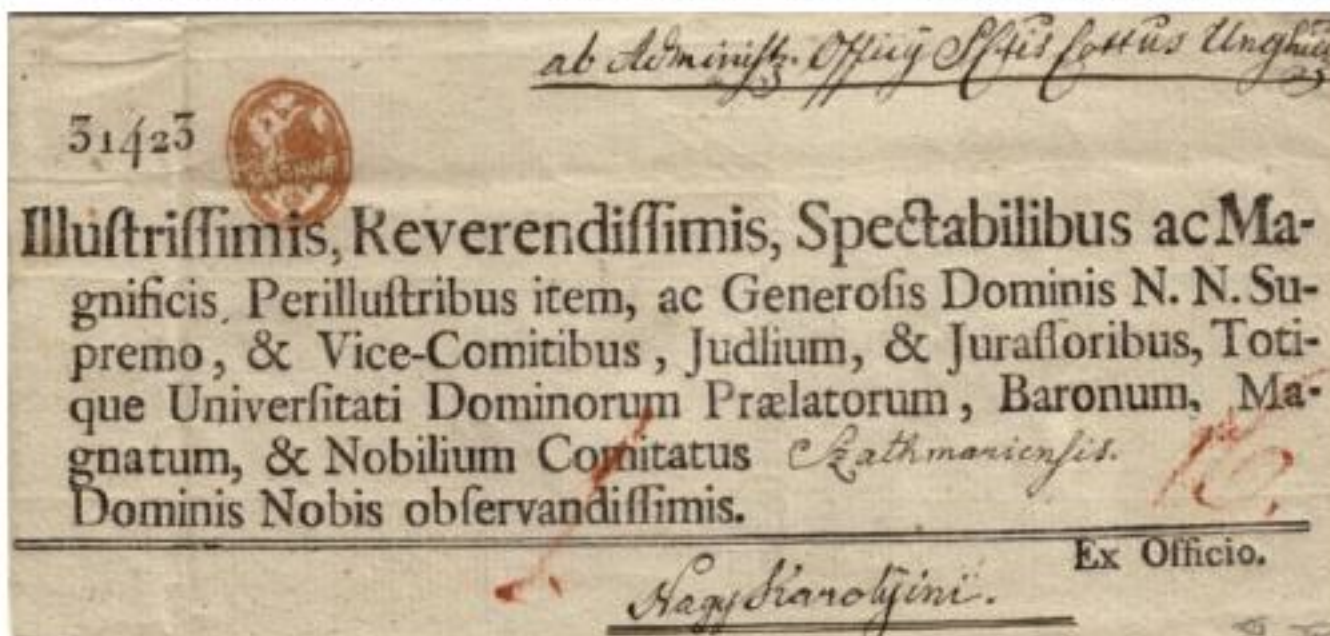

Fee for a return receipt: as postage for a 1/2 Lot letter traveling the same distance. Always to be paid by the addressee.

The distance

In the above table the distance is indicated in miles. It is generally assumed that the rates were based on the postal mile. The postal mile (also referred to as League) is equivalent to 7585 meters.

COVER WITH THE RARE NEGATIVE POSTMASTER POSTMARK of UNGHVAR

This postmark ranks under the most rare postmaster postmarks of Carpatho Ukraine. Most unfortunately this postmark has been forged as well and covers with the forged postmark were included in well reputed collections at international exhibitions. In issue 18 of the internet periodical "The Sub-Carpathian Messenger" Mr Dénes Czírok gives his opinion on all known covers bearing this postmark, and the editor Mr. Helmut Kobelbauer concludes, **that most probably no cover which a genuine postmark can be found in a private collection.**

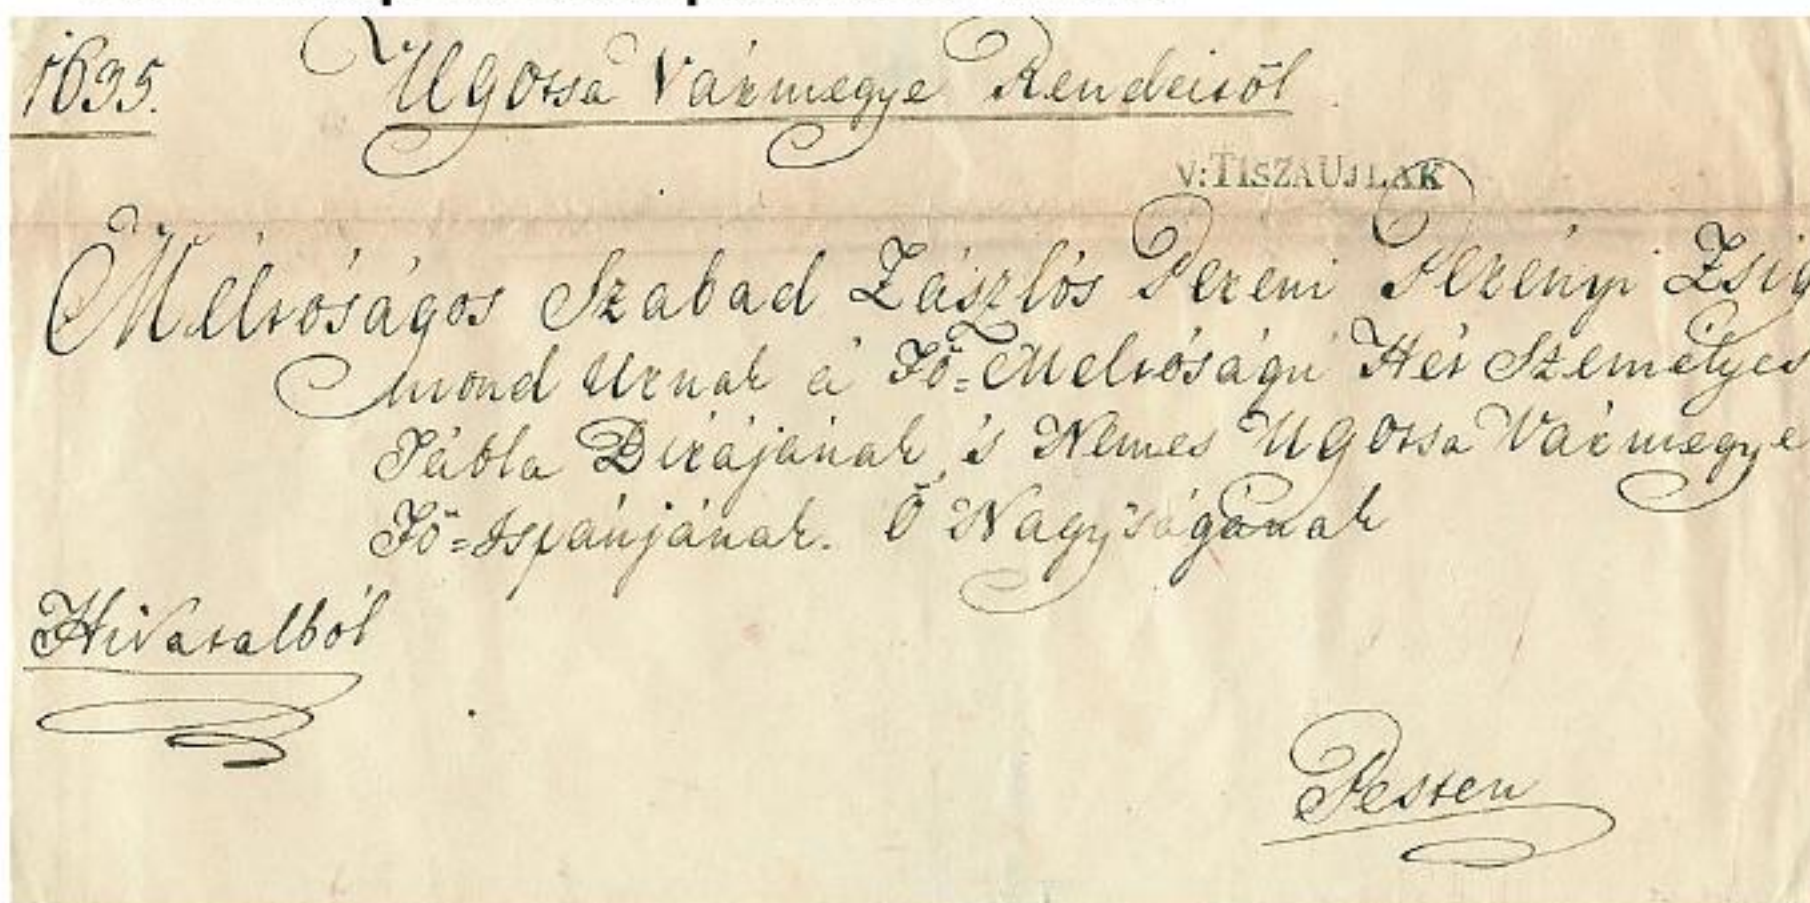

This cover was considered genuine for a long time, but now some doubts have arisen. The colour is different from the genuine one in the museum in Budapest. Also the shape of the oval makes it suspicious.

The genuine one in the Budapest museum

Some rare postmaster postmarks on cover

The repaired Tiszaujlak postmaster postmark.

After some letters broke, they were replaced with capitals letters.

See "ZA" in TisZA and "K" in UjLAK.

Only 3 covers with the red postmaster postmark of V.BEREGSZÁSZ are recorded. One is in the postal museum of Budapest. One is in the collection of the writer (pictured here) and the 3rd one has been located by Mr. Dénes Czirók in a private collection.

On the 15th International auction of Darabanth (Budapest), which took place on 19-05-2012, this very interesting folded letter was auctioned as lot 283. It has the line postmaster postmark of HUSZT but in the up till now unrecorded colour blue. The letter was sold for HUF 550.000, equivalent to € 1937 or US\$ 2477

Beware of fakes

In his lecture on faked Hungarian pre-philatelic covers held during the 4th Hungarian-Austrian symposium on Postal History in Bad-Bük (Hungary) from 30th to 31st August 2003, Mr. Czirók Dénes informed the audience that some highly qualified collections exhibited at the WIPA exhibition in Vienna held in the year 2000 contained suspect letters. This made the Hungarian Philatelic Union decide to establish a committee to fight against forgers, their works and to identify existing forgeries. Mr. Czirók has since then been very active and maintains records of such forgeries. Most unfortunately pre-philatelic (mostly folded) letters of Carpatho-Ukraine also have not escaped the attention of forger(s) and accordingly if in doubt as to genuineness collectors are advised to have their cover(s) expertised. Some general observations should help with findings. A full and undamaged wax seal on the back of the cover makes it less suspicious. Entire content is a positive sign, especially if a date is stated. Most effected is the negative postmark of Ungvár and also its oval one; many red ones are fakes and all of the green ones found so far are also fakes. All Szerednye red postmarks found to date are forgeries and those from Alsó-Vereczke handstamped in red should be regarded with suspicion. Examples below enable collectors to make comparisons between genuine and forged postmarks.

forged postmark

genuine

Only black and red postmarks exist of this type. All green ones have proved to be fake as has one red one. The oval of the forged one has a different shape. Also the 'N', 'A' and the 'R' are considerably different.

forged postmark

genuine

This postmark only appears in red. The letters "N", "A" and also the "R" are noticeably different from the ones in the genuine postmark.

forged postmark

genuine

This rather rare postmark only appears in black. It was only used in the year 1838. The forgery is rather primitive. The height of all letters is a bit smaller and in particular the "S" deviates considerably from the genuine.

forged postmark

genuine

This postmark only appears in black. All red ones found up till now have proved to be forgeries. Also one forged black one has been recorded. The forged one has the dot above the "E" in the middle, the genuine one a bit shifted to the right. The letters "S", "R" and the last "E" differ noticeably from the genuine ones.

forged postmark

genuine

This postmark only appears in black. The red ones found so far have proved to be forgeries. The letters "L" and "S" in ALSÓ differ as well as the accent on the Ó".

forged postmark

genuine

Up till now one postmark in red has proved to be a fake. Comparing the red and black ones the difference of the letter "M" immediately strikes the eye. Also the "S" has a little different shape.

It was the intention of the writer to make collectors more alert and to have them look at pre philatelic covers with a healthy portion of suspicion not to frighten them off from collecting these highly interesting specimens of postal history. Hopefully the information above will help to identify the products of the guild of forgers. If more knowledge of collectors help forgers to understand that their products are known or will be found and be expelled from exhibitions it would bring great reward.

To conclude this little chapter on falsifications a few more remarks:

- 1) The red "Szerednye", as shown above, is only mentioned by Dr Simády. Neither Andor Bér nor Tamás Gudlin makes any reference to a version in red in his handbook of the classical postmarks of Hungary.
- 2) The green postmark of "Ungvár" as shown on page 9 is mentioned by as well Simády, Bér and Gudlin
- 3) The red "Alsó- Vereczke" postmark, as shown above, is neither mentioned by Simády. nor by Bér or Gudlin
- 4) Some literature refers to the existence of a "Polena postmark", having the name written in an oval. However no proof has been found of such a postmark not even in the collection of the Hungarian postal Museum. (Térfi collection)

CHOLERA LETTERS

The year 1831 left us with an interesting but sad postal and sanitary souvenir. It happened almost 20 years before postal stamps were introduced. In that year a cholera epidemic broke out in Europe and worsening the situation was the fact that the disease was hardly known up to that time. The epidemic came from India via Russia and Galicia to Hungary. As it approached Hungary, the border to Galicia was closed on the 28th of December 1830, but reopened again on the 29th of March 1831. However the border was closed again on the 29th of May 1831. This unfortunately did not have any effect on the spreading of the disease as it was brought into Hungary by coachmen from Kolomea and salt transporting raftsmen on the river Tisza. The Governor-General ordered a military blockade in an attempt to stop the spreading of the disease by vagabonds. From July 1831 the cordon sanitaire ran from the Transylvanian border along the river Berettyó to the river Tisza and from there along the rivers Zagyva and Tarna via the towns of Eger and Miskolc till it reached the Galician border via Eperjes (Prešov) at the town of Zbornó. This military cordon appeared to be of no use at all as the disease was diagnosed on the 14th of July 1831 in Pest. However Transdanubia, North Hungary and Transylvania were not spared either. It was soon assumed that the disease was imported by letters and were the cause of the spreading of the disease over the country. It was then decided to disinfect letters arriving from infected regions and check points were established at the so called cordon line. Here fumigation stations were set up as at that time it was believed that by exposing the letters to fumes they could be disinfected. In order to make it possible

for the fumes to penetrate into the letters they were punched. At that time letters were not only sent by mail but also by private couriers and that was the reason why people were fumigated who belonged to the staff or household of higher positioned secular or clerical dignitaries as well as important governmental authorities. It must be emphasized that genuine cholera letters exist without disinfection markings as they were carried by private couriers. It is needless to say that fumigation was not effective, the disease spread all over Hungary and the Habsburg empire leaving countless victims behind.

The postal authorities did not use any postmarks on the disinfected punched letters, however the sanitary stations sometimes confirmed the disinfection at the rear side of the letter.

The so-called cholera letters are badly in demand therefore their commercial and exchange value is extremely high. There are a lot of forgeries mainly with holes punched in later. The date of the letters is of great importance as only letters originating from the year 1831 can be accepted as cholera letters. Punch holes to and fro are probably not original. The trueness of the disinfection markings is also to be proved. The use of an UV-lamp can be helpful to examine the punch holes.

24^a 7br' 1831

Date as it appears in the letter 24th of September 1831 ("7br" Latin for September).

The letter was sent from Unghvar to Czibini via Eperjes, addressed to Monsieur Charle Ziskovszky. Czibini is most probably a derivation of the Latin name Cibinium, which is Kisszeben. This is located in Slovakia. On its way to its destination it had to cross the cordon line and was fumigated.

The arrival date as stated above the wax seal (01-10-1831) is also proof it was handled during the cholera epidemic.

THE MARKING OF REGISTERED LETTERS

Originally registered letters were often used by the public to send money. However on 13-06-1786 a new regulation was issued, which terminated the possibility to send money. The service was then mainly used for court or official letters. A special marking which developed from the letters NB (Latin for nota bene= take good care) was placed on the cover by the post man. Also the registration number of the letter was written at the left upper corner (the number "4"). The sender could ask for a delivery or return receipt, for which a separate fee had to be paid.

THE NEW CIRCLE DATE STAMPS INTRODUCED BY THE AUSTRIAN POST

In the year 1846 the first uniform double circle date stamp was introduced in the territory of Carpatho Ukraine. The post office of Szerednye was the first one equipped with this new type. With the exception of Tetső the remaining 9 post offices followed during 1847 or at the beginning of 1848. Tetső continued to use the old postmaster hand stamp. In the new date stamps the day is stated above the dash and the month underneath. There was no indication of the year yet. This new type of date stamp lived a relatively long life and at some post offices they were later also used for the cancellation of postage stamps. Originally however they were date stamps, intended to state the name of the post office where a cover was sent from and to indicate the date it was presented. These date stamps were the first equipped with moveable numerals. The introduction of these date stamps in the Danube empire had started in the year 1846.

. These date stamps were used during the periods mentioned below:

ALSO-VERECZKE	1847 -- 1870	only in black
BEREGSZÁSZ	1847 -- 1864	only in black
HUSZT	1847 -- 1876	black and blue-green (the latter is extremely rare)*
MUNKÁCS	1848 -- 1861	only in black
NAGY-SZÖLLÖS	1848 -- 1871	only in black
POLENA	1847 -- 1871	only in black
SZEREDNYE	1846 -- 1874	only in black
UNGVÁR	1847 -- 1860	black and blue-green (the latter is rare)*
TISZA-UJLAK	1848 -- 1884	only in black

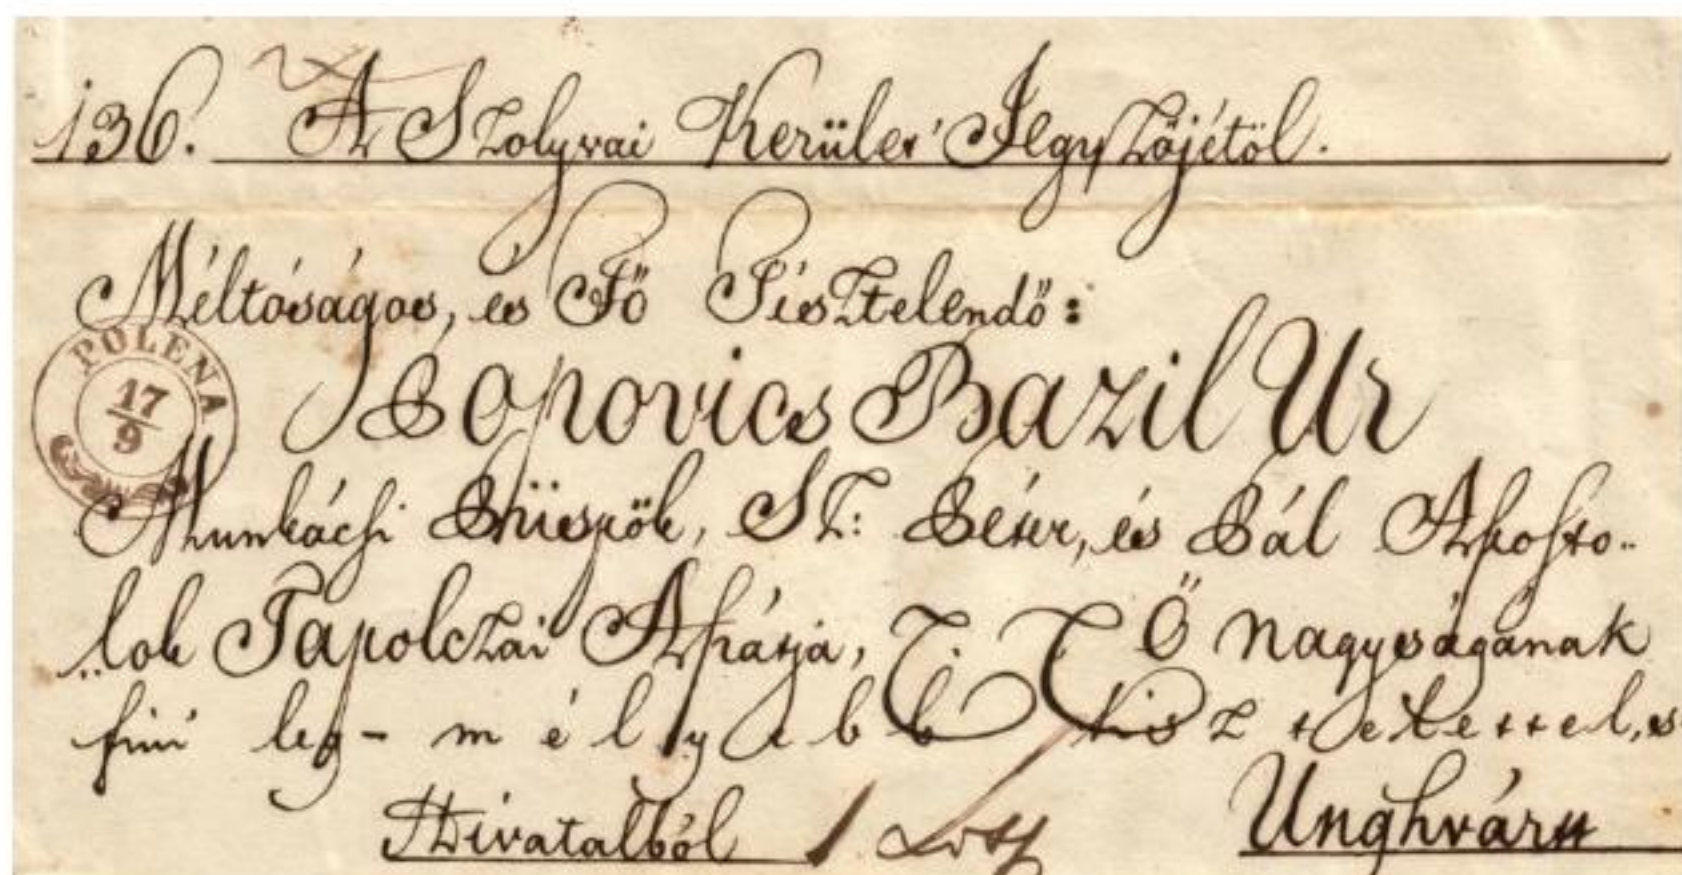

*) The date stamps in the blue-green shade only appear in period 3

TETSŐ

The post office of TETSŐ continued to use the old postmaster postmark

Folded letters, which were sent before the Hungarian uprising, which started on the 15th March 1848 and have the newly introduced Austrian double circle date stamps are rather difficult to find. The political situation was already rather unstable. Correspondence was very limited and the period the date stamps were used during period 2 was limited to one year or even several months for some post offices.

The illustration below is an example of such a letter

The folded letter shown on page 12 is an official letter sent on 17th September 1847 from Polena to Ungvár. It arrived there on the 19th September 1847 as the arrival date stamp at the reverse tells us. The year 1847 could be deduced from the contents of the folded letter. The Hungarian term “Hivatalból” means official and indicates that it was exempt from paying postage.

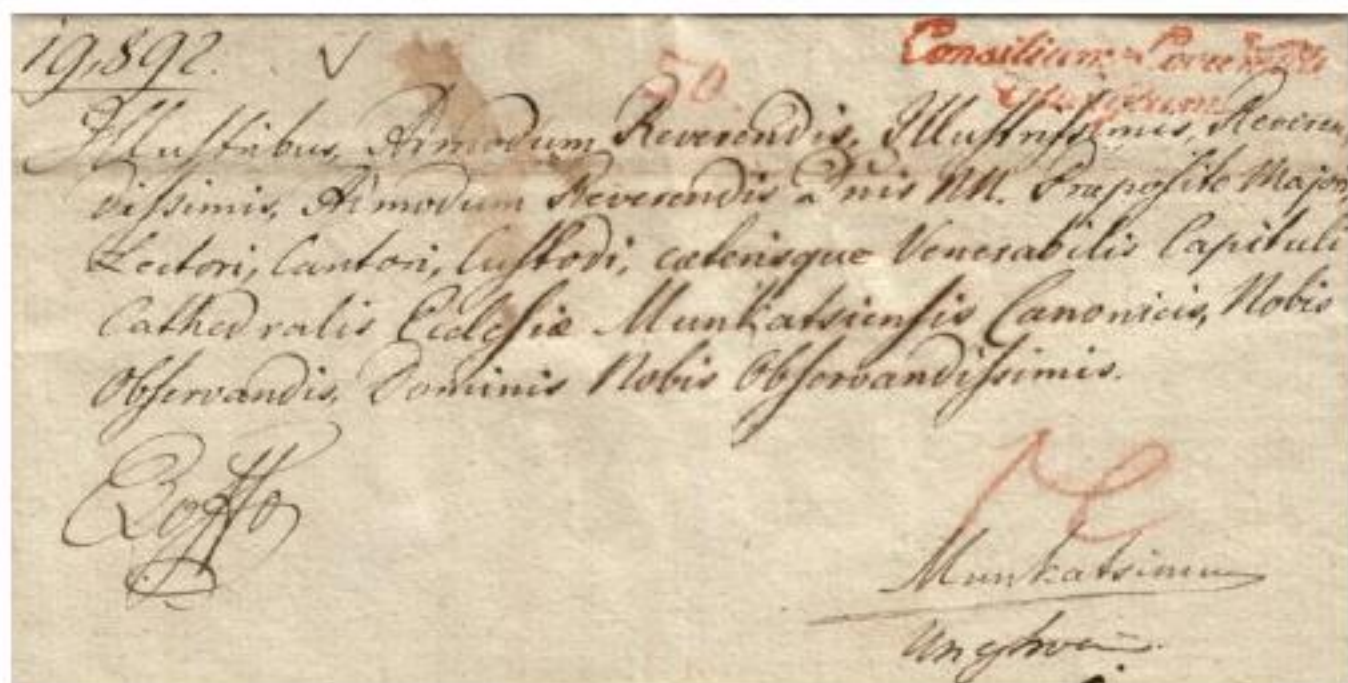

The double circle date stamps used during period 4 before the introduction of postage stamps are easier to find. They were used on postage stamps as well (see chapter on period 4, page 18).

THE INDICATION “FRANCO” ON PRE-STAMP COVERS

The postal rates introduced on the 1st of June 1817 abolished the system of half paid letters. From that day on, the full postage had to be paid by either the sender or the addressee. In case the postage was paid by the sender the letter was called a “franco consignment”, the latin expression franco meaning postage paid. From the beginning these franco letters were marked by an Andreas cross at the front of the cover. Gradually the larger post offices started to use a special marking with the word “FRANCO”. This franco marking was in the Hungarian part of the empire for the first time used at the post office of Nagykanizsa in the year 1820. At the post office of Ungvár such a franco marking has been used as well. It is not known however when it was used for the first time, but it never has been reported to appear on pre-stamp covers. The handwritten marking “franco” is more common on pre-stamp paid letters. In later years when postage stamps were used this marking FRANCO was quite superfluously used on covers with stamps. The post offices however kept these FRANCO hand stamps for the marking of postages paid in cash.

MARKS NOT ORIGINATING FROM THE POSTMASTER (non postal marks)

Some folded letters from this period show markings, which were not made by the postmaster but by the sender or even by a quarantine office, as happened in Bilke.

“Consilium Locumti Hung(ari)cum”

This is the marking of the body that ruled Hungary during the absence of the Monarch. It was exempt of paying postage. The full title of this body was “Consilium Regale Locumtenentiae Hungaricum” which can be translated as Royal Hungarian Governing Council.

As could be established from the contents, this folded letter was sent from Alsó Vereczke on 26-05-1819. On the upper right corner it has the official marking of the “Salzamt” Alsó Vereczke.

The red marking “MUNKATSER” originates from the sender of the cover. It is not clear from what can be seen on the letter, whether it is the whole marking or only a part of it. A reasonable guess might be, that it is part of the marking “Munkatser Salzamt”. This body was probably the sender of the message.

Folded letter with the very rare mark of the K.K. Bilker Qrnt Amt. = K(aiserliches) K(önigliches) Bilker Q(ua)R(a)NT(äne) AMT, which means: Imperial Royal quarantine office of Bilke. Unfortunately all such markings with black ink have proven to be fakes. The postal museum in Budapest possesses a folded letter with this marking in red originating from the collection of Terfi. According to the expert Denés Czirók this is the only genuine letter known up till now .

PERIOD 3

HUNGARIAN POSTAL ADMINISTRATION 1848 UNTIL 1849

This period is characterized by great political instability. On the 15th of March 1848 the Hungarian uprising started against the overwhelming Austrian suppression of their culture and language. The Hungarians refer to it as the "War of Independence". A new law made the Hungarian postal administration independent from the Austrian administration and became subject to the newly established Ministry of Agriculture, Industry and Commerce and in particular to its transport department. New postal rates were introduced related to mileage and weights this to underline the independence from the Austrians. These new tariffs are most important to identify undated letters sent during the war of independence. After the uprising was suppressed by the combined forces of the Imperial Austrian and Russian armies the Hungarian postal administration was incorporated into the Austrian once again. The new tariffs were cancelled and German again became the official language. The situation remained unchanged until the compromise of 1867. Philatelists refer to this period as the "Austrian post in Hungary", which lasted for the pre-stamp period from September 1849 till 1st June 1950. This period is dealt with in the next chapter.

- 1848 In March the Hungarian uprising resulted in establishing the first ever parliamentary government headed by count Batthyány. Also Kossuth and Széchenyi were members of this government.
- 1848 From the 4th of May the new government took charge of the postal services. Later during this year the national defence committee headed by Kossuth took over from the Batthyány government.
- 1849 On the 13th of August the Hungarian army had to surrender to the combined forces of the Austrian and Russian armies.

During this period the use of the date stamps, as introduced by the Austrian administration, was continued (see page 12). **Only in this period the date stamps of Huszt and Ungvár appear in a blue-green shade.**

Postal rates during the war of independence and the rule of the Hungarian independent government.

Paid letters. The postage had to be paid by either the sender or the addressee.

Weight	Distance in postal miles		
	Up to 10	10 - 20	Over 20
½ Lot	2 Kr.	6 Kr.	10 Kr.
½ - ¾ Lot	3	9	15
¾ - 1 Lot	4	12	20
1 - 1½ Lot	6	18	30
1½ - 2 Lot	8	24	40
2 - 3 Lot	10	30	50
3 - 4 Lot	12	36	100
4 - 6 Lot	14	42	110

Paid letter from Tisza-Ujlak to Munkács sent on 13-10 1848. This could be established from the contents of the letter. The double circle cancel is of the type used at 9 of the post offices in Carpatho Ukraine. Folded letters from this period are extremely rare.

Part of the rear side of this letter, showing the postage, paid by the sender. In this case 3Kr. which was in line with the tariff for a letter between ½ and ¾ Lot, traveling a distance up to 10 postal miles.

The rarities of period 3 are the date stamps of Huszt and Ungvár in a blue-green shade.

Official letter from the parish of Also Vereczke to the Bishop of Munkács, who had his residence in Ungvár. Both had a franking privilege in those days.

From the date inside the folded letter and both arrival and dispatch date stamps, we can deduce that the letter was written in June 1848.

Document of the revolutionary Hungarian government

In 1848 in an attempt to suppress the Hungarian uprising, the court in Vienna ordered field marshal Jelačić to march against the Budapest government. The defence was organized by the national defence committee headed by Kossuth. This letter which was written by the Hungarian Ministry of War, at that time in Debreczen, was sent to the commander of the garrison at Munkács. On the cover appears the expression "Sürgöny", which has the meaning of sent by courier, and also "Hból" (short for Hivatalból) which means Ex Officio. The letter itself was signed by the deputy minister of War.

A translation of Hungarian text on the cover reads as follows:

Letter number 2235
 Sender: The Ministry of War
 Addressee: To the commander of the fortress Munkács
 Express delivery by courier.
 Ex officio

The document itself can be translated as follows:

THE MINISTRY OF WAR

To the commander of the fortress Munkács
 Debreczen 27th of May 1849

Commander Rapaich has to make a full report today specifying exactly the number of arms and quantity of ammunition available. This ammunition has to be kept available in Munkács. Commander Rapaich is given the command to assist in case problems arise or struggles break out at the border regions. He has to decide himself when the required assistance and ammunition will be given to the garrisons at the border. Captain Dembinszky, commander-in-chief of the combat units at the border is always entitled to request for ammunition he might require. Commander Rapaich has to send in a report each week to the Ministry of War in Debreczen made up in duplicate, giving details about the quantities of ammunition in the stores and the quantity obtained or produced locally. One copy will be sent to the President and the other remains at the ministry of War. Signed: The deputy of the minister Vécsey Ernő.

Romantic impression of Munkács castle at the time of Ferenc II Rákóczi, who was the son of Ilona Zrínyi and Ferenc I Rákóczi. He is the national hero of the Hungarian people and was the leader of the rebellion against the Austrians in 1703. He was crowned king of Hungary in 1705 but refused to accept the Peace of Szatmár, which put an end to the rebellion. He lived in exile in France and later in Constantinople. In 1906 his remains were put to rest in Kassa (Košice). (see also page ii)

PERIOD 4

AUSTRIAN POSTAL ADMINISTRATION 1849 until 1867

- 1849 Oppression of the Hungarian uprising and reintroduction of the Austrian postal administration.
 1850 On the first of June the first Austrian stamps were introduced.
 1867 The year of the Austro-Hungarian Compromise. The Austrian postal administration came to an end.

During this period the following cancels were used:

1. The Austrian double circle date stamps out of period 2 and 3.
 - a) This cancel can be found on pre-stamp covers in the period from 13 – 08 – 1849 until 01 – 06 – 1850 .
 - b) On covers with Austrian stamps out of the issues till 1867.

In his book on the cancellations of the Hungarian post offices on postage stamps of Austria 1850-67, Mr. G.S.Ryan also mentions a date stamp of MUNKÁCS with the following spelling of the name of the town: MUNKÁCZ (however no figure is shown in his book, nor have I ever seen one).

2. TETSŐ continued to use the old postmaster hand stamp, however the postmaster put an accent on the É and added the date behind the name of the post office. (Sometimes the accent was forgotten).

- 3) Single circle cancels having a diameter of 23 mm. The date is shown in the cancel however without indication of the year. These cancels were mainly used in newly established post offices, however at a few existing post offices the older Hungarian ones were replaced by this type.

These cancels were used at the post offices listed below:

BEREGSZÁSZ	(1864 – 1870) existing post office	population 4230
DOLHA	(1865 – 1879) new post office, opened 01-03-1865,	population 1241
FEKETE-ARDÓ	(1866 – 1889) new post office, opened 01-06-1866,	population 1221
KASZONY (Mezőkaszony)	(1858 – 1871) new post office, opened 01-10-1858,	population 1210
KIS-ALMÁS	(1866 – 1905) new post office, opened 01-12-1866,	population 455
KÖRÖSMEZŐ	(1854 – 1869) new post office, opened 01-07-1854,	population 5372
MUNKÁCS	(1861 – 1881) existing post office	population 7524

This cancel appears in two types:

- a) diameter 23 mm and letter height 3 mm
- b) diameter 25 mm and letter height 4 mm

type a

type b

NAGY BEREZNA	(1862 – 1871) new post office, opened 01-07-1862, population	1232
NAGY BOCSKÓ	(1867 – 1890) new post office, opened 01-06-1867, population	3187
ÖKÖRMEZŐ	(1859 – 1872) new post office, opened 14-02-1859, population	1865
PERECSENY	(1862 – 1904) new post office, opened 01-07-1862, population	1086
RAHÓ	(1854 – 1871) new post office, opened 01-07-1854, population	2113
SOM	(1864 – 1872) new post office, opened 01-07-1864, population	812
SZTÁVNA	(1864 – 1889) new post office, opened 01-10-1864, population	614
SZÜRTHE	(1864 – 1875) new post office, opened 01-06-1864, population	1164
TÉCSŐ	(1850 – 1870) existing post office	population 2413
TREBUSA	(1854 – 1901) new post office, opened 01-07-1854, population	642
UZSOK	(1866 – 1886) new post office, opened 01-03-1866, population	564
VERESMÁRT	(1866 – 1874) new post office, opened 01-12-1866, population	925

The population has been given as it is a very good indication of the rarity of these date stamps used to cancel postage stamps. The figures originate from a census of population taken in 1870.

- 4) A special boxed cancel was used at the post office of UNGHVAR from 1858 until 1871.

POSTAL TARIFFS

1. From 31 – 05 – 1849 (after the suppression of the Hungarian uprising) until 01 – 06 – 1850 (the introduction of the Austrian postage stamps).

Distance	Weight in Lot(h) up to										
	½	¾	1	1½	2	2½	3	3½	4	4½	5
	Postage in Kreuzer 60 Kreuzer = 1 Forint										
Up to 10 miles	3	5	6	9	12	15	18	21	24	27	30
From 10 – 20 miles	6	9	12	18	24	30	36	42	48	54	60
Above 20 miles	12	18	24	36	48	1 F	1 – 12	1 – 24	1 – 36	1 – 48	2 F

Registration fee: 6 Kr.

Fee for a return receipt (Retour recippisse): Postage of a ½ Loth letter, depending on the distance.

Printed matter (tied with a string around the parcel): ¼ of the postage of an equivalent letter, but with a minimum of 1 Kr.

2. From 01 – 06 – 1850 (The introduction of the Austrian stamps) until 01 – 11 – 1858 (The introduction of the new currency).

Distance	Weight in Lot(h) up to				
	1	2	3	4	5
	Postage in Kreuzer 60 Kreuzer = 1 Forint				
Up to 10 miles	3	6	9	12	15
From 10 – 20 miles	6	12	18	24	30
Above 20 miles	9	18	27	36	45

For a letter not exceeding the weight of 1 Loth and with a destination within the area of operation of the post office of dispatch the postage was 2 Kr. For all other letters as specified in the table at the left.

Printed matter: 1 Kr. for each Loth regardless of the distance.
 Registration fee: 6 Kr, for local letters 3 Kr. (Stamp had to be affixed at the back of the cover).
 Special delivery fee: 9 Kr.
 Fee for personal delivery: ½ Kr.
 Return receipts: same as for letters of one Loth in weight; from 1st July 1850-on: 6 Kr. regardless of the distance.
 Tracers: same as for letters of one Loth in weight.

3. From 01 – 11 – 1858 (The introduction of the new currency) until 31 – 12 – 1865
 1 Forint = 100 Kreuzer

Distance	Weight in Lot(h) up to				
	1	2	3	4	5
	Postage in Kreuzer 100 Kreuzer = 1 Forint				
Up to 10 miles	5	10	15	20	25
From 10 – 20 miles	10	20	30	40	50
Above 20 miles	15	30	45	60	75

Local letter up to 1 Lot 3Kr. For each Loth more 3Kr.
 Printed matter: 2 Kr. for each Loth, regardless of the distance
 From 01 – 10 – 1862 2 Kr. per 2½ Loth regardless of the distance.
 Samples: Same as for letters, but per 2 Loth instead of 1 Loth.
 Registration fee: 10 Kr., for local letters 5 Kr.
 Special delivery fee: 15 Kr.
 Personal delivery: ½ Kr.
 Return receipts 10 Kr. regardless of the distance, from 1st of August 1862 for local letters 5 Kr.
 Tracers: Same as for letters of 1 Loth in weight.

4. From 1st January 1866 until 30th April 1867 (the start of the Hungarian postal administration).

The new tariff became a rather difficult one for the ordinary postman. In stead of the Loth as a unit of weight the Zoll-Loth was introduced. (Zoll-Loth = Customsloth) This was the consequence of a treaty concluded with other states within the German postal union.

The Loth as weight unit used up till then was equal to 17.5 metric grams.
 The new Zoll-Loth was equal to 16.66 metric grams.

Weight in Zoll-Loth	Letters		Printed matter Local and domestic
	local	domestic	
Up to 1 Zoll-Loth	3 Kr	5 Kr	2 Kr
for each Zoll-Loth, in excess	3 Kr	5 Kr	2 Kr
Registration fee	5 Kr	10 Kr	Same as for letters

The confusion was created as in the old system a domestic 1 Loth letter having a weight in between 1 Zoll-Loth (16.66 gr) and 1 Loth (17.5 gr) had to be franked with a 5Kr. stamp. In accordance with the new tariff the postage amounted to 10 Kr. for the same letter. 5Kr. for 1 Zollloth and again 5 Kr. for the weight in excess of 1 Zoll-Loth. Understandably a lot of mistakes were made.

Period 4 can be divided into the pre –stamp period and the period during which Austrian stamps were used
 During the pre-stamp period the postal tariffs were dependent on both weight and distance, whilst only paid or unpaid letters were possible.

On page 21 a few examples of letters from this period are pictured.

Verordnungsblatt

für

Posten, Eisenbahnbetrieb und Telegraphen.

N^o 25-28.

Wien, den 27. April.

1850.

Zahl 968. 1132-H.M

Bestimmungen über die Briefporto-Taren und die Einhebung derselben durch Briefmarken.

In Vollzug der über Antrag des Ministeriums für Handel, Gewerbe und öffentliche Bauten erlassenen a. h. Entschliessung vom 25. September 1849 haben in Betreff der Briefporto-Taren und Nebengebühren, dann der Anwendung von Briefmarken mit 1. Juni 1850 nachstehende Bestimmungen in Wirksamkeit zu treten.

§ 1. Portotare. Die Portotare für einen einfachen Brief beträgt

- | | |
|--|-------------|
| a) im Bezirke des Aufgabepostamtes selbst | 2 kr. C. M. |
| b) bei einer Entfernung bis 10 Meilen einschließlich | 3 " " |
| c) " " " über 10 bis 20 Meilen einschließlich | 6 " " |
| d) " " " " 20 Meilen | 9 " " |

§ 2. Einfacher Brief. Ein einfacher Brief ist ein solcher, welcher Ein Loth nicht überwiegt

§ 3. Progression der Tare nach dem Gewichte. Für Briefe im Gewichte über Ein bis einschließlich zwei Loth wird das Doppelte, über zwei bis drei Loth das Dreifache u. s. f. des Porto für einen einfachen Brief eingehoben.

§ 4. Bezeichnung der Briefen gleichzuhaltenden Sendungen. Was von Briefen im engeren Sinne des Wortes gilt, hat auch von allen anderen zur Versendung in den Briefpaketen geeigneten Gegenständen, als Schriften, Druck, Mustern u. dgl. zu gelten

§ 5. Ermäßigung der Portotare. Für Kreuzbandsendungen, wenn solche außer der Adresse, dem Datum und der Namensunterschrift, nichts Geschriebenes enthalten, ist ohne Unterschied der Entfernung nur der gleichmäßige Satz von Einem Kreuzer für das Loth bei der Aufgabe zu entrichten

Für Waarenproben und Muster, welche auf eine Art verwahrt aufgegeben werden, daß die Beschränkung des Inhaltes auf diese Gegenstände leicht ersichtlich ist, entfällt für je zwei Loth nach der Entfernung das einfache Briefporto

Diesen Sendungen von Waarenproben und Mustern darf, wenn vorstehende Ermäßigung zur Anwendung kommen soll, nur ein einfacher Brief angehängt werden, welcher bei der Ausmittlung der Tare mit der Probe oder dem Muster zusammenzuwiegen ist. Die Sendungen der letztern Art werden übrigens nur bis zu einem Gewichte von 16 Loth einschließlich als Briefpostsendungen nach der vorstehenden Bestimmung behandelt

§ 6. Zurückbeförderte Briefe. Für die Zurückbeförderung der Briefpostsendungen, welche an die Adressaten nicht bestellt werden konnten, ist kein besonderes Porto zu entrichten.

§ 7. Recommandations-Gebühr. Sendungen, welche recommandirt (gegen Aufgab-Recepisse) aufgegeben werden, müssen ganz frankirt werden und ist die Recommandations-Gebühr u. z. für Sendungen nach Orten im eigenen Bestellsbezirke (Stadtpost) mit 3 Kreuzern, und für alle anderen mit 6 Kreuzern pr. Stück von den Aufgebern zu erlegen.

§ 8. Retour-Recepisse. Wird bei der Aufgabe die Absendung eines Retour-Recepisses, d. i. eines solchen Recepisses begehrt, welches mit der Unterschrift des Empfängers zurücklangen und an den Aufgeber ausgefolgt werden soll, so hat dieser dafür bei der Aufgabe die gebührende Tare wie für einen einfachen Brief zu entrichten.

Regulation

for the

Mail, Railways and Telegraph

No 25 – 28

Vienna 27. April

1850

Regulations about the postal rates and its payment by using postage stamps

Further to the regulation from 25 September 1849 issued by the ministry of Trade, Industry and Public buildings regarding the postal tariffs for letters and the introduction of postage stamps, starting from 1st of June 1850 the following tariffs will be applicable..

§1. **Tariffs.** The postage for a normal letter amounts to:

- | | |
|---|-------|
| a) within the district of the post office where the letter is delivered | 2 Kr. |
| b) up to a distance of including 10 miles | 3 Kr |
| c) up to a distance in between 10 and 20 miles | 6 Kr |
| d) distances over 20 miles | 9 Kr |

§2. **Normal letter** A letter is considered to be a normal letter in case the weight does not exceeds one Loth.

§3. **Increase of the postage in relation to the weight.** For letters having a weight between one and two Loth the postage amounts to twice the postage for a normal letter. For letters having a weight in between 2 and 3 Loth the postage amounts to 3 times the postage for a normal letter and so on.

§4. **Specification of consignments which are equalized with letters.** For parcels containing : writings, printed matter or samples the same postal tariffs are applicable as for letters.

§5. **Reduction of tariffs..** For consignments with crossing wrappings, only stating address, name and date not containing any written message the postage amounts to 1 Kreuzer for each Loth, irrespective of the distance. This amount has to be paid by the sender.

For samples and specimen, which are presented in such a way that the that it is easily to establish that the contents is limited to samples and/or specimen the postage for each two Loth, with observation of the distance, amounts to the postage of a normal letter.

In case this reduction of tariffs is applied to consignments of samples and specimen, only one normal letter may be adhered to such consignments. For establishing the postage this letter is to be weighed together with the sample or specimen. Consignments of this nature, which are to be sent as a letter are limited in weight up to 16 Loth.

§6 **Letters returned to sender.** For letter post consignments, which cannot be delivered to the addressee and are returned to the sender, no additional postage will be required.

§7 **Registration fee.** For consignments, which are registered (a delivery receipt to be issued) the full postage is to be paid. The registration fee amounts to 3 Kreuzer for local destinations and 6 Kreuzer for all other destinations.

§8 **Return receipt.** In case, at the presentation of the consignment, a return receipt is required, the fee is to be paid at the presentation and amounts to the postage for a normal letter. A return receipt is a document on which the addressee confirms with his signature that he received the consignment. This document is to be returned to the sender,

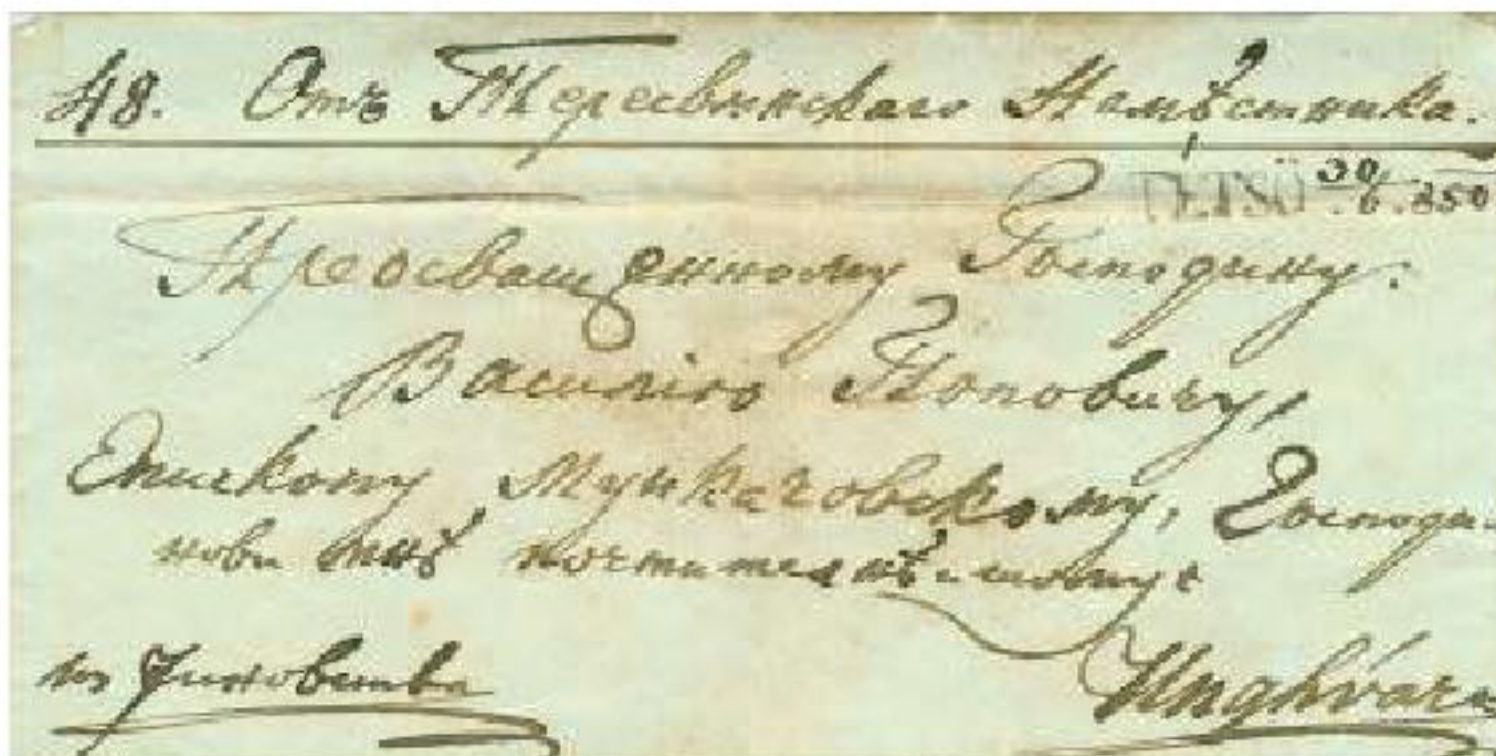

Unpaid private letter sent on the 23rd of December 1849 from Ungvar to Rahó (County Gömör) via Rimaszombat. The date could be established from the contents and it is backstamped with the transit mark of Rimaszombat. The postmaster indicated the postage to be collected as 12 (Kr.). This is in accordance with the tariff valid from 31-05-1849 until 01-06-1850 for a ½ Loth letter travelling a distance over 20 miles.

Date as written in the letter

← Transit postmark at the rear side

An example of continuous use of the old postmaster postmark. To comply with the rules the postmaster added the date and put an accent on the "É" in TÉTŐSŐ, thus spelling the name in the Hungarian fashion. The date (30-06-1850) confirms the latter was sent during period 4. The letter is an official letter and both sender and addressee were exempt from paying postage.

On the 1st of June 1850 the first Austrian stamps were issued. The validity ended on 31-12-1858. Sale of the stamps at the post offices was already terminated on 31-10-1858.

Also in Carpatho-Ukraine these stamps became available. However covers with the first issue are extremely rare. One should bear in mind that in those days the total population did not exceed 200,000 and it was merely a rural agricultural society. Not many people at that time could read and write and it mainly was the nobility, the administration and the clergy which were involved in writing letters and many of them enjoyed a franking privilege. For all covers with the 1st issue, tariffs as stated under 2 were applicable (before the money reform).

Cover sent from Ungvár to Munkács, on 12-07-1854 and backstamped Munkács 12-07-1854. Tariff was 3 Kr. for a letter up to 1 Lot in weight and a distance not exceeding 10 postal miles. Postage was paid by a strip of 3 yellow 1 Kr. stamps printed on thick paper.

The year is shown inside the letter

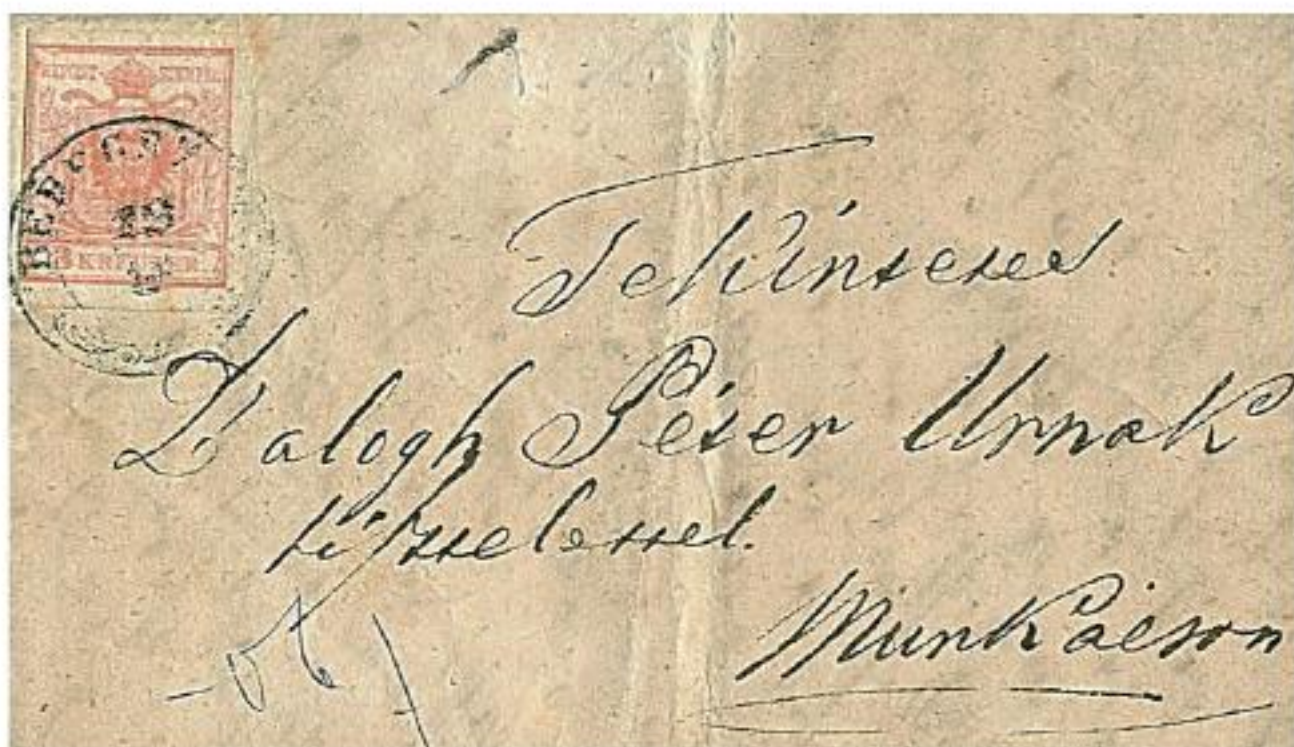

Backstamped Munkács

Cover sent from Beregszász to Prague on 5-7-1857. As was usual in the pre-stamp period the sender made two remarks on the cover, which were no longer required in the stamp period. First of all he mentioned "v Beregszasz" and secondly he stated "franciert". The letter was sent before the money reform of 1858. The valid tariff amounted to 18 Kr. for a letter over 1 Lot in weight, traveling over 20 postal miles. Postage has been paid with a pair of 9 Kreuzer stamps in blue. Transit mark Debreczen and arrival mark Prag on the reverse.

Transit and arrival mark
←

Folded letter, sent on the the 19-09-1853 from Beregszász to Munkács. The same tariff was valid as for the letters shown above. For a letter up to 1 Lot, traveling a distance of max. 10 postal miles, this amounted to 3 Kr.

In the series of articles, the well known collector Otto Hornung published in Stanley Gibbons Monthly, titled "Jewels from the Mountains", he made an estimate of the number of covers existing franked with the 1st Austrian issue. After enquiring a number of fellow collectors, he was able to trace some 50 covers. Of course there must be a number of unrecognized items, but very sparse they are. Many times they are under valuated at exhibitions as the rarity is not recognized.

The additional markings "Nach Abgang der Post" and "Recom"

To advise the addressee that the letter was mailed after the mail coach had left and a delay in the delivery may occur, this mark was put on the cover. "Nach Abgang der Post" means: After the mail coach has left.

"Recom" is the indication that the letter was registered. The registration number in this example is 33.

Three colour franking

Registered cover sent from Serednye to Munkács on 20-02-1857

Postage for a 10 miles letter: 3 Kr.
 Registration fee: 6 "
 Total postage 9 Kr

2 stamps of 1Kr 2 Kr
 2 stamps of 2 Kr 4 Kr
 1 stamp of 3 Kr 3 Kr
 Total 9 Kr

Cover sold at hammer price of € 9000 at David Feldman on 03-09-2008

The "retour recepisse"

When a letter was sent registered the sender could ask for a confirmation that the letter was delivered to the addressee. Such confirmation was called a "Retour recepisse". The post office of dispatch filled this form out and it was forwarded together with the letter to the receiving post office. The addressee had to sign for receipt on this form personally. It then was returned to the post office of dispatch and to the sender of the letter.

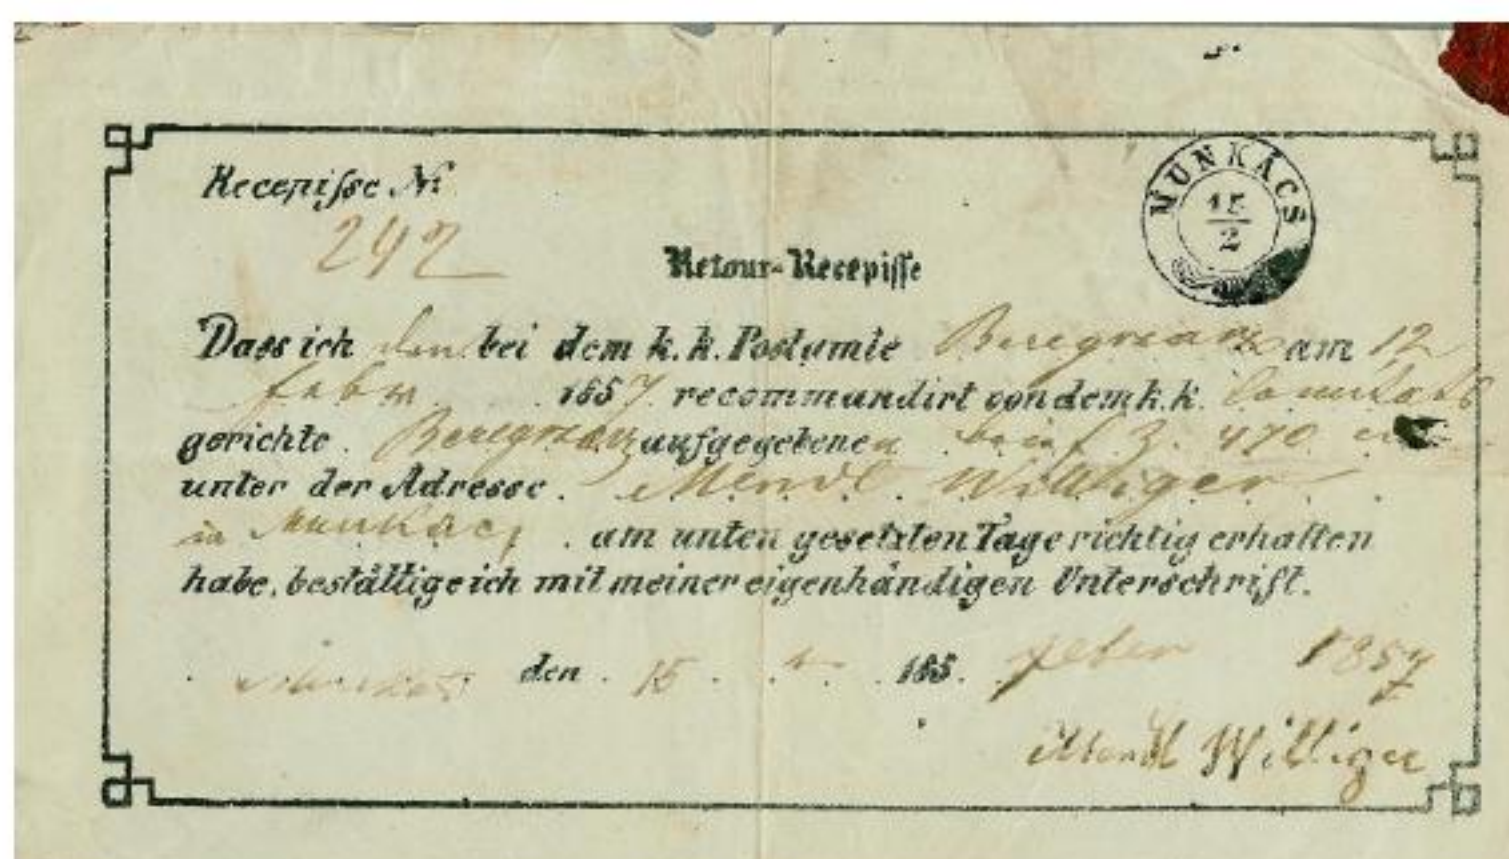

For a return receipt a fee had to be paid. This one relates to a letter which was received on the 27th May 1856.

Tariff applicable as stated under 2. From 1st of July 1850 the fee was 6 Kr. regardless of the distance the letter had to travel.

The fee was paid by affixing a 6 Kr stamp to the form.

The stamp was cancelled at the post office of dispatch (Huszt) and again at the receiving post office (Sárköz Ujlah).

This return receipt is related to a registered court letter sent from the court in Beregszasz to a private person in Munkács, named Mendl Williger. As the court had a postage privilege it was exempt from paying postage. It is only postmarked in Munkács the receiving post office.

The return receipts with a postage stamp are far more rare and very much sought after.

Money reform and new tariffs.

Up till 1858 the Austrian guilder was divided into 60 Kreuzer. During 1858 a money reform was carried out and on the 1st of November 1858 the decimal system was introduced. The Guilder was then divided into 100 Neukreuzer.

This made the introduction of new postal tariffs necessary. A new set of postage stamps, having face values adjusted to the new tariffs, became available on the same date. Details of the new tariff are specified under postal rates 3 at page 20.

The use of the 2nd, 3rd, 4th and 5th Austrian issue until the introduction of the Hungarian postal administration on the 1st of May 1867.

2nd issue 01-11-1858/1859

This letter was written on the 4th of May 1861 and sent on the 6th of May from Tisza-Ujlak to Kaschau (Kassa). In accordance with the new tariff applicable from the 1st of Nov. 1858, the postage amounted to 10 Kreuzer for a 1 Loth letter travelling a distance between 10 and 20 postal miles. Postage was paid by affixing 2 pairs and one single 2 Kreuzer stamps light yellow, type II (Michel 10 IIa) from the issue 1858/59.

Letter sent from Ungvár to Prague on 12-09-1860. Transit postmark Caschau 13-09 and arrival date stamp of Prague 15-09. Applicable tariff as valid from 01-11-1858 till 01-01-1866. The two 15 kr. stamps made up the 30kr postage for a letter travelling over 20 postal miles and having a weight between 1 and 2 Loth.

Ungvárt Februar 6 án 1860.

Date as stated inside death announcement

Death announcement sent as printed matter from Ungvár to Veszprém on 06-02-1860. Postage 2Kr. for a message up to 1 Loth. Tariff as valid from 01-11-1858 till 31-12-1865.

On the reverse, the transit mark of Pesti and arrival mark of Veszprém

Three colour franking

Cover sent from Unghvár to Pest.
 Applicable tariff: from 01-11-1858 until 31-12-1865
 Distance above 20 miles.
 Postage: 15 Kr.
 2nd Austrian issue
 3 Kr. green
 2 Kr. yellow
 10 Kr. brown

Cover sent 19-09-1861 from Unghvár to Kassa. Arrival stamp Kaschau 20-5. Tariff as from 01-11-1858 till 01-01-1866. Postage 5Kr. was for a 1 Lot domestic letter travelling a distance up to 10 postal miles.

4th and 5th issue 4th issue has a perforation of 14, whilst the 5th issue is perforated 9½ and partially printed on paper with watermark

Rear side of the letter, with arrival postmark of Pest and additional postage for registration.

Registered cover from Unghvar to Pest. Boxed cancel of Unghvar and additional postmark "RECON" Tariff period 3, This is a 1 Lot letter travelling over 20 postal miles. Postage 15 Kr. Registration fee 10 Kr. Stamp for registration fee affixed at the back of the cover as was laid down in the rules.

Transit mark of Nyiregyhaza on the reverse

Paper wrapping for printed matter, sent from Munkács to Melnik in Bohemia. Transit mark of Nyiregyhaza. Tariff period 3. The weight must have been between 2½ and 5 Loth. as two stamps of 2 Kr were used for the postage. and 2 Kr. was the tariff for each 2½ Loth.

Money letters

Money letters were handled by the Mail coach (In German Fahrpost) and the postage for the services of the "Fahrpost" were paid in cash. That is why no postage stamps appear on the cover.

Money letter sent on 13-10 1852 from Nagy-Bocskó to Ungvár According to the specification on the front the cover contains 77Ft and 75kr. The distance from Nagy-Bocskó to Ungvár is in between 45 and 50 postal miles

Tariff applicable from 01-01-1850

The postage is composed as follows:

- 1) A basic postage of 10 Kr.
- 2) An additional distance fee
- 3) An additional value fee

To calculate the exact postage reference is made to the "Handbuch der Brief und Fahrpost in Österreich-Ungarn 1888 – 1918 von Paul Kainbacher. On the pages 422 and 423 of Volume I the relative postage table can be found.

The postage is as follows: (Distance between Nagy Bocskó and Ungvár is 21 postal miles)

Basic amount of	10 Kr
Distance fee	5 "
Value fee	5 "
Total postage	20 Kr as written on the cover by the postmaster.

The boxed marking with the Hungarian text "ALLITOLAG" can be translated as "assumed" probably indicating that the amount as specified on the cover was not counted by the postmaster.

NEWSPAPER STAMPS

Newspaper stamp issue of 1851

On 01-01-1851 separate stamps for newspapers and periodicals were issued. The postage for a newspaper was 0.6 Kr. The stamps were issued however without showing a face value. They were sold solely to newspaper publishers and other publishing companies. The blue newspaper stamp (the so-called Blue Mercury) was for one newspaper, other were for consignments of 10 or 50 papers. As opposed to the ordinary postage stamps, the newspaper stamps were cancelled on arrival at the receiver's post office.

Blue Mercury cancelled at Huszt

Newspaper stamp issue of 1861

The use of the 2nd issue newspaper stamp is very limited and needless to say that items used in Carpatho Ukraine are great rarities. In the collection of Andrew Conin, which was auctioned on 24-09-2009 by Cherrystone of New York one of the larger lots contained such an item. Although a large part of the upper stamp is cut off it still is a valuable proof the stamps were used for sending newspapers to Carpatho Ukraine.

with cancel of Munkacs

Newspaper stamp issue of 1867

A newspaper stamp of the issue of 1867 was found in the collection of Miroslav Blaha, auctioned on 13-09-2008 by Jiří Majer auctions of Prague.

OBSERVATIONS

All above pictured newspaper stamps are cancelled by Hungarian date stamps of the next period 5. This is understandable as the stamps issued during period 4 remained valid in Austria also during period 5. The newspapers were sent from Austria to Hungary and cancelled by Hungarian date stamps. Questionable is whether they belong to period 4, when the stamps were issued or period 5 when they were cancelled.

PERIOD 5

HUNGARIAN POSTAL ADMINISTRATION 1867 UNTIL 1918

- 1867 Introduction of the independent Hungarian postal administration on the 1st of May 1867.
- 1867 The use of the Austrian issues of 1863/1864 was possible until 15-06-1867 when it lost its validity. The common issue became available on 01-06-1867 and lost its validity on the 31-07-1871. Austrian stamps of the 1863/64 issues, used in between 01-05-1867 and 15-06-1867 are considered forerunners of Hungary and are priced far more higher.
- 1871 The 5 Kr of the first Hungarian issue became available on 10-05-1871, the other values followed during the month of June. For this first issue the lithographed printing system was adopted.
- 1918 The turbulent times at the end of WW I made an end to the royal Hungarian mail. For a short period it was replaced by a republican postal administration, but this is dealt with in the next chapter.

DURING THIS PERIOD THE FOLLOWING CANCELS WERE USED

1. The old Austrian cancels out of period 2

These were still being used at the following 6 post offices:

ALSO – VERECZKE	until 1870
HUSZT	until 1876, consequently it can be found on the 1 st Hungarian issue.
NAGY – SZÖLLŐS	until 1871
POLENA	until 1871
SZEREDNYE	until 1874, consequently it can be found on the 1 st Hungarian issue.
TISZA – UJLAK	until 1884, consequently it can be found on the 1 st Hungarian issue but also on the “envelope” issues until the one of 1881.

2. Continued use of the Austrian cancels out of period 4. (single circle cancels with date but without indication of the year). These cancels have a diameter of 23 mm.

They were used at the following post offices: (standard colour is black, only a brown colour is known of Munkács, source G.S.Ryan part 1 as well as a brown one of Veresmárt, which is in the writers collection ****)

BEREGSZÁSZ	until 1872	PERECSENY	until 1881
DOLHA	until 1883 ***)	RAHÓ	until 1871
FEKETE-ARDO	until 1889	SOM	until 1872
KASZONY*)	until 1870	SZTAVNA	until 1889
KIS – ALMÁS	until 1873	SZÜRTHE	until 1875
KÖRÖSMEZŐ	until 1869	TÉCSŐ	until 1871
MUNKÁCS	until 1880	TREBUSA	until 1901
NAGYBEREZNA	until 1871	USZOK	until 1886
NAGY – BOCKSÓ **)	until 1890	VERESMÁRT	until 1885
ÖKÖRMEZŐ	until 1872		

*) Name changed to Mező-Kaszony 24-12-1870

**) NAGY – BOCKSÓ was amongst the first new post offices opened by the Hungarian postal administration in the month of May 1867. For this post office the heading above this sub-chapter is not correct as the Nagy-Bocksó post office did not exist during the Austrian period 4. (Source G.S.Ryan part 1)

***) Gudlin mentions in his book until 1879, but writer has proof it was used at least until 1883

****) Both are not mentioned by Gudlin

Example of a date stamp as specified under 2 in the extremely rare colour brownish red

In Gary Ryan's well reputed book "Die Abstempelungen der Ungarischen Postämter auf der ersten Ausgabe von Ungarn 1867 – 1871" which has great authority amongst the philatelists dealing with Hungarian philately and used widely all over the world a list is published with all the date stamps known in a brown or brownish colour used on the 1st issue of Hungary (the common issue of Austria and Hungary), see page 148 of his book.

This book is published in 1988 by the Royal Philatelic society in the U.K.

The only date stamp mentioned by him, originating from Carpatho Ukraine is the date stamp of Munkács of the type as pictured on page 18 of this book. The cover pictured below shows the date stamp of Veresmart also in a brownish colour. The cover is expertized by Isztván Glatz and found to be genuine.

Also the book published in 2004 by Tamás Gudlin "Magyarország klasszikus postabélyegzői" (Classic postmarks of Hungary), which is reference book widely used in Hungary, does not mention any of the deviating date stamp colours used at post offices in Carpatho Ukraine.

The date stamp of Veresmart in the regular colour black is valued by Ryan with a "R" which means only a few items are known. This is understandable as at the same time Ryan states the number of inhabitants to be 814.

The strike of the date stamp on this cover in the colour brownish red is probably an unique item which ranks amongst the most rare items of the Carpatho Ukraine postal history.

3. Continued usage of the boxed cancel of UNGHVÁR until 1871

4. Several types of single circle date stamps with indication of the year, used during period specified ***

A

TYPE A = Year top
Month in the middle
Day bottom

B

TYPE B = Day top
Month in the middle
Year bottom
With indication of county

C

Type C = Day top
Month in the middle
Year bottom

D

Type D = Year top
Month in the middle
Day bottom
With indication of county

AKNA – SLATINA (A)	(1885 – 1900)	MUNKÁCS (C)	(1874 – 1892)
Dr. Simady also mentioned Alsó Dombó, this is not C.U. but Slovakia*)		MUNKÁCS (A)	(1881 – 1919)

VOLÓCZ (A)	(1885 – 1919)

Domestic registered letter from Ungvár to Pest. The 15 Kr stamp of the common issue is cancelled with the boxed cancel of Ungvár. During the validity of the common issue the postal rates as listed under I, were applicable (see page 39). Domestic letter 5Kr. and registration fee 10 Kr. Total 15 Kr.

Postcard sent from Beregszász to Vienna. The cancel used is of the type B. The tariff for postcards remained 2 Kr. during tariff period 3. (See page 39.)

Envelope with imprinted 5Kr. stamp, sent registered from Munkács to Lőcse on 05-07-1870 (Backstamped 06-07-1870). Additional 10Kr. stamp to cover the fee for registration.

5. Double circle date stamps of the Royal Hungarian mail with date in the Hungarian fashion.

Five main types can be distinguished and seven sub types

(Data in line with Á. Márfa and E. Szép Postmarks of the Hungarian Post Offices ** and the writers own data base)

These date stamps were used at the following post offices:

AKNASZLATINA	type 2a	(1900 – 1919)

type 2	type 1	type 2a	type 2	type 2
				
type 3	type 3	type 1	type 1	type 2a without N

Also taken into account are the data published in the Czechoslovak Monograph part I 6 II. Sometimes these data are not in line with the data published by Márfaí and Szép. In general Márfaí and Szép is followed. Only in those cases where proof is available the listing deviates from the listings of Márfaí and Szép (See for instance Beregszász type 3 letters J to M also I Márfaí and Szép states Volóncz is with letter A but proof is available it is without. Not specified in M and S is Nagyszöllös type 3 with letter A of which also proof is available.) In those cases the type indication is printed in red, on the foregoing pages, proof is available in writers data base. Differences in letter types are not taken into account nor differences in the appearance of the date in the date bridge.

6. A mail collecting office was a branch office of the main post office. Only in Ungvár and Munkáts were such branch offices operational.

Clipping with cancel of the mail collecting office of UNGVÁR, with date 21-02-1911.

MUNKÁTS I	1900 – 1919
UNGVÁR I	1901 – 1919

7. **Date stamps of the postal agencies** Postal agency in Hungarian = **Postai Ügynökség**

(Data in line with the book of Petr Gebauer and Jozef Tekel "České a Slovenské Poštovny")

The following postal agencies were operational during period 5, some only for a short period of time

The dimensions of the postmark of the postal agencies may slightly differ. It is also possible that a postmark was changed for a new one having slightly different dimensions.

Picture postcard with cancellation of the postal agency DÉDA BEREG VM with date " 912 APR 5 (05-04-1912)

8. Cancellations on mail deposited in the letter boxes of railway stations

The mail posted in the letter boxes of railway stations was normally cancelled with a boxed cancel showing the name of the town, followed by the letters P.U. This is an abbreviation of the Hungarian word Pályaudvar, which means railway station. No date is shown. Sometimes the cancel was placed next to the postage stamp and this was then cancelled in the train. Exceptions are KÖRÖSMEZŐ, PERECSENY and N-BEREZNA, where deviating postmarks were used

9. The cancellations of the telegraph offices

1877. Febr. 9

Receipt for the sender of a telegram. These receipts were only issued on request and a fee of 5 Kr. was to be paid for the extra service

This refers to a telegram sent in 1877 from Tisza Ujlak to Vienna

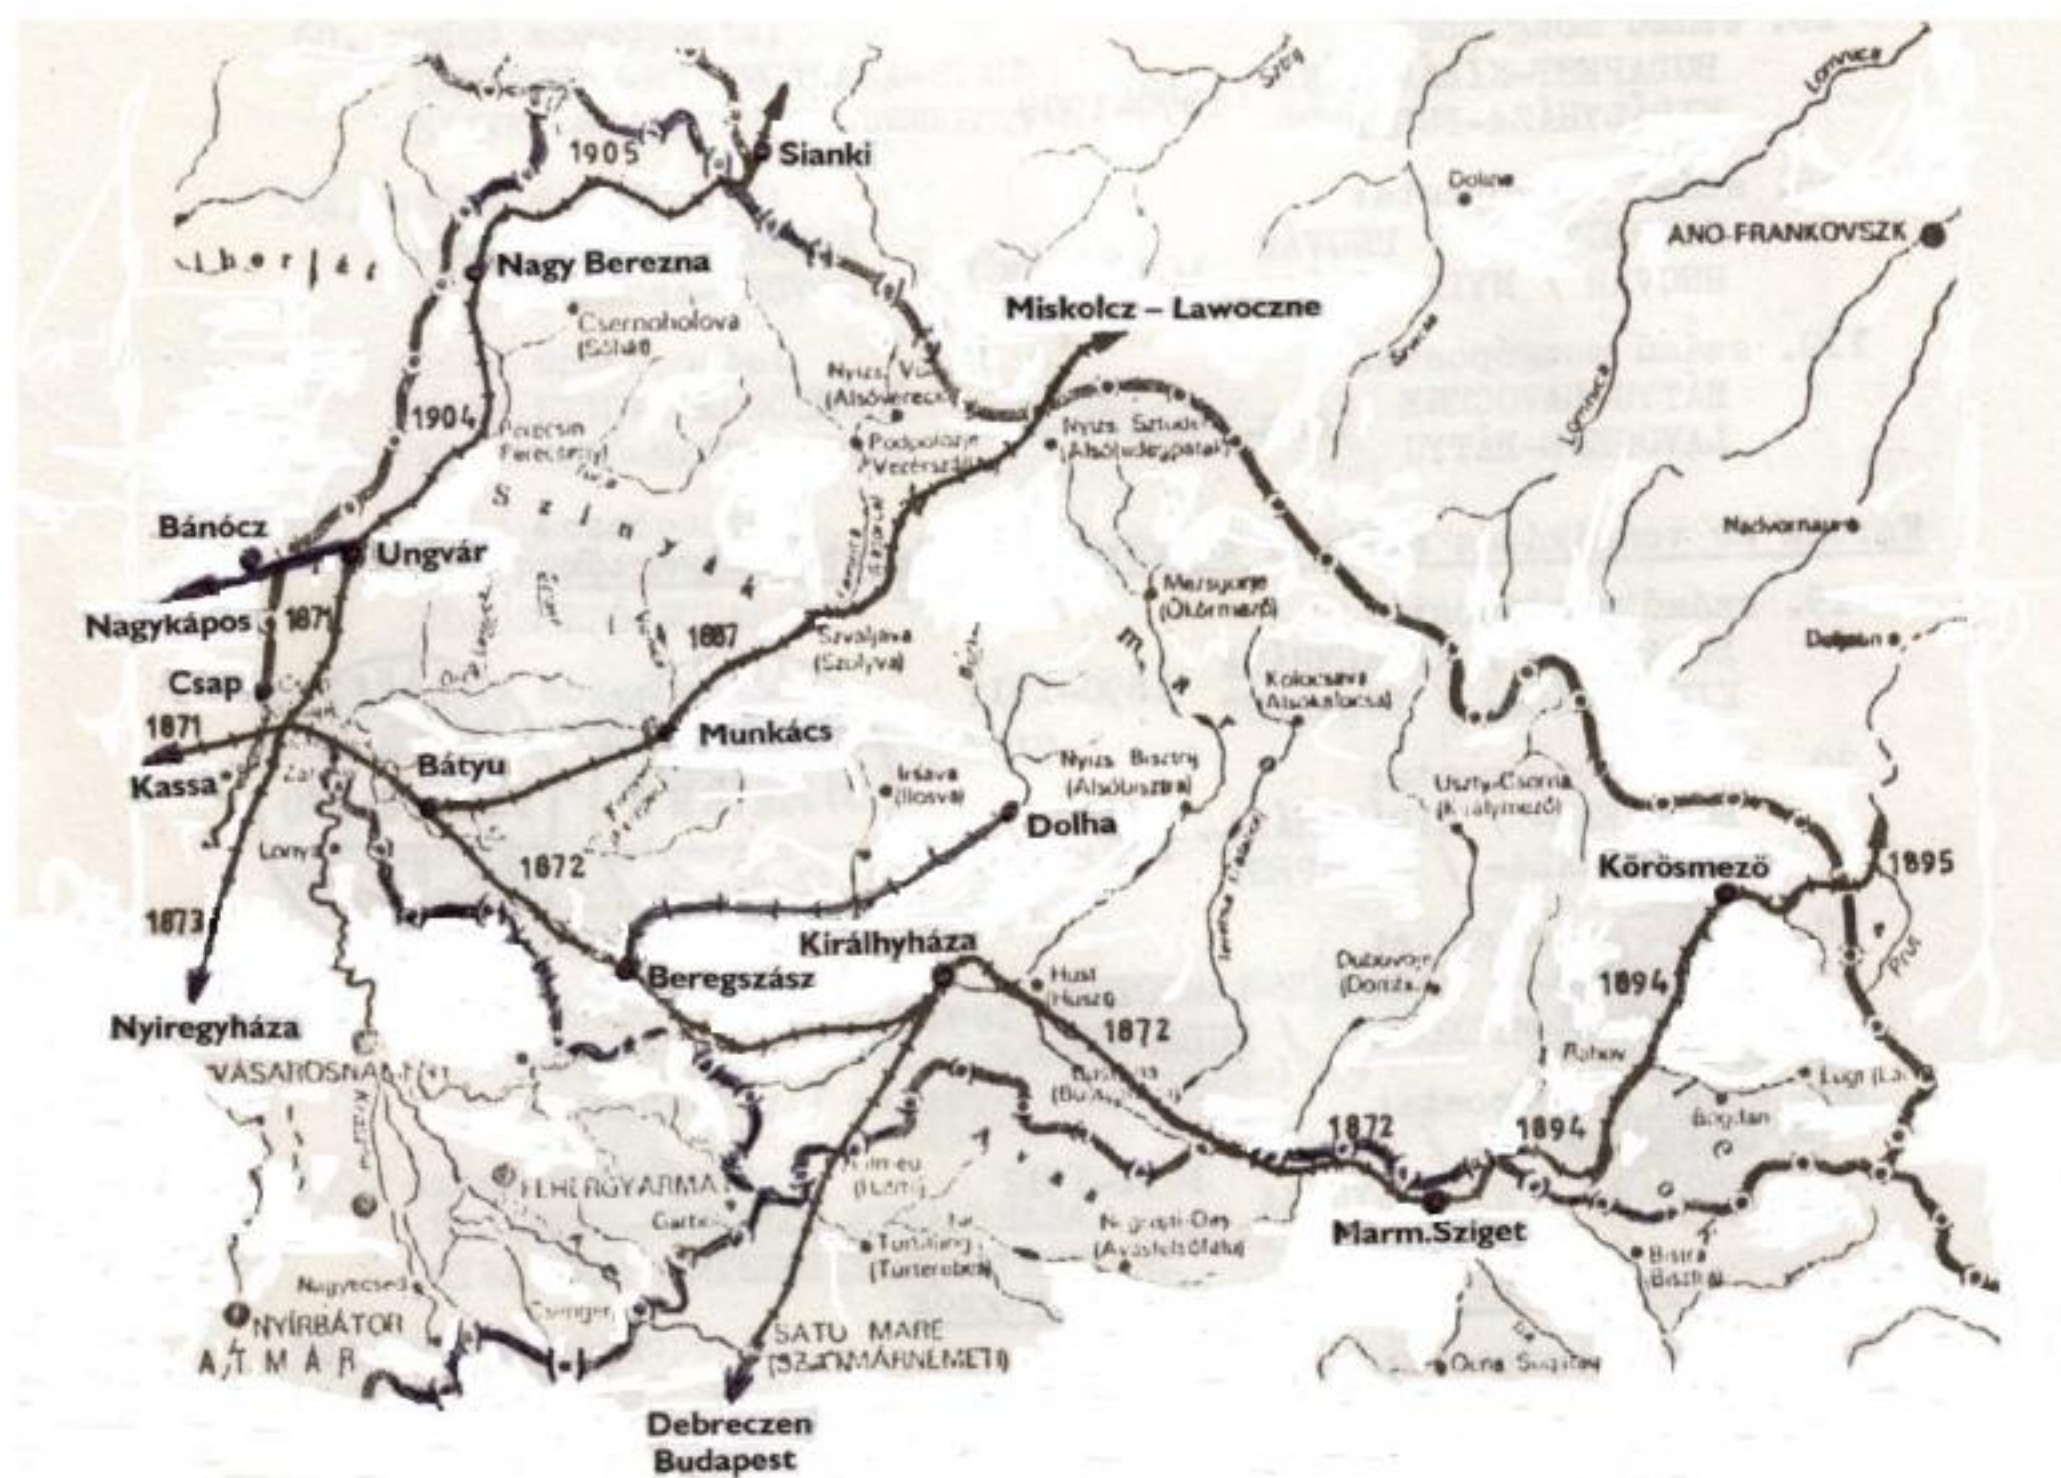

During the 2nd part of the 19th century the telegraph service became more developed. The first central telegraph office was opened in Pest on the 1st of October 1850. Originally the Hungarian post and telegraph office worked under the Austrian ministry of Trade. When however Hungary obtained its independent postal administration on the 1st of May 1867, the Hungarian ministry of Trade became responsible for this service. Until the 1st of July 1888 the post and telegraph sections were strictly separated but from that date on they were united and operated together as the Royal Hungarian Post and Telegraph.

The very first travelling post office in Carpatho-Ukraine was established on line 19/20 running from Királyháza to Debreczen and further on to Budapest. It was opened in 1874 and the boxed postmark was in use until 1883.

Postcard sent from Huszt to Budapest on 24-10-1877. Remarkable cancellation in hand writing at Huszt.

Both the Hungarian Monograph part I*) and the book of Dr. Simady**) mention that this postmark was used from 1875 until 1883.

As can be seen from the cover pictured, this postmark was in use already during 1874 however without the indication of line "20"

11. Special postmark of the district head of the Royal Hungarian travelling post of

This rare postmark was used in Munkács only by the local district head of the Royal Hungarian traveling post offices. It was used during the years 1888 till 1896.

12. Mail forwarded by the Austrian operated railway connection between Körösmező and Stanislau

The railway between Stanislau* in Galicia and Körösmező (Jašina) was in fact an extension of the already existing line between Máramarossziget and Körösmező. This extension became operational during 1895.

* Polish name is Stanislawow, now located in the independent Ukraine and renamed Ivanov Frankovsk.

In his book "Die postalischen Abstempelungen" (The postal cancellations), the writer Mr. W. Klein mentions this cancel of the train conductor, which was used from 01-05-1896*. At a Czech auction (April 2008) a similar postcard as pictured here, was sold at a hammer price of 18,010 CZK = € 740 or US\$ 1150.

Mr. Klein seems however not to have been entirely correct, as in the meantime proof has been found that this conductor postmark was used during the end of 1895*

*.See the publication "Sub Carpathian Messenger number 16 in which an item is published which arrived at Kalk in Germany on the 10th of December 1895.

On 01-02-1898 a TPO became operational on this line which used a date stamp (referred to as type 1) and shown on fig. 1 below. This date stamp was replaced by a new one (referred to as type 2), having a different appearance

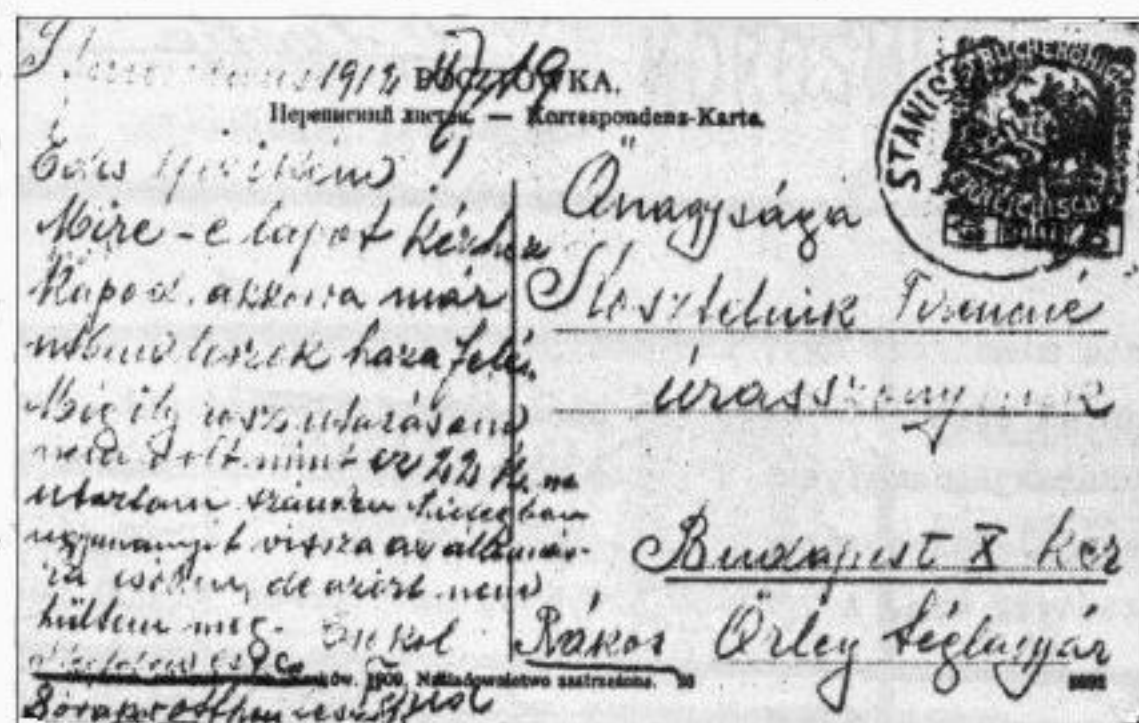

Fig.1

Fig.2

Type 1

Type 2

At the outbreak of WWI in 1914 the service on this line was terminated due to war conditions.

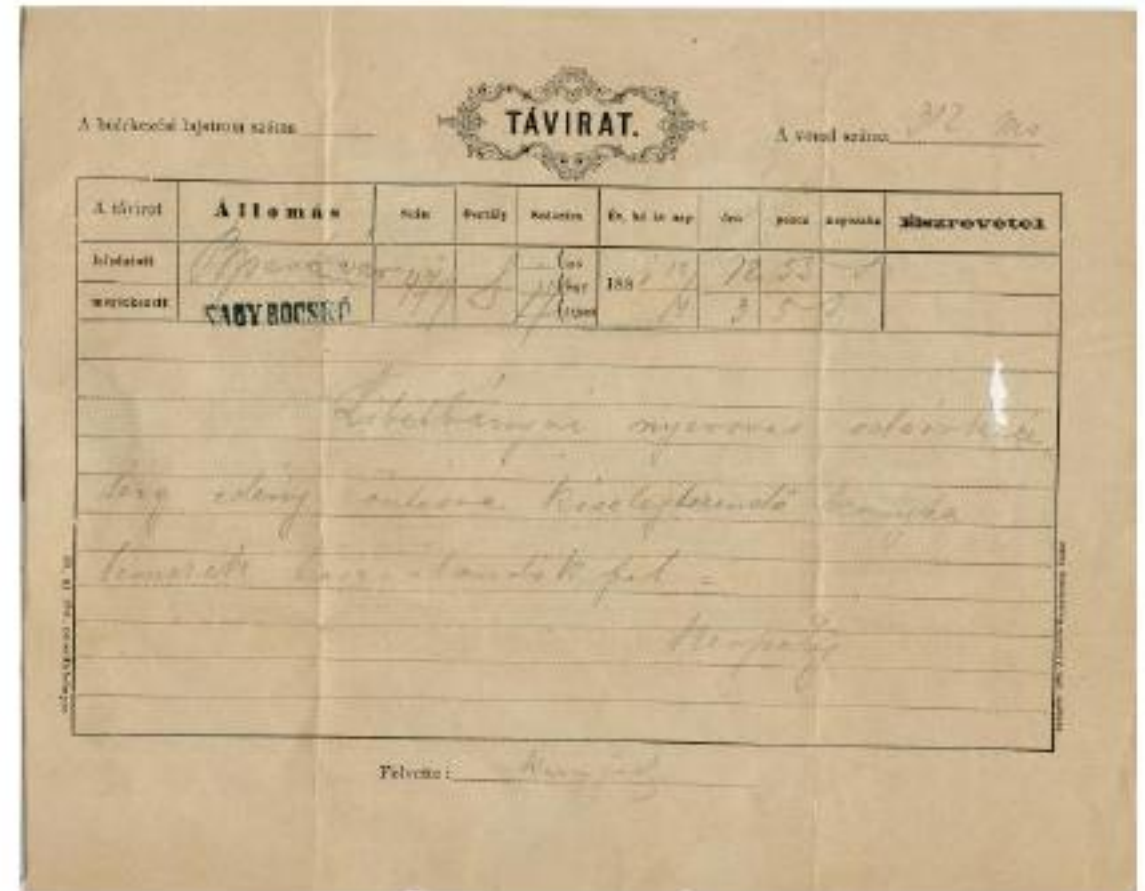

The card as pictured in fig 2 is sent to Szolnok by a soldier on the 4th of August 1914. This is 2 days before the Austro-Hungarian Empire declared war on the Russian Empire. The Hungarian text "Katona level" means "Soldiers letter". This is probably the reason it was accepted without a postage stamp.

TELEGRAPH SERVICES

- 1) **Period before 1888** when telegrams could only be sent from the telegraph offices.
On page 31 the telegraph offices operational in Carpatho Ukraine are listed.
- 2) **Period starting in 1888** when telegrams could be sent from post offices.

1) The period before 1888

The first three telegraph offices in Carpatho Ukraine were established in HUSZT, TISZA-UJLAK and NAGY-SZÖLLŐS in the year 1866. In total 12 were operating during the Hungarian administration.

By decree of the trade ministry of 28-03-1879 the telegraph stamps were no longer valid and telegrams had to be paid in cash starting from 01-04-1879.

In case no telegraph office was based in the residence of the addressee, the telegram was forwarded by ordinary mail from the nearest telegraph office to the addressee, for which postage should be paid.

This telegram was sent from Budapest vár (=castle) on 13-04-1881 to the telegraph station in Nagy Bocskó and from there forwarded by registered mail to Trebusa = Trebusafejérpatak. Backstamped Trebusa 14-04 (1881)

Tariff period 01-01-1875 – 31-12-1899

domestic letter up to 15 gr. 5 Kr

R-fee 10 "

Total 15 Kr.

Stamps were damaged when opening the telegram

2) The period starting in 1888

Starting from 01-07-1888 it was possible to send telegrams from the larger post offices in Carpatho Ukraine. (see also the next page, where information is given on the use of the "Telegram post card")

Telegram sent on 17-06-1892 from Munkács to M.Sziget.
Number of words : 11
Total charge 33Kr.
1 stamp of 30 Kr (Mi 37)
1 stamp of 3 Kr. (Mi 22)

Tariff period 1892 – 1900
10 words 30 Kr.
1 word in excess 3 Kr.

Telegram sent on 04-05-1917 from Ungvár to Szerednye. Tariff period 15-08-1916 to 14-06-1918. For messages up to 13 words the tariff was 104 forint. The number of words counted was 13 (inclusive of the address). The fee was paid by affixing 1 stamp of 60 fi., 2 stamps of 20 fi and 2 stamps of 2 fi. On the bottom line the name and domicile of the sender was to be inserted.

Rates for telegrams

From 1888 to 1892

For messages up to 5 words 35 Kr, for each word in excess 2 Kr. (inclusive of the charge for the telegram form)

From 01-01-1900 to 14-08-1916

For messages between neighbouring telegraph offices 2fi. for each word, with a minimum of 40 fi, for all other messages 6fi. for each word, with a minimum of 60fi
For a special delivery telegram 3 times the normal word tariff

From 1892 to 1900

For messages up to 10 words 30 Kr, for each word in excess 3 Kr, (exclusive of the charge of 1 Kr. for the telegram form)

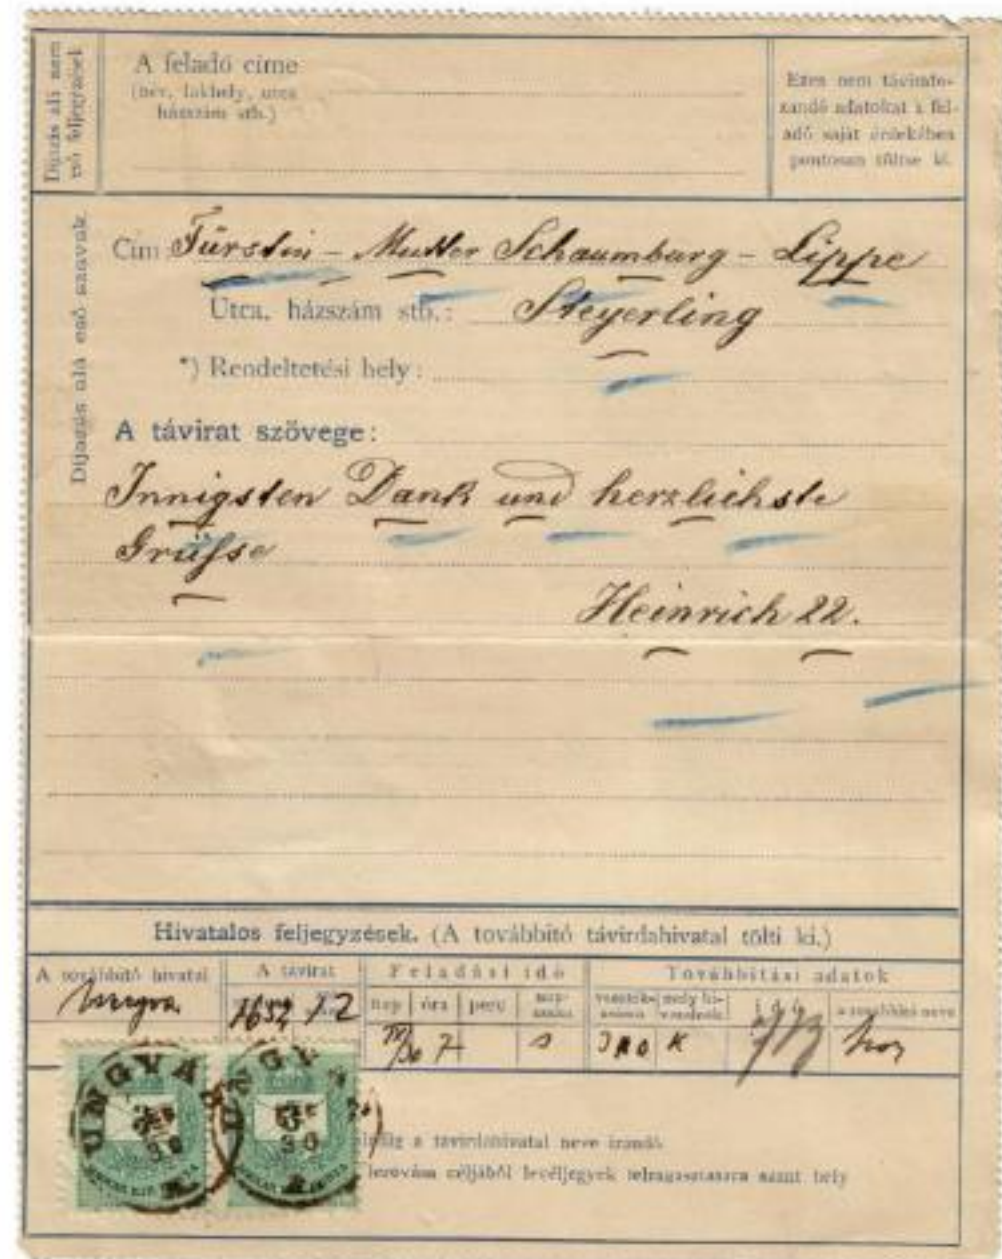

From 15-08-1916 to 14-06-1918

For telegrams up to 12 words 100 fi., for telegrams up to 13 words 104 fi., for each word in excess 8 fi.

The távirat-lap (Telegram post card)

Starting from the 1st July 1888 larger post offices had the possibility to send telegrams, the post offices in smaller towns and villages could not. To overcome this inconvenience for the inhabitants of these smaller towns and villages, the now united Hungarian post and telegraph office issued a so-called telegram postcard (Távirat-lap in Hungarian). This postcard was used to send the text of a telegram to the nearest office with the possibility to send telegrams. The first "Távirat-lap" was issued on the 1st July 1888 and was valid until the 31st of December 1892. These telegram postcards were available from each post office. The Telegram postcard had an imprinted 35 Kr. postage stamp. On the 1st February 1892 a second telegram postcard was issued having an imprinted postage stamp of 31 K. This card remained valid until 30th September 1900.

The 3rd card was issued on the 1st Jan 1900 when the new Filler currency was introduced. It was provided with an imprinted stamp of 62 filler. During WW I the tariffs were increased resulting in a 4th issue during 1916. This last telegram postcard had an imprinted stamp of 102 filler.

Telegram postcard sent registered from Sereďnye to Ungvár on 30-09-1893. The imprinted 31 Kr. stamp covered 10 words. For every word in excess 3 Kr. had to be paid. The total number of words was 12 (including the address) and therefore two 3Kr. postage stamps were affixed inside the folded card. These stamps were cancelled at the receiving post office (Ungvár). The 10 Kr. stamp next to the imprinted 31 Kr. stamps covers the registration fee. Different from the 35 Kr. telegram postcard, which could only be used within the Danube empire, this one was valid for Germany as well.

The first 35Kr. telegram postcard covered only the postage within the Danube empire inclusive 5 words. For every word in excess of 5 a fee of 2 Kr. was charged. This had to be paid in postage stamps, which were to be fixed on the inside of the folded card.

In case the sender wanted to pay for the reply on his telegram he wrote "RP" (=Réponse Payée) in front of the address. This marking was counted as one word.

"CR" in front of the address means: the sender wanted a notification of receipt.

Only the 31 Kr. telegram postcard could be forwarded by express delivery from the receiving telegraph office to the ultimate destination. In that case the remark "XP" (Express Payé) had to be written in front of the address. The fee for this service was 40 Kr. At the time of the 35 Kr. card this service was not available.

CHANGE OF NAME OF SEVERAL POSTOFFICES

During period 5, the names of several villages and towns were changed by the ruling authority. This of course had an impact on the all the postmarks used in these places. The main reason for these changes was the Magyarisation the authorities tried to impose on the mainly Ruthenian inhabited areas.

The list below gives the names of a post offices, whose names were changed during this period and show the new Hungarian-style names, together with dates applied.

ALSÓ – NEREZNICE , which used type A, listed under 4, was renamed NYÉRESHÁZA in 1901 and ever since used the type listed under 5.

BORKÚT, which used types C and A, listed under 4, was renamed TISZABORKÚT in 1901 and ever since used the type listed under 5.

CSORNOHOLOVA, which used type A, listed under 4, was renamed SÓHAT in 1911 and ever since used the type listed under 5.

EGRES, which used already the type listed under 5, was renamed SZÖLLŐSEGRES during 1908 and continued to use the same type of date stamp however with the new name.

KASZONY, was renamed MEZŐ-KASZONY during 1870 and used type D date stamp until 1888. Until 1919 the types listed under 5

KIS – ALMÁS , which used type B, listed under 4, was renamed BEREGKISALMÁS during 1905 and ever since used the type listed under 5.

LEÁNYFALVA, which used already the type listed under 5, was renamed BEREGLEÁNYFALVA during 1905 and continued to use the same type of date stamp, however with the new name.

LYUTA, which used type A, listed under 4, was renamed HAVASKÖS in 1904 and ever since used the type specified under 5.

SOM, which used type s B and D listed under 4, was renamed BEREGSOM in 1905 and ever since used the type listed under 5.

SZTAVNA, which used type A, specified under 4, was renamed FENYVESVÖLGY in 1905 and ever since used the type specified under 5.

PÉTERFALVA, which used type B, listed under 4, was renamed TISZAPÉTERFALVA in 1908 and ever since used the type specified under 5.

TREBUSA, which used type A, listed under 4, was renamed TEREBESFEJÉRPATAK or TREBUSAFEHÉRPATAK in 1901. Date stamps with both names were in use at the same time. They were of the type as specified under 5. TRBUSAFEHÉHERPATAK was used for the first time in 1905.

TURJA – BISZTRA , which used type D as listed under 4, was renamed TURJASEBES in 1904 and ever since used the type specified under 5.

Special postcards issued to commemorate the glorious entry of Rákoczy into the town of Munkács

Both cards have the same illustration on the reverse.

328.650 copies were printed of the 2fi card and
35.000 copies of the 5 fi card

The 2f card was to be used for domestic correspondence and the 5 fi card for sending abroad.

POSTAL RATES

CURRENCY

Until 31-12-1899 1 Forint (Gulden) = 100 krajcár (kreuzer)

From 01-01-1900 1 Korona (Krone) = 100 fillér (heller) (See also under 3. on the next page)

1) From 01 – 05 – 1867 till 31 – 12 – 1874

weight	letters		Postcards *)

3) From 01 – 01 – 1900 until the end of the Hungarian administration

On the 1st January 1900 Hungary carried out a money reform. The Korona was introduced, which was divided into 100 fillér. The old Forint could be exchanged for the new Korona at a rate of 1 Forint = 2 Korona (or 1 krajcár = 2 fillér) The old postage stamps and postal stationery remained valid until 30-09-1900. The face value of the old stamps in Forint/krajcár were to be multiplied by 2 to obtain the value in the new Korona/fillér currency.

Postcard sent on 09-01-1900 to Losonsz.
The postage is paid with a 2 krajcár stamp.
On 01-01-1900 the new tariff of 4 forint was applicable.
The old stamps were valid until 30-09-1900.
2 Krajcár should be multiplied by 2 to obtain the forint value.
The postcard is correctly franked.

Up to 10 grams 2 f

From 10 – 50 grams 3 f

starting on 15-06-1918 an extra war tax of 2 f was added for printed matter up to 50 gr. Above 50 gr. 5 f.

Tariffs for Express delivery and Registered letters

tariff from	fee for registered letters		express delivery	
	regional	domestic	regional	domestic
01-01-1900	10 f	25 f	30 f	
11-01-1902	10 f	25 f	30 f	
20-05-1916			--	60 f
01-10-1916	25 f			
01-01-1920	1 K		1,20 K	

This last tariff was valid until 01-08-1920

Foreign letters and postcards with the exception of the Austrian empire

tariff from	letters up to 15 gr.		postcards	
	20 gr.	Each 20 gr. more	Validity	Tariff
01-01-1900	25 f		01-01-1900 *	10 f
01-10-1916 *	25 f	15 f	01-01-1920	40 f
01-01-1920	1 K	60 f	01-06-1920	1 K
01-06-1920	2,50 K	1,50 K		

*) From 15-06-1918 5 f War tax was added to the basic postage for letters. For postcards 2 f.

The last tariff was valid until 01-01-1922

For the Austrian Empire the following tariffs were valid

tariff from	postcards	letters	
		Up to 20 gr.	20 – 250 gr.
01-01-1900	5 f	10 f	20 f
		Up to 20 gr.	Each 20 gr. More
01-10-1916		15 f	5 f
15-06-1918		20 f	5 f
01-01-1920		60 f	20 f

Pay attention

The tariff for express delivery of letters was increased to 60 f on 20-05-1916 and not on 01-10-1916 as stated in earlier editions of this handbook. This means that in the period from 20-05-1916 until 01-10-1916 an interesting tariff was applicable for a domestic registered special delivery letter 10+25+60 = 95 filler.
(See table on preceding page 40)

SOME EXCEPTIONAL COVERS WITH THE 1871 ISSUE OF HUNGARY

Cover with 3-colour franking

This issue appears in 2 different executions:

For the first issue lithography was chosen and the second one was engraved.

Covers with the 1871 lithographed issue belong to the greatest rarities of Carpatho Ukraine philately. Even on piece they are very rare

R-cover with 3 colour franking sent from Munkács to Miskolcs.

postage 15 gr letter 5 Kr.
R-fee 10 Kr.
Total postage 15 Kr.

Postage paid as follows:

2 stamps of 3 Kr = 6 Kr.
2 stamps of 2 Kr = 4 Kr.
1 stamp of 5 Kr = 5 Kr.
Total 15 Kr

The cover originates from the collection of Miroslav Blaha

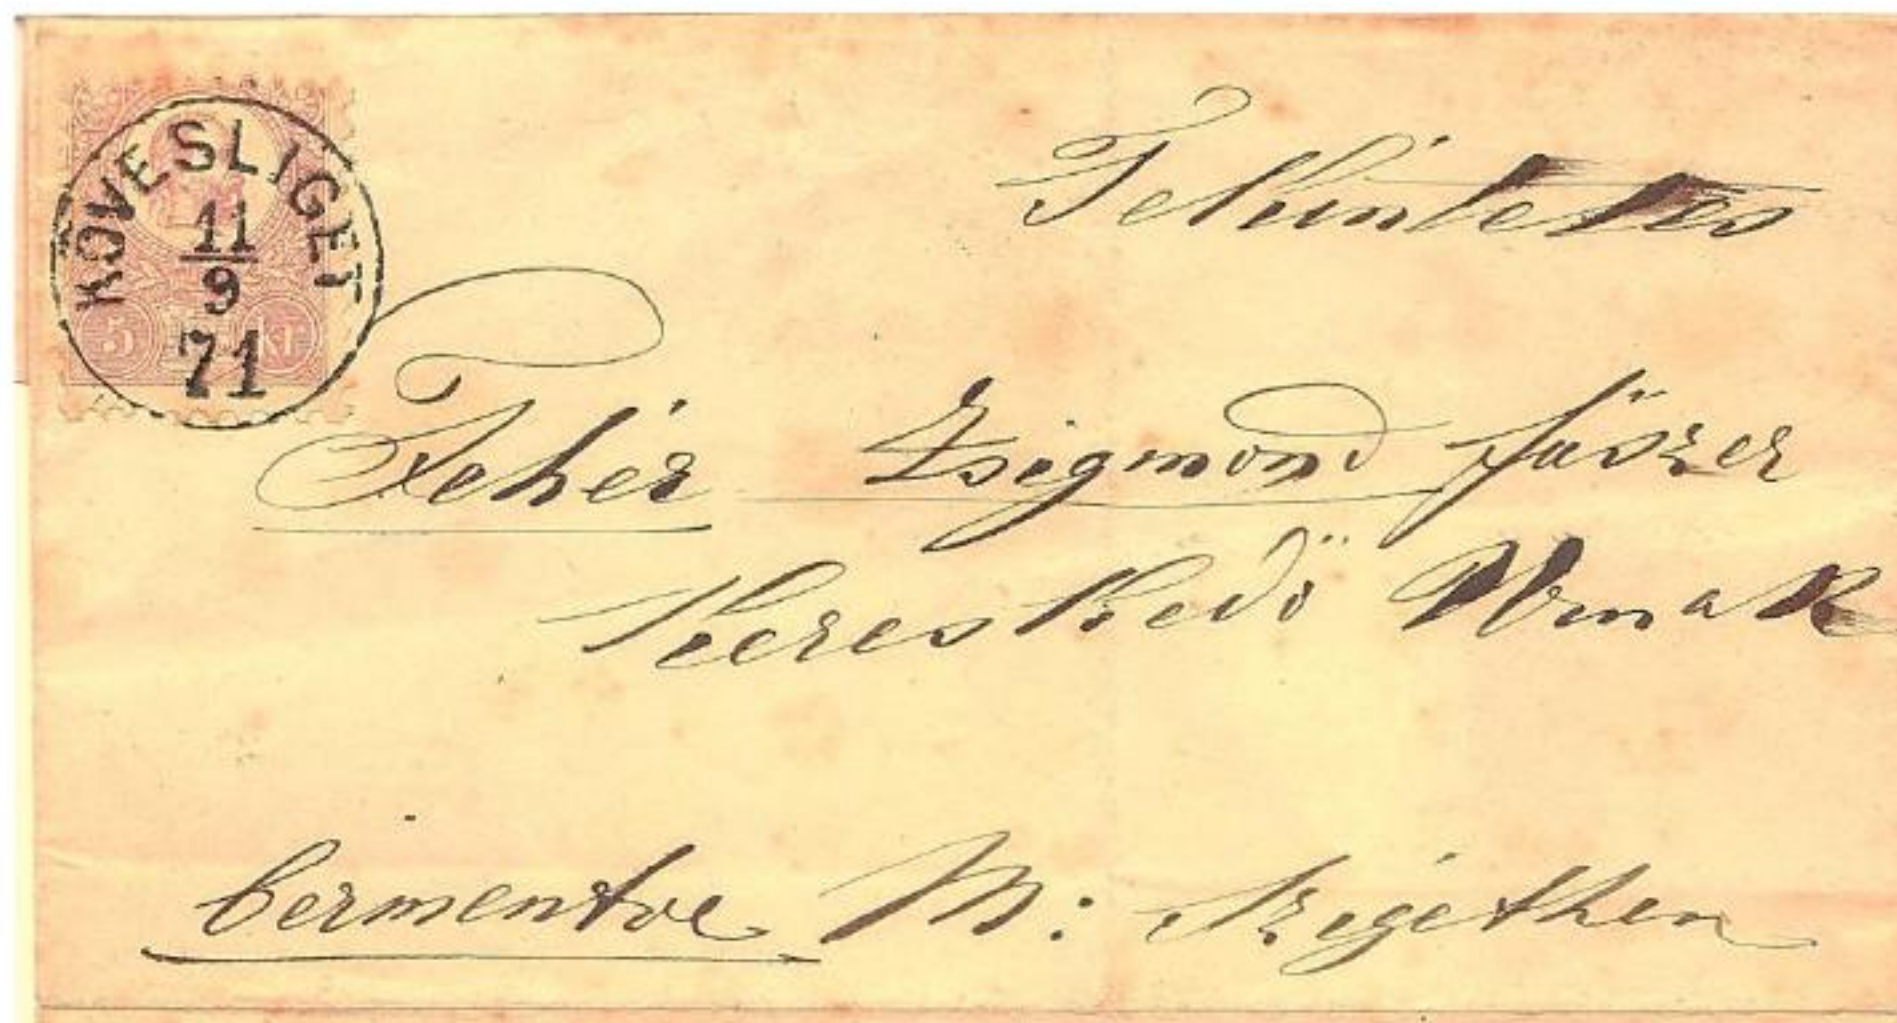

backstamped
Pest 13-07-(1871)

R-cover sent on 12-07-1871 from Beregszász to Pest. Most rare franking of **15 Kr. Lithographed**
Originates from the collection of Andrew Cronin. Certificate István Gláz

Piece with **3 and 2 Kr lithographed**
Date stamp of Alsó Verczke 07-08-18??

Large piece of envelope with imprinted 10 Kr. stamp
and additional **10 Kr lithographed** to make up for the
R-fee. Date stamp Munkács 14-07-18??

Domestic cover sent on 11-09-1871 from Kövesliget to Máramarossziget. **5 Kr. lithographed**
Certificate István Gláz

The additional markings “AJANLOTT” and “EXPRESS”

Ajanlott means “Registered”
Express means “Special delivery”

figure A

figure B

figure C

The “**AJANLOTT**” marking

Starting from 1874 a hand stamp was used to show that the registration number was added manually. There appeared to have been two types, one was boxed (figure A) the other one not and had the additional indication SZ (figure B).

During the year 1882 a new hand stamp was introduced (figure C).

From the 1st of March 1890 the first registration labels were introduced, showing the name of the post office and the registration number.

Boxed Ajanlott hand stamp, used in Nagyszöllös on 02-05-1875 on a domestic letter to Halmi. The registration number “335” was added manually.

Unboxed Ajanlott hand stamp, used in Szolyva on 18-01-1874 on a domestic letter to Miskolcs. The registration number “32” was added manually.

Boxed hand stamp to mark the registration of a postcard or a letter. The registration number was added manually.

Registered cover sent on 24-04-1891 from Ungvár to Miskolcz, with the new 1890-type R-label with post office name and number.

The “**EXPRESS**” marking.

Starting in the year 1875 a boxed marking was applied, to show the special delivery of letter or postcard.

Postal stationary Postcards

On the 1st October 1869 a new phenomenon appeared at the counters of the post offices: the postcard was its name. The Austrian and Hungarian postal administrations were the first to issue this new aid to simplify communication; soon followed by others. In Carpatho Ukraine postcards with German text and Hungarian text have been used. The picture refers to a postcard with German text, sent on the 22nd February 1871 from Huszt to Wien (Vienna). This postcard with a 2Kr. stamp of the common issue for Austria and Hungary was soon followed by new ones showing Franz-Joseph as king of Hungary, similar to the first issue of Hungary. (The text on the Hungarian card reads: Levelezési Lap.)

A similar postcard was issued for the Austrian part of the empire. The difference is the coat of arms. On the upper one the Hungarian coat of arms is printed. The one to the left has the Austrian coat of arms, but is sent from Also-Vereczke in Carpatho Ukraine to Vienna. It was officially not allowed to use the Austrian cards in the Hungarian part of the dual Monarchy, but this one was unnoticed.

This first postcard was followed by many more and for details of the postcards, a specialized postal stationery catalogue is a great help (Michel Ganzsachen-Katalog Europa Ost for one.)

Postal money orders

By decree of the Ministry of trade No. 1431-150 dated 31-01-1867 all post offices were authorized to accept money orders up to an amount of 25 Forint starting from 15-03-1867. The fee amounted to 10 Krajcár. On 01-01-1868 this amount was increased up to 50 Forint the fee remained unchanged. Some post offices outside Carpatho Ukraine were authorized to accept money orders for higher amounts.

Starting from 01-05-1870 the amount was increased again now up to 100 Forint. New fees were introduced as well

up to 10 Forint	5 Kr.
over 10 up to 50 Forint	10 Kr.
over 50 up to 100 Forint	15 Kr.

Originally Austrian money orders were used in Hungary with the Austrian coat of Arms. However on 20-05-1868 Hungarian money orders were introduced showing the Hungarian coat of arms and the text in Hungarian or German.

Money order sent on 01-12-1868 from Huszt to Szigeth for an amount of 21 Forint. (Huszonnegy = 21). The fee was 10 kr.

From 15-02-1871 The Hungarian postal administration started to use forms with an imprinted stamp for this service.

The tariff was as follows:

- 5 Kr. for up to 10 Ft.
 - 10 Kr. for 10 – 50 Ft.
 - 15 Kr. for 50 – 100 Ft.
 - 30 Kr. for 100 – 500 Ft.
 - 30 Kr. for each 500 Ft above 500.
- The amount was limited to 5000 Ft.
The imprinted stamp of 5Kr. was sufficient for money orders up to 10 Ft.
This tariff was valid until 01-01-1875

*) This form is known in several executions, which slightly differ from each other. Also bilingual Hungarian German ones were used in Carpatho Ukraine

This money order for an amount of 5 Forint was sent 22-02-1874 from Beregszász to Budapest. For an amount up to 10 Ft. the postage was 5 Ft. No further stamps were required. The boxed marking "KIFIZETETETT" means: paid.

The Hungarian postal administration also issued special forms for Telegraphic money orders. These forms were bi-lingual: Hungarian and German. If they ever have been used in Carpatho-Ukraine is unknown to the writer. The postage was equal to the tariff for normal money orders, however an extra 15 Kr. had to be paid in cash for the express delivery.

Tariffs for money orders from 01-01-1875 until 01-01-1900

amounts	period 01-01-1875	period 01-01-1876	period 01-06-1892

500 – 1000 Ft	60 Kr	100 Kr	100 Kr
up to 2000 Ft	90 Kr	150 Kr	150 Kr
up to 3000 Ft	120 Kr	200 Kr	200 Kr
up to 4000 Ft	150 Kr	250 Kr	250 Kr
up to 5000 Ft	180 Kr	300 Kr	300 Kr

Money order sent 33-01-1877 from Huszt to Marmaros Sziget, for an amount of 25 Ft. From 01-01-1876 until 01-06-1892 the tariff was 10 Kr. for amounts from 5 up to 50 Ft. Stamp of 5 Kr. added to imprinted stamp to meet the required postage.

Tariffs for money orders from 01-01-1900 until end of Hungarian postal administration

After the currency reform of 1900 1 K(rona) = 100 fillér

From 01-01-1900 until 01-10-1916

Amounts up to 20 K tariff 10 fi.

20 – 100 K “ 20 fi.

100 – 300 K “ 40 fi.

300 – 600 K “ 60 fi.

600 – 1000 K “ 100 fi.

From 01-10-1916

Basic tariff 15 fi. for each 50K, 5 fi to be added

From 15-06-1918 until 01-01-1920

Basic tariff 20 fi, for each 50K 5 fi. to be added

Money order sent on 31-03-1919 from Munkács to Szerednye.

Amount 21K 60fi

basic tariff 20 fi.
+ 5 fi.

For administrative purposes boxed number markings were introduced on money orders. Each post office was allocated a specific number. These numbers are very helpful to identify the origin of field post cards from Carpatho Ukraine (see page 46). Unfortunately a list of such markings stating the post offices they belong to is not available. A few numbers could be traced.: 29a = Munkács, 2059 = Beregleanyfalva, 2196 = Fenyvesvölgy

Letter cards

For lettercards the same tariffs were applicable as for normal letters

On 01-07-1886, the Hungarian postal administration introduced the letter cards. These were made of cardboard and could be folded and sealed by the glue on the rim.

The one pictured to the left is the first card issued by the Hungarian postal administration.

It was sent on 21-02-1887 from Bustyaháza to Halle a/d Saale in Germany.

For Germany the same tariffs were applicable as for domestic destinations which was 5 Kr.

Over the years several of such cards were issued, mainly when the tariff for letters was changed.

The card pictured to the right was issued on 01-01-1900 when a currency reform took place.

It was sent on 10-02-1901 from Ungvár to Mittellangenu in Bohemia. (now Prostřední Lánov) For Bohemia (belonged to the Austrian Empire) the domestic letter rate was applicable, which was 10 fi.

Dispatch notes for parcels

From 01-06-1888 the parcel post was fully integrated in the postal system. From then on the required postage could be paid by using postage stamps. It was also possible to send a parcel COD (cash on delivery). See tariffs on the next page.

Tariffs for the parcel post from 01-06-1888 until 01-01-1900

The tariffs below were valid for domestic and foreign destinations. 1 Forint = 100 Krajczár Kr(euzer)

weight	weight tariff for the different distance stages					
	75 km	150 km	375 km	750 km	1125 km	above 1125
up to 5 kg	15 Kr	30 Kr	30 Kr	30 Kr	30 Kr	30 Kr
each kg above 5	3 Kr	6 Kr	12 Kr	18 Kr	24 Kr	30 Kr

*) Up to 01-06-1888 Parcels were handled by the 'Fahrpost' (Hungarian Kocsiposta) From this date the Kocsiposta was fully integrated in the postal system and also the fee for handling parcels could be paid by postage stamps.

Delivery charge up to 1.5 kg in Budapest: 5 Kr. In all other places: 3 Kr.

Aviso, all places (=advise parcel has arrived): 2 Kr.

For parcels not paid for by the sender, the addressee had to pay an extra amount of 6 Kr.

The weight was limited to 50 kg. For parcels containing coins the weight limit was 65 kg.

From 01-01-1900 until 30-09-1916

(After the currency reform of 1900 1 Korona = 100 fillér)

weight	weight tariff for the different distance stages					
	75 km	150 km	375 km	750 km	1125 km	above 1125
up to 5 kg	30 fi	60 fi	60 fi	60 fi	60 fi	60 fi
each kg above 5	6 fi	12 fi	24 fi	36 fi	48 fi	60 fi

For parcels not paid for by the sender, the addressee had to pay an extra amount of 12 fi.

The weight was limited to 50 kg. For parcels containing coins the weight limit was 65 kg.

Postage indication 48 fi.

Dispatch note for a parcel sent from Husztsófalva to Máramarossziget on 14-02-1910.

From 01-01-1900 until 30-09-1916 the postage was related to weight and distance. In this case the distance was within the first 75 km stage. The postage was calculated as follows: the first 5 kgs 30 fi and each additional one 6 fi. (30 fi. + 3 x 6 = 48 fi.) The imprinted stamp of 10 fi. was a fiscal stamp.

weight 7 kg and 200 gram. Tariff now based on 8 kg

The postage for the parcel was paid for delivery to the receiving post office..

This post office would now advise the addressee, having received a parcel by means of sending a so-called "aviso". The fee for this "aviso" was 3fi and was to be paid by the addressee. For that reason postage due stamps were used on these forms.

From 01-10-1916 until 14-06-1918

up to 5 kg	5 – 10 kg	10 – 15 kg	15 – 20 kg
70 fi	150 fi	250 fi	350 fi

The tariffs stated above are the so-called weight tariffs. In addition to these weight tariffs a so called delivery charge had to be paid. This amounted for destinations in the capital Budapest to 25 fi. and for destinations in the province to 20 fi. Both amounts were to be paid in stamps at the post office. (Bear in mind these delivery charges are related to parcels without indicated value. The additional delivery charges for parcels with indicated value are stated on the next page).

Another service of the post was the possibility of a notification for the addressee, that a parcel had arrived. The charge for this service was 5 fi. in this case the parcel had to be collected.

From 15-06-1918 until 31-12-1919 an additional war tax was applied to all parcels, this amounted to 20 fi irrespective of weight or distance.

Additional “insurance tariff” for parcels with indicated value (irrespective of the distance)

During the tariff period from 01-06-1888 until 01-01-1900: For parcels up to an indicated value of 50 Forint the insurance tariff was 3Kr. For values up to 300F the insurance fee was 6 Kr and up to 450 this was 9 Kr.

During the tariff period from 01-01-1900 until 30-09-1916: up to an indicated value of 100 K the insurance tariff was 6 fi For values above 100 K the charge was 6fi for each 300 K or part of it, but the minimum charge was 12 fi.

During the tariff period from 01-10-1916 until 14-06-1918: 5 fi for each 300 K or part of it, but the minimum charge is 10 fi.

Additional delivery charge for parcels with indicated value

During the tariff period from 01-01-1900 until 30-09-1916: 6 fi for the first 1000 K and 20fi for each 5000 K more. 20 fi

During the tariff period from 01-10-1916 until 14-06-1918 For indicated of 1000 K and above : 10 fi for each 1000 K or part of it.

Dispatch note for parcels with indicated value and/or sent C.O.D.

Dispatch note for a parcel having a weight of 10 kg. C.O.D. value 44 Korona. It was sent 20-03-1917 from Munkács to Tecső. Postage 10kg. parcel was 150 fi. Insurance fee 10 fi. Arrival notification 5 fi. Total 165 fi. The imprinted 10 fi stamp was a fiscal label.

Envelopes with imprinted stamp

Envelopes were introduced in the year 1871. They bear an imprint of the first Hungarian stamp and were issued in the denominations 3,5,10 and 15 Krajczár. (An envelope with a 5 Kr imprinted stamp is pictured on page 28.)

Over the years several new envelopes have been issued. Pictured here is one issued in the year 1897.

Envelope with imprinted stamp of 5 Kr. sent from Vari to Beregszász on 03-09-1894. These envelopes were valid until 30-09-1900.

FIELDPOST OF THE AUSTRO-HUNGARIAN ARMY DURING THE GREAT WAR (WWI)

The Austro-Hungarian Empire declared war on the Russian empire on the 6th August 1914. This was the beginning of WW I for Carpatho Ukraine. From the 8th August a postage freedom existed for the army.

The field post was a combined organization of the Austro-Hungarian Army. The field post offices either employed date stamps with the text "TABORI POSTA" (Hungarian for field post) or with "K.u.K. FELDPOSTAMT" (German for: Imperial and Royal field post office).

Only the army units at the front could make use of the services of the field post. The field post offices operated within a division of the army and were mostly incorporated in mobile units. It is therefore difficult to establish, which field post office during which period of time was operational in Carpatho-Ukraine.

Carpatho Ukraine was in the front-line from the autumn of 1914 till the spring of 1915. On the 25th September 1914 the Russian army invaded Hungary via the Uzsoki pass in the Carpatho mountains. On the 4th October they occupied Máramarossziget and although they had to retreat from there almost immediately, Carpatho Ukraine north of the line Nagyberezna-Körösmező remained occupied by the Russian army until 25 November 1914.

The liberation of the area occupied by the Russian army, started on the 25th November 1914. On the 9th December, the last Russian army units had to retreat from Hungarian soil. The Hungarian units involved in the liberation were the 38th national defence division, supplemented by some smaller combat units. The Hungarian army headquarters from where the operation was conducted, was based in the village of Nagyberezna. The Russian army invaded Carpatho Ukraine again on the 27th January 1915 and occupied the area north of the line Uzsok-Körösmező. In the battle of the Carpathians, which started on the 2nd April 1915, the army of the Monarchy chased away the Russian troops again from Hungarian territory. The Hungarian newspaper "Pesti Hirlap" wrote in a headline on the 9th May 1915 "Hungary is free from Russian troops". In the battle areas the armed forces were allowed to make use of the services of the existing post offices. To make sure the

enemy could not obtain information about the position of the Hungarian troops, the post offices in the front line were not allowed to use the normal date stamps. As an alternative, they used the boxed number stamps normally only applied on money orders. Dr. Simady states in his book on the postal history of Carpatho Ukraine, that up till now two items are known on which these boxed number stamps appear originating from Carpatho Ukraine.

2196: Fenyvesvölgy, 8 November 1914.

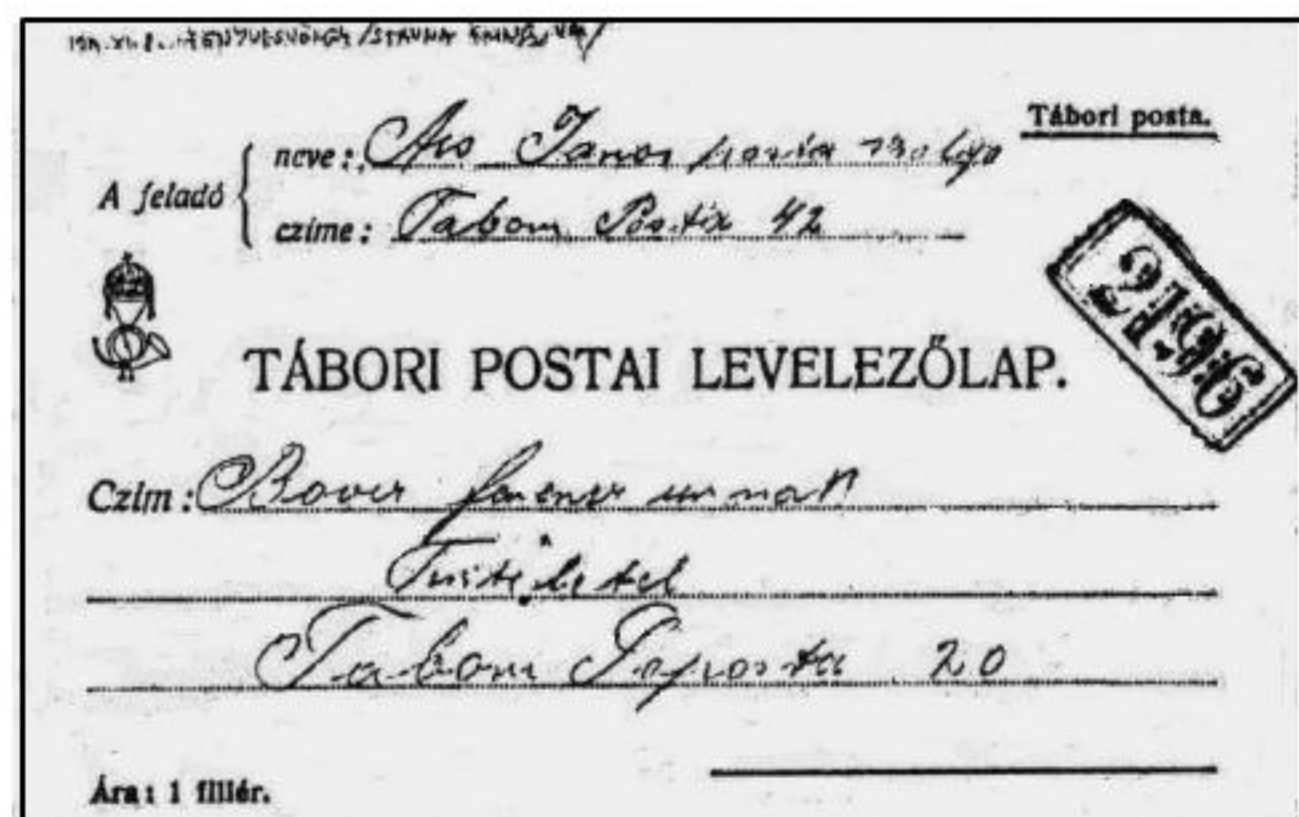

2188: No further details are known.

(see also page 43 money orders)

AUSTRO-HUNGARIAN ARMY

Field postcard sent on the 8th November 1914 from the post office of Fenyvesvölgy. This is mentioned at the back of the card. This card also provides us with the evidence that on that day Field post office 42 was based at Fenyvesvölgy, but also that central field post office 20 was operating within the area of Carpatho Ukraine. The central field post offices operated within battle areas and several field post offices were subject to them.

All the post offices in Carpatho Ukraine were subject to the postal district of Kassa. All boxed number hand stamps in the Kassa-district started with the digit 2. With this knowledge it is possible to trace postcards sent from Carpatho Ukraine. As the district of Kassa is larger than Carpatho Ukraine a boxed hand stamp having a number starting with a 2 is not a guarantee it originates from Carpatho Ukraine, also a check is required whether or not the village or town where it was used is within Carpatho Ukraine. To illustrate this, is the number 2770, which also has been found on military mail. The number 2770 was used in the village of Ubresz (Slovak=Ubrež) which is located in Slovakia, but it also belonged to the district of Kassa.

Not many postcards have survived probably because correspondence was restricted.

Also the mail from the letter boxes of the railway stations was not cancelled by the travelling post offices, but forwarded to Budapest, where the postage stamps were cancelled by a circular number hand stamp with the number 15 at the collecting post office Budapest 72. On the postcard shown here, the sender has stated Nagyberzsa, 1915, May 13. This is proof that the postcard was sent from Carpatho Ukraine to Budapest.

One of the most interesting post historical items originating from Carpatho Ukraine is a field postcard sent by balloon from Przemyśl. The Russian army had encircled this town and the soldiers of the K.u.k Army within the encircled area established a postal service by balloon. One of the balloons was launched on 7 March 1915 and landed in Turjaremete.. The finder(s) handed over the recovered field postcards to the authorities who forwarded them on to field post office 47 at that time based in Krakau. Here the cards were provided with the date stamp of field post office 47 and the red marking "ZENSURIERT" . From Krakau the postcards were forwarded on to the addressees. This knowledge

is based on the book written by Gerhard Schenk and published in 2003 in Vienna by "Verlag Pollischansky" From the same source we now know that 10,000 cards were printed of which about 6000 were sold. The number 5503 on the pictured card is from the numerator. The highest possible number is 5909.

(The above information is not in line with Dr. Simady's book. This knowledge was not available at the time his book was published. Earlier editions of this handbook do not mention these findings of advancing knowledge but were based on Dr. Simady's book))

Military censorship

All civilian correspondence was subject to military censorship. In Carpatho Ukraine Censor Commissions were operating in Huszt, Munkács, Nagyszöllös and Ungvár. All commissions used almost similar hand stamps to indicate where censorship was carried out. The text was always the same but can be found in either a two or three lines hand stamp. It should however be noted that some items originating from Carpatho Ukraine were censored by the committee in Czernowitz.

The censor marks can be found in black as well as in violet.

K. u. K. MILITÄRZENSUR
SITZ DER KOMMISSION: HUSZT

K. u. K. MILITÄRZENSUR
SITZ DER KOMMISSION:
MUNKACS.

Private picture postcard sent on the 4th July 1915 to Vienna. Censored in Ungvár.

Field postcard sent on 12-07-1916 from Rahó to Stauding (Studénka ve Slezsku). The card is considered civil correspondence as postage is paid by a postage stamp. The card was censored by the Czernowitz based commission. Czernowitz was occupied by the Russian Army from 17-06-1916 until 03-08-1917 and the censor commission continued its activities in Marmaros Sziget.

Front and part of the back of a censored letter, sent on the 13th August 1915 from Munkács to Vienna. The back shows the strip which with the letter was closed again after being opened by the censor. Also the censor mark of the Munkács based commission can be seen.

“Hadijog alapján fölbontatott” means: Opened by authority of the war act.

Members of the military serving with units where no field post office was operating were also entitled to send letters without paying postage. They had however to mark their correspondence with a handstamp of their unit, this also was applicable for soldiers in hospitals or a medical observation center. In those cases the mail was taken care of by the regular post service and censored by the censoring commissions .

Picture postcard sent by normal mail from Munkács to Austria. On the card is the circular stamp of the medical observation centre Munkács.

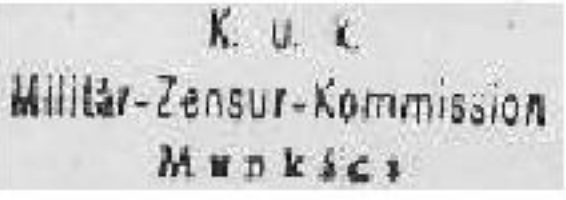

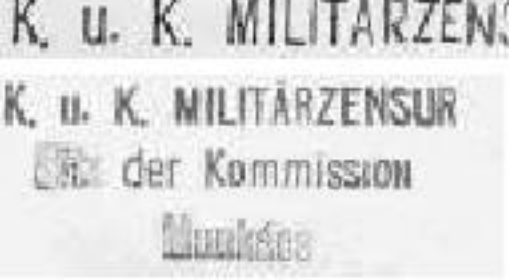

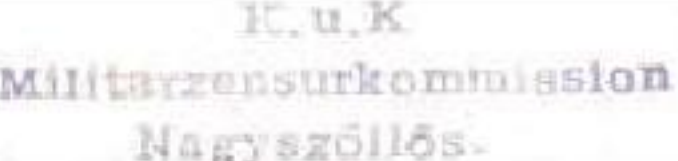

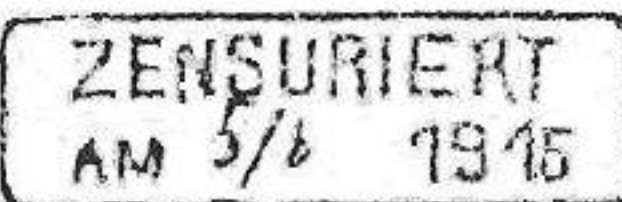

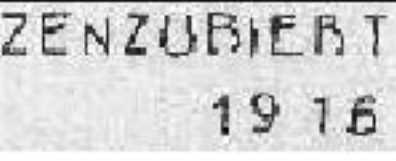

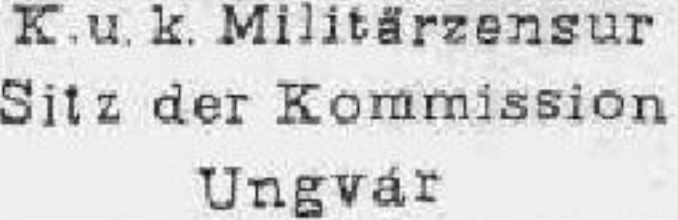

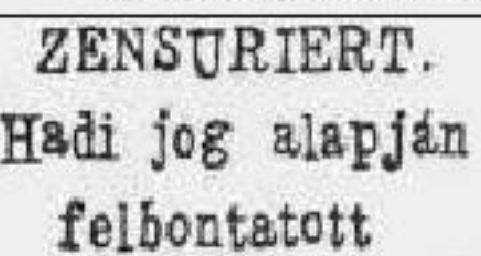

The vertical placed line stamp reads in Hungarian “Katonai betegápolás”, which means military nursing unit.

Also the marking of the Munkács based censor commission is on the card.

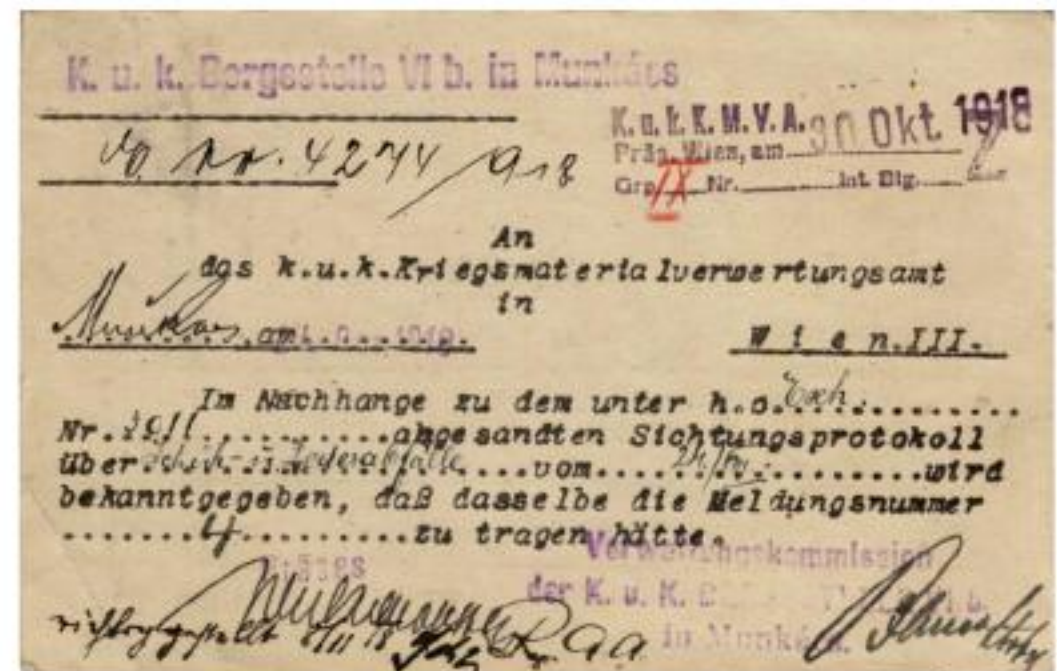

On the reverse of this picture postcard the “Baracken Spital” at Munkács is pictured. (Baracken Spital = Hospital barracks)

REVIEW OF CENSOR MARKS USED BY THE AUSTRO-HUNGARIAN ARMY DURING 1914/18
(for censoring civilian correspondence *)

LOCATION	TEXT OR PICTURE	DIMENSION	COLOUR	REMARK
Huszt		62 x 20 mm	violet	2-lines marking
Munkács		45 x 15 mm	violet, red	3-lines marking
		64 x 15 mm	violet, red	3-lines marking
		44 x 16 mm	violet, blue	3-lines marking
		44 x 16 mm	violet, blue, red	3-lines marking
Nagyszöllös		68 x 16 mm	violet	3-lines marking
Szolyva		52 x 16 mm	violet	boxed marking Card pictured on page 42 of Lajos Horváts' booklet part 5
		52 x 9.5 mm	violet	Published in the Thielk Handbook on Austrian censorship 1914/18

		54 x 16.5 mm	violet	Catalogued in the Thielk handbook
		65 x 9.5 mm	violet	Catalogued in the Thielk handbook
		34 x 16 mm	violet	Catalogued in the Thielk handbook

*) In general all correspondence made free with postage stamps was considered to be civilian correspondence

Remarkable documents of the presence of the Austro-Hungarian Army in Carpatho Ukraine

Reply part of a special Austrian double postcard, which could only be used by official service offices, which were exempt from paying postage. On the front, the space to the left of the dotted line is intended to place the official stamp of the authority which claimed freedom from postage. In this case the "K.u.K. Bergstelle VI b in Munkács". The card was received on the 30th October 1918 and addressed to the "K.u.K. Kriegsmaterialverwertungsamt" in Vienna. Kriegsmaterialverwertungsamt can be translated as the office engaged in selling the superfluous equipment of the army.

The card was forwarded by normal mail. On the front is the date stamp of Munkács with "918 OCT 26" in the date bridge.

From origin Russian field postcard. A number off was captured by the Austrian and or German Army and provided with a special overprint reading:
FELDPOSTKARTE
 Osterr.-Ung.-Russischer Krieg

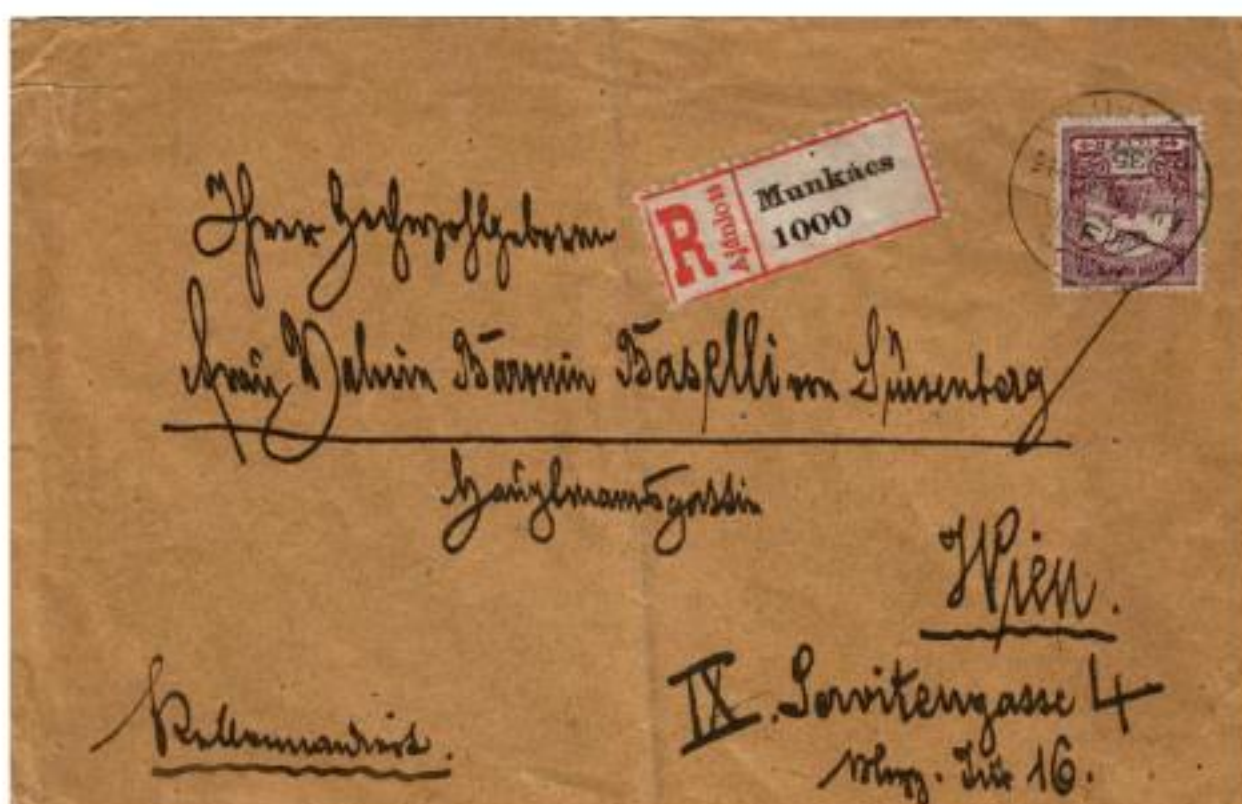

= Fieldpostcard, Austro-Hungarian-War

This one was sent from Ungvár to Vienna on 05-04-1915
 Collection Walter Rauch

The 4-line marking in red, faintly visible just below the overprint reads: Oberleutnant Erwin Bernstein
kommando X/B
 Rittm. v. Niczky
 FELDPPOST 504

seal on the back of this letter

Registered private letter sent in May 1915 by an Army officer to his wife. For registered letters the normal postage was to be paid.

Postage 10fi and fee to register 25 fi. Tariff as valid from 01-01-1900 until 01-10-1916.

Money letters

Tariff from 15-03-1867 until 01-11-1878 (for domestic money letters)

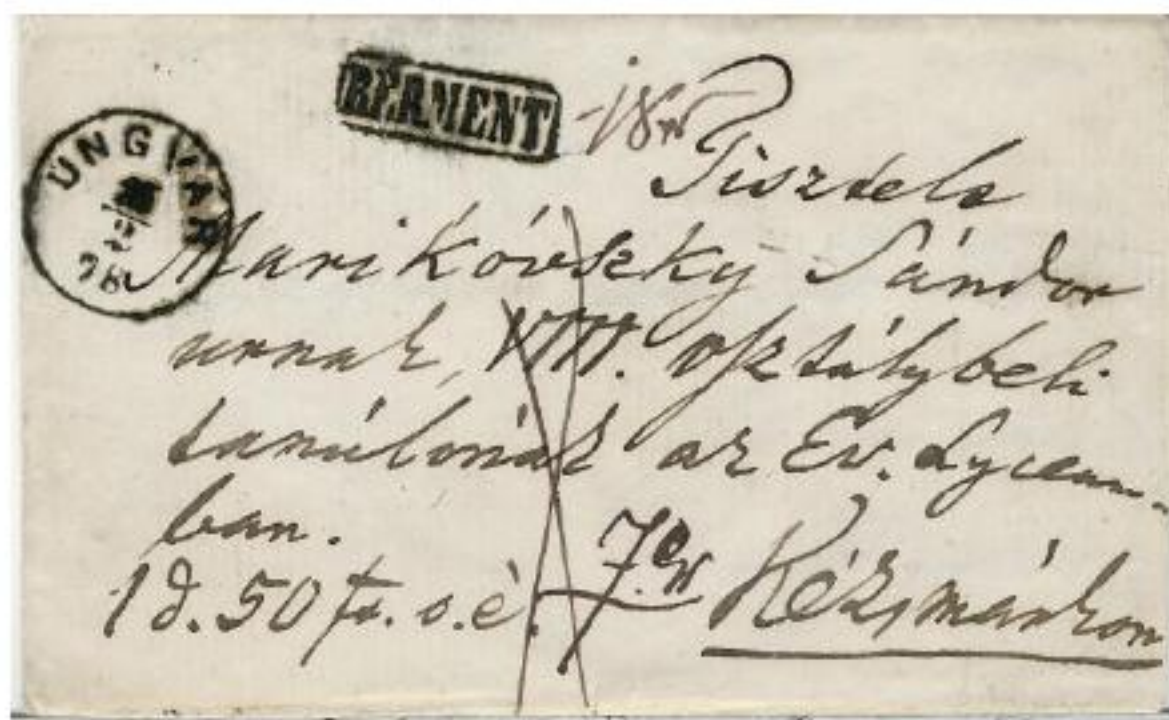

A) The following table is applicable but only for covers which are offered sealed by the sender. (For covers presented open, money to be counted and to be sealed by the post official) see the table under B) on the next page.

Money letter sent 15-02-1878 from Ungvár to Kézmarok. (Now Kežmarok in Slovakia).

Tariff period 15-03-1867 until 01-11-1878.

The value written on the cover has the following meaning: 1 d (= 1 darab = 1 piece)

50 ft O(sztrák).é(ertek=Austrian currency.

The distance between Ungvár and Kézmarok is 18 postal miles.

According to the table on page 49a the postage amounted to 18 Kr.

The boxed marking "BERMENT" means paid

B) For amounts above 100 Forint, **and presented open**, (to be sealed by the post official and the money to be counted).

To check the amount the covers were presented open. That made it possible to insure the cover with its contents. For this service an extra fee had to be paid. This extra fee is stated on the second line at each value step. This service was limited to domestic letters containing more than 100F and a weight not over 250 gram.

Example: For a letter containing 5300 F, distance 23 miles, postage amounts to 2.50 + 1.15 = 3.65F

Tariff from 01-11-1878 until 31-12-1899

The postage for a money letter consists of two components

- 1) The weight related postage
- 2) The value related component

1) For money letters up to a weight of 250 gram

- a) up to a distance of 10 miles (1st zone) 12 Kr.
- b) all other distances 24 Kr.

For unpaid letters containing banknotes an additional amount of 6 Kr. is charged.

2) The value related component.

- a) up to an amount of 50 Forint the value related component is 3 Kr.
- b) for amounts above 50 Forint, the postage is stated in the table below.

Value in Forint	postage		Value in Forint	postage		Value in Forint	postage		Value in Forint	postage	
	fl.	fr.		fl.	fr.		fl.	fr.		fl.	fr.
up to 150	.	6	up to 3150	.	63	up to 6150	1	23	up to 9150	1	83

" 2850	.	57	" 5850	1	17	" 8850	1	77	" 11.850	2	37
" 3000	.	60	" 6000	1	20	" 9000	1	80	" 12.000	2	40
For each 150 Forint more above 15,000 Forint the extra fee is 3 Kr.											

Examples:

For a money letter that is presented pre sealed (closed) with a contents of 550 Forint and a weight of 200 gram and a distance over 10 miles, the weight related component is 24 Kr. and the value related component 12 Kr = 36Kr. In case same letter is sent unpaid the extra charge is 6Kr. (Same as previous period)

In case the letter is presented open to be sealed by the post official, the extra charge is 50% of the value related postage. Total postage 36 + 0,5x 12= 36 +6= 42Kr

Money letter sent on 21-05-1899 from Nagy-Bocskó to Diós Győr. Contents 36 Forint
 Tariff period 01-11-1878 until 31-12-1899
 Distance related component 24 kr + value related component 3kr. = 27 kr.

Tariff from 01-01-1900 until 01-10-1916

	more	more	more	more			
for each 300 F	—	6	—	9	for each 300 F	—	11

Tariff from 01-10-1916 until 14-06-1918

During this period the tariff was composed by the following two elements:

- 1) The tariff for a recommended letter of the same weight.
- 2) The insurance fee, which amounts to 5h for each 300 K or part of it

The minimum total amount of 1) and 2) is however 60h

For a money letter to be sealed by the post official as well an additional fee of 10h for each 1200 K or part of it is applicable.

Valid from 15-06-1918

A special War tax is applied to all Money letters amounting to 10 h irrespective of weight and value.

TELEPHONE SERVICES

Telephone connections in private homes were rarely available in the period before WWI. To make a telephone call, one had to go to the nearest telephone office where such facilities were available. This service was provided from 15-08-1916. To apply for a call, it was necessary to fill out a form, which consisted of two parts. The smaller left part called the "Szelvény" was a receipt for the maker of the call, specifying the duration and the time it was made. The larger right part has the text "Távbeszélő-jegy" which is rather old fashioned Hungarian and can be translated into English as Telephone admittance ticket, and states the name of the applicant and the telephone number of the receiver of the call. The call was to be paid for by means of postage stamps glued to the form. At least 3 different forms have been used. In many cases the postage stamps were glued to both parts of the tickets, which makes it difficult to establish the correct tariff in case both parts were separated.

This white form with number 884 has the following Hungarian text printed in the bottom line, "Távbeszélő-jegy magán-beszélgetésre.", which means "Telephone admittance ticket for calls made by private persons". The left part (the receipt) was kept by the applicant of the call. The admittance ticket shown here is related to a telephone call from Ungvár to Nagymihály made on 30-04-1914.

The form stated "jelentkezett" meaning that the person for whom the call was intended was notified at 9.28 am and the "beszélgetés történt" has the meaning that the conversation started at 9.29 am.

The indication 3 percz means 3 min., consequently the fee was 2 Korona. (The tariffs were stated at the reverse)

Translation of the information on the reverse

On the reverse of the telephone admittance tickets shown above and below, the following information is given with regard to the tariffs for telephone calls:

The costs for a telephone call up to 3 min. amounts to 2 K (Korona). In case the call is booked in advance, 4 K will be charged for a 6 min. call. Payment has to be effected by postage stamps to be glued to this form. Forms insufficiently franked will be refused.

During the working hours of the telephone offices calls are restricted to a max. of 3 min. In case the office has no bookings for telephone calls, the duration is unlimited.

The customer cannot make any objections to the sequence of booked telephone calls.

The costs involved will be refunded in case:

A: The connection cannot be established due to technical or operational difficulties.

B: In case the call is cancelled before the connection has been established.

C: In case there is no response from the other side.

In those cases the full amount will be refunded.

This dark pink form with number 882 has the following Hungarian text printed in the bottom line:

"Távbeszélő-jegy állami beszélgetésre" meaning: Telephone admittance ticket for calls made by public servants. The left part has not been removed. This one was related to a 3 min. call from Beregszász to number 26 in Nagy-Szőllős made on 17-04-1919.

Tariffs for telephone calls

The tariffs printed at the rear of the forms 884 and 882 are confusing. Most probably the tariffs were changed during the printing process and that may be the reason they do not make too much sense.

Some literature states the following tariffs, but not always do the stamps on the admittance ticket show which tariff was applied when the call was made.

15-08-1916 until 14-08-1918

Introduction of public telephone facilities for calls with a duration of max. 5 min.

For calls up to 5 min.:

local 20 fi.
within the nearer vicinity 50 fi.
other 1K.

15-06-1918 until 31-12-1919

In addition to the rates stated above 10 fi. war tax was to be paid for local calls and 20 fi. for all other calls.

01-01-1920 until 01-06-1920

Local calls: 1K.
up to a distance of 50 km. 2K.
50 – 200 km. 4K.
over 200 km. 6K.

01-06-1920 until mid 1921

Local calls: 2K
up to a distance of 50 km. 4K.
50 – 100 km. 8K.
over 200 km. 12K.

Mid 1921 the possibility to pay for telephone calls by means of using postage stamps was terminated.

This 3rd grey-green form, having number 892 printed at the bottom is very different from the two pictured on page 50. It consists only of one part. The text below the horizontal line means: Official call, subject to be paid for. The rear side states the tariffs: Local call 40fi.

Between towns 1K.

This call was made from Beregszász to Ökörmező on 09-04-1919.

Tariff is made up as follows:

Call between towns 1K. + 10 fi. war tax.

R-Labels

The R-labels are either perforated or not perforated. They appear in two different letter types

Also the postal agencies could handle registered letters. The word "postai ügyn" meaning postal agency was added.

See also page 41 under the heading "The additional markings ANJANLOTT and EXPRESS"

PERIOD 6

PERIOD OF CHAOS BETWEEN 1918 AND 1920

In his concept of the new Czechoslovak state Prof. T.G. Masaryk the founding father and first president, never thought that Carpatho Ukraine would form part of it. The Russins living in the USA, first came up with the idea and ultimately was agreed between them and Masaryk/Beneš that they would join on the condition that the new state would grant them autonomy within the Czechoslovak state. This unfortunately worked out differently.

- 26-10-1918 At the Philadelphia Congress in the USA, the representatives of the Carpatho Ukraine nation declared their wish to be incorporated into the new to be established Czechoslovak state. The Hungarian government offered autonomy to the Carpatho Ukraine nation, but only if it remained in Hungary. The Hungarian government called for a Congress in Mukačevo.
- 28-10-1918 Czechoslovak republic declared in Prague.
- 08-11-1918 A Ruthenian National Council was established at Lyubovna. On 19-11-1918 it moved to Prešov (Slovakia).
- 09-11-1918 A rival Ruthenian Council was set up in Užhorod, aiming at autonomy within Hungary.
- 12-11-1918 The national council of Carpatho Ukraine in the USA (Národní rada rusínská v USA) declared its support for the incorporation of Carpatho Ukraine into Czechoslovakia.
- 09-01-1919 The Hutsul in the eastern part, in revolt against Hungary since Nov. 1918 formally proclaimed an independent Hutsul republic (The Sics Movement)
- 15-01-1919 Peričin (Perecsény) and Užok (Uzok) were taken by the 31st Regiment of the Czechoslovak Army under the command of the French General Hennoque.
- 17-01-1919 West Ukrainian troops invaded Carpatho Ukraine They were pushed back on 21-01-1919, but not before having established another National Council at Chust, claiming reunion with Ukraine..
- 15-04-1919 The Romanian army under the command of general Lupescu and general Oltean invaded Carpatho Ukraine and started to occupy Hungarian territory.
- 29-04-1919 Czechoslovak forces took over the town of Čop (Csap) from Romania. The Czechoslovak and Romanian armies met each other in this town.
- 30-04-1919 Czechoslovakia took over the town of Mukačevo (Munkács) from Romania.
- 08-05-1919 The incorporation of Carpatho Ukraine into Czechoslovakia was supported by the Central Rusyn National Council (Centrální Ruská národní rada). This was set up in Užhorod and replaced all the earlier national councils. From this date on Carpatho Ukraine could be considered as an unofficial part of the Czechoslovak republic.
- 12-06-1919 In Hungary the republic was replaced by a so-called councils republic, headed by Bela Kun. Bela Kun strongly opposed the Trianon peace treaty proposals even by means of arms.
- 10-09-1919 Carpatho Ukraine joined the Czechoslovak republic as an autonomous area.
- 16-11-1919 The Bela Kun government was overthrown by the forces of general Horthy, who became Regent of the newly established Kingdom Hungary. Gen Horthy was willing to accept the Trianon peace treaty.
- 04-06-1920 The Trianon peace treaty between the Allies and the defeated central powers was signed and as a result Hungary officially accepted that Slovakia and Carpatho Ukraine would be incorporated in the newly established republic of Czechoslovakia.

- 08-07-1920 The ministry of National Defence issued an order to close the FPO's in Slovakia and Carpatho Ukraine.
- 25-07-1921 The last remaining Romanian armed forces left the easternmost part of Carpatho Ukraine, which it had occupied since 15-04-1919. The Czechoslovak army now controlled the whole area.

ADMINISTRATORS IN CARPATHO UKRAINE (SUBCARPATHIA) 1918 – 1920

Rusyn leaders

Chairmen of the Ruthenian National Council in Lyubovna and later Prešov.

- 1918 Emylyan Nevycky
1918 – 1919 Antonin Beskyd

Chairman of the pro-Hungarian Council in Užhorod.

- 1918 – 1919 Simont Szabó

Chairman of the pro-Ukrainian Council in Chust.

- 1919

President of the Hutsul Republic

- 1919 Stepan Klyuchurak leader of the revolt since 1918.

Hungarian administrators

Hungarian ministers in charge of the area.

- 1918 – 1919 Oreszt Szabó Minister of the Republic
1919 Ágoston Stefán, Governor

Commanders of the Czechoslovak Army during the campaign in Carpatho Ukraine

- 1918 – 1919 General Luigi Giuseppe Picione (Italian)
1919 General Edmond Charles Adolphe Hennocque (Frenchman)
1919 – 1920 General Marie Constantin Robert Paris (Frenchman)

Chairman of the Central Ruthenian National Council

- 1919 Avhustyn Ivanovych Vološin (later president of the independent Carpatho-Ukraine, see also chapter 8).

Chairman of the Provisional Directorate

- 1919 – 1920 Hrihori (Gregory) Innatii Zatkovych (Governor of the Carpatho-Ukraine appointed by the Czechoslovak government).

Gregory Zatkovych (1886 – 1967) born in the little village of Holubina former Hungarian Bereg county (now named Golubinoe in the Ukrainian Zakarpattia, region Svalyava). He was asked by the National Council of Carpatho Ukraine in the USA to serve as its spokesman with other East-European ethnic groups and the United States government. In October 1918, the young Zatkovich met in Washington, D.C., with president Woodrow Wilson and future Czechoslovak president Tomáš G. Masaryk. In November he led a Carpatho Rusyn delegation to the Mid-European Union in Philadelphia. In Independence Hall Zatkovych signed a proclamation demanding independence for his people. At the Philadelphia meeting he succeeded in having Carpatho Rusyns recognized as a distinct nationality worthy of political independence, or at least complete autonomy within another state. American government leaders urged Zatkovych to seek autonomy and he reached an agreement whereby Carpatho Rusyns would join the new state Czechoslovakia. In recognition of his diplomatic success, the Czechoslovak government named Zatkovych the first governor of Subcarpathian Rus in April 1920. However his understanding of local autonomy was met with opposition by the Czechs and within less than a year (21st March) he resigned his post and returned to the States.

THE HUNGARIAN REPUBLIC 1918 – 1919

On the 16th November 1918 the Hungarian republic was proclaimed. The change from Kingdom into Republic had also its effect on the issuing of postage stamps and the appearance of the date stamps used. During these turbulent times Carpatho Ukraine lost its ties with Hungary but traces of the republican times are left in the postal history of the area.

Upon the establishment of the republic the postage stamps and postal stationery with the inscription "Magyar Kir Posta" (Royal Hungarian mail) did not lose their validity immediately and the post offices also continued to use the date stamps of the Kingdom. This was also the case in those parts of Carpatho-Ukraine, which were under control of the Hungarians during the military campaign of 1918/19. The first stamps with the overprint "KÖZTÁRSASÁG" (republic) became available on the 23rd November 1918. (King Charles and Queen Zita). From 15 December 1918 onwards, the remaining stamps were gradually provided with this overprint. Even the stamps with the inscription "Magyar Posta" were, starting from February 1919, provided with this overprint. The new Hungarian post authority also issued a number of postal stationery without the word "Kir" (Royal) During November 1918 a money order was issued and during February 1919 a postcard, a letter card and a C.O.D. parcel postcard followed. An international postcard was issued during February 1919 having the Hungarian coat of arms in the left upper corner but without the crown.

Also the date stamps were modified. The Crown was removed and the segment above the date bar was only vertically shaded. In Carpatho Ukraine or Kárpátalja as it is referred to in Hungary, the following 2 post offices used this new republican date stamp, see figure B.

Munkács starting from 21st of December 1918 and Beregszász starting from 10th of January 1919.

In Perecsény however a provisional date stamp was used for a short period of time. The Hungarian crown was noticeably removed from the upper segment, fig A.

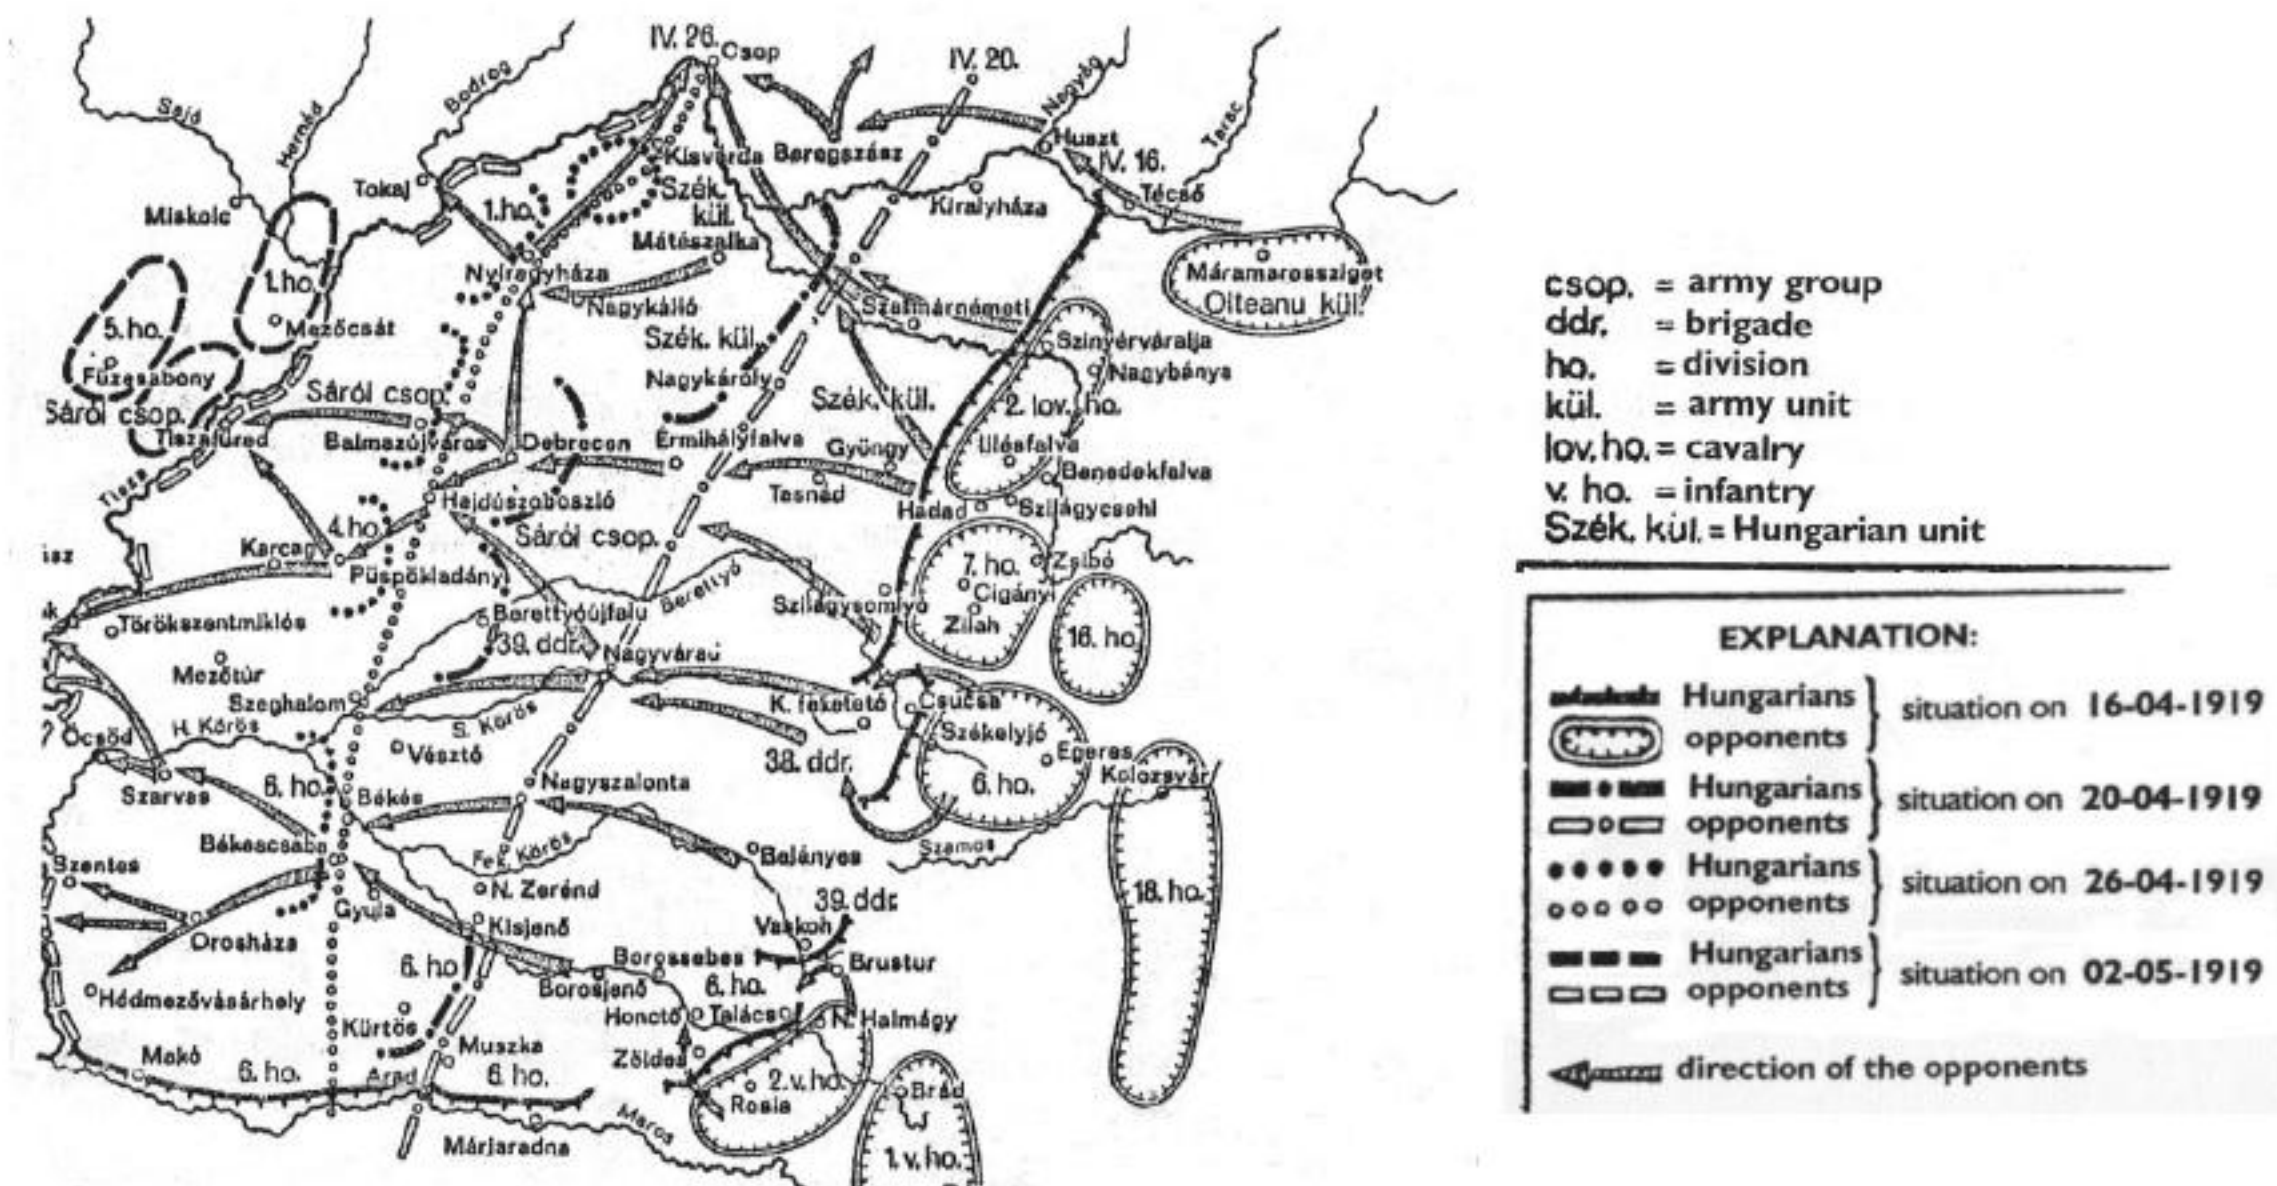

fig A

fig B

On the 21st March 1919 Bela Kun proclaimed the so-called councils republic in Hungary, but this had no effect on the postal system of Carpatho Ukraine. On the 26th April 1919 the supremacy of the Hungarian republic came to an end when the armies of Czechoslovakia and Romania defeated the Hungarian army. The goal of the Czechoslovaks was to implement the agreements as were laid down in the Peace treaty of Saint Germain and to unite Carpatho Ukraine with the newly established republic. The Romanians tried to occupy a territory mainly inhabited by ethnic Romanians and to unite this with the kingdom of Romania. The invasion started on the 16th April 1919 and the far better equipped Romanian army caused heavy losses to the Hungarian defence, mainly along the line Csucsá-Szilágysomlyó-Técső. As a result the Romanians conquered that same day Técső and Huszt. On the 22nd April the Romanians launched a new attack and conquered Beregszász on the 23rd April 1919. On the 26th April the Hungarians laid down their arms. On the 28th April they met the combined Czechoslovak and Romanian forces in between Csop and Munkács and withdrew from Carpatho Ukraine.

In 1919, in the aftermath of WWI, the political situation in the lands which once were part of the Danube Empire was extremely complex. Based on decisions made by the Philadelphia congress the new Czechoslovak state tried to impose the incorporation of Carpatho Ukraine by means of force thus creating a "fait accompli" for a future peace conference. This policy was strongly supported by France, which tried to gain influence in this part of the world. Carpatho Ukraine however had been an integral part of the lands of the Hungarian Crown for over 1000 years and it is understandable that opposition could be expected from the Hungarians. Hungary however was also in turmoil. It had to cope with a Romanian invasion, which was launched to forestall a Hungarian offensive in Transylvania. The Romanians even captured Budapest and occupied parts of Carpatho Ukraine. (Bear in mind there existed a Romanian speaking minority in the South-eastern part of Carpatho Ukraine). In Hungary the President Count Michael Karolyi resigned in protest over the allied decision to assign Transylvania to Romania and the next day a Bolshevik government was established, which ultimately brought the dictator Bela Kun to power. Hungary even declared war on Czechoslovakia. Also the newly established republic of Ukraine interfered in the very complex situation and sent an army to C.U in mid January 1919. They retreated after a few days caused by defeat at the battle of Máramarossziget against the Romanians, which weakened their Army considerably. Ultimately all conflicts were settled by concluding the peace treaty of Trianon. Romania and Czechoslovakia were not at war in fact they both have been on the side of the Allies against the Central Powers. Their armies met the common enemy, Hungary, on the same soil.

Which army made use of field post offices during their campaign in Carpatho Ukraine ?

- a) The newly established Czechoslovak Army.
 - b) The French upheld a service with their Homeland for their soldiers and officers in the Czechoslovak Army.
- There is no evidence of the existence of a Romanian or Ukrainian Field post, nor are any items known of Hungarian field post during the years 1919-1920.

a) The Czechoslovak field post.

The forces participating in the Carpatho Ukraine campaign were under the command of the French general Destremeau, together with the part of the army in Slovakia under the command of general Chabord, they formed the 1st Czechoslovak Army, which was under the high command of general Hennocque. General Hennocque had replaced the Italian general Piccione, who carried some blame for the poor defences against the Hungarian offensive of the troops of the Bela Kun government. During this offensive, the Hungarians captured Košice (Kassa) and the Army group under the command of Gen. Chabord was moved to Spišská Nová Ves and the Carpathian group to Užhorod (Ungvár). (See also the Chapter on The Czechoslovak Air Force on page 59). The Czechoslovak Army started its Carpatho Ukrainian campaign on the 10th of January 1919 and conquered first the western part up to the river Ung. Užhorod was taken on the 12th January. Perečín and Užok on the 15th of that month and Mukačevo followed on the 30th April.

On 20-12-1918 The Supreme Command of the Army in Slovakia (later operational in the C.U.) issued the order that field post offices would be established on 01-01-1919.

On 13-01-1919 A further order was issued limiting free of postage correspondence sent via FPO's only to letters, cards, printed matter and newspapers.

On 08-07-1920 By Order no 53338/8940-N-O of the Ministry of National Defence the FPO's in Slovakia and the Carpatho-Ukraine were closed down, coinciding with the demobilization and the return home of the soldiers.

During this campaign the following Field Post Offices were operational in the area and used the double circle date stamps shown here. Normally the colour is black, but both PP 46 date stamps also appear in blue and PP75 also used a violet colour.

- Polni Pošta 14
- Polni Pošta 46
- Polni Pošta 75

PP 14 also appears with bars type 1 of PP46 type 2 of PP 46

Polni Posta 14 also used a boxed date stamp

Polni Pošta 14 started to operate in Uzhhorod and also in Mučac as closed on 08-07-1920. It was located for some time in Uzhhorod and information obtained from Mr. Brian C. Day's book on Czechoslovak Field Post 1918 – 1921 and published as Monograph 17 by the Czechoslovak Philatelic Society of G.B). Some times certain army groups were based in the vicinity of civil post offices and their mail was routed through the normal post system. You may find date stamps of Ungvár Munkács and Beregszász on correspondence of the soldiers.

Handstamp of Army unit was used as censor mark Handwritten indication of sender "Polni Pošta 14" Republican date stamp, without Crown of St Stephen

Postcard with boxed date stamp of Polni Pošta 14. Date a bit faint in the picture, but the original shows it was sent 26-02-1920 to Leština.

Field post card sent from post office Beregszász (Berehovo). This card was written on 26-10-1919. Most remarkable is the republican date stamp, which was apparently still in use here. See also page 54.

Polni Posta 46 started to operate in Uzhhorod early April 1919 and was closed on 13-06-1920. Before being operational in Uzhhorod, Polni Posta 46 had been located in Kežmarok (Késmark) and Prešov (Eperjes) as well. As mentioned before in relation to P.P 14, you may also find date stamps of civilian post offices on mail from soldiers who stated PP 46 in their army addresses.

Nationalized field post card of the Austro-Hungarian Army. Date stamp of Polni Pošta 46. The card was sent on 11-10-1919 to Náchod in Bohemia. Date stamp of PP 46, type I.

Field post card of the Czechoslovak Army. Date stamp of Polni Pošta 46. The card was sent on 15-12-1919 to Niemes in Bohemia. Date stamp of PP 46, type I.

The postcard shown here shows the date stamp of PP 46, type 2. The written text, shows it was sent from Uzhhorod to Český Brod on 16-05-1919.

The card shown and the one below are from the collection of Dr. J.E Page and shown by his permission.

31° REGG MENTO C. S.
1.° BATT. NE CZECO SLOVACCO

The 31st regiment, 1st battalion of the Czechoslovak Army was the unit that took Uzhhorod.

Polni Pošta 75 Uzhhorod was taken by the Czechoslovak Army on 12-01-1919. Field post office 75, which was based in Košice but was also used by the army unit in Uzhhorod. In order however to be able to identify that it originates from Uzhhorod the PP 75 date stamp has to be accompanied by the oval Italian mark of the "31 reggimento", later substituted by the Czech language version. The latest recorded use up till now of PP 75 in Uzhhorod is 08-04-1919. (In the collection of Peter Cybaniak and Roman Dubyniak.)*

*) In the first printing of this book, 07-04-1919 was given as latest recorded use of PP 75 in Uzhhorod. Peter Cybaniak however provided me with a card having the date 08-04-1919..

Picture postcard with the date stamp of PP 75 sent on 08-04-1919 to Vienna, at the time the Army had taken Uzhhorod. The pictured card has the Czech version of the Army cachet shown below

Cachet of the Army unit that took Uzhhorod from the Hungarians.

Registered mail

It was also possible to send registered mail from a field post office. Special R-hand stamps were used by the field post offices and m/s marks can also be found.

This registered cover from PPI4 is from the collection of Mr. Brian Day and shown by his permission.

Army censorship

All field post had to pass the censor. They used a rubber hand stamp with the name of the Army unit as a censor mark.

YMCA (Young Men's Christian Association)

In the month of May 1919 the YMCA started to operate special soldiers' homes behind the front lines, where soldiers could spend their free time, could read or borrow books and enjoy free non alcoholic drinks. Such a home was also available near Užhorod. Correspondence mailed in the letterbox of the YMCA homes was not censored. Sometimes on the rear of such letters the YMCA placed a hand stamp with their logo using red ink for it. Also envelopes were used marked and/or printed YMCA or "SOLDIERS MAIL". This correspondence was again not censored.

Polni Pošta 12

Some Army units, using Polni Pošta 12, were based in the vicinity of Ungvár (Užhorod) and the soldiers used this Polni Pošta office for their correspondence as can be seen from the card* shown here. It was written in Užhorod on 08-09-1919 and the date stamp of PP12 shows the same date. Occasionally a post card can be found with the normal date stamp of Užhorod, whilst the soldier mentions Polni Pošta 12 in his army address.

Recently also cards were found sent from Mukačevo

* Collection Dr. J. E. Page

b) The French field post with the homeland.

The Czechoslovak Ministry of National Defence in 1918 organised through its "daughter company" named "Správa kurýrů čs. vrchního stanu" (i.e. Supreme Army HQ's Office for Couriers) a special courier service between Paris and Prague. For this purpose it used the offices of the Česká národní rada (Czech National Council) in Paris, located at 34 rue Bonaparte. This office was also used for correspondence to and from the U.K., U.S.A. and Italy. Both official and private correspondence was transported by couriers in mailbags in trains. From the legation in France it was forwarded through the regular French postal system.

Rear of the cover with the arrival date stamp of Viergon and once more the circle stamp of the 2nd bureau.

Cover from the 2nd bureau of the supreme command of the Carpatho Ukraine region. This letter was originally sent to Paris but was redirected to Viergon and forwarded by the French field post. The letters F.M. mean "Franchise Militaire" and the hand stamp in the right upper corner is the regular cancel of the French field post. The two different bi-lingual rubber hand stamps are the stamps of the 2nd bureau of the supreme command, headed by general Pellé. The two black stamps are the arrival date stamps of Paris.

The Czechoslovak Air Force and its presence in Carpatho Ukraine

On the 30th October 1918, an Army Air Corps was founded by captain Jindřich Kostrba. He recruited pilots and technicians in and around Prague, calling this first unit "Letecký sbor", i.e. Air Corps. This unit only had 2 aircraft at its disposal. The first military airfield was set up in Prague's Strašnice district and was used until December 1918.

Under an agreement with the French government, a French military air company, named Breguet 590 arrived in Prague on the 9th of May 1919 to support and teach Czechoslovak air units.

On the 6th of June 1919, the Breguet unit moved from Prague to Bratislava and on the 9th of October 1919 from Bratislava to Užhorod. The French staff was replaced by Czechoslovak airmen and later in the year renamed "6. letecká setnina" i.e. 6th air company and returned to Bratislava again.

During Oct/Nov 1919 more new Czechoslovak military air units were formed, the 7. letecká setnina was located in Užhorod.

The occupation of Bardejov, Košice and Prešov by the Hungarian army in June 1919, separated the Eastern Army in a western and an eastern part. The western part situated west of Košice and the other part to the east in Carpatho-Ukraine. It now appeared impossible to arrange surface mail delivery so airplanes were used to overcome the problem. The supreme Czechoslovak Army Command in Slovakia established an air route between Spišská Nová Ves and Užhorod, using FPO 46 located there to maintain its postal services between the military units in the area and to help handle the postal link between the two parts of the Eastern area.

The first airmail service was now established within the army. Only two flights were carried out and two return flights.

- | | |
|--------------|---|
| 13 June 1919 | The first flight flown from Spišská Nová Ves to Užhorod, pilot K. Janhuba, carried supplies and 2 bags of mail. |
| 15 June 1919 | The return flight from Užhorod to Spišská Nová Ves, pilot K. Janhuba, carried 2 bags of mail. |
| 19 June 1919 | The second flight from Spišská Nová Ves to Užhorod, pilot K. Janhuba, carried 2 bags of mail. |
| 20 June 1919 | The second return flight from Užhorod to Spišská Nová Ves, pilot K. Janhuba, carried 3 bags of mail. |

The Czechoslovak army soon re-captured the territory and surface mail was restored. Air mail flown by one of the flights carried out by pilot K. Janhuba rank among the rarest known Czechoslovak Field Post documents in the period 1918-1921.

Identification of flown mail sent from Spišská Nová Ves is not possible, unless by chance the sender mentioned the air delivery in his written text.

The cards sent from Užhorod to Spišská Nová Ves can be identified. They all bear the cancel Polni Posta 46 in a bluish colour. In the cancellers of the first flight dates appear between 6 and 14. 06. 1919 and the only date of the second flight is 19. 06. 1919.

Flown card on the 2nd return flight from Užhorod to Spišská Nová Ves.

PP 46, date 19-06-1919
bluish colour of the date stamp.

ROMANIAN OCCUPATION OF THE SOUTH-EASTERN PART OF CARPATHO UKRAINE

In its offensive against the Hungarian communist republic of Bela Kun, the Royal Romanian army crossed the Carpatho Ukrainian border on the 15th of April 1919*) and occupied then still Hungarian territory. The Romanians were in the vicinity of Técső on 16-04-1919 and on 20 April had left Huszt behind. Nagyszöllös was conquered on 22-04. The Hungarian commander of the 5th regiment Kálmán Szakáll decided to withdraw from Munkács and Beregszász and the Romanian Army entered Beregszász on 23-04. On the 26th April 1919 the Romanians reached Čop, where they met up with the also advancing Czechoslovak forces on 29th of April. The Czechoslovaks and Romanians together reached Munkács on the 30th April. The Romanian army was predominantly present at the edge of the Sub Carpathian plain. In the east in the mountain valleys the presence of the Romanian army is not exactly known. Kövesliget (Dragovo) however, which is situated in the Tabor valley east of Huszt has been under Romanian occupation. A second offensive of the Romanian army was launched on the 11th of June 1919. From the Hungarian town of Máramarossziget, which was under their control, they went through Rahó and captured the Fekete-Tisza valley up to Körösmező and the Tatár pass. Now they were in control of all the railway connections and could make contact with their Army units in the occupied Bukowina. The last Hungarian soldiers left Carpatho Ukraine on 5th May. We should bear in mind that Romania and Czechoslovakia were not fighting each other, but both had territorial arguments with Hungary. The area occupied by the Romanians for a longer period was roughly south of the line Körösmező-Rahó-Huszt-Nagyszöllös. As mentioned here above the intentions of the Romanians were mainly to control the railway traffic in the south for military reasons but also to take possession of the mines in the Aknaszlátina area. Carpatho Ukraine joined the Czechoslovak republic as an autonomous area on the 10th September 1919 by a decision made by the Peace conference of Saint Germain. For the next two years however the military and political situation remained very complicated. It was impossible for the Czechoslovak state to exercise its sovereignty over the Romanian occupied area in the south-east. This situation lasted even till 1920 when the last Romanian troops retreated. An exception was Nagy Palad, which was part of a border correction agreement with Romania and was exchanged for Nagytarna. In the table below the post offices are mentioned which were under Romanian jurisdiction and also the date is stated when the Czechoslovak authorities took over.

*) Some sources mention 16-04-1919.

Post offices under temporary Romanian administration from 15 – 04 – 1919 until as mentioned below

25-06-1921	Nagypalád	Veliký Palad	-1920	Huszt	Chust

In the Czech language the local names of the villages and post offices were at that time spelled differently when compared with the spelling in later years during the 1st Republic. The reason was the absence of a general agreement about the transcription of the Cyrillic spelled Ukrainian names into the Latin alphabet.

- 1) The Czechoslovak postal commission has not published the closing date of the post office of Danilovo.
- 2) Romania controlled the post office but it was closed when the border line changed.
- 3) The Czechoslovak postal commission obtained this post office under its control, but closed it.
- 4) Under the control of the Czechoslovak postal commission until the 24th June 1921. It then was returned to Romania.

A HISTORICAL DOCUMENT !

Cover from the Commission for defining the Romanian – Czechoslovak border.

Sent from Oradea Mare to Košice on 27-11-1924

Registered cover from the “Commission de Délimitation de la Frontière Roumaine – Tchecoslovaque”, addressed to: Monsieur l’ingénieur Chef de Section V.Roubik, Commissaire de la Tchecoslovaquie.

POSTAL TRAFFIC during the Romanian occupation

It is generally assumed that postal traffic in the area occupied by the Romanians started gradually from mid July 1919. The post offices in Carpatho Ukraine within the by Romania occupied zone continued to use the available Hungarian postage stamps and also the Hungarian date stamps. These postage stamps were not provided with an overprint. This is interesting to note as in the Hungarian areas annexed by Romania overprinted Hungarian stamps were introduced in 1919. However mail franked with Romanian postage stamps was apparently accepted as well as can be seen from the examples given on page 61a. Romanian date stamps were not introduced. Nagyszöllös was captured by the Romanians on 22-04-1919. The date the town was handed over to the Czechoslovak Army could not be established by the writer, however the most interesting fact is the information given by the sender. He wrote “ To my great joy, postal connections are re-established again.

As this picture post card was sent on 20-07-1919 from Nagyszöllös to Debrecen, we can assume postal connections were re-established by this date.

The postage for a postcard in Romania was 10 bani. Originally the Romanian postal authorities used a rate of exchange of 1 filler = 1 bani. Effective however by 01-07-1919 the rate of exchange was altered into 1 filler = 0.5 bani. In this case the 10 filler stamp equals 5 bani. This is 5 bani short. 5 Bani = 10filler x 2 = 20filler, Debrecen was also under Romanian occupation and that explains the Hungarian 20 filler postage due stamp.

R-cover sent from Huszt to Técső on 22-09-1919 *)

Rumanian censor mark: “CENZURAT OFICIUL/ SIGHETUL MARMATIEI”

Huszt was under Romanian occupation until 1920 (exact date not known)

Hungarian remark “Vissza nemfogadnak can be translated as: to be returned, delivery refused .

*) Técső was captured by the Romanians on 23-01-1919 and the post office was handed over to the Czechoslovak postal administration on 04-07-1920

This cover is another proof that the mail connections were re-established by 22-09-1919

EXAMPLES OF MAIL FRANKED WITH ROMANIAN STAMPS

Registered letter sent on 31-12-1919 from Técső to Peter Dacsinec at Greensburg (misspelled), Westmoreland County, PA, USA. Mrs Dacsinec from Kiskirva, a small hamlet, posted the letter in nearby Técső. On the reverse Romanian 40 Bani stamp issued in 1919 and two strikes of the New York Registry Division oval handstamp 04-02-1920. The Técső post office was taken over by the Czechoslovak administration on 04-07-1920.

Censored postcard sent on 16-03-1920 from Huszt (Chust) to Nagy Várad (Oradea, Romania). Romanian inland postage for a postcard amounted to 15 bani. Franked with Romanian 15bani stamp, issued during 1918. Cancelled by a Hungarian postmark.

The Censor mark "CENZURAT ORADEA MARE" is a censor mark of the Romanian Army *)

The exact date the post office of Huszt was taken over by the Czechoslovak postal administration is unknown.

*) see remark on page 61 b

ROMANIAN CENSORSHIP

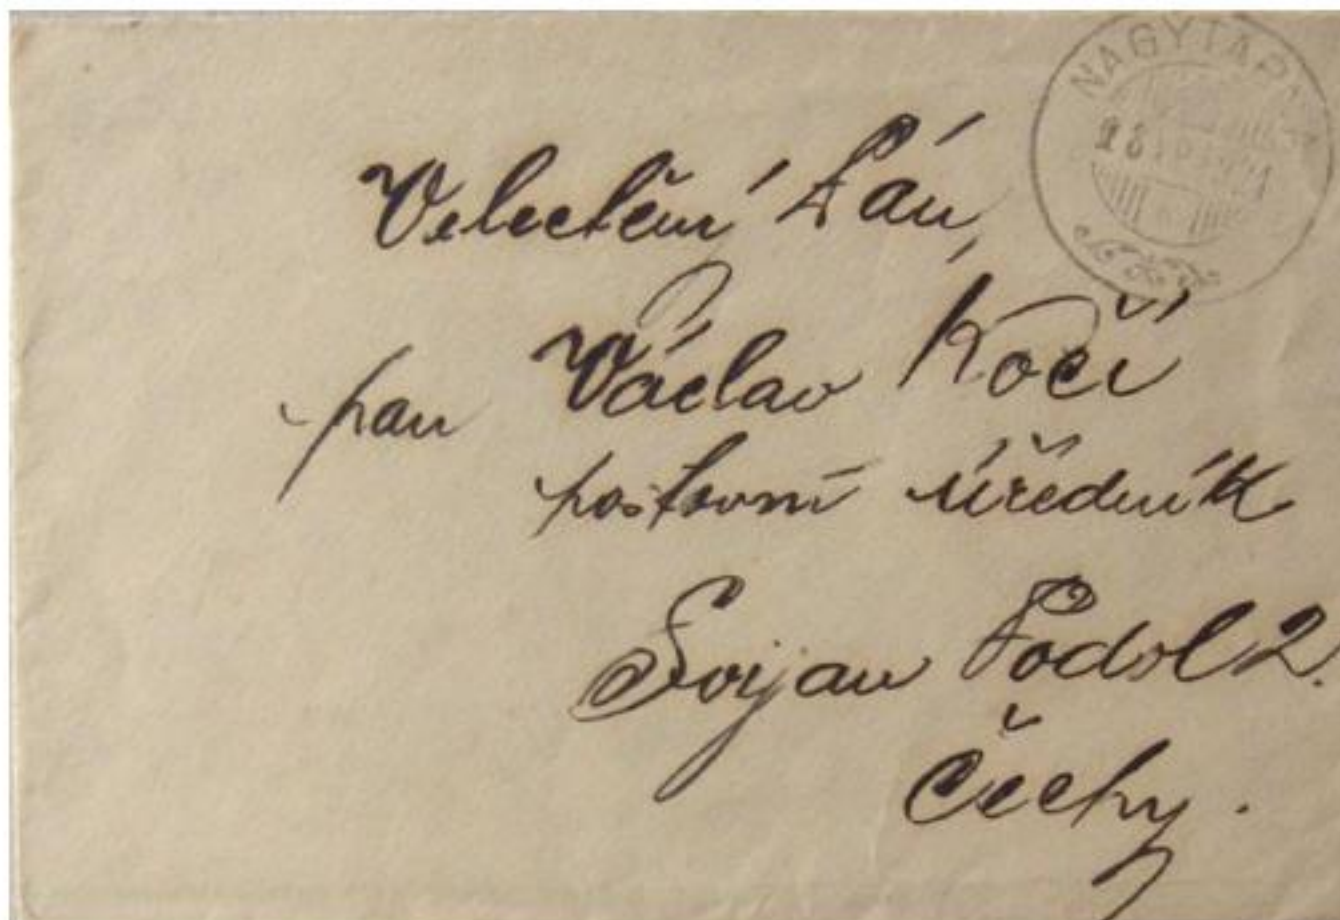

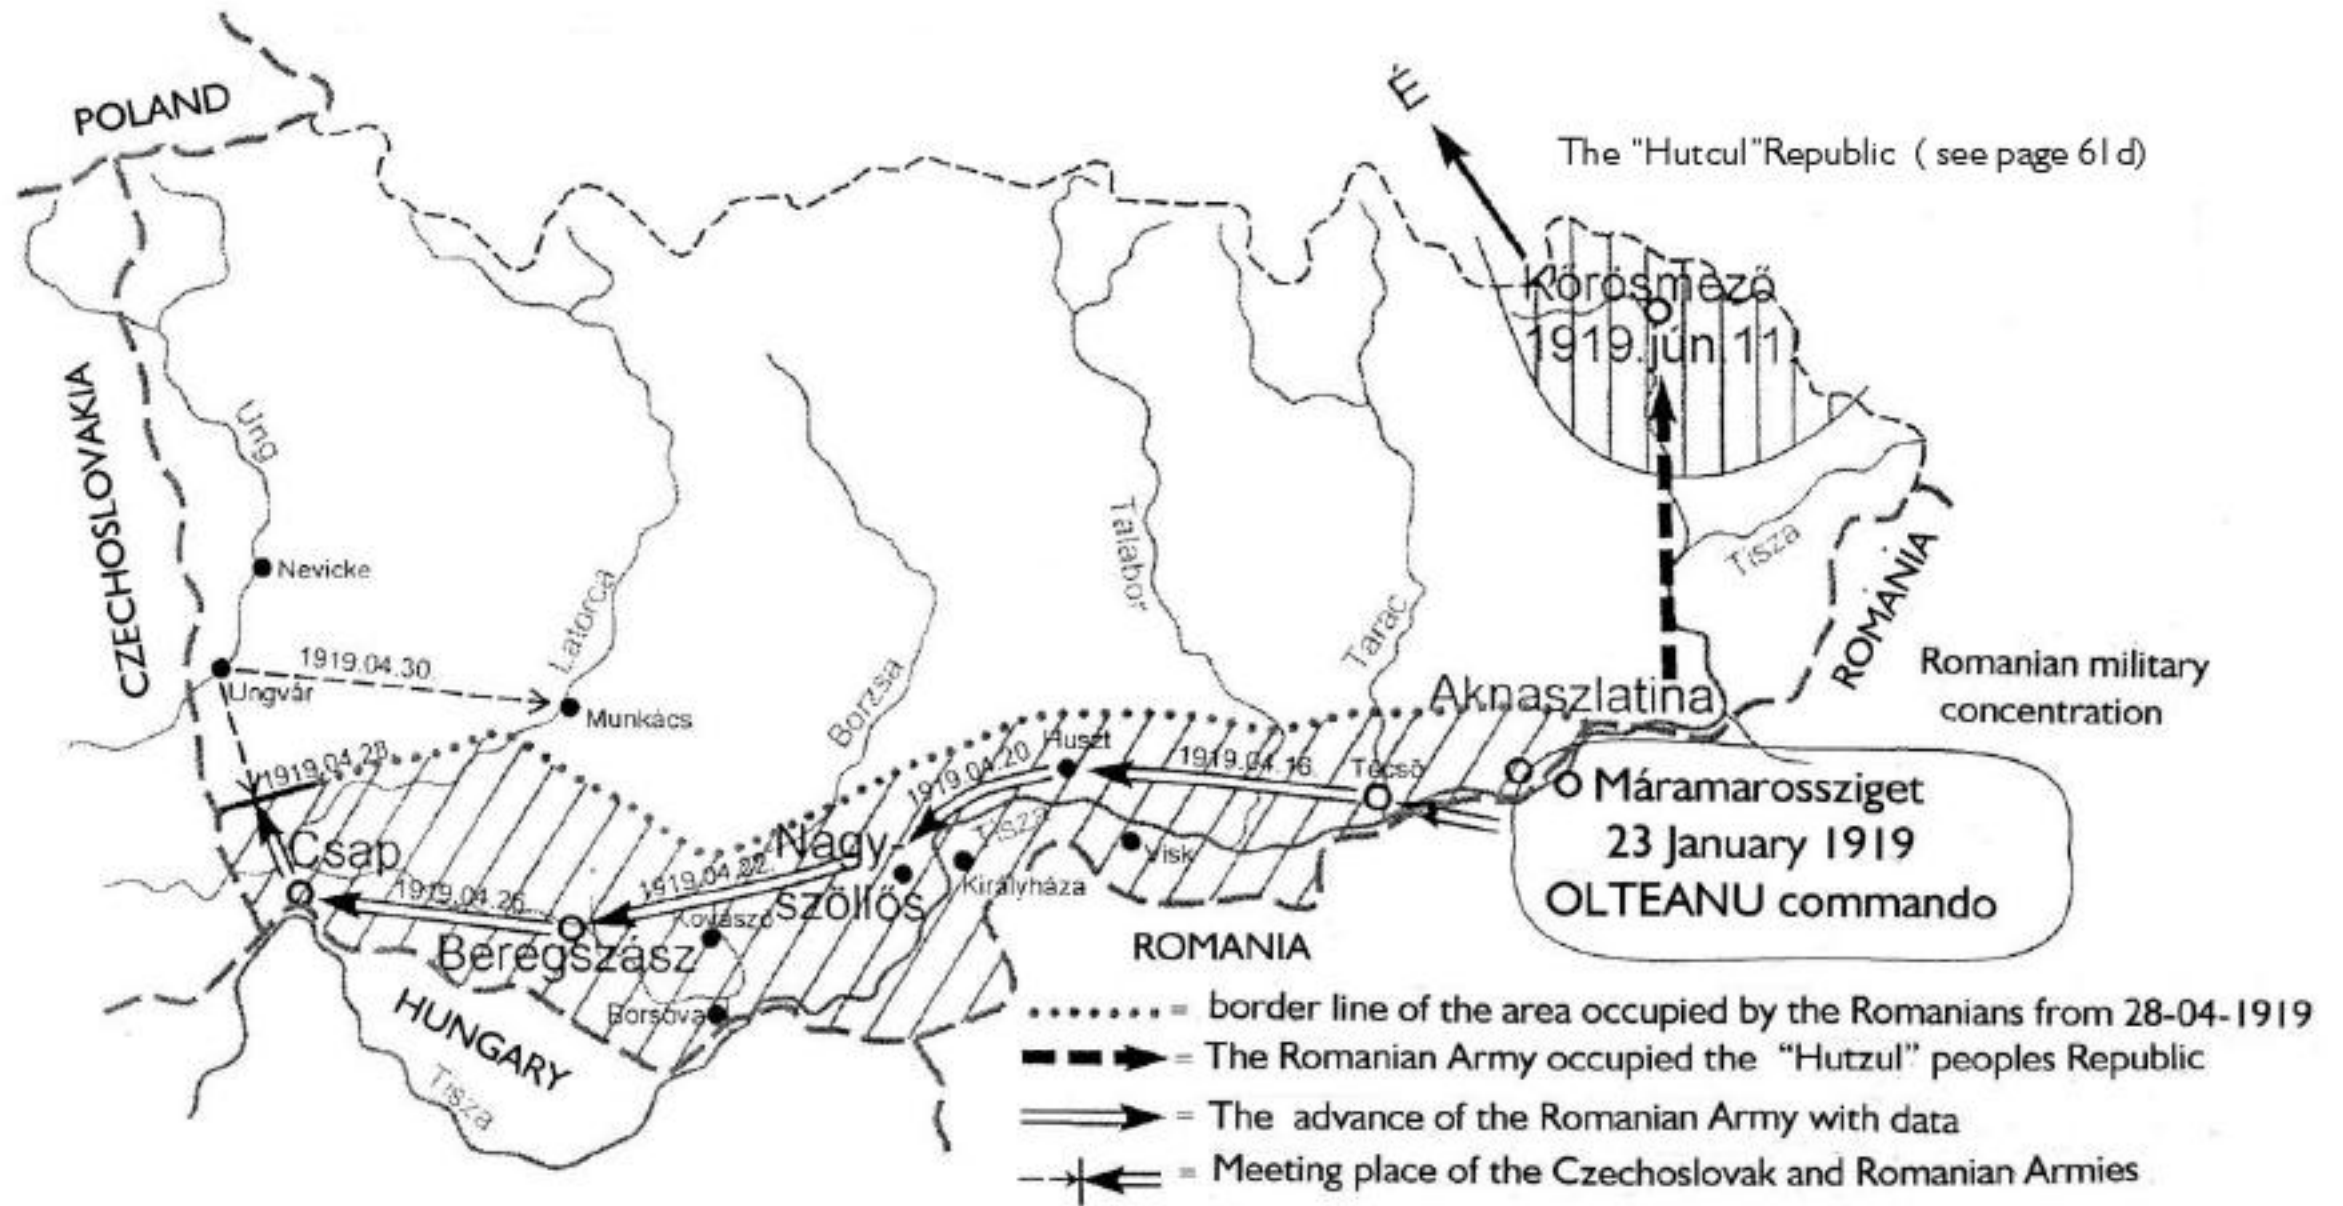

Although the Romanians did not interfere very much in the operating of the postal system, they wanted to check the exchange of messages and for that reason established a censor office in Máramarossziget. This censor office was also to handle the mail originating from the occupied territory in Carpatho Ukraine. Máramarossziget was conquered by the Romanians in the second half of January 1919. From here they started their second offensive into Carpatho Ukraine on 16 April 1919. The censor office was set up in between this period. It stopped censoring mail from Carpatho Ukraine on 28 October 1920 when Felsőveresmart as being the last remaining post office under Romanian occupation was transferred to the Czechoslovak postal authorities.

All together 3 different censor marks could be traced from the Máramarossziget office applied on mail originating from Carpatho Ukraine.

- 1) A circle mark, having the Romanian coat of arms in the center and the text "CENZURAT OFICIUL SIGHETUL MARMATIEI" This mark is to be seen on one of the covers pictured on page 61
- 2) A two line mark with the text Censorat Romana
M.M. Sziget

This mark is used on the cover pictured on page 61 b

The Romanian occupation of Carpatho Ukraine 1919 until 20-03-1920

As mentioned on the pages 60 and 61b the Carpatho-Ukrainian village of Nagytarna (Czech name Veliká Tarna and Ukrainian name Velikaja Ternavka) was transferred to Romania on 25-06-1921. The village was renamed Tarna Mare.

The cover pictured here is probably the only existing cover franked with Czechoslovak stamps cancelled by the old Hungarian date stamp of Nagytarna.

An inhabitant of Velká Drnavka u Királyháza sent the cover from Nagytarna to a post official in Bohemia. (Podolí ?)

TWO MORE EVENTS, which took place in the aftermath of WW I, should be mentioned here, although both events could not be documented postal historically.

- 1) The short lived Hutcul republic
- 2) The invasion of the Army of Western-Ukrainian

1) The Hutcul republic

The little Hutcul republic existed from 08-11-1919 until 11-06-1919

In the thirties a memorial plaque was placed in the wall of the Town Hall of Jasiña to commemorate the short-lived Hutcul Republic of 1918 – 1919 (Also referred to as Jasiña Republic). This tiny independent republic was founded almost immediately after the guns of the First World War fell silent, when the Hutculs of Jasiña rose in revolt to shake off the Hungarian rule. It was only a handful of local lads who attacked and disarmed the Hungarian garrison of Jasiña and seized control of the village. A little later the small Jasiña Army was equally successful in other Hutcul localities.. The Hungarians were weakened by domestic strife and could not stop them. This was even more valid when the men of Jasiña obtained reinforcements and supplies from their kinsmen in Galicia. Reinforced by two regiments, the armed forces of Jasiña marched on. These irregulars however were no match for the regular Rumanian Amy which was holding the Slatina mines. But they rejected the Rumanian ultimatum to lay down arms and engaged the enemy in a fierce battle.

in spite of their bravery they were defeated. The inevitable end of the Hutcul Republic was delayed by this action, but in June 1919 the Rumanians sealed its fate when they entered Jasiña.

And so the independent Republic of Jasiña became an insignificant incident in history. Yet, though short-lived, the tiny State was an interesting improvisation on democratic lines. A parliament of forty-two members, including Jewish representatives was elected, and a government of four ministers tried to deal with the country's problems

The first and only president was Stepan Klochurak

2) The invasion of the Army of the Western Ukrainian republic

The West Ukrainian National Republic (Західно-Українська Народна Республіка) was a short-lived republic that existed in late 1918 and early 1919 in eastern Galicia, (Austrian part of the dual monarchy) that claimed parts of Bukovina and Carpatho Ukraine (Hungarian part of the dual monarchy) and included the cities Lviv, Peremyshl, Kolomyia and Stanislav. According to the Austro_Hungarian census of 1919, the territory claimed by the West Ukrainian National Republic had about 5.4 million people. Of these 3,291,000 (60%) were Ukrainians. 1,351,000 (25%) were Poles and 660,000 (12%) were Jews, and the rest included Germans, Czechs and others. The cities and towns were mostly populated by Poles and Jews, while the Ukrainians dominated the countryside. This would prove to be problematic for the Ukrainians, because its largest city Lviv, was inhabited by a majority of Poles and was

One of the about 100 stamps the West Ukrainian republic managed to issue. No covers are known originating from Carpatho Ukraine with any of these stamps.

to be one of the most important Polish cities. Conflict between the West Ukrainian National Republic and Poland was thus inevitable. The West Ukrainian National Republic was proclaimed on 18 October 1918. Shortly after the republic proclaimed independence from the Austro-Hungarian Empire a popular uprising took place in Lviv. A few weeks later Lviv's rebellious Poles received support from Poland. In July 1919, after the Polish-Ukrainian War, Poland annexed most of the territory of West-Ukraine. Part of the defeated army found refuge in Czechoslovakia and became known under the name " Ukrajinská brigáda" (in Czech)

PERIOD 7

THE CZECHOSLOVAK POSTAL ADMINISTRATION FROM 1919 UNTIL 1939

In the previous period the tumultuous times are dealt with, which ultimately led to the full incorporation of Carpatho Ukraine into the newly founded republic of Czechoslovakia. The first years of the Czechoslovak postal administration however were still characterized by a complex military and political situation, which also had an impact on the operation of the postal services. The district post office in Užhorod opened by the Czechoslovaks in October 1919 was closed in 1921 and the postal network in Carpatho Ukraine was then operated from the Slovak town of Košice. At the end of 1919 the first Czechoslovak stamps became available at some post offices in the area and gradually over the next year the other post offices were supplied with the well known and, with collectors, very popular stamps depicting the Prague castle, known as "Hradčany".

The towns of Čop and Surty

In all the preceding periods no exact borders of Carpatho Ukraine were defined. The area was mostly referred to as Upper Hungary, which also included Slovakia. When Slovakia together with the Czech lands were to establish the new republic of Czechoslovakia, the towns of Čop and Surty were considered part of Slovakia. That is why both towns do not really belong to Carpatho Ukraine during this period. This changed during period 9. The Hungarian administration attached both Čop and Surty to zone I (see chapter dealing with period 9, page 124) and ever since they have been part of Carpatho Ukraine.

Postage stamps valid during the Czechoslovak period

During the period when C.U was an integral part of the 1st Czechoslovak republic all stamps issued by the 1st republic were valid and have been used in Carpatho Ukraine.

The usage of the first stamps issued by the 1st Czechoslovak republic.

As already mentioned the political situation in Carpatho Ukraine was rather unstable in the year 1919 and the first Czechoslovak stamps became only gradually available at the post offices in the area. Bearing in mind that all Hradčany stamps lost their validity on the 30th of April 1921, it is easy to understand that covers from the area tied with Hradčany stamps are rather scarce and very much sought after by collectors. This scarcity is greater for documents with Hradčany stamps cancelled by a post office of a small village. At all post offices the Hradčany stamps became available before the new Czechoslovak cancellers and therefore the use of the old Hungarian date stamps was continued to cancel the new Czechoslovak postage stamps. Pristine covers are rare.

Map Carpatho Ukraine (Podkarpatská Rus) during the 1st Czechoslovak Republic
Note the towns of Čop and Surty are situated in Slovakia.

The Czechoslovak postal tariffs

1st Period 01-09-1918 until 14-05-1919

This period is not of interest for Carpatho Ukraine because the incorporation into the Czechoslovak republic was not then accomplished and Czechoslovak postage stamps were not available in the area.

2nd period 15-05-1919 until 14-03-1920

	Domestic	Foreign countries	Neighbouring countries*
Printed matter up to 50 grams priority	0.05 +0.02	0.10	0.05
Postcards	0.15	0.20	0.15
Letters up to 20 grams each 20 grams more	0.25 +0.05	0.50 +0.30	0.25 +0.05
Registration fee	+0.50	+0.50	+0.50
Special delivery within the villages and towns countryside	+0.60 +2.00	+0.60	+0.60
Delivered to addressee in person (use of the triangle "duručni" stamp)	+0.50	+0.50	+0.50

*) As neighbouring countries were considered Austria, Hungary, Yugoslavia, Poland, Germany and Western-Ukraine (Lajtabánát).

3rd period 15-03-1920 until 31-07-1920

	Domestic	Foreign countries	Neighbouring countries*
Printed matter up to 50 grams priority	0.05 +0.05	0.10	
Postcards	0.20	0.20	
Letters up to 20 grams each 20 grams more	0.30 +0.05	0.50 +0.30	
Registration fee	+0.50	+0.50	
Special delivery within the villages and towns countryside	+0.60 +3.00	+0.60	
Delivered to addressee in person (use of the triangle "duručni" stamp)	+0.50	+0.50	

*) During this period no special tariffs for the neighbouring countries existed.

4th period 01-08-1920 until 31-12-1921

	Domestic	Foreign countries	
Printed matter up to 50 grams priority	0.10 +0.10	0.25	
Postcards	0.40	0.50	
Letters up to 20 grams each 20 grams more	0.60 +0.20	1.25 +0.75	
Registration fee	+1.25	+1.25	
Special delivery within the villages and towns countryside	+1.00 +5.00	+1.00	
Delivered to addressee in person	+1.25	+1.25	

During this period no special tariffs for neighbouring countries existed.

5th period 01-01-1922 until 28-02-1937

	Domestic	Foreign countries	Neighbouring countries
Printed matter up to 50 grams	0.20*	0.50	0.50
Commercial printed matter up to 300 g. for each 50 grams	0.10* *		
Postcards	0.50	1.50	1.20
Letters up to 20 grams			
local destination	0.60		
others	1.00	2.50	2.00
each 20 grams more until 31-09-1925	+0.30	+1.25	+1.25
from 31-09-1925 until 28-02-1937	+0.30	+1.50	+1.50
Registration fee	+2.00	+2.50	+2.50
Special delivery			
within the villages and towns	+1.00	+5.00	+5.00
country side	+5.00		
Delivered to addressee in person	+2.50	+2.50	+2.50

The tariff for neighbouring countries was valid for: Hungary, Poland, Germany and Austria . For Romania from 21-04-1922 until 31-03-1937 for Italy from 01-04-1922 until 08-03-1928. For the Italian African colonies from 06-05-1922 until 08-03-1928, for Danzig from 01-11-1929 and for Yugoslavia from 01-01-1936 until 31-03-1937

*) The rates for printed matter were changed several times during this period.

The tariff of 20h. for weights up to 50 grams was only valid until 30-04-1923.

From 01-05-1923 until 30-09-1925 the rate was lowered to 10h.

On 01-10-1925 a further change was made between advertising printed matter and other printed matted

The rate for advertising printed matter amounted to 10h. for every 50 grams.

The rate for non advertising printed matter was 20h.

On 01-08-1926 the rates were changed again:

20h. up to 50 grams for advertising printed matter and

30h. up to 50 grams for non advertising printed matter.

For both types of printed matter 40h. had to be added for weights in between 50h. and 100h. and again

20 h.for each additional 50 grams above 100 grams.

* *) On 15-11-1934 a special tariff was introduced for commercial printed matter. The special newspaper stamps with overprint O.T. (abbreviation for Obchodní tiskoviny) had to be used.

6th period 01-03-1937 until 15-03-1939

	Domestic	Foreign countries	Neighbouring countries A	Neighbouring countries B
Printed matter up to 50 grams				
Advertising/non advertising	0.30/0.20	0.50	0.50	0.30
up to 150 grams	0.50/0.50			
up to 250 grams	0.80/0.80			
up to 500 grams	1.50/1.50			
up to 1000 grams	2.00/2.00			
Commercial printed matter up to 300 g. for each 50 grams	0.10* *			
Postcards	0.50	1.50	1.20	1.20
Letters				
up to 20 grams local/other	0.60/1.00	2.50	2.00	2.00
each 20 grams more		+1.50	+1.50	+1.20
up to 100 grams	1.10/1.60			
up to 250 grams	2.00/2.50			
Registration fee	+2.00	+2.50	+2.50	+2.00
Special delivery	+2.00	+5.00	+5.00	+4.00
Delivered to addressee in person	+2.50	+2.50	+2.50	+2.50

Neighbouring countries "A" : Hungary, Poland, Germany, Austria and Romania

Neighbouring countries "B" : only from 01-04-1937 for Yugoslavia, Romania , Greece and Turkey.

Main post office in Užhorod 1920

Same post office in 1938

Poste restante (left to be called for)

The extra fee for Poste Restante could be paid during the 5th tariff period either by the sender in stamps or by the addressee in postage due stamps. At the beginning of 5th tariff period (01-01-1922 until 30-04-1923) the amount was 50h. During the rest of period 5 it was reduced to 30h. At the start of period 6 it was increased again to 50h.

Czechoslovak stamps cancelled by Hungarian date stamps

As mentioned before Czechoslovak stamps became available before the new regular Czechoslovak date stamps were supplied to the Ruthenian (Carpatho-Ukrainian) post offices. For that reason the use of the available Hungarian date stamps was continued for some time. Below all these date stamps are listed for each of the 96 existing post offices. (The listing is in general as published in part 16-II of the Czechoslovak "Monografie Československých Známek").

75. UŽHOROD 2 – УЖГОРОД 2 (Ungvár 2)

a. UNGVÁR 2	(a)	(1919 – 1920)
b. UNGVÁR A2A	(b)	(..... -)
c. UNGVÁR B2B	(b)	(1919 – 1920)

a

b

In his hand book published in 1930 on the Czechoslovak date stamps from Austrian and Hungarian origin, Friedrich Leitenberger pictured a most remarkable cutting from a dispatch note having 2 date stamps of Ungvár 2 with a date in the Hungarian fashion (year-month-day) and one from the same post office with a date bridge showing the date in the opposite sequence (day- month-year). Nationalization was done by changing the Hungarian date sequence.

76. UŽOK – УЖОКЪ (Uzsok)

a. UZSOK ~ A ~	(5)	(..... -)
----------------	-----	-----------------

77. VARY – ВАРИ (Vari)

a. VARI	(1)	(1919 – 1920)
---------	-----	---------------

78. VELIKÁ BĚHAŇ – ВЕЛИКА БЪГАНЬ (Nagybegány)

a. NAGYBEGÁNY ~ * ~	(4)	(1919 – 1920)
---------------------	-----	---------------

79. VELIKÁ DOBRŇ – ВЕЛИКА ДОБРОНЬ (Nagydobrony)

a. NAGYDOBRONY ~ A	(9)	(1919 – 1920)
--------------------	-----	---------------

80. VELIKÁ KOPAŇA – ВЕЛИКА КОПАНЯ (Felsőveresmart)

a. FELSŐVERESMART ~ * ~	(4)	(1919 – 1920)
-------------------------	-----	---------------

81. VELIKÁ TARNA (Nagytarna) on 24-06-1921 the post office was transferred to Romania

a. NAGYTARNA ~	(4)	(1919 – 1920)
----------------	-----	---------------

82. VELIKÉ GEJOVCE – ВЕЛИКЪ ГЕЙОВЦЪ (Nagygejőcz)

a. NAGYGEJÖCZ	(4)	(1919 – 1920)
---------------	-----	---------------

83. VELIKÉ KOMŇATY – ВЕЛИКЪ КОМНЯТЫ (Magyarkomját) Post office not opened before 1925

- 84. VELIKÉ LOUČKY – ВЕЛИКЪ ЛУЧКИ (Nagy Lucska)**
a. NAGYLUCSKA BEREG VM (6) (1919 – 1920)
Bereg VM = Bereg county
for Velikij Begán see Veliká Béhaň
for Velikij Bereg see Berehy
for Velikoje Mužjovo see Mužijovo
- 85. VELIKÝ BOČKOV – ВЕЛИКИЙ БОЧКОВ (Nagybocskó)**
a. NAGYBOCSKÓ ~ A (9) (1919 – 1920)
b. NAGYBOCSKÓ ~ B - 72 - (..... -)
c. NAGYBOCSKÓ ~ C (9) (1919 – 1920)
- 86. VELIKÝ PALAD – ВЕЛИКИЙ ПАЛАД** Postoffice not opened before 1921
- 87. VELKÝ BEREZNÝ – ВЕЛИКИЙ БЕРЕЗНЫЙ (Nagyberezna)**
a. NAGYBEREZNA ~ A ~ (5) (1919 – 1920)
b. NAGYBEREZNA ~ B (9) (1919 – 1920)
c. NAGYBEREZNA ~ C (9) (1919 – 1920)
- 88. VOLOSIANKA – ВОЛОСЯНКА (Hajasd)**
a. HAJASD P.U. (6) (1919 – 1920)
P.U. is abbreviation of the Hungarian word Pályaudvar, which means railway station.
Date also in reversed order.
- 89. VOLOVÉ – ВОЛОВОЕ (Ökörmező)**
a. ÖKÖRMEZŐ (9) (1919 – 1920)
b. ÖKÖRMEZŐ (9) (..... -)
- 90. VOLOVEC – ВОЛОВЕЦЬ (Volovec)**
a. VOLOCZ ~ * ~ (4) (1919 – 1920)

a. IRHÓCZ ~ * ~ (4) (..... -)
- 92. VÝLOK – ВЪЛЮК (Tiszaujlak)**
a. TISZAUJLAK ~ A (9) (..... -)
b. TISZAUJLAK ~ B (9) (1919 – 1920)
c. TISZAUJLAK ~ D (9) (1919 – 1920)
- 93. VÝSKOVO NAD TISOU – ВЪЩКОВО НАД ТИСОЮ (Visk)**
a. VISK (2) (1919 – 1920)
date also in reversed order
- 94. ZÁHATÍ – ЗАГАТЯ (Hátmég)**
a. HÁTMÉG ~ (4) (1919 – 1920)
- 95. ZÁLUŽ – ЗАЛУЖ (Beregkisalmás)**
a. BEREGKISALMÁS* (4) (1919 – 1920)
- 96. ŽDĚNOVO – ЖДЕНЬОВО (Szarvasháza)**
a. SZARVASHÁZA ~ * ~ (4) (1919 – 1920)

Bi-sectioned postage stamps

Due to shortage of postage due stamps of 10h, the post office of Mukačevo used bi-sectioned 20h. postage due stamps to obtain the correct postage. The first use reported to the writer is from late 1919 and the last from December 1921.

Ladislav Novotný also mentions in his handbook issued in 1970 a bi-sectioned 20h. postage due stamp, used at the post office of Szolyva in the month of June 1921.

The pair of one whole and one diagonally bi-sected 20 h. postage due stamps were used to make up the 30h. postage on a replacement dispatch note sent by the post office of Mukačevo on 21-04-1921 to the addressee.

 95. ZÁLUŽ – ЗАЛУЖ
 96. ŽDĚŇOVO – ЖДЕНЬОВО

Date stamps 1919 – 1939

After WWI, it was impossible to quickly supply all post offices with new cancellers and to withdraw the old ones of Hungarian origin. The authorities had to prepare a new design for the date stamps to start with. A complicating factor was the Czech spelling of the names of the towns and villages in the Carpatho-Ukraine area. Further it had to be decided where to use bi-lingual date stamps and to agree on the Cyrillic name and spelling. Manufacturing several thousands of cancellers created a serious problem. In the new Czechoslovak republic no experience nor engravers were available to undertake this job. During the preceding periods all cancellers were produced either in Vienna or in Budapest. At the end of 1919 the first experimental cancellers were supplied to the post offices of Užhorod and Mucačevo and the gradual exchange of the old cancellers took place over the next few years, and this also included new ones for the travelling post offices, railway station post-boxes and the cancelling machines.

The development of the date stamps and types used

The design of date stamps had two basic requirements:

1. Its graphic lay-out.
2. The linguistic arrangement.

Over the period of Czechoslovak jurisdiction 5 main types of date stamps can be distinguished, used at the post offices in the Carpatho Ukraine area.

- Type A Double circle date stamps with the initials Č.S.P. and name only in the Czech language.
- Type B Double circle date stamps without the initials Č.S.P. and the name only in the Czech language.
- Type C Double circle date stamps with the initials Č.S.P. and bi-lingual name (Czech-Ruthenian).
- Type D Double circle date stamps without the initials Č.S.P. and bi-lingual name (Czech-Ruthenian).
- Type E Boxed date stamps, these are the postmarks of the railway station post boxes.

Sometimes subtypes can be distinguished by comparing the asterisk used at the beginning and the end of a town or village name. Another criterion for distinguishing sub types is the diameter of the date stamps. All date stamps used have a diameter of 30 mm. However at the post office of Nižní Verecký a date stamp of type D was used with a diameter of 23.5 mm.

Type A

Type B

Type C

Type D

Type E

Postmarks used at the above post offices and population in 1921

The date stamps are listed in alphabetical order of the post offices where they have been used. Akna Slatina however, renamed Slatinské Doly, can be found under the latter name. The same applies to Bělki, which can be found under Bílky.

k (1922-1938) |
| 3. MUKAČEVO*МУКАЧЕВО* | Type D | letter a (1933-1938) b (1933-1938)
c (1933-1938) d (1929-1931) e (1931-1938)
f (1931-1938) g (1929-1938) h (1925-1937)
ch (1935-1938) i (1929-1938) j (1933-1938)
k (1924-1933) l (1933-1938) m (1932-1938)
n (1933-1938) o (1936-1938) |

(1)

(2)

(3)

(3a)

The date stamp with letter "h" shows a different Cyrillic letter type. This is most noticeable in the shape of the "K".

different asterisks may appear in date stamp type D

42. MUŽIJOVO - МУЖИОВО (Nagymuszaly), population 1,647

- | | | |
|---|--------|----------------------|
| 1. VELIKOJE MUŽJOVO*ВЕЛИКОЕ МУЖЕВО*Č.S.P. | Type C | letter a (1920-1939) |
| 2. MUŽIJOVO*МУЖИОВО* | Type D | letter a (1929-1938) |

43. NERESNICE - НЕРЕСНІЦЯ (Nyéresháza), population 1,618

- | | | |
|--|--------|--------------------------------------|
| 1. NEREŽNICE*НЕРЕЖНИЦЕ*Č.S.P. | Type C | letter a (1920-1928) |
| 2. NERESNICE*НЕРЕСНИЦЯ*
(for Nižní Sinevír see Sinovír) | Type D | letter a (1928-191939) b (1936-1939) |

44. NIŽNÍ VERECKY - НИЖНЬ ВЕРЕЦКИ (Alsóvereczke), population 1,709

- | | | |
|---|--------|------------------------------------|
| 1. NIŽNI VERECKI*НИЖНИЕ ВЕРЕЦКИ*Č.S.P. | Type C | letter a (1921-1930) b (1923-1930) |
| 2. NIŽNÍ VERECKY*НИЖНЬ ВЕРЕЦКИ* | Type D | letter a (1929-1939) b (1929-1939) |
| 3. NIŽNÍ VERECKY*НИЖНЬ ВЕРЕЦКИ*
(for Olchovec see Vulchovce) | Type D | letter a (1939) b (1939) rare |

(1)

(2)

(3)

This date stamp of the type D is the only one having a diameter of 23.5 mm.

45. PALANOK - ПАЛЯНОК (Várpalanka), population 1,399

- | | | |
|----------------------------|--------|----------------------|
| 1. PALANOK*ПАЛАНОКЪ*Č.S.P. | Type C | letter a (1920-1936) |
| 2. PALANOK*ПАЛАНОКЪ* | Type D | letter a (1936-1938) |
| 3. PALANOK*ПАЛЯНОК* | Type D | letter b (1931-1938) |

(1)

(3)

46. PEREČÍN – ПЕРЕЧИН (Perecseny), population 2,351

- | | | |
|----------------------------|--------|------------------------------------|
| 1. PEREČÍN*ПЕРЕЧИНЪ*Č.S.P. | Type C | letter a (1920-19..) b (1920-1939) |
| 2. PEREČÍN*ПЕРЕЧИНЪ* | Type D | letter a (19..-1939) |
| 3. PEREČÍN*ПЕРЕЧИН* | Type D | letter c (1931-1939) |

47. PETROVO – ПЕТРОВО (Tiszapéterfalva), population 734

- | | | |
|--|--------|----------------------|
| 1. PETROVO nad TISOU*ПЕТРОВО НАДЪ ТИСОУ*Č.S.P. | Type C | letter a (1921-1929) |
| 2. PETROVO*ПЕТРОВО* | Type D | letter b (1929-1938) |

48. POLANA U SVALAVY – ПОЛЯНА (Polena), population 835

- | | | |
|-----------------------------|--------|----------------------|
| 1. POLANA*ПОЛЯНА*Č.S.P. | Type C | letter a (1920-1929) |
| 2. POLANA U SVALAVY*ПОЛЯНА* | Type D | letter a (1929-1939) |

49. POROŠKOV – ПОРОШКОВ (Poroskö), population 2,025

- | | | |
|-------------------------------|--------|------------------------------------|
| 1. POROŠKOVO*ПОРОШКОВО*Č.S.P. | Type C | letter a (1920-1928) |
| 2. POROŠKOVO*ПОРОШКОВО* | Type D | letter a (1928-1929) |
| 3. POROŠKOV*ПОРОШКОВ* | Type D | letter a (1929-1939) b (1928-1939) |

50. RACHOV – РАХОВ (Rahó), population 6,879

- | | | |
|--------------------|--------|----------|
| 1. RACHOVO*Č.S.P.* | Type A | letter a |
|--------------------|--------|----------|

According to the Czechoslovak "Monografie part 17 II", the date stamp of Rachov Type A (the monolingual type with the letters Č.S.P) was never used at the post office.

This picture postcard documents however it was used on 31-05-21

Collection Dr. Walter Rauch

- | | | |
|--------------------------|--------|--|

96. ŽDĚŇOVO – ЖДЕНЬОВО (Szarvasháza), population 710

1. ŽDEŇOVÁ*ЖДЕНЬОВА*Č.S.P. Type C letter a (1921-1929)
2. ŽDĚŇOVO*ЖДЕНЬОВО* Type D letter a (1929-1939)

Registered cover sent on 10-04-1928 from Chust to Prague. Date stamp type C with letter "b". Monografie part 17, states this date stamp was used till 1925. This cover proves the post office still used it during 1928. Postage 1 Kč. and 2 Kč. for the registration.

Registered special delivery cover sent on 22-04-1932 from Nižni Verecky to Upice in Bohemia. Date stamp type D, with letter "b" postage 1 Kč., registration 2 Kč. and special delivery 1 Kč., total 4 Kč.

Picture postcard sent on 14-10-1920 from Mukačevo to Plzen. Date stamp type A with letter "h" From 01-08-1920 till 31-12-1921, the postage for a picture postcard amounted to 40 h.

Picture postcard sent from Berehovo to Prague. For the cancellation of the stamp, date stamp type E was used. At some railway stations without a post office a post box was available. The emptying of these boxes was the duty of an employee of the nearest post office or of the railway who passed on the mail to the travelling post office. In case the quantity of mail was big, the post man could cancel the mail himself by means of a special date stamp destined for this purpose. The shape was rectangular with straight or slightly rounded corners. It underwent certain changes in the years 1920 to 1938.

The use of franking machines

In Carpatho Ukraine only two companies used a franking machine. One is the company "Latorica" with branches at Mukačevo and Svalava and the other, a health insurance company, which used it at its branches at Chust and Užhorod.

1) "OKRESNÍ NEMOCENSKÁ POJIŠŤOVNA" means Health insurance district

CHUST / ХУСТ 1930 – 1939
 UŽHOROD I / УЖГОРОД I 1929 – 1938

2) "LATORIA" which was an industrial company

MUKAČEVO / МУКАЧЕВО 1937 – 1938
 SVALAVA / СВАЛЯВА ? – 1939

The franking machines always used red ink

Cover sent on 05-02-1938 from Mukačevo to Prague-Karlin.

Cover sent on 17-01-1933 from Chust to Koprivnica in Slovakia. The marking "Tiskopis" means printed matter. In accordance with the tariff valid from 01-01-1922 until 28-02-1937, the postage amounted to 20h. for weights up to 50 grams.

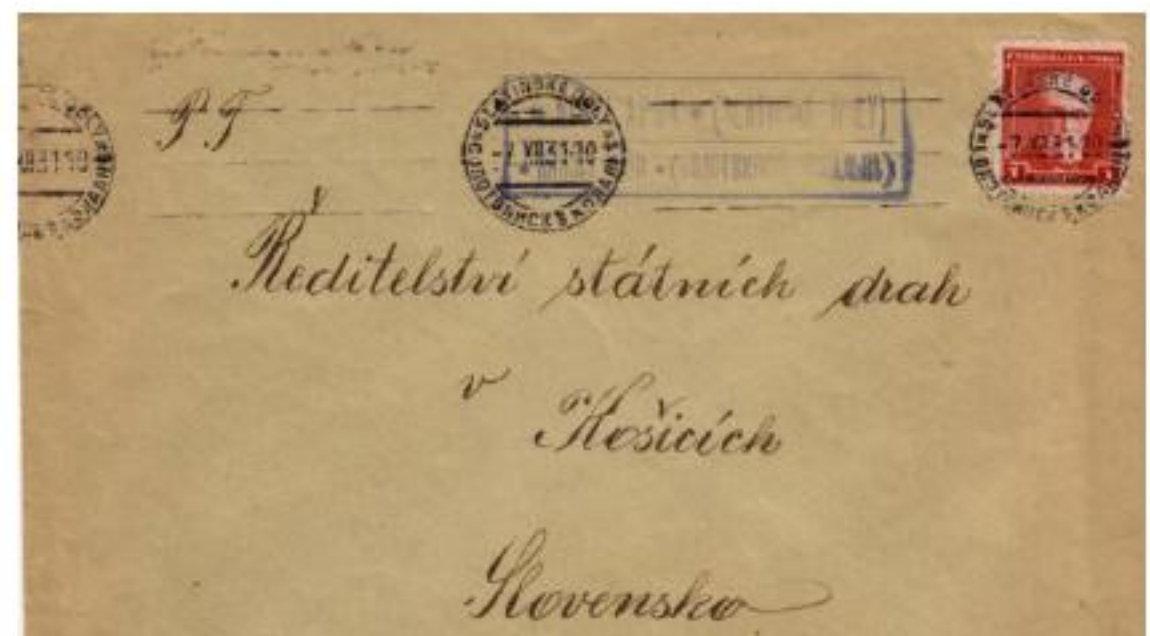

The machine franking of the Svalava branch of the LAT Company. (At the Jiří Majer Auction of 13-09-2008)

Machine cancellations at Post offices

Two types can be distinguished: A: with wavy lines
 B: with straight lines

Type "A" machine cancellation
 Used at MUKAČEVO / МУКАЧЕВО until 1938
 and at UŽHOROD I / УЖГОРОД I until 1938.

Type "B" machine cancellation
 Used at BEREHOVO / БЕРЕГОВО until 1938
 and at SLATINSKÉ DOLY / СОЛОТВИНСКЪ КОЛАПЪНЪ.

It was also used in a mono lingual version at Čop. But as Čop was part of Slovakia during Czechoslovak rule it was not a part of C.U. It is mentioned here as other collectors may adopt a different definition of Carpatho Ukraine during this period.

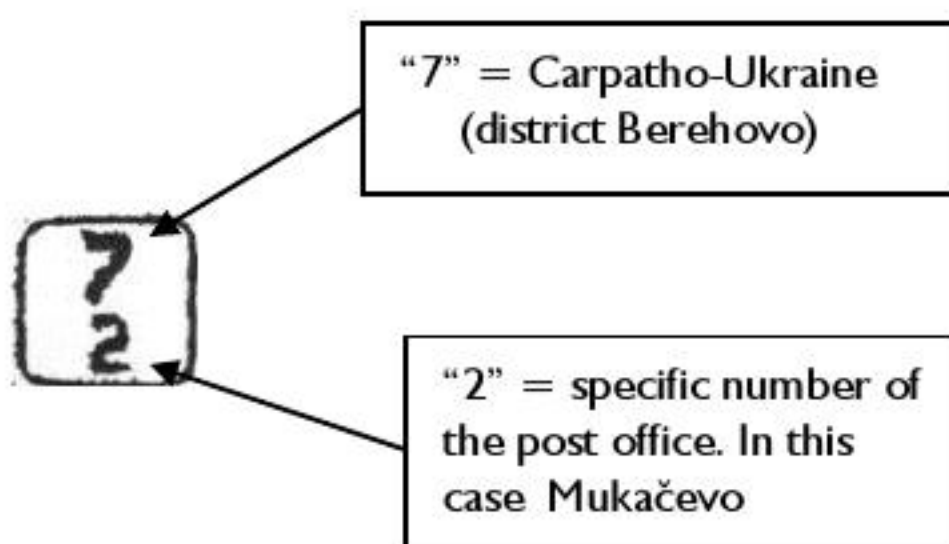

4 Money-orders (in Czech Poštovní Poukázka in Slovak Poštová Poukázka)

During the postal administration of the Czechoslovak post several forms were used for money-orders. The publication issued by the German "ARGE Tschechoslowakei" titled "Spezialkatalog der Tschechoslowakischen Ganzsachen Teil IIA" provides perhaps the most detailed information on the different types.

To identify whether the money-order originated from Carpatho Ukraine, the date stamp of the post office is of course the main proof. There is however a second indication on the money-orders giving evidence that it was sent from this area.

For administrative purposes the Czechoslovak post introduced a district post mark to be used on money-orders. This small square hand stamp shows two numbers, one placed underneath the other. The upper one indicates the district and the bottom one the post office. The number "7" was allocated to Carpatho Ukraine. The list below indicates, which number was used at the post office of the Carpatho Ukraine district.

1 BEREHOVO	48 POROŠKOVO	73 VELIKÁ KOPAŇA
2 MUKAČEVO	49 RACHOV	74 VELIKÁ BĚHAŇ
3 UŽHOROD I	50 RÁKOŠÍN	75 BEREHY
4 SLATINSKÉ DOLY	51 ROSVEGOV	76 VELIKÝ BOČKOV
5 BARKASOVO	52 SEREDNÉ	77 VELIKÝ PALAD
6 BAŤOVO	53 SEVLUŠ	78 VELIKÉ GEJOVCE
7 BÍLKY	54 SIRTE	79 VELIKÉ LOUČKY
8 BROD NAD IRŠAVOU	55 SEKERNICE	80 VELKÝ BEREZNÝ

44 PALANOK		
45 PEREČÍN		
46 PETROVO		
47 POLANA u SVALAVY		

Cutting of a money-order used in Izki on 01-08-1933. The amount must have been between 1 and 200 Kc. The standard charge was 50h. +50h. extra for each 200 Kč. The little square mark shows the "7" of Carpatho Ukraine and the "91" of Izky.

It is not known to the writer when these district postmarks were introduced, probably at the end of the twenties. Some remarks need to be made:

- 1) 7-29 Has never been used.
- 2) 7-54 This was used by the post office of Sirte. During 1929 Sirte was however annexed to Slovakia and renamed Surty. Here the Slovak district postmark 6-31 I was used. We come across Surty (Szürte in Hungarian) once again during the Hungarian occupation of Zone I (see page 126). During 1945 it was transferred to the Soviet union and was renamed Strumkova.
- 3) Čop was also part of Slovakia during Czechoslovak rule and used number 6-45. It was also occupied by the Hungarians as part of zone I and renamed Csap. During 1945 it also went to the SU and was renamed Chop and in 1969 renamed again Tchop.
- 4) 7-70 Was planned for Užok, however the post office was closed on 31-12-1923 and the number has never been used.
- 5) 7-90 Was used by the radio-graphic telegram office of Košice which was dealing with the financial administration of the district "Carpatho Ukraine".
- 6) The post office of Hudlovo amalgamated in the year 1924 with the post office of Antalovce and used also 7-95.

Postal rates for money orders

Period	Valid for	Postal tariff
15-05-1919 until 14-03-1920	domestic use +A and H (1) Germany other European countries	25h up to 50 Kč + 5h for each 50 Kč more 25h up to 50 Kč + 25h for each 50 Kč more 25 h up to 50 Kč + 25h for each 25 Kč more

(1) Austria and Hungary

(2) To Great Britain, Northern Ireland and countries where the British Royal Mail dealt with money-orders.
The practice was however that money-orders were not freely admitted.

Cashing fees for money orders

When cashing a money order at a post office a special "cashing fee" was charged. A postage due stamp for the amount of the fee was put on the money order. The amount of the cashing fee is given in the table below.

Period	Cashing fee
15-05-1919 until 14-03-1920	10h up to amounts of 20 Kč 20h up to amounts of 1000 Kč 30h for each 1000 Kč in excess of 1000 Kč
15-03-1920 until 31-07-1920	10h up to amounts of 20 Kč 30h up to amounts of 1000Kč 30h for each 1000 Kč in excess of 1000 Kč
01-08-1920 until 31-12-1921	20h up to amounts of 20 Kč 50h up to amounts of 1000 Kč 50h for each 1000 Kč in excess of 1000 Kč
01-01-1922 until 30-09-1925	50h up to amounts of 100 Kč 1 Kč up to amounts of 1000 Kč 1 Kč for each 1000 Kč in excess of 1000 Kč
01-10-1925 until 15-03-1939	50h up to amounts of 100 Kč 1 Kč up to amounts of 1000 Kč 2 Kč up to amounts of 5000 Kč 4 Kč up to amounts of 10000 Kč 4 Kč for each 10000 Kč in excess of 10000 Kč

Money-order for an amount of 350 Kč. sent from Prague to Strabičovo-Goronda on 21-08-1937. Received there on 24-08-1937 and the next day the money was collected (See date stamp on postage due stamp). The fee is calculated as follows: 1.50 Kč. for the first 200 Kč. and 0.50 h. for each further 200 Kč. or part of it. In this case $1.50 + 0.50 = 2$ Kč. During this period the cashing fee for money orders up to 1000 Kč amounted to 1 Kč.

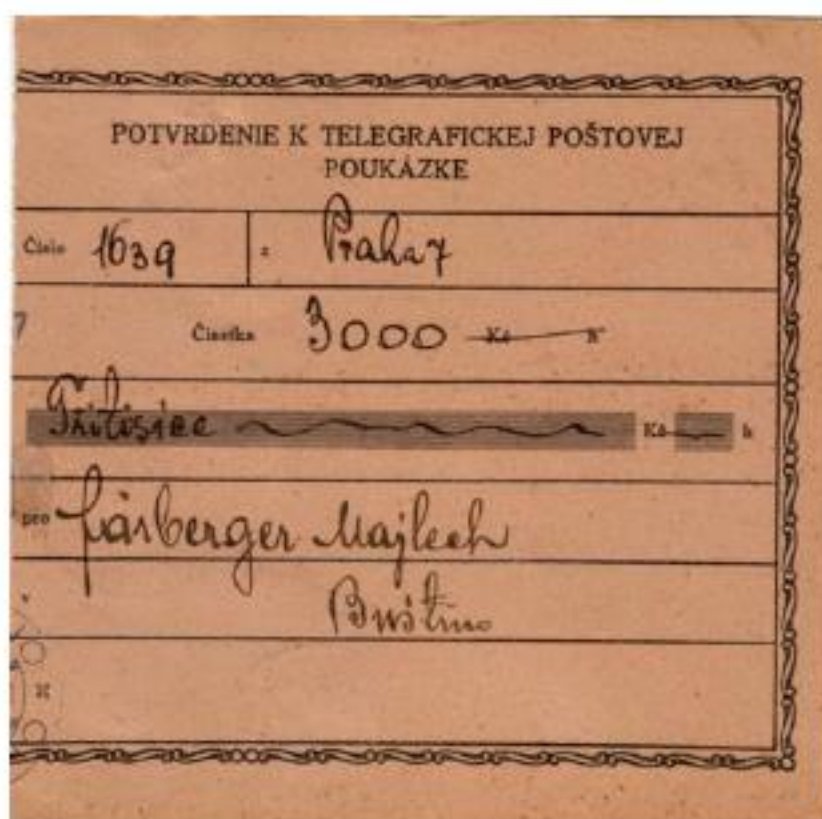

Special forms were used for international money-orders (Mezinárodní poštovní poukázka)

International money-order to Jerusalem, sent from Chust on 04-08-1938. Value in British old currency £1-7s-7d. This amount equals 200 Kč. as is indicated in the bottom right corner. Basic tariff 1.50 Kč. + 0.50 h. for each 100 Kč. = $1.50 + 2 \times 0.50 = 2.50$ Kč.

Note the little square mark of Chust in Carpatho Ukraine.

Money-orders could also be transmitted by telegraph (Potvrdenie k telegrafickej poštovej poukázke). The literal translation of this Slovak sentence reads: "By telegraph confirmed money-order". Postal forms in the Slovak version were predominantly used in Carpatho Ukraine.

Money-order confirmed by telegraph from Prague to Buštino. Confirmation received in Buštino on 17-09-39. The amount was 3000 Kč. The fee was already paid in Prague by the sender. The cashing fee of 2 Kč was to be paid by the recipient.

The money order-part of a dispatch note sent C.O.D. (Dobierková Poštová Poukázka)

This is the money-order part of a dispatch note, belonging to a consignment sent C.O.D.

The form consists of 2 parts. Both parts could be separated by a perforation.

The part not shown is the dispatch note and the part shown here is the money-order part.

Dispatch note for parcels with and without declared value

Tariffs valid during this period

tariff periode	tariff valid		Total weight up to				surcharge for declared value		R-fee	Urgent	special delivery 4)	
	from	until	5kg	10kg	15kg	20kg	min	+ extra for each				
I	28-10-1918 – 14-05-1919	Slovakia (fi and K)	1.— 0.70	2.20 1.50	3.20 2.50	4.20 3.50	- -	0.10 for each 300 0.10 for each 300	0.25 0.25	1.20 ?	1.00/2.00 ? ?	
II	15-05-1919 – 14-03-1920		1.20	2.60	3.80	5.—	0.50	+ 0.20 for each 300	0.50	1.20	1.00/2.00	
III	15-03-1920 – 31-07-1920		2.—	4.—	6.—	8.—	0.50	+ 0.30 for each 300	0.50	1.50	1.50/3.00	
IVa	01-08-1920 – 14-04-1921		3.—	6.—	12.—	16.—	2.—	+ 1.— for each 1000	1.25	3.00	2.00/5.00	
IVb	15-04-1921 – 14-05-1921	within towns and villages within the country	3.— 4.00	6.— 8.—	9.— 12.—	12.— 16.—	2.— 2.—	+ 1.— for each 1000 + 1.— for each 1000	1.25 1.25	3.00 3.00	2.00/5.00 2.00/5.00	
IVc	15-05-1921 – 31-12-1921		tariffs are the same as period IVb, but were paid in cash									2.00/5.00
V	15-05-1921 – 28-02-1937		tariffs changed a number of times during this period. No summary is provided of these changes as they were paid in cash. An exception was the fee for special delivery which was paid in stamps From 01-10-1925 standard fee								2.00 1.00	6.00 1.00
VI			No summary of the tariffs is provided as again these were paid in cash, with the same exception for special delivery which fee was paid by using postage stamps This fee amounted to								3.00	3.00

FOR tariffs to foreign countries see Klim catalogue page 615

- 1) Before the total postage for a parcel can be established a number of additional fees have to be added to the basic postage depending on which additional services were required, such as a return receipt, special- or urgent delivery, registration and/or insurance.
- 2) In case the parcel was sent with a declared value an additional fee was charged for insurance.. During periods I, II and III this was a set amount for each 300 Kčs of the declared value and during periods IVa and IVb a set amount for each 1000 Kčs
- 3) The fee for a return receipt could be added. A return receipt was sent to the sender of the parcel a a confirmation of receipt by the addressee.
- 4) The sender could require urgent delivery, for which again an additional fee was added to the basic postage.

- 5) The fee for special delivery (express delivery) was dependent whether the parcel was to deliver within the working area of the recipient post office or without this area. The fee left of the slash is for within the working area and right of the slash without this area.
During tariff period VI this additional fee was doubled in case a delivery was required during night hours (between 22.00 and 0600h)
- 6) During tariff periods I and II domestic postal rates were also valid for parcels sent to the following foreign countries: Austria, Hungary, Yugoslavia, Poland and West-Ukraine. Also for some German areas (Silesia, Saxony, Bavaria, Württemberg, Thuringia and Baden), whilst for other parts of Germany the postage for a parcel up to 10 kg amounted to Kčs 2.60 (only during tariff period I), up to 15 Kg to Kčs 4.40 (Tariff periods I and II) and for a parcel up to 20 kg to Kčs 6.20 (Tariff periods I and II). Parcels were not freely allowed into other countries. Even the delivery of parcels to former Austro-Hungary and Germany was heavily restricted or sometimes completely stopped.
- 7) It was not possible as yet to establish the postage rates in Slovakia. For example, from 15-06-1918 a war tax was applied to the normal postage, which amounted to 20 forint. It is not clear whether this war tax was still in force after the creation of the new Czecho-Slovak Republic. A number of post offices in Slovakia changed over to the rates used in Bohemia as early as during the validity of tariff period I.
- 8) At the beginning of tariff period IV unrestricted parcel service was only possible with Austria and Germany.
- 9) For parcels sent abroad and coming from abroad the fees for all extra services were stated in "gold francs"
The rate of exchange to the Crown was published in the Bulletin of the Ministry of Post and Telegraphs (during 1922 this rate changed 5 times.

The additional fee for BULKY PARCELS: During tariff period I this additional fee was dependant of the weight of the parcel. Up to 5kg it amounted to Kčs 0.40, up to 10 kg Kčs 1.00, up to 15 kg Kčs 1.50 and up to 20 kg Kčs 2.00. During tariff period II tot IIV **50% extra of the standard postage.**

Dispatch note for a parcel of 5 kg, sent from Deutsch Brodek/Brodek u Konice to Mukačovo on 05-03-1921
Declared value 1000 Kčs.

Tariff period IVa (01-08-1920 until 14-04-1921)

Postage 5 kg parcel: 3 Kčs

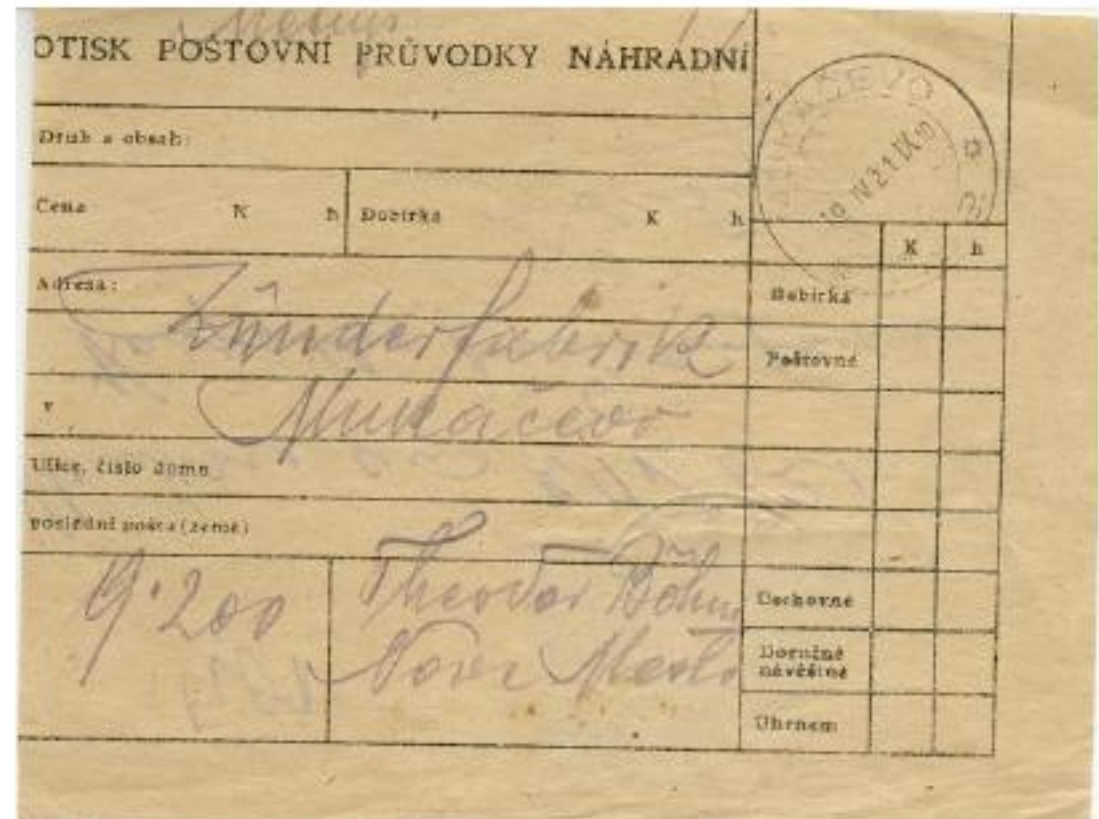

Insurance for 1000Kčs 3 Kčs

Total postage 6 Kčs 6 postage stamps of 100h are used to pay the postage.

The dispatch note was sent to the addressee to advise him/her a parcel was received, for the addressee to collect. For this service a 30h fee was to be paid by the addressee and for that reason for an amount of 30h postage due stamps were affixed to the dispatch note. Interesting to note is that the Mukačovo post office used a diagonally bi-sectioned 20h postage due stamp to obtain the correct tariff of 30h

In this case the addressee Mr R.Brody collected the parcel on 10-03-1921 He paid the 30h fee, the postage due stamps were cancelled and he signed for receipt of the parcel

The replacement dispatch note

The dispatch note was sent separately by ordinary letter mail to the post office of the addressee. A situation could arise that the parcel arrived before the dispatch note was received, which could lead to piling up of parcels more particular at post offices handling a larger amount of parcels. To overcome this situation a replacement dispatch note was used the "OTISK POSTOVNÍ PRŮVODKY NÁHRADNÍ". This replacement dispatch note was sent to the addressee as soon as the parcel had arrived and the dispatch note was still missing. The same 30h fee had to be paid and for that reason the postage due stamps were affixed to this form before it was sent to the addressee.

SPECIAL CANCELLATIONS FOR MONEY-ORDERS

In the year 1937 some post offices in Czechoslovakia started with the automatic handling of money-orders. They used special devices for the cancellation of the postage stamps. This also happened at Užhorod and Mukačevo. The one used at the post office of Užhorod is slightly different from the one used at Mukačevo

The special hand stamp with the number of Mukačevo

SPECIAL CANCELS WITH ADVERTISING TEXTS

At the post office of Užhorod several automatic canceling devices were used with an advertising text. Some examples are shown here.

Telegram service

The Czechoslovak postal administration issued telegram forms with imprinted Hradčany (Prague Castle) stamps in the year 1919. These were replaced in 1921 by forms with imprinted "liberated Republic" stamps. The last form with an imprinted stamp was issued in the year 1927. From 1930 onwards only forms without imprinted stamps were used.

This telegram was sent on 21-10-1935 from Košice to Berehovo

On request however a confirmation could be given that a telegram was presented for transmission. For this confirmation a special form was used in Slovak called a "Poistenka". In Carpatho-Ukraine mainly the Slovak version of the Czechoslovak postal forms was used. For this service a fee of 15h. was charged and therefore a postage due stamp of 15h. was imprinted on the poistenka.

"Poistenka", issued at Užhorod on 22-10-1919 for a telegram sent to Žilina. The fee for the telegram was 18.50 Kč. as is stated on this form. On top of this the 15h fee for the poistenka was charged. On 27-04-1920 the fee for this service was increased from 15h up to 50h.

Larger post offices used a rubber hand stamp to mention the new price. Smaller ones used handwriting.

Example of indicating the increased price by using a rubber hand stamp. *)

*) It not could be established if this also happened in Carpatho Ukraine.

The old forms with the imprinted 15h stamp were used until 1930 when they were replaced by the one pictured here. The Slovak version was ready in 1931.

The Czechoslovak Pofis catalogue of 2001 "ČESKOSLOVENSKÉ CELINY 1918 – 1992 part II" mentions the existence of a bilingual Slovak/Hungarian one.

Up till now the writer has never seen one.

The postmarks of the postal agencies in Carpatho Ukraine

During the Czechoslovak postal administration a total of 27 postal agencies were operational in Carpatho Ukraine. Some simply continued to operate after the transfer from Hungary to the new Czechoslovak republic. The first new postal agency was opened on the 1st of December 1923 in Selce. All postal agencies were equipped with rubber or metal bilingual hand stamps (Czech-Ruthenian). The exception was the temporal postal agency in the military training camp Křivá, which used a monolingual Czech one. The postmark of the postal agency was intended only to indicate the place of posting and was placed next to the postage stamp. The cancellation of the postage stamp was performed by means of the date stamp of the post office to which the postal agency was subordinate, or by a travelling post-office which had a connection to the village where the postal agency was operating. Two postal agencies viz. Kostrino and Užhorod letiště (Užhorod airport) used metal date stamps and were authorized to cancel postage stamps. The last postal agency opened by the Czechoslovak postal administration was Saldoboš on the 1st October 1938.

 HALMEI – KOŠICE * 992 a (1927 – 1937) b (1927 – 1937) c (1927 – 1937)
 KOŠICE – KRÁLOVO nad TISOU * 992 a (1937 – 1938)
 KRÁLOVO nad TISOU – KOŠICE * 992 a (1937 – 1938)

Line 993 1922 – 1938
 Košice – Slovenské Nové Mesto – Čop – Berehovo – Královo nad Tisou – Teresva – Jašina

The following railway section had their own postmark:

KIRAL'HAZA – JASINA * Č.S.P. / 993 a (1922 – 1924) b (1922 – 1924)
 JASINA – KIRAL'HAZA * Č.S.P. / 993 a (1922 – 1924) b (1922 – 1924)
 KOŠICE – KIRAL'HAZA *** 993 a (1924 – 1927) b (1924 – 1927)
 KIRAL'HAZA – KOŠICE *** 993 a (1924 – 1927) b (1924 – 1927)
 KOŠICE – JASINA *** 993 a (1925 – 1938) b (1925 – 1938)
 JASINA – KOŠICE *** 993 a (1925 – 1938) b (1925 – 1938)
 KOŠICE – JASIŇA *** 993 a (1927 – 1938) b (1927 – 1938)
 JASIŇA – KOŠICE *** 993 a (1927 – 1938) b (1927 – 1938)

This is the date stamp used from 1925 until 1938. Jasina is spelled without a haček on the "n". This date stamp appears with the distinguishing letters "a" and "b".

This is the date stamp used from 1927 until 1938. Jasiňa is now spelled with a haček on the "ň". Also the shape of the "3" in 993 is different. This date stamp appears with the distinguishing letters "a" and "b".

Line 994 1925 – 1927*)
 Královo nad Tisou (Kiráľháza) – Teresva – Jasina

The following railway sections had their own postmark:

KIRAL'HAZA – JASINA *** 994 a (1925 – 1926) b (1925 – 1926)
 JASINA – KIRAL'HAZA *** 994 a (1925 – 1926) b (1925 – 1926)

*) Monografie Československých známek part. 17-II states this date stamp was used until 1926. However proof is available it was still used during 1927

Line 1001 Čop – Užhorod – Perečín – Veľký Berezny – Stavné – Volosianka – Užok

The following railway sections had their own postmark:

ČOP – UŽOK * ЧОПЪ – УЖОКЪ * 1001 a (1921 – 1938)
 UŽOK – ČOP * УЖОКЪ – ЧОПЪ * 1001 a (1921 – 1938)

 UŽOK – ČOP * УЖОК – ЧОП b (1930 – 1938)

Line 1003 1922 – 1938
 Užhorod – Velke Kapušany (Slovakia) – Bánovce nad Ondavou (Slovakia)

The following railway sections had their own postmark:

UŽHOROD – BANOVCÉ nad ONDAVOU / Č.S.P. / 1003 (1922 – 1930)
 BANOVCÉ nad ONDAVOU – UŽHOROD / Č.S.P. / 1003 (1922 – 1930)

UŽHOROD – BANOVCÉ nad ONDAVOU / 1003 (1930 – 1939)
 BANOVCÉ nad ONDAVOU – UŽHOROD / 1003 (1930 – 1939)

Line 1005 1920 – 1938
 Baťovo (Baťu) – Mukačevo – Činaďovo – Svaljava – Volovec – Lawoczne (Poland)

The following railway sections had their own postmark:

BAŤU – VOLOVEC * БАТЮ – ВОЛОВЕЦЬ * 1005 a (1920 – 1927)
 VOLOVEC – BAŤU * ВОЛОВЕЦЬ – БАТЮ * 1005 a (1920 – 1927)
 BAŤOVO – LAWOCZE * 1005 a (1927 – 1938)
 LAWOCZE – BAŤOVO * 1005 a (1927 – 1938)

This is the first date stamp used from 1920 until 1927

Line 1008 1921 – 19..
 Berehovo (Beregsas) – Ardov – Iršava – Dovhé (Dovhoje) – Kušnica

The following railway sections had their own postmark:

BEREGSAS – DOVHOJE * ВЕРЕГСАС – ДОВГОЕ * 1008 a (1921 – 1930)
 DOVHOJE – BEREGSAS * ДОВГОЕ – ВЕРЕГСАС * 1008 a (1921 – 1930)
 BEREHOVO – KUŠNICE * БЕРЕГОВО – КУЩНИЦЯ * 1008 a (1930 – 1938)
 KUŠNICE – BEREHOVO * КУЩНИЦЯ – БЕРЕГОВО * 1008 a (1930 – 1938)

Line 1011 1925 – 1932
 Kráľovo nad Tisou (Kiral'haza) – Chust – Teresva – Camara la Sighet (Romania) – Baciocoiul Mare (Romania) – Rachov – Kvasy – Jasina

The following railway sections had their own postmarks:

KIRAL'HAZA – JASINA *** 1011 a (1925 – 1932) b (1925 – 1932)
 JASINA – KIRAL'HAZA *** 1011 a (1925 – 1932) b (1925 – 1932)

The following further postmarks can be found without a line number (train guard date stamps)

This list is not complete and additional ones may be found.

UŽHOROD – ANTALOVCE * Č.S.P. * a (1920 – 1925)
 ANTALOVCE – UŽHOROD * Č.S.P. * a (1920 – 1925)
 UŽHOROD – ANTALOVCE * УЖГОРОДЬ – АНТАЛОВЦЕ * Č.S.P. (1925 – 1936)
 ANTALOVCE – UŽHOROD * АНТАЛОВЦЕ – УЖГОРОДЬ * Č.S.P. (1925 – 1936)
 UŽHOROD – ANTALOVCE + УЖГОРОД – АНТАЛОВЦЕ + a (1936 – 1938)
 ANTALOVCE – UŽHOROD + АНТАЛОВЦЕ – УЖГОРОД + a (1936 – 1938)
 ČOP – UŽHOROD + a (1920 – 19..)
 UŽHOROD – ČOP + a (1920 – 19..) also same cancel, but with +++ used during 1936
 MUKAČEVO – BAŤU + МУКАЧЕВО – БАТЮ + a, found used during 1930
 MUKAČEVO – BAŤOVO + МУКАЧЕВО – БАТЬОВО + a, found used during 1934 – 1937
 NERESNICE – TERESVA * НЕРЕСНИЦЯ – ТЕРЕСВА *

MAIL OF THE CZECHOSLOVAK ARMY BEFORE THE MOBILIZATION OF 1938

Czechoslovak Army Units "Pěší Pluk 19 and 36" (19th and 36th Infantry regiment) were encamped in old Hungarian Army Barracks in Mukačevo, taken over by the Czechoslovak Army. Only official correspondence from the Army was exempt from paying postage.

The old Hungarian Army barracks in Munkács (Mukačevo)

and the same building when used by the Czechoslovak Army

Official registered letter, sent by the armed forces. It was sent from Mukačevo on 31-12-1937, before the mobilization of 1938. The marking "Věc úřední porta prosta" means: official missive, free from paying postage.

pesi pluk 36, pictured in front of the Munkačevo barracks (1931)

The rear of above card with text "Mukačevo Kasárna pěš. pl. 19".

CZECHOSLOVAK FIELD POST DURING THE MOBILIZATION OF 1938 AND ITS PRESENCE IN CARPATHO UKRAINE

The main source for information on this subject are some articles written by Miroslav Vostatek and published in "Sammler express" number 4/195 or in the Czech periodical Filatelie, which were translated by Henry Hahn and published in the Czechoslovak Specialist. Vol. XLIV of April 1982. The information as given by Dr Simady and Miroslav Blaha in their respective handbooks is very limited. Also additional information obtained from Dr. Kobelbauer and Brian C. Day made it worth while to rewrite the chapter on this subject as published in the first printing of this handbook..

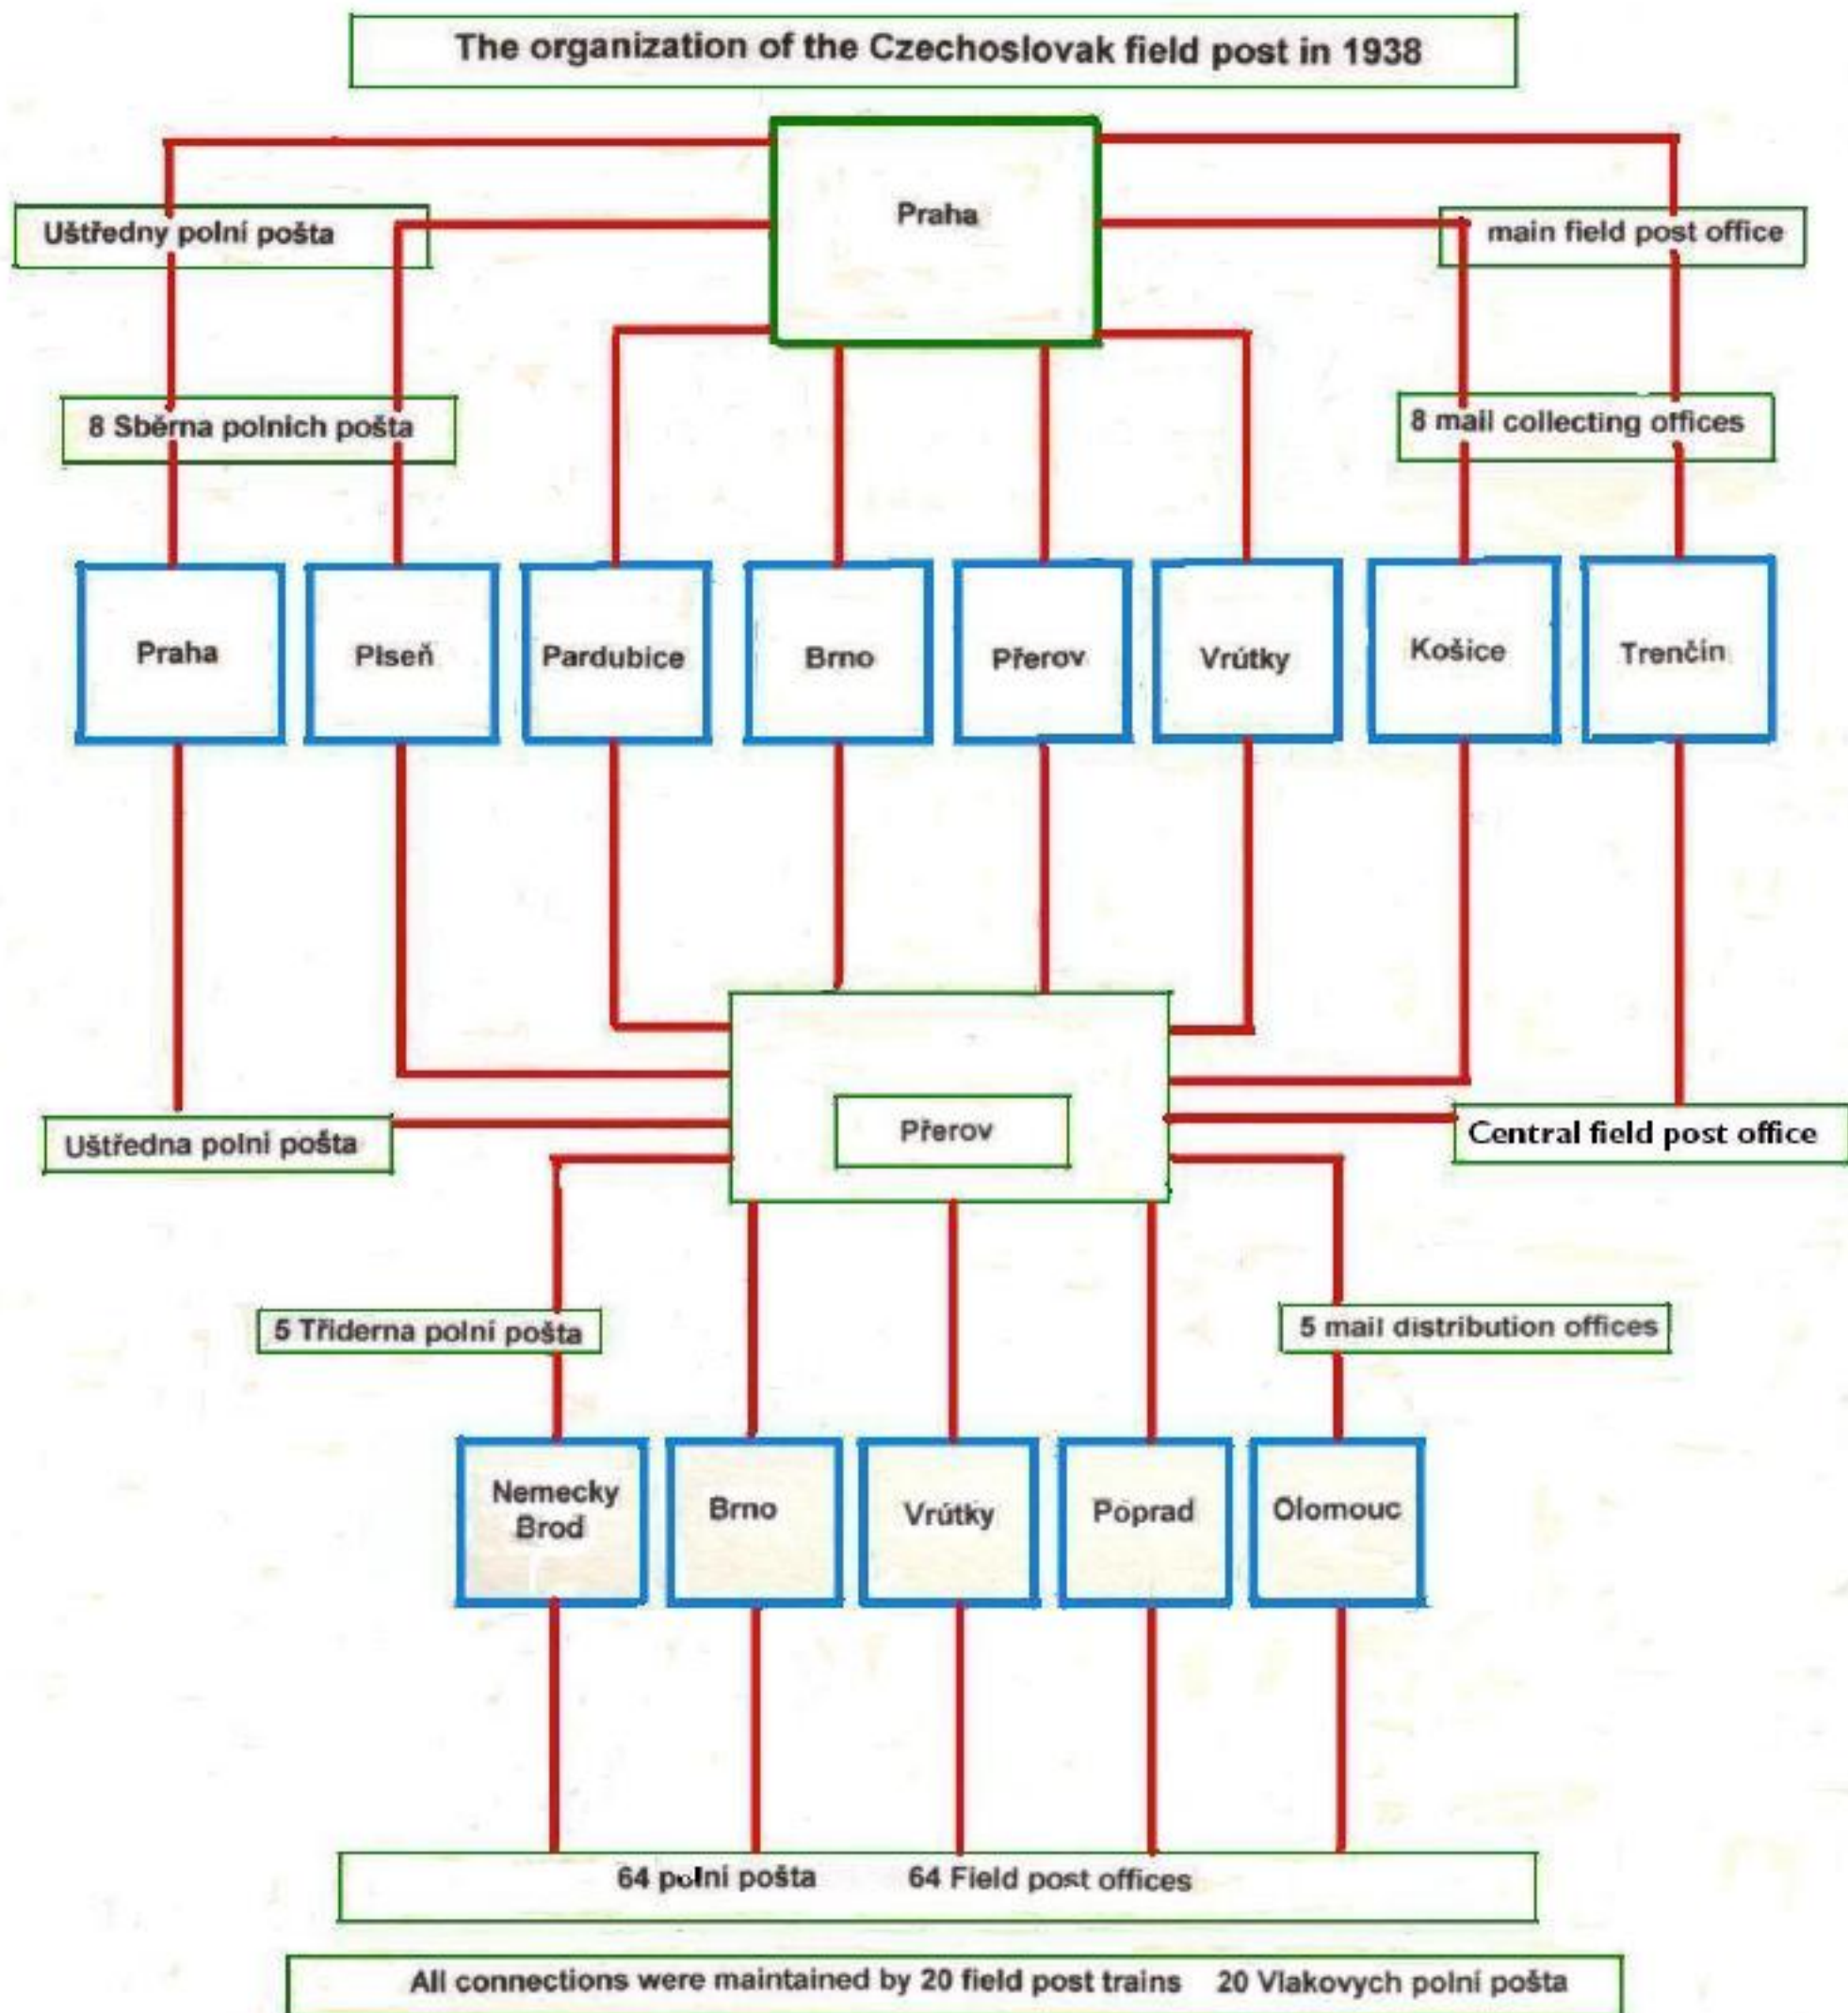

On the 23rd September 1938 the Czechoslovak government ordered a mobilization of its armed forces due to the tense situation with Hitler Germany. The immediately organized field post started to operate on the 1st October 1938 and closed on the 6th of December 1938, by order of the Ministry of National Defence no. 52287/IV-38. Field post 12 however was ordered to accept mail up to 7 p.m. and to continue deliveries to assigned units for 3 days, i.e. to 7 p.m., December 9, 1938.

Each Field post office was headed by a commanding officer, who had at his disposal a deputy commanding officer and seven soldiers.

Only field post offices 12, 24 and probably 29*) were operational within Carpatho Ukraine during the period of the mobilization of the Czechoslovak army. In his article published in the "Sammler expres", Mr.Vostatek mentions the following locations for field post office 12, 24 and 29 and the periods they were operational.

*) see further remarks on PP29 on pages 101 and 102

Polni Pošta 12	Užhorod Perečin	01-10-1938 until 20-10-1938 (see remark on page 101 under heading Polni Pošta 12) 21-10-1938 until 06-12-1938
Polni Pošta 24	Mukačevo Svaljava	01-10-1938 until 20-10-1938 21-10-1938 until 06-12-1938
Polni Pošta 29	Užhorod	02-10-1938 until 04-11-1938

The following date stamps were used by the field post offices in Carpatho Ukraine

12 without letter

12 letter b

24 letter a

24 letter b

29 letter a

29 letter b

POSTAL RATES FOR MEMBERS OF THE ARMED FORCES

All normal letters and postcards were free for members of the armed forces. In case a soldier wanted to send a registered letter he had to pay the registration fee. An exception was registered service mail, which was also free. It was however required to state on the cover that the letter was an official service letter; irrespective of whether sent by field post or by normal mail connections.

Polní Pošta 12

Most of the documents in the known collections are originating from PP 12. Mr. Vostatek mentions in one of his articles Josef Kasal as being the commander of this field post office. Before the mobilization he was employed as a postman of the travelling post office on the line Oderberg-Kaschau.

arrival stamp

Cover sent on 11-10-1938 by Třídírna Polní Pošty to Polní Pošta 12 at Užhorod. Arrival stamp on the back indicates it was received on 14-10-1938.

Registered cover from Polní Pošta 12 sent 03-11-1938 to the district office of Sevuš. PP 12 was located in Perečin at that time. The registration label is the one as used by the field post. Again the mark "Věc úřední, porta prosta" is stated on the cover.

Czechoslovak field post card sent on 30-10-1938 by Polní Pošta 12 to Prague.

The contents reads as follows:

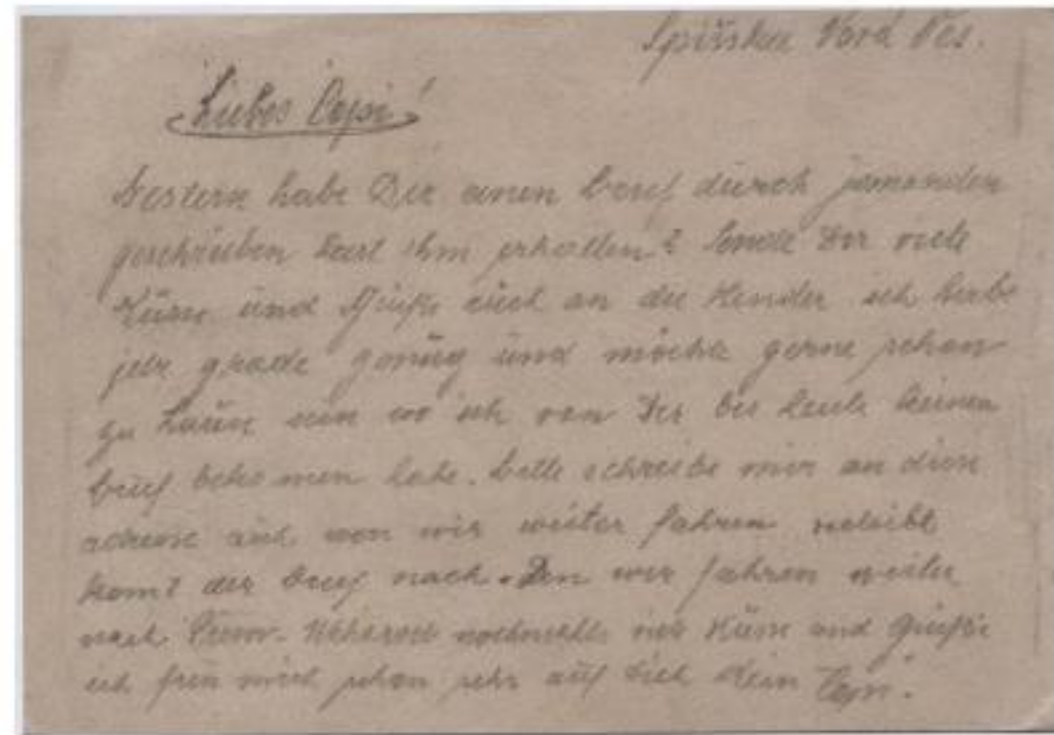

30.10.38

"Dear Evička, I am very pleased and must compliment you on your beautiful writing. I hope you will enjoy your four day holiday. Of course I miss you very much, mainly because I have nobody here who can aggravate me. I have not seen uncle here, he is important in Užhorod and is in charge of lots of soldiers. I will look out for him in the street. Today you are in Terezín, but Grandma will give you this card when you return. Love and kisses from your dad."

Contradictory to what is published by Mr. Vostatek and quoted on page 100b, this card might provide evidence that PP 12 was still in Užhorod on 30-10-1938.

Polní Pošta 29

Mr. Vostatek mentions in his article in the "Sammler expres" that this field post office was also operational in Užhorod. In his book "Zakarpatsko" Miroslav Blaha only mentions Michalovce (Slovakia) as a location for Polní Pošta 29 and Dr. Simády does not make any reference to this field post office in his handbook. Any proof for Polní Pošta 29 being present in Užhorod was not given by Mr. Vostatek.

This card mentions Polni Posta 29 in the address of the sender. The card is written whilst his unit was located in Spišská Nová Ves. In the message written on the reverse the sender mentions the intention to move on to Prešov and Užhorod. This is at least an indication of a possible presence of Polni Pošta 29 in Užhorod.

Polni Pošta 24

Field post card, sent from Chust post office on 25-XI-1938.

The sender belonged to unit 9/45 and he indicated in his address PP24. Interesting to note is the addition "RUMUNSKY" to his army unit. This is a unit the writer could not find any reference to in the existing literature

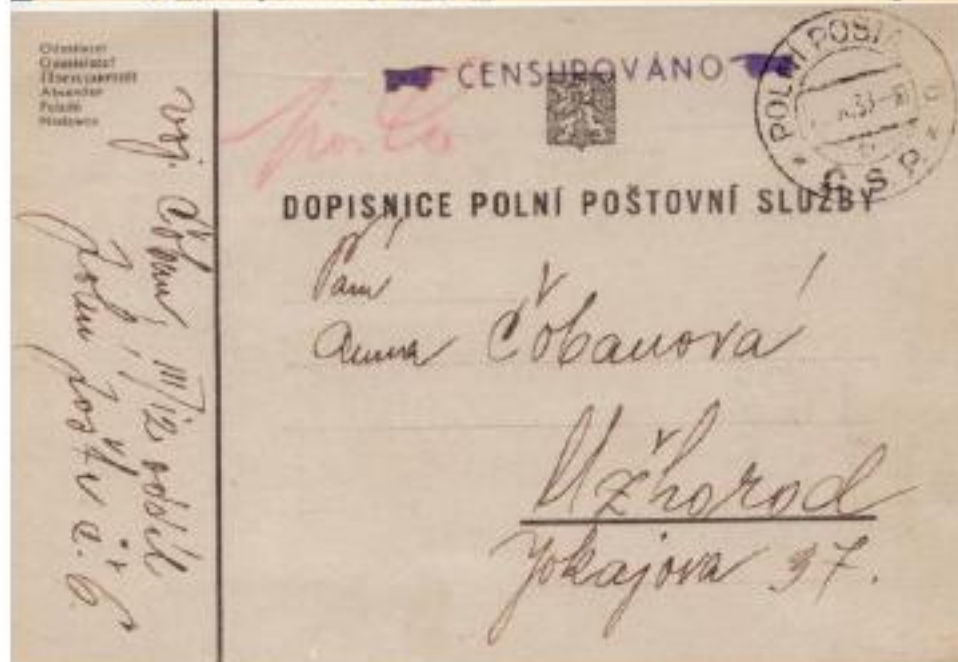

Czechoslovak soldier photographed on 28-10-1938 at Užhorod on the occasion of his demob, as he wrote on the reverse of the picture.

mobilization. To indicate this, a boxed marking was as pictured below. The ink used is either black or violet ink has no specific meaning.

Sometimes however a hand written censor mark can be found as can be seen on the pictured cover here.

Unusual censor marking on a field postcard sent by Polni Pošta 6 to a civilian in Užhorod.

Polni Pošta 12 was located in Perečín from 21-10-1938 until 06-12-1938. This cover was mailed on 28-XI-1938. Conclusion censored in Perečín.

THE COMMEMORATIVE CANCELS

Recently a collector draw my attention to the marking pictured here. It appears on a picture postcard sent from Užhorod on the 27th of May 1921. It is however placed over the date stamp of Užhorod. The marking commemorates the Sokol tour through Carpatho Ukraine from 25 to 31 May 1921. Question however remains whether this is a postal or a private marking.

UŽHOROD I УЖГОРОД 1 (only letter a)
Ist Industrial exhibition 5 – 24. VIII. 1927
colour: black

UŽHOROD I УЖГОРОД 1
10 years Czechoslovak Republic 28.X.28

colour: green

UŠŤORNA УСТЬЧОРНА

Celebration for the Czechoslovak Masaryk school
20 – 22.VI.36
colour: green

UŽHOROD I УЖГОРОД 1

Tour of the SOKOL (ČOS = Československá obec sokolská meaning Czechoslovak Assembly of Sokols
27 – 30.VI.36)

colour: blue

UŽOK - УЖОК

Tour of the SOKOL 26 – 30.VI.1936

colour blue

UŽHOROD I УЖГОРОД 1

Mourning at the death of Masaryk 14 – 26.X.37
used from 14-10-37 until 26-10-37
colour: black

Apart from the above listed commemorative cancels, there was a practice to use red ink for the normal date stamps when a particular event was celebrated. Such events were: The founding day of the Czechoslovak republic (28 October), Masaryk's birthday (7 March), the day Carpatho Ukraine was officially incorporated in the Czechoslovak Republic (8 May).

7th March

8th May

Air mail

During the year 1929 an airport was constructed at Užhorod and service was inaugurated on 06-05-1929. Regular connections were gradually established with several European cities. The opening of a new air connection was normally documented by a special first flight cachet. The first postal clerk appointed was Václav Mareš who however did not accept the appointment. It was performed by dispatcher František Fejfar, replaced on 15-03-1932 by Ladislav Keller who was transferred from Brno to Užhorod.

Below all the first flights from and to Užhorod are listed in chronological order. In the year 1938 also the little town of Slatinské Doly was a terminal for an air connection, the data of this connection are given on page 107.

06-05-1929

- A) 1st flight Prague – Brno – Bratislava – Košice – Užhorod flown by ČSA (440 pieces were sent from Prague)
- Aa Praha – Užhorod covers have special cachet “PRVNÍ LET. PREMIER VOL.” in red some covers are without this cachet.
 - Ab Brno – Užhorod, no special first flight cachet.
 - Ac Bratislava – Užhorod, no special first flight cachet.
 - Ad Košice – Užhorod, with special first flight cachet in black (some appear without this marking).

Cover flown by first flight from Prague to Užhorod on 06-05-1929.

Special cachet “PRVNÍ LET PREMIER VOL” in red.

Postage 1.50 Kč (letter 1 Kč and 50 h airmail surcharge)

The 30h. postage due is the fee for “poste restante” (collection at the post office).

- B) 1st flight Užhorod – Košice – Bratislava – Brno – Prague flown by ČSA. (611 pieces were sent from Užhorod)

- Ba Užhorod – Košice, 1st flight cachet in black. (same as used for Užhorod – Praha).
- Bb Užhorod – Bratislava 1st flight cachet in black (same as used for Užhorod – Praha).
- Bc Užhorod – Brno with or without the special cachet used for Užhorod – Praha .
- Bd Užhorod – Praha with special cachet in black.

Cover flown on 1st flight from Užhorod to Prague
Special boxed cachet in black. The same cachet appears on covers flown on Ba, Bb and Bc.
Postage 1.50 Kč (letter 1 Kč and 50h airmail surcharge)

Card flown on 1st flight from Užhorod to Brno
The card is without the special black cachet but has an arrival postmark of Brno on the reverse..

11-09-1933

C) 1st flight Prague – Brno – Bratislava – Košice – Užhorod – Cluj – Bucharest flown by ČSA.

- Ca Praha – Cluj (Romania) cachet in black, but only on covers (see fig. a below).
- Cb Brno – Bratislava – Košice – Cluj on all these sections no cachet appears.
- Cc Užhorod – Cluj, no special cachet.
- Cd Praha – Bucharest cachet in black but only on covers (as fig. a below).
- Ce Brno – Bratislava – Košice – Bucharest, all these sections without cachets.
- Cf Užhorod – Bucharest, cachet as fig. b below.

fig. a

fig. b

12-09-1933

D) 1st flight Bucharest – Cluj – Užhorod – Košice – Bratislava – Brno – Prague, the return flight flown by ČSA.

- Da Bucharest – Užhorod, no special 1st flight cachet.
- Db Bucharest – Praha, no special 1st flight cachet.
- Dc Cluj – Užhorod, no special cachet.
- De Cluj – Praha all sections without cachet.

03-06-1935

E) 1st flight Prague – Užhorod – Cluj – Bucharest, flown by ČSA.

- Ea Praha – Užhorod, special double circle date stamp in blue, either from Praha 1, Praha 7 or Praha 82 (see fig. below).
- Eb Praha – Cluj, similar special date stamps as Ea.
- Ec Praha – Bucharest, similar special date stamps as Ea.
- Ed Užhorod – Cluj, special circle date stamp from Užhorod I, colour blue.
- Ee Užhorod – Bucharest, same special date stamp from Užhorod I as Ed.

Cover flown on the first flight from Užhorod to Bucharest 03-06-1935.

Bi-lingual 1st flight date stamp of UŽHOROD I – УЖГОРОД-1 in blue.

04-06-1935

F) 1st flight Bucharest – Cluj – Užhorod – Prague the return flight flown by ČSA

- Fa Bucharest – Užhorod, no cachet
- Fb Bucharest – Praha, no cachet
- Fc Cluj – Užhorod, no cachet
- Fd Cluj – Praha, no cachet
- Fe Užhorod – Praha, similar special date stamp as for Ea

01-09-1936

G) 1st flight Moscow – Brjansk – Kyeu – Jassy – Cluj – Užhorod – Prague, flown by ČSA in combination with Aeroflot.

- Ga Moskow – Užhorod, no special 1st flight marking in Moskow, arrival mark of Užhorod 1 * I. let Praha – Užhorod – Moscou * with date 01-09-1936 colour blue, special cachet as shown below (fig. a).
- Gb Moskow – Praha, no special 1st flight marking in Moskow, arrival mark of Praha 82 * I. let Praha – Užhorod – Praha * with date 01-09-1936 colour blue, special boxed marking as shown below (fig. a).

fig. a

02-09-1936

H) 1st flight Prague – Užhorod – Cluj – Jassy – Kyeu – Brjansk – Moskow flown by ČSA in combination with Aeroflot.

- Ha Praha – Užhorod, special blue date stamp together with date stamp of “Užhorod letište”.
- Hb Praha – Cluj, special 1st flight marking in blue.
- Hc Praha – Kyeu, special 1st flight marking in blue.
- Hd Praha – Moskow, special first flight marking in blue.

15-11-1938

I) 1st flight Prague – Bratislava – Spišská Nová Ves – Slatinské Doly flown by ČSA
no special first flight markings are known.

This air line was operational in Carpatho Ukraine from 15 – 11 – 1938 until 30 – 11 – 1938 and after this only some time in January and February 1939. Mail could be presented at the post offices of Slatinské Doly and Chust.

On 03-12-1938 this cover was presented at the post office of Chust for air mail to Prague. In December the line was not operational and the cover was forwarded to Prague by train. It arrived at Praha-7 (Masaryk railway station) and was first forwarded to Praha 7 letecká and from there to Praha 55, which took care of the delivery to the addressee.

Regular airmail

During the Czechoslovak postal administration airmail could be sent departing from Užhorod airport. For information on the extra airmail surcharges the "Trojan" catalogue published in Prague in 1997 (ISBN 80-901044-0-7) is the best source .

Below are a few illustrations depicting flown air covers.

Cover sent on 01-06-1935 from Užhorod to Sofia, Bulgaria. Although franking is philatelic it still is an interesting item as the tariff is absolutely exact. On the cover is 6.50 Kč. The tariff was at that moment letter 2.50, registration 2.50 and airmail surcharge 1.50, which totals 6.50 Kč.

Rear of the cover. The sender was apparently a soldier as he mentioned his Army unit in his address (Pesi Pluk 34.) It went by air to Prague and received at PRAHA 7 letecká pošta (square cancel). It then was handled by PRAHA 7 Cizina (etranger) date 01-06-1935. From there it went to Sofia by air and was received there on 03-06-1935.

Cover sent on 28-03-1938 from Berehovo to 's-Gravenhage (= The Hague). Postage for a foreign letter 2.50 Kč and extra fee for airmail to The Netherlands 1.00 Kč, which totals 3,50 Kč. That is the amount on the cover.

The letter went by train from Berehovo to Prague and arrived at PRAHA 7 Letecká Pošta on 29-03-1938. From there it went by air to Rotterdam, where it arrived on 29-03-1938. From there it was forwarded by normal mail to The Hague.

Cover sent on 17-09-1931 from Užhorod via Brno and Prague to Hannover and from Hannover by train to Bremerhaven. In between 16-03 and 31-10-1931, the air connection Užhorod Prag was operated with a change of plane in Brno. The connection Prag-Hannover was established in 1927, but during 1931 only operational from 02-03 until 31-10. Foreign surface mail 3rd weight class 5 Kč + airmail surcharge 3rd weight class 3 Kč, registration 2.50 Kč, totalling 10.50 Kč.

Air mail tariffs valid for the destinations mentioned from 12-08-1920 until 01-04-1921

In its official publication No. 35 dated 12 August 1920 the ministry of Post and Telegraph communications, has issued the following surcharges for airmail letters forwarded by the following recently established air connections :

a) Prague – Strasburg	Kč 14.--
b) Prague – Paris	Kč 24.--
c) Prague – London	Kč 28.--
d) Prague – Warsaw	Kč 24.--

Example:

At that time the tariffs for the 4th period were valid , see page 63.

For a registered airmail letter send to Paris having a weight of 24 g. the tariff is calculated as follows:

Normal letter tariff foreign country	Kč 1,25
extra for 4 grams more	" 0.75
Registration fee	" 1.25
surcharge 20 g. air mail	" 24.--
additional air mail surcharge for 4 gr. more	" 24.--
Total postage	Kč 51.25

In case also special delivery was required the postage has to be increased by Kč 1.-- in accordance with the tariffs valid for period 4.

Air mail tariffs from 01-04-1921 until 01-01-1922

By publication no 15 dated 27 March 1921 the tariff for the destinations Paris, Strasburg and Warsaw were reduced considerably.

a) Prague – Paris	Kč 3.--
b) Prague – Strasburg	Kč 1.50
c) Prague – Warsaw	Kč 1.50

Example:

For a registered special delivery air mail letter to Paris, having a weight of 24 gram the postage is calculated as follows:

Normal letter tariff foreign country	Kč 1.25
extra for 4 grams more	" 0.75
Registration fee	" 1.25
Special delivery	" 1.--
air mail surcharge 20 gr. letter	" 3.--
additional air mail surcharge for 4 gr. more	" 3.--
Total postage	Kč 10.25

From 01-01-1922 the air mail surcharge can be taken from the tables below

TABLE A for domestic air mail letters

THE CZECHOSLOVAK AIR LINE SYSTEM DURING THE 1st REPUBLIC

Special postcards issued by the Czechoslovak postal administration, with Carpatho Ukraine related subjects

01-06-1934 special issue of 8 illustrated postcards to commemorate the 15th anniversary of the incorporation of Carpatho Ukraine into the Czechoslovak republic.

Number 3 out of the set of 8 sent from Užhorod to Turnov in Bohemia on 07-07-1934. This series is referred to as CDV 52.

- (1) Užhorod Cathedral
- (2) Užhorod District
- (3) Mukačevo Castle Palanok
- (4) Mukačevo Black Monastery
- (5) Huklivý Church
- (6) Repinné
- (7) Jasina Locals in Hucul national costume
- (8) Rusyn girl

01-07-1936 Series of 58 Illustrated postcards amongst them are two cards depicting a Carpatho Ukraine subject

The cards shown are the numbers 13 (Huklivy) and 54 (Užhorod).
The series is referred to by Czech collectors as CDV 61.

June 1937 Series of 194 Illustrated postcards issued to promote tourism (5 devoted to Carpatho Ukraine) numbers 1 – 128 are devoted to the Czech lands numbers 201 – 252 to Slovakia and the numbers 301 – 305 have pictures from Carpatho-Ukraine.

No. 305 with a site in Užok was sent from Chust to Prague.

All these postcards were valid and available in the entire Czechoslovak republic. Collectors especially look for items used in Carpatho Ukraine and all such items are scarce, which consequently has its affect on the price.

To distinguish between the several types of R-labels used by the Czechoslovak post, Miroslav Blaha has developed a code consisting generally of a combination of 2 letters and 3 numbers.

The first position is a letter and indicates the letter type used for the Latin text.

The second is a number and indicates the letter size in points. In case this is 10 points only a "0" is stated in the code and 11 points is indicated with a "1".

The third is again a number and indicates the number of lines in the text. In case this position shows a "-" it still means one line however each word starts with a capital letter.

The fourth is a letter and indicates the letter type of the Cyrillic text.

The fifth is a number and indicates the size in points of the Cyrillic letters.

The labels pictured above are all of the known varieties used in Carpatho Ukraine during Czechoslovak rule. In his book "ZAKARPATSKO" Miroslav Blaha lists all of the types used at the 96 post offices of Carpatho Ukraine.

C	NIžní Vereckí
F	Draĥovo
K	Berehovo
L	Užhorod 1
R	Berehy

The 5 Latin letter types as distinguished by Mr. Blaha.

x	Берегсасъ
y	Мукачево
z	Мукачево

The 3 Cyrillic letter types Mr. Blaha distinguishes in his book.

Registered Postcard from Jasiňa with spelling mistake in R-label

The difficulties the Czechoslovak postal administration experienced with the Cyrillic spelling of the names of towns and villages is very well illustrated by the R-label on the pictured postcard here below. Jasiňa is misspelled here in Cyrillic as “Ясѣне” The last letter here is a “е”, whilst correctly spelled it should have been a “я”.

Although another letter type is used for the R-label of Jasiňa, pictured below, the same misspelling is used

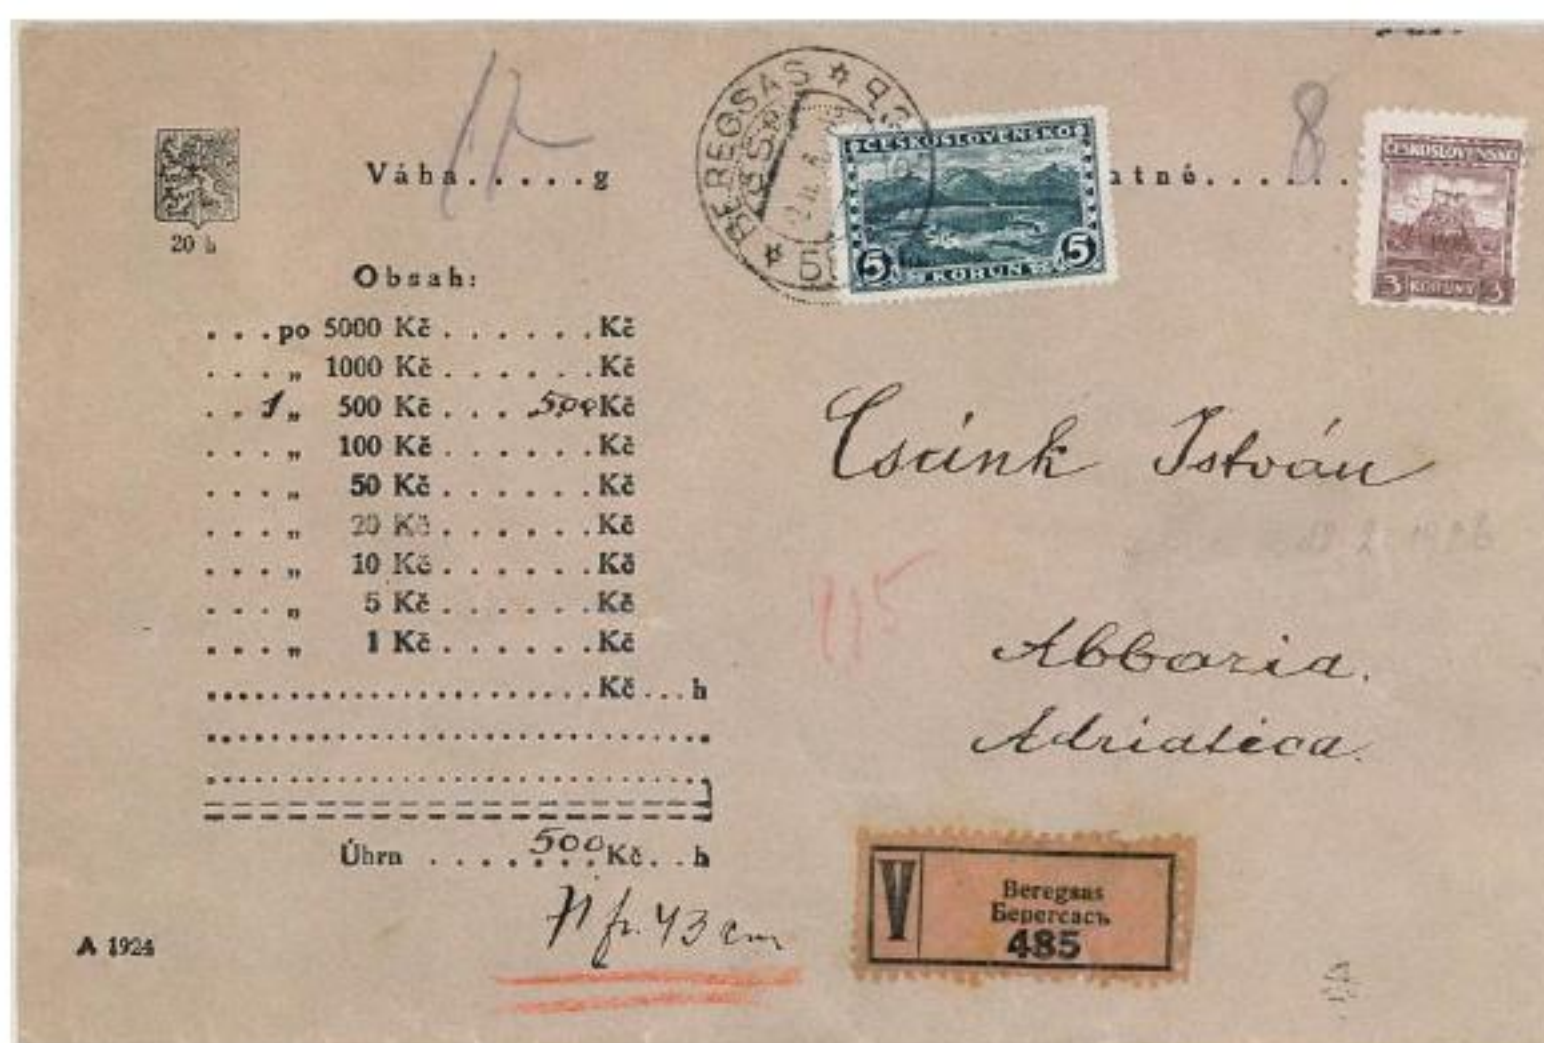

R-labels Jasiňa 2 different types but both in the correct Cyrillic spelling

R-labels for money letters

The expression “R-label” in connection with money letters is strictly speaking not correct. On the labels used for money letters the “R” was replaced by a “V” (the “V” from the French Valeur= Value).

Covers with this label are difficult to find in particular originating from Carpatho Ukraine.

This “R”-cover was sent from Beregsas-Bерегсасъ to Abbazia in Italy on 22-02-1926 and was received on 26-02-1926.. Abbazia was within the territory ceded by Italy to Yougoslavia. This in accordance with peace treaty as negotiated with the allies and ratified in 1947. It was renamed Opatija. After the collapse of Yugoslavia it became a part of Croatia.

arrival post mark of Abbazia on the reverse

How to calculate the postage of this money letter?

1. Establish the destination.

The cover was sent from Beregsas to Abbazia Adriatica. This is a holiday resort in Italy at the Adriatic coast.

2. Establish the tariff period applicable.

Cover was sent on 22-02-1926. This is within the validity of tariff period 5 (01-01-1922 until 28-02-1937, see the tariff table on page 64.

From 21-04-1922 until 31-03-1937, Italy was considered as a neighbouring country, for which reduced foreign tariffs were applicable.

3. Now convert the amount of local currency enclosed in the cover into "Goldfrancs".

The rate of exchange from Czechoslovak Crowns into Goldfrancs was at that moment 100 Kčs = 14.286 Goldfrancs. or 1 Goldfranc = 7 Kčs

4. Now the postage can be calculated as follows:

The tariff for a letter to a "neighbouring" country was	2.00 Kčs
Registration fee	2.50 "
The charge for the enclosed money is 0.50 Goldfrancs per 300 Goldfrancs	
Enclosed are 5 x 14.286 = 71.43 Goldfrancs, this is also stated on the cover by the post official.	
The amount is below 300 Goldfrancs	
The charge is 0.50 x 7.00 =	3.50 "
Total postage	8.00 Kčs

transit mark of Trieste Centro

As could be established from the date stamps at the rear, the cover was routed via Trieste and arrived at Abbazia on 26-02-1926.

During the stay of the Czechoslovak Army in Great Britain during WWII some "souvenirs" were produced with Carpatho Ukraine related subjects.

This so-called London sheet was issued on the occasion of an exhibition of Czechoslovak stamps in London 1943. This one bears the signature of President Beneš. On the bottom right stamp the Church of Jasina is depicted.

This commemorative cancel was prepared for the field post of the Czechoslovak Army in G.B. during WWII. It has however never been used. It depicts the wooden Church of Užok and was intended to commemorate the Carpatho-Ukrainian writer Alexander Duchnovič. It appears in red, violet and blue.

Postage stamps issued during Period 7

During the Czechoslovak postal administration two postage stamps were issued with a Carpatho Ukraine related subject. This is the 60h. stamp out of the series issued in 1928 to commemorate the 10th anniversary of the Czechoslovak republic. A re-engraving was used for the preparation of the 3K. Carpatho Ukraine issue. The second one is the 1.20 Kč. value out of the Castles series, issued in the year 1936 and picturing the castle of Mukačevo (Palanok).

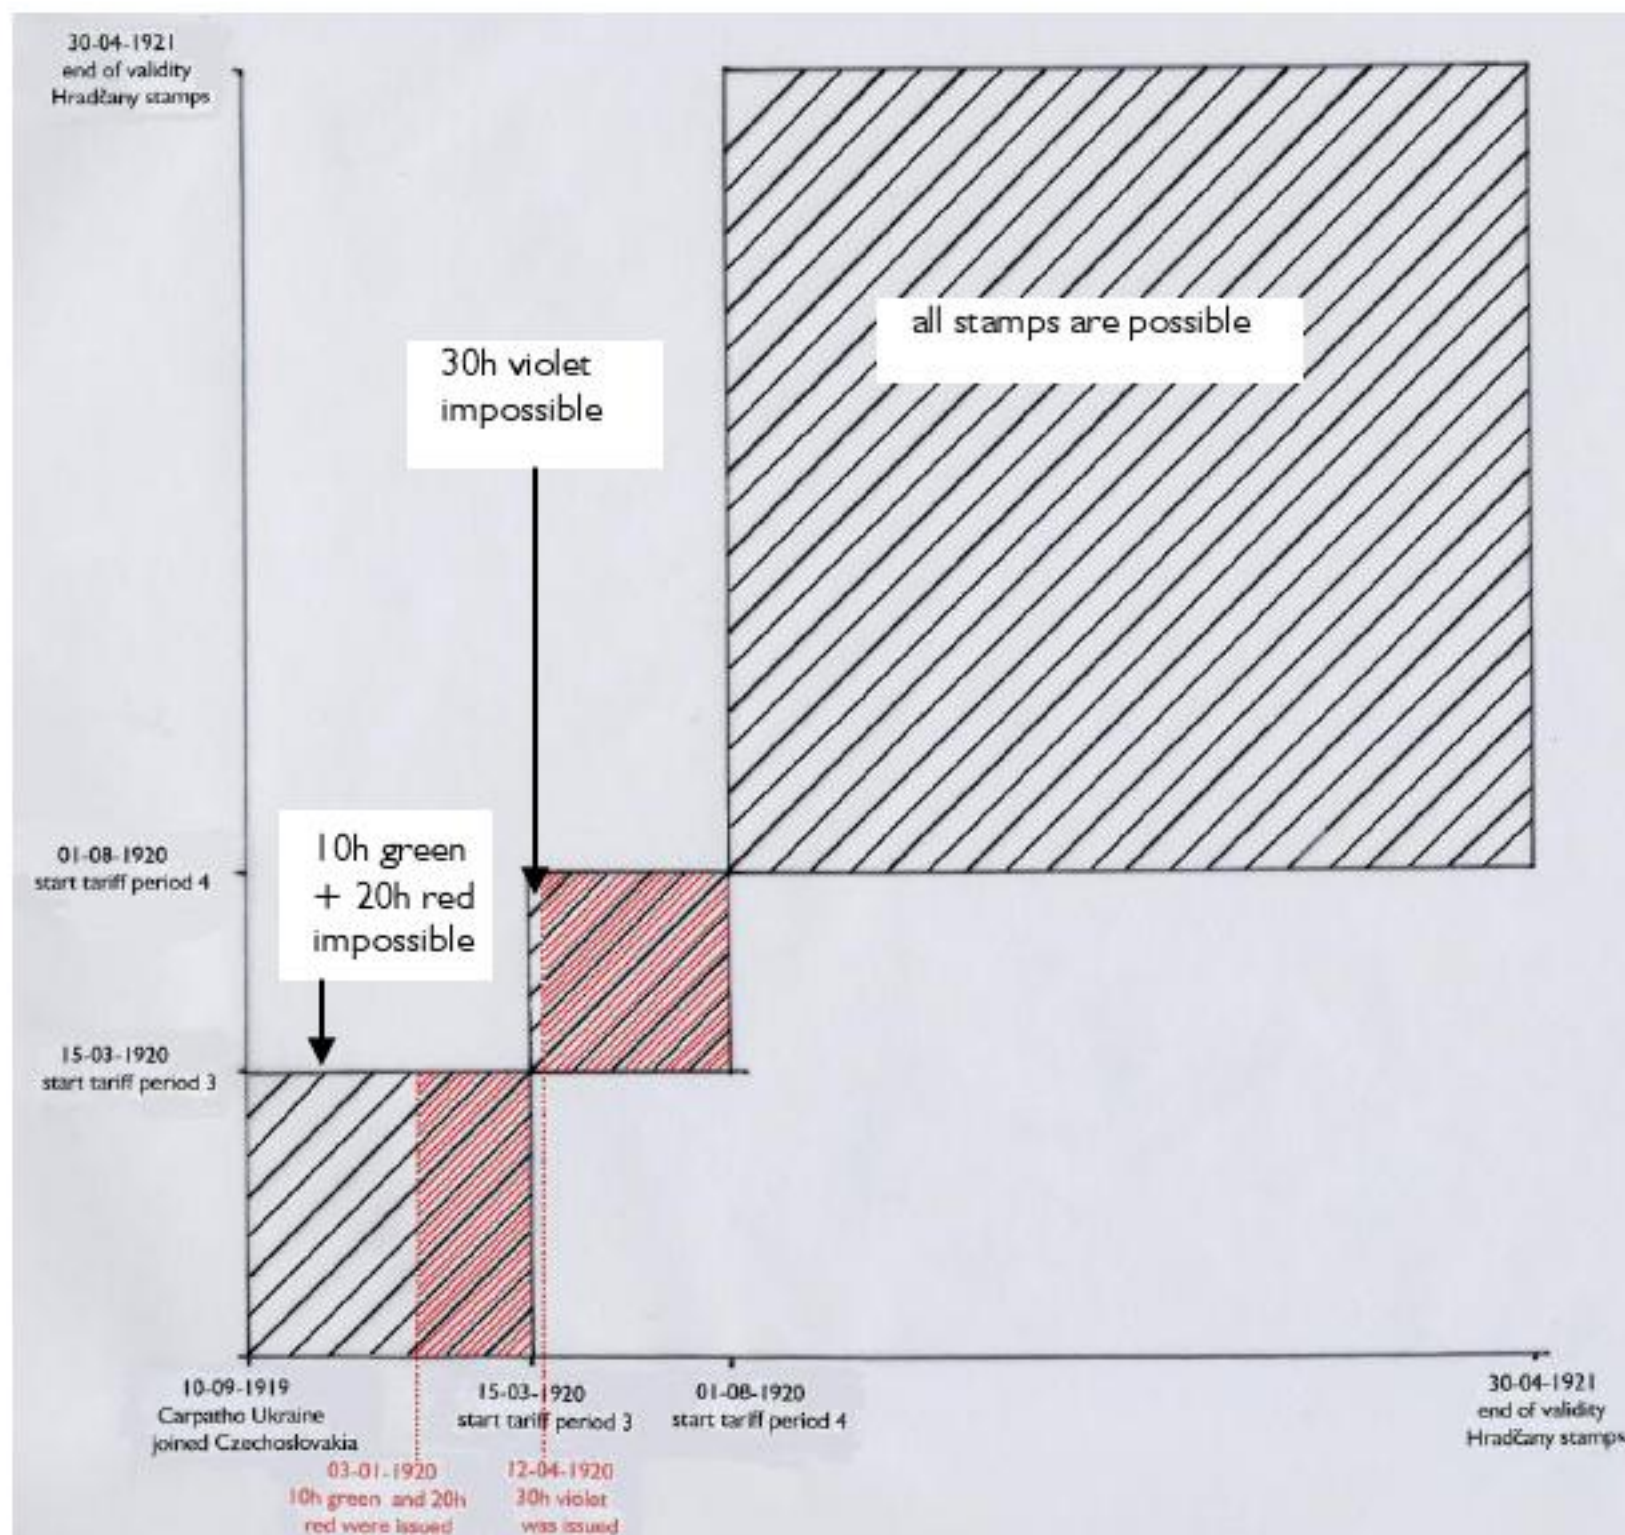

THE HRADČANY STAMPS AND ITS USE IN CARPATHO UKRAINE
 (the pages 113 b and 113c are not included in the regular issue of the 2nd enlarged edition)

All Hradčany stamps were valid until 30-04-1921

The occurrence of Hradčany stamps during tariff periods 2,3 and 4.

As can be seen from the graph pictured here, stamps of 10h green and 20h red used during tariff period 2 are extremely rare. This was only possible from 03-01-1920 until 15-03-1920.

Due to the relatively short period tariff 3 was valid, all Hradčany frankings out of this period are rare.

Some considerations for the valuation of covers with Hradčany stamps used in Carpatho Ukraine

At the time of the 1st Czechoslovak republic, the total population was 10,000,000

In Carpatho Ukraine this figure was 700,000

That is a ratio from 1 : 14

Also the economic activity was concentrated in the Czech lands. For this reason communications were much less developed in Carpatho-Ukraine. This had of course also its effect on writing letters.

As a guess covers originating from this area should in general be valued 30 times higher as similar ones from the other parts of the republic.

R-cover sent on 30-IV-1921 **(the last day of validity of the Hradčany stamps)** from Užhorod to České Budějovice
Tariff period 4 Domestic letter 60h, registration fee 125h, totaling 185h.
2 stamps of the Hradčany issue of 75h + 30h + 10h = 185h.

Domestic R-cover sent during tariff period 3

On 01-06-1920 sent from Beregovo to Prague

The sender was the office of the district administration and the addressee Dr. Rudolf Hosiolez, minister of economic affairs of the Czechoslovak republic in Prague.

Letter 30h, registration fee 50h = 80h

It confirms the cashing of a postal cheque.

Doručenka=Return receipt

PERIOD 8

THE SHORT PERIOD OF AUTONOMY and INDEPENDENCE DURING 1938 – 1939

Chronologically period 8 should be placed in between the Hungarian occupation of zone 1 and zone 2 of the next period. However for reasons of obtaining a more convenient arrangement, the Hungarian occupation is dealt with as a whole and referred to as period 9.

When the Hungarian army occupied the southern part of Carpatho Ukraine (zone 1) the remaining part of the territory was still under Czechoslovak rule. The government in Prague however now granted its most eastern part its long ago promised autonomy. A Carpatho Ukraine government was formed, headed by Andrej Brody. Due to his outspoken sympathy for Hungary and his wish to be united with this country he was replaced by a new more nationalistic government headed by the priest Mgr. Agustin Vološin. Mr. Vološin's government organized elections in February 1939 for an autonomous Carpatho Ukrainian parliament. The official opening of the parliament was planned for the 2nd of March 1939. Fearing the possible loss of its easternmost province during these charged times, the Czechoslovak government repeatedly found reasons to postpone the convening of the assembly. Nevertheless, fast moving events during the middle of the month proved to be decisive. On the 14th of March, Slovakia declared itself independent. Geographically now separated from Prague, Carpatho Ukraine became de facto independent. That very same day, the Hungarian army crossed the Carpatho Ukrainian border, seeking to annex it.

In the early evening of the 14th of March, Vološin announced on the Chust radio that Carpatho Ukraine had declared its independence with the town of Chust as its capital. The following morning he handed over a handwritten decree to the Chust post office authorizing the sale of the stored stamps as the new country's first postal issue. A telegram was sent to Prague at about 10.30h informing postal officials of the stamp release. A number of 600,000 stamps that had remained in Prague went on sale at the philatelic counter of the Prague main post office. At mid-afternoon of the 15th the 32 elected deputies met in Chust and unanimously passed a bill officially declaring Carpatho Ukraine a sovereign republic. Vološin was unanimously elected its first president. Although the semi military formation known as the Karpatska Sich put up a spirited defence to the Hungarian advance, it was inadequately armed and trained. By 16.30h on the 16th of March the Chust post office was taken and the Czechoslovak post official Mr. Pisek was killed. He was replaced by a new Hungarian postmaster whose name was Zakarias Janos. By 18.00h the entire town was occupied and the Carpatho Ukrainian government had fled. The national Assembly issue was valid, therefore for only little more than 24 hours. Over the next several days the remainder of Carpatho Ukraine fell to Hungarian forces and became the Hungarian province of Kárpátalja. This situation lasted until late 1944.

In summary:

9-10-1938	Formation of the Brody government
26-10-1938	Mgr. Vološin came into power
15-03 1939	Opening session of the parliament
16-03-1939	The capital Chust was taken by the Hungarians and the period of autonomy came to an end.

To commemorate the opening session of the newly elected parliament a special stamp with a face value of 3 Crowns was issued. On the stamp the wooden Church of Jasiňa is depicted

The wooden Church of Jasiňa is a Greek Catholic-Orthodox church and a fine example of Huzul Church architecture. It is devoted to the Exaltation of the Lord. Due to legends it came into existence in the year 1505. It has a separate bell tower built in 1813, whilst the present church dates from 1824. A similar picture was used for the design of the 60h. stamp of the Czechoslovak Jubilee issue, which in its turn was the basis for the 3K. blue commemorative postage stamp of Carpatho Ukraine.

THE FIRST ACT WHICH PASSED THE DIET OF THE INDEPENDENT CARPATHO UKRAINE

Act No 1 of the Diet of Carpatho Ukraine of the 15th of March 1939

- § 1 Carpatho Ukraine is an independent State.
 § 2 The name of the state is CARPATHO UKRAINE.
 § 3 Carpatho-Ukraine is a Republic, headed by a President, elected by the diet of Carpatho Ukraine.
 § 4 The official language in Carpatho Ukraine is the Ukrainian language.
 § 5 The colours of the national flag of Carpatho Ukraine are blue and yellow; the blue on top and the yellow on the bottom.
 § 6 The state emblem of Carpatho Ukraine is the present national emblem: a bear on a red field on the left hand, four blue and yellow stripes on the right hand, as well as the Trident of Saint Volodymyr the Great. This part of the act shall be regulated by a special Act.
 § 7 The national Anthem of Carpatho-Ukraine is "Shche ne vmerla Ukraina" (Ukraine still survives).
 § 8 This act becomes valid immediately after its passage.

Chust the 15th of March 1939

Mgr. Avhustyn Ivanovych Voloshin 1874 – 1945

He was born on the 17th of March 1874 in the little village of Kelesin in Carpatho Ukraine as son of Ivan Vološin and Emilie Zombini. In Budapest he went to the classical gymnasium and studied mathematics at the university. From there he went to Vienna where he studied Pedagogy and Philosophy. In Rome he concluded his studies with Theology. He became a catholic priest of the Greek-Byzantine rite and in 1898 he married Irene Setnik. He was deeply involved in Carpatho Ukraine politics in which he played a dominant role. At the beginning of January 1919 he was a member of the special delegation sent to Budapest by the Užhorod national council with the express purpose of meeting with the Czechoslovak Ambassador, Dr. Milan Hodža, and submitting to him a request for Czech troops to enter the territory of Carpatho Ukraine. He was also the chairman of this council. In the period in between the two world wars he was elected as member of the Prague parliament where he was the leader of the Ruthenian National Christian Party. In October 1938 he was the head of the Subcarpathian Autonomous Region and ultimately was elected president of the independent republic Carpatho Ukraine. In 1939 his

country was annexed by Hungary and Mgr. Vološin went into exile in Romania. Later on he moved to Prague where he bought a house and stayed for the rest of the duration of WWII. Here he ended his political activities. Due to his nationalistic aspirations the Soviet KGB mistrusted him and wanted him to be arrested. In May 1945 Mgr. Vološin had several meetings with officers of the Vlasov* Army and he was advised to seek refuge in the West, but he refused. On the 13th of May 1945 he was arrested by the KGB and taken to Moscow by plane. He arrived there on the 20th of May 1945 and died from "heart diseases" on the 19th of July 1945 in the Butyrka prison.

*) Gen. Vlasov was a Soviet General (Defender of Moscow), taken prisoner by the Germans, who proposed the formation an Army consisting of Russian P.O.W 's, with the sole purpose of overthrowing Stalin and his Bolshevik government. The Army was formed and it participated in the Prague uprising. This story has mostly been forgotten by Western historians and is blacked out by the Russians.

The planned opening of the first session of the parliament and its philatelic traces

In accordance with article V of the constitutional act no. 328 of Czechoslovakia, the president of the Republic was to convoke by separate decree the first session of the Carpatho Ukrainian Soim within one month after the elections. The date for the convocation of the Soim was set for the 2nd of March 1939, following an agreement reached between Mgr. Voloshin and President Hácha. Due to the very complicated political situation President Hácha postponed the convocation of the Soim from the 2nd to the 9th of March but failed to sign a decree relative to the new date. A decree was issued on the 10th of March now calling for the convocation of the Soim on the 31st of March, but the further development of events preempted the date. As a result of Slovakia's proclamation of independence on the 14th of March, Carpatho Ukraine was geographically cut off from the Czech lands. In this situation the Government of Carpatho Ukraine saw itself compelled to also proclaim independence the very same day. At the same time, Prime minister Mgr. Voloshin convoked the first session of the Soim to be held at 15.00h on the 15th of March. However two commemorative date stamps were already prepared showing the date of 2 March 1939. These commemorative date stamps were **not** used on mail. Letters showing these cancellations are philatelic products of inventive collectors or dealers. During its session of the 15th of March it approved the proclamation of Carpatho Ukraine's sovereignty by the premier Mgr. Augustin Voloshin and adopted a constitution. Voloshin was elected president of the new state.

Cover with one of the prepared commemorative cancels for the opening session on the 2nd of March. The stamp is genuine as can be seen from the expert mark of "Blaha". Also the cancel itself is genuine, but as the stamps were not available in Chust nor in Prague before the 15th of March, the cover itself is a fake.

The Ukrainian text reads as follows: "Opening session of the 1st parliament". The cancel is known with the distinguishing letters "a" and "b". The same date stamp was used on the 15th March 1939, but without distinguishing letter.

The second commemorative cancel depicts the coat of arms of C.U. and the date 2.III.39. It only appears in red, but was never used officially. Consequently it cannot be found on genuine entires.

Special cover prepared for the planned opening on 2-III-1938

Emil Hácha 3rd President of Czechoslovakia

from 05-10-1938 until 16-03-1939

Upon the resignation of Dr. Beneš, Emil Hácha was appointed President of the rump state Czechoslovakia. He remained in office as the "hidden away president" of the Protectorate until he was arrested when Prague was liberated. Dr. Hácha was born on 12-07-1872 in the South Bohemian village of Trhové Sviny, he died in the Pankrác prison in Prague on 27-06-1945. Historians now seem to think differently about him compared with their views immediately after the war. They point out that Hácha was anything but a cynical opportunist. After Hitler annexed the Czech Sudetenland in 1938, he became president only reluctantly, when President Edvard Beneš resigned. He was already an old man, an academic rather than a politician. He was a frail old man becoming more ill and absent minded over the years and was used by the Germans for their intentions.

The opening session of the parliament on the 15th of March 1939

Upper part of a commemorative leaflet issued on the occasion of the first session of the Carpatho Ukrainian Parliament. On top is the picture of President Mgr. Voloshin (sometimes also spelled Vološin) He is flanked by both national symbols. The three rows of pictures are showing some of the 32 elected members of the Soim (parliament). The elections took place on the 12th of February 1939.

There are quite a number of documents related to the opening session and having a philatelic background.

↑ Special sheet for the members of the parliament.
It was already prepared for the session of 02-03-1939.

Souvenir sheet issued on the occasion of the opening session of the parliament. The postage stamp is usually "cancelled" by the commemorative date stamp issued to celebrate this event. The writer however has proof that at least one sheet exists with the date stamp of Chust with date 15.III.39 and distinguishing letter "d" in the colour red.

The 3K postage stamp issued to commemorate the opening of the parliament (Diet) in CHUST, issued on 15-03-1939

This new stamp was in fact a re-engraving of the 60h orange stamp issued in 1928, to commemorate the 20th anniversary of the republic (Pofis no.236, Michel no 270). The printing form (see figure below) consisted of two panes of 100 side by side. Each pane had 16 horizontal rows, with the first and last rows consisting of only one stamp at the far left along with six blank fields or coupons. The other 14 rows had seven stamps each. The last coupon at the bottom right shows the plate number, either "I" or "IA". A total number of 90,000 stamps were printed. The stamps were line perforated 12½ and printed on the Unie's Stickey Press in Prague. The paper is yellowish and sometimes a bit coloured by the ink. The glue is also yellowish with horizontal stripes.

From covers with this commemorative issue cancelled with the black date stamp of Chust it can be learned that the stamps were on sale from 10.00 or 11.00 in the morning although the red commemorative date stamp was set at 15.00h. Postal connections with Slovakia and the Protectorate were not possible for a short period and at a later time the Hungarian post forwarded the mail posted in Chust via Budapest to its destination in the then disintegrated republic of Czechoslovakia. The 3K. stamp matched the tariff for a registered domestic letter. The covers forwarded by the Hungarian mail were only registered ones having relatively low registration numbers (below 1500) and were provided with a Czechoslovak arrival hand stamp showing a date of either 23.III 1939 or 24.III.1939. These covers are scarce and very much sought after. Such covers need to be expertized.

A considerable amount of commemorative postcards and covers were prepared quite some time before the Hungarian invasion took place. These items were not forwarded by the later established mail connection of the Hungarians but most probably were taken to the Protectorate by civilians repatriating to their homeland or soldiers retreating to former Czechoslovakia. These items are mostly philatelic, registered and do not have any arrival date stamp. Some of the post cards are reported to have been produced after 15.III.1939 in the Czech lands.

Some collectors are of opinion, that this is the first stamp of Carpatho Ukraine, others regard this stamp as the last one of the 1st republic. In fact it was printed in Prague at the Unie printers by order of the Czechoslovak postal authorities and it was only postally valid in the newly declared sovereign republic of Carpatho Ukraine.

Printing form as used for the 3K stamp

The Czechoslovak postal authorities also prepared a special cancel to commemorate the opening of the Diet. This however was never used for the purpose intended. It exists with the dates 21 and 22 January 1939.

Stamps with coupon and plate number

The postal use of the 3K stamp

The 3K stamp was mainly used on the several special covers produced to commemorate the opening session of the parliament. On these covers the stamp is normally cancelled with the commemorative date stamp in red having the date fixed set at 15.III.1939 and the hour at 15. This commemorative date stamp does not have a distinguishing letter. More interesting are normal covers on which the stamp is cancelled with the regular date stamp of Chust. These are very scarce and very much sought after. (In an article published in Forschungs-Berichte aus der Tschechoslowakei Philatelie number 2000-I, Mr. Markus estimates that no more than 10 such covers exist). The genuine normal date stamp must have the distinguishing letter "d". Also covers with a Chust date stamp with letter "f" can be found , these however were produced by the Hungarian post office official after the take over of the Chust post office on the 16th of May 1939 (see also chapter 9). Apart from Chust a few letters are known having been sent from Prerečín; a little village a bit north of Chust. It seems most likely to assume that these letters were taken to Perečín by the senders, whilst the stamps were bought at Chust.

Registered cover with the commemorative date stamp of Chust and arrival confirmation of Prague on the back.

Registered cover with regular date stamp of Chust and back stamped Okřišky 24-03-1939.

Letter sent from Perečín to Prague XII on the 15th of March 1939.

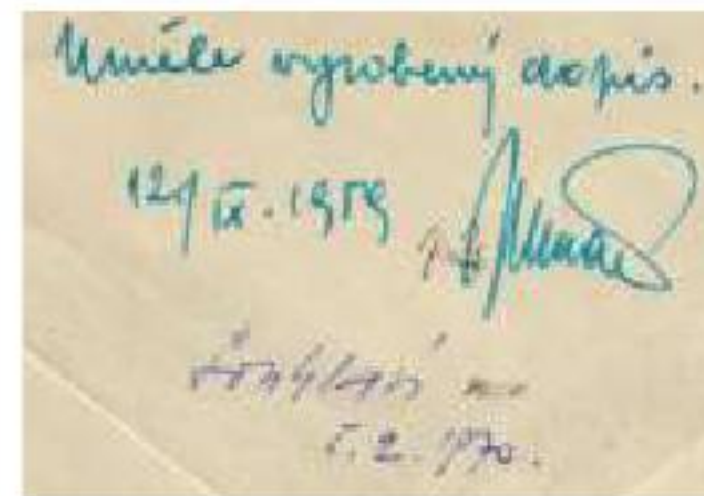

This letter was delivered in Prague, but was not backstamped. The recipient therefore was not able to prove that the letter was really delivered by mail. He issued a complaint not having received the letter and the postal authorities investigated his complaint, resulting in a confirmation that the letter had been delivered and the addressee had signed a receipt on the 23-03-1939. The hand stamp of "Poštovní úrad Praha I", with letter "b" is an old hand stamp of the 1st Republic, but its use continued during Protectorate times until 20-04-1940 (Source : Monography of the postal history of the Protectorate, part I).

Doubtful usage of the 3K stamp

Use in the Protectorate

In the year 1982, the German society for Czechoslovak Philately, known as "Arge Tschechoslowakei" published an article in its monthly published periodical written by Viktor Indra from Olomouc. Mr Indra is of the opinion that mail in the Protectorate, franked with the 3 K. Carpatho Ukraine stamp was accepted and forwarded by the postal authorities in the Protectorate and shows several letters which travelled the mails without being charged with postage dues. This of course is not a valid proof that these stamps had validity in the Protectorate. Postal authorities normally do not issue notifications that a certain stamp is not valid, but they do give information that a new stamp has been issued and is valid for paying for postal services. This has never been the case in the Protectorate. Conclusion may be: In these turbulent times covers with the 3K stamp just slipped through and should be considered as mistakes of local post officials. The reason may be ignorance or lending a hand to create philatelic rarities.

Letter sent on 18-03-1939 from Prague to Kamenice u Stránčic. Commemorative cancel to mark the entry of Hitler in Prague. Stamp is genuine as can be seen from expert mark of Blaha. He also put an expert mark in the left bottom corner, indicating the letter is fabricated. On the back the expert Jan Mrnák made a note reading: "ingeniously fabricated cover". A few years later Blaha made his note "Souhlasí" which means "that is correct" and thus confirming Mrnak's note.

Chust date stamp with letter "f"

On a small number of covers the 3 K stamp was cancelled by the Chust date stamp having the distinguishing letter "f". This cancel was used by the Hungarian post official Zakarias Janos, after the Chust post office was taken over by the Hungarians.

Mixed franking with Hungarian stamps

The Hungarian postal administration allowed mixed franking until 19-11-1938. The rubber hand stamp with number 102 was used from 18-03-39 until 08-04-39 (see page 128).

The minister of postal services of independent Carpatho-Ukraine looking at a sheet of the newly printed 3K. stamps.

Covers sent by Mr. Ota J. Brikcius

Mr. Ota J. Brikcius apparently stayed in Chust during the period of Carpatho Ukraine independence and the early days of the Hungarian occupation. Many collectors possess covers mailed by him and franked with the 3K commemorative stamp. Unfortunately however these covers seem always to lack a receiving postmark on the reverse. This does not necessarily mean that the covers were not forwarded by mail, but there is in this case no irrefutable proof they were.

Cover sent by Mr. Brikcius. Note the number of the registration label, which is 1101

The cover was expertized by the well reputed Czech expert Jan Mrnák. He made the following remark on the reverse: Postage stamp, date stamp as well as the registration label are genuine.

Postcard *)sent by Ota Brikcius to his mother in Prague on 03-04-1939. He writes "Dear Mother, I sent sincere greetings to you and at the same time inform you that tomorrow I am returning back home on the route: Chust, Budapest, Vienna, Prague. Yours sincerely Ota."

*) from the collection of Roman Dubyniak and Peter Cybaniak

The fake sheet of Olomouc

receipt for presenting a registered letter by Ota Brikcius

Dr. Walter Rauch writes in volume I of his two booklets on the Postal history of Carpatho Ukraine that probably one mail bag was carried by an army coach from Chust to Prešov. Another version mentioned by him is the possible delivery of a mail bag with registered letters to the post office of Prague on 20/21-03-1939. A larger number of registered letters however was forwarded to the addressees a few days later via Budapest.

Low registration numbers are also an indication that the cover was forwarded by mail. The cover on page 119 has registration number 1140, whilst Mr. Brikcius's cover has number 1101. Conclusion may be that Mr. Brikcius's cover was genuinely forwarded by mail.

The Post Office Headquarters for Carpatho Ukraine at Chust also requested the Ministry of Post at Prague to issue a souvenir sheet to commemorate the inauguration of the Parliament. Prague however did not approve this.

Mr. J. Komonek a printer in Dolany near Olomouc issued a bogus souvenir sheet for the occasion and sold 200 copies at a stamp bourse in Olomouc from 1 to 3 April 1939. The police charged Mr. Komonek as a forger and confiscated the unsold stock.

This "souvenir" sheet depicts crudely the commemorative 3K stamp and the coat of arms of Carpatho-Ukraine.

The counterfeit of the commemorative cancel on the opening session of the Snoim

Also the commemorative date stamp issued on the occasion of the opening session of the Snoim on the 15th of March 1939 was counterfeited. The two pictures below are taken from the book "Padělky Československých poštovních známek"

The main difference between the original and the counterfeit is the "1" in the date bridge. Also the shape of the Cyrillic letters in the counterfeited differ from the ones in the original.

ORIGINAL

COUNTERFEIT

The special covers prepared for the opening session

The majority of such covers show a first line, which is blackened. The reason was that the text was in rather bad Ukrainian. Below an original cover is pictured as well as a corrected one.

Text in bad Ukrainian

First line blackened and new text in correct Ukrainian

Commemorative sheet with 3 K stamp

Stamp cancelled by the **commemorative date stamp**.
As usual the colour of the commemorative date stamp is red

Commemorative sheet with 3 K stamp

Stamp cancelled by the **normal date stamp of Chust**
The colour of the date stamp is red and the only red one known. This makes this sheet probably unique. *)
*) see article published by Vladimir Markus in "Forschungsberichte aus der Tschechoslowakei Philatelie" 2000-1

An other most remarkable cover is pictured here. It originally originates from the collection of Dr. Walter Rauch. He at the time told me the postmark was an Hungarian postmark used for the parcel post service. The Hungarian origin is quite obvious. I have seen the postmark on a few occasions on stock of dealers. Mostly an Hungarian stamp affixed on a piece of paper and cancelled by this postmark. Could not find any reference to this postmark in the Hungarian Monograph. My assumption is that the Hungarian post official Zakarias Janos produced an other rarity using this postmark from times long gone. It is interesting that the time is indicated as 16h. The number on the R-label is 1377. Must we assume all numbers above 1377 are doubtful ?

Hungarian-Carpatho-Ukraine borderline running through the southern part of the country

As is indicated in the map above, the new border line between Hungary and since 09-10-38 autonomous Carpatho-Ukraine, divides the country into two parts. The north-eastern part being Carpatho-Ukraine and the south-western part incorporated into Hungary. This of course had its repercussions for the postal connections between the two parts.

The tariff for neighbouring countries was applicable for correspondence between the autonomous Carpatho-Ukraine and the part annexed by Hungary. This was 2 K.. for a letter up to 20 grams.

For correspondence between the part annexed by Hungary and autonomous Carpatho Ukraine the special tariff for Czechoslovakia was still applicable and amounted to 32 fi. for a 20 grams letter or 16 fi. for a postcard.

Cover sent on 15-XI-1938 from Svalava in C.U. to Botrad in the annexed area. Tariff for a foreign letter (neighbouring country) 2 K. The cover is backstamped Bótrágy (Hungarian name for Botrad) 23-XI-1938. In Bótrágy however it appeared that the addressee had left. The Hungarian expression "Elköltözött" means: has moved. The cover was returned to Svalava. The Hungarian expression "Visszou" means: to be sent back.

Back stamped Bótrágy. Date 23-XI-1938

Cover sent on 18-02-1939 from Munkács in the annexed area to Chust in Carpatho-Ukraine. Tariff for a foreign cover to Czechoslovakia 32 fi.

This situation lasted until the Hungarian occupation of the rest of Carpatho-Ukraine on 16-03-1939.

The post offices in the annexed part are the same as zone I of period 9 and can be found on page 126. These post offices only used mono-lingual date stamps.

The post offices in the rest of Carpatho-Ukraine are the same as the ones in zone 2 of period 9. See pages 131 – 134. However at that time Czechoslovak date stamps were still used.

The overprint of Jasina

Sometimes this overprint is referred to as the "Sich overprint". This name refers to the Karpatska Sich a militant nationalist Ruthenian organization named after the Cossack hetman (leader of the army) Ivan Sich, who came to Carpatho Ukraine in about 1780.

As mentioned before, the independence of Carpatho Ukraine was announced on the radio in the evening of the 14th of March 1939, but the Hungarians had already crossed the border. The poorly armoured Sich offered some resistance to the Hungarian troops but were swept away by them. It seems that their last defence was in the area of Jasina (Körösmező in Hungarian) in the farthest north-east corner of Carpatho Ukraine. They seem to have found time to confiscate from the local post office all the available Czechoslovak stamps and postal stationery and overprint them by hand with the Ukrainian nationalistic symbol "The trident". In the available literature these overprints are mentioned occasionally, mainly with the remark that the origin is not quite clear. In his book on the postal history of Carpatho Ukraine Dr. Béla Simády made the remark that the overprints never were postally used. Two types of overprint are known, the first one made by means of a rubber hand stamp and is rather primitive, the second is produced by means of a metal hand stamp. Both overprints are reproduced below.

Type 2

Type 1

Type 1 is the overprint made by a rubber handstamp.

Type 2 is produced by a metal hand stamp. The Cyrillic text means: Glory to Ukraine.

Overprint type 1

Overprint type 2

The following Czechoslovak stamps have been overprinted with Type 1 (14-03-1939):

Michel no. 277 – 282 , 303 – 307, 309, 347 – 350 , 351 – 359 , Zu359, Zu360, 360, 377 – 378 , 380 , 386, 389 – 390 and blocks 3 and 4.

The corresponding Czech Pofis numbers are as follows: 248 – 253 , L7 – L11 , L13, 300 – 303 , 304 – 313, DR1, DR2, 314, 322 – 323 , 325, 306, 333 – 334 and blocks A335 and A342/343 (Praha 1936).

The following Czechoslovak stamps have been overprinted with type 2 (15-03-1939):

Michel no. 277 – 281, 279B, 347, 349 – 350, 351 – 359 , 360, 379 – 380 , 386 – 388 , 390, 392, 400 – 405 , P56, P57, P59, P61 and P62.

The corresponding Czech Pofis numbers are as follows: 248 – 252 , 250A, 300, 302 – 303, 304 – 313, 314, 324 – 325, 331 – 332, 334, 336, 344 – 349, DL56, DL57, DL59, DL61 and DL62.

Also the Czechoslovak postcard as illustrated here is provided with overprint type 1. The same post card exists with overprint type 2. In Jasina also a dispatch note for parcels was overprinted with type 2 overprint.

THE SICH ORGANISATION DURING THE PERIOD OF AUTONOMY AND INDEPENDENCE

As already mentioned in the introduction to this period on page 114, the Sich organisation offered some resistance to the advancing Hungarian army. It was the intention of the Government of the autonomous Carpatho Ukraine to re-shape the Sich organisation into its national army. This was also important as in case the Sics could be acknowledged as the Army of an autonomous state their soldiers would be protected by the regulations of the convention of Geneva. In an attempt to mobilize the required personnel a proclamation was issued in which all former officers, non commissioned officers and soldiers were requested to report. The staff headquarters was located in Chust in the Ministry of Defence. and headed by Colonel S. Jefremov The commander of the Carpathian Sich was Dmitro Klempus.

Picture of the commander of the Sich, taken in February 1939. Standing in the middle with a black cap, accompanied by his men.

From the balcony of the Korona hotel in Chust the Carpathian Sich commander and his staff took the parade of the National Defence Organization.

“Within the strength of the Carpathian Sich, lies the strength of our nation.” This is the reverse of the propaganda postcard.

You don't stand aloof and watch whilst your brothers blood is wasted do you?
L.Ukrainka (Ukrainian poet)

Propaganda post card originated by the Sich movement. As mentioned before the Sich organisation was an extremely nationalistic movement and was strongly in favour of reunification with Ukraine.. The label on the card was issued by the Organisation of Ukrainian Nationalists in January 1939, to commemorate the 20th anniversary of the proclamation of the unification of Ukraine. The label is “cancelled” on request by the commemorative date stamp as pictured on page 118.

PERIOD 9

THE HUNGARIAN OCCUPATION 1938 – 1944

As a result of the Munich treaty and the first Vienna arbitration, the southern part of Carpatho Ukraine (together with the southern part of Slovakia) returned to Hungary. These areas were mainly inhabited by ethnic Hungarians and the Hungarian language was the main language spoken. This part is referred to as **ZONE 1**. On the 15th of March 1939 Hungary started the occupation of the remaining part of Carpatho-Ukraine. This part (which is called Kárpatalja by the Hungarians) is referred to in this chapter as **ZONE 2**. As mentioned here above the Hungarian language was dominant in zone 1, and as a consequence all date stamps were monolingual. In zone 2 however bilingual cancels were used as there predominantly Ukrainian was spoken, this language is written in Cyrillic. For strategic reasons the Hungarians also occupied a small part of the Slovak republic, bordering on Carpatho Ukraine. This part was mainly inhabited by the same Rusin people as were living in zone 2 and also here mainly Ukrainian was spoken. This part that never belonged to Carpatho Ukraine was now joined to it and is referred to as **ZONE 3**. Zone 3 was also bilingual. Due to a later administrative change a small area of zone 2 with predominant Hungarian population was joined to zone 1 and became a monolingual area too, having consequences for the postal system as well. This part is referred to as **ZONE 4**.

Postal rates (100 filler = 1 Pengö)

1. From the start of the occupation until 15 – 09 – 1941

*) see additional information on top of next page

For postcards not containing more than 5 words the tariff for printed matter was applicable, which in fact was a considerable reduction in postal tariff for sending cards with only a greeting message. This tariff was as follows

From	Weight up to	Postage
01-01-1927	10 gr	2 fi
15-11-1930	20 gr	2 fi
15-09-1941	20 gr	3 fi
01-03-1943	20 gr	4 fi
01-05-1945	20 gr	10 fi

Domestic picture postcard sent on 13-08-1943 from Rahó to Győr. Message contains less than 5 words. Postage 4 fi.

THE HUNGARIAN OCCUPATION OF ZONE I

After the signing of the Munich Treaty, claims by Hungary over regions of Czechoslovakia became more pressing. On the 11th October 1938 the Czechoslovak Government ceded two border towns in the south of Slovakia to Hungary this in an attempt to satisfy the Hungarian demands (Šahy = Ipoliság and Slovenské Nové Mesto = Sátoraljahújhely in Hungarian). This however could not prevent the decision of Hungary, Germany and Italy made during the talks in Vienna on the 2nd November 1938, where their representatives dictated that the Czechoslovak republic should cede a large strip of territory in the south of Slovakia inclusive of Košice to Hungary together with the southwestern part of Carpatho Ukraine comprising the three most

important towns Užhorod (Ungvár), Mukačevo (Munkács) and Berehovo (Beregszász). The transfer of the sovereignty started on the 7th November 1938 and the occupied zone I became part of the counties Ung, Berg and Ugocsa. The only officially recognized language was now Hungarian. **Stamps and postal stationery of Czechoslovakia could be used until the 19th of November 1938.**

In the towns of Ungvár, Munkács and Beregszász the Hungarian post introduced special postmarks with the text "Visszatért" (meaning returned).

OD) ack ink, it was used for the first time on the 10th of November 1938. The first type is a and the second one a metal one. It has only the year "1938" stated.

ČEVO)

eller, again a metal one, having a diameter of 34 mm, which only appears in black, and a a diameter of 38 mm. The latter can be found in black and violet. It was used for the first November 1938.

EHOVO)

circular hand stamp having a diameter of 37 mm. A rubber and a metal version were used. Some sources state 7 November as the first day it was used, others mention the 9th of November 1938. It always appears in black.

Rubber cancels having a 3-digit number

The Hungarian postal administration also used circle rubber hand stamps, with the text "MAGYAR KIR. POSTA" (Royal Hungarian mail) and the Hungarian coat of arms in the centre. These hand stamps also show a three digit number, which identified the post office where they were used. Two different varieties are known but their appearance is in general similar, only the diameter differs. Normally black ink is used, but occasionally red and violet can be found as well.

The following numbers were allocated to the post offices in zone I

The periods used are stated behind each post office's name. In between brackets the former Czechoslovak names are given.

203	Nagymuzsály (Mužijovo)	13 – 17 November 1938
205	Ungvár I (Užhorod I)	11 – 20 November 1938
206	Korláthelmec (Chlumec)	19 – 28 November 1938
221	Vári (Vary)	08 – 19 November 1938
227	Nagypalád (Veliký Palad)	17 November – 01 December 1938
228	Nagybereg (Berehy)	14 – 17 November 1938
237	Beregszász (Berehovo)	09 November – 06 December 1938
241	Munkács (Mukačevo)	10 November – 10 December 1938
242	Munkács (Mukačevo)	10 November – 10 December 1938
243	Gát (Hať u Berehova)	16 – 21 November 1938
246	Macsóla (Močola)	07 – 20 November 1938
250	Beregszász (Berehovo)	09 November 1938 – 06 December 1938
278	Szürte (Surty)	11 – 21 November 1938
281	Ungtarnóc (Tarnovce)	12 – 18 November 1938
296	Csap (Čop)	10 – 24 November 1938

THE MONOLINGUAL DEFINITIVE DATE STAMPS OF ZONE I

Once the postal services became more normalized, regular metal date stamps were introduced similar to the ones used in Hungary proper. These date stamps have a diameter of 25 mm. Two types can be distinguished.

MÁRAMAROSSZIGET – AKNASZLATINA – TARACKÖZ
TARACKÖZ – AKNASZLATINA – MÁRAMAROSSZIGET 03-07-1942 – 1944

Special postmark used for mail deposited in the railway mailboxes.

These postmarks show the Hungarian text "PU LEVELSZEKRENYBOL", which can be translated as - from the railway station mailbox.

- These postmarks in Hungarian language only were used in
- BEREGSZÁSZ 1940 – 1944
- MUNKÁCS 1939 – 1944 *)
- BÁTYU Period not known

*) In the earlier editions 1940 is mentioned as start of the period of use. Proof is available usage started already in 1939

Special postmark used when the postage was paid in cash

This postmark appears in red on letters, for which the postage was paid in cash and no postage stamps were used. The following post offices used it.

- MUNKÁCS, used from 18-01-1939 until end of Hungarian presence in 1944
- UNGVÁR I, used from 18-05-1939 until end of Hungarian presence in 1944
- BEREGSZÁSZ used from 18-01-1939 until end of Hungarian presence in 1944
- NAGYSZÖLLŐS. used from 14-09-1944 until end of Hungarian presence in 1944

The Hungarian text "KÉSPENZZEL BÉRMENTESITVE" means postage paid in cash.

Commemorative cancels

- A In the year 1939 a train with the relics of the national patron saint of Hungary, Saint Stephen made a kind of pilgrimage throughout the country. To commemorate this event a special cancel was used at the post offices of UNGVÁR I, MUNKÁCS and BEREGSZÁSZ on the 14th of May 1939.
- B On the 300th anniversary of her birth MUNKÁCS honoured the brave defender of the fortress of Munkács, Ilona Zrinyi with a special cancel on the 23rd of May 1943.
- C The Regent of the kingdom of Hungary Miklos Horthy, celebrated his 75th birthday on the 18th of June 1943. The post office of UNGVÁR used a special cancel to celebrate this event.
- D To commemorate the centenary of the birth of the famous painter Mihály Munkácsy, Munkács honoured her great son with a special cancel on the 20th February 1944.

Ilona Zrinyi

She was the mother of Prince Ferenc Rakoczi, and died in exile on the 18th February 1703. She was the daughter of Peter Zrinyi, the patriot executed by the Vienna regime for plotting against the Habsburg King of Hungary. Her uncle Miklos Zrinyi was the greatest statesman and soldier of the century. Ilona inherited her father's patriotism and her uncle's statesmanship and military qualities.

Her first husband was the Transylvanian prince Ferenc I Rakoczi. They had two children: Ferenc who later became the leader of Hungary's greatest freedom struggle, and a girl Julia. After the death of her first husband, Ilona married prince Imre Thokoly, the leader of the Hungarian freedom struggles at the end of the 17th century. Thokoly who fought the Germans as an ally of the Turks had to flee to Turkey when the German Imperial troops chased the Turks out of Hungary.

Ilona Zrinyi remained with her two children in the family fortress-castle Munkács. She defended the castle successfully for three years against superior imperial forces. At the end of the longest siege in Hungarian history, she surrendered the fort, accepting the German commander's guarantee of safe conduct.

In breach of the guarantee, Ilona Zrinyi and her two children were taken to Vienna and imprisoned. Thokoly eventually managed to redeem his wife, but the two children were kept in Vienna. Ilona rejoined her husband in Turkey. She died there in 1703 the very same year her son Ferenc began his epic war of freedom in Hungary. Her remains, together with those of her son and husband, were brought back to Hungary in 1906 and laid to rest in the old town of Kassa. History however decided that her resting place once again became a place of exile as Kassa, being a part of Slovakia, became a part of the newly established republic of Czechoslovakia and was renamed Košice.

Miklos Horthy

Horthy was a career officer in the Imperial Austro-Hungarian Navy and its last commander-in-chief. After the collapse of the dual Monarchy, he took part in the activities of the anti-communist national government in exile as commander of the so-called National Army.

After the collapse of the Bolshevik regime of Bela Kun in July 1919, Hungary was left without a government capable of enforcing law and order. Horthy and his National Army were, during these months of chaotic interregnum, under strict supervision of the Allied (French) command in southern Hungary. On the 10th of November 1919, the Allies gave Horthy permission to enter Budapest and restore law and order. The new Hungarian Parliament elected Horthy the country's Head of State with the title of "Regent" in 1920.

During World War II he joined Germany and Hitler allowed him to occupy Carpatho Ukraine. In his eyes, the return of historic Hungarian lands. When his politics did not coincide enough with the ideas of Hitler he was forced to resign and Hungary was occupied by Germany. He fled to Portugal and died in exile on 09-02-1957.

One of the commemorative cancels was devoted to the famous Hungarian painter Mihály Munkácsy

There are artists whose names have become inseparable from that of a nation. The Netherlands are inseparably connected with Rembrandt, Flanders with Rubens, Spain with Velázquez and England with Turner. Mihály Munkácsy enjoys a similar reputation in Hungary. At the end of the nineteenth century, he ranked among the most respected artists, and his studio in Paris was always full of visitors and customers who were eager to meet the master from far-away Hungary. At the beginning of the twentieth century the famous personalities of the Paris Salon and the favourites of the bourgeois salons faded into oblivion and their place was taken by the Impressionists and their followers. Munkácsy too, would have suffered the fate of the forgotten fashionable masters, had his art merely catered to upper middle-class tastes. However probably owing to his Eastern European background, the majority of his pictures are akin to the art of Courbet, the Barbizon School and the Russian realists. They are imbued with profound humanism and although Munkácsy did not sympathize with the daring ideas of the Impressionists, he was not afraid to experiment with new ways of delineating nature. His work created a new school in Hungarian painting, and his most beautiful works are valuable contributions to universal human culture.

The above text is quoted from the book "Munkácsy" which is entirely devoted to his art.

Mihály Munkácsy, was born at Munkács on the 20th Febr, 1844 as Mihály Lieb. He died on the 1st of May 1900 at Eindhoven. He was buried in Budapest with great pomp. The great majority of his pictures owned by non Hungarians was acquired by Hungarian public and private collections, mostly the Hungarian National Gallery in Budapest.

Postcard with the commemorative cancel, which was only used in Munkács to commemorate his 100th birthday.

THE HUNGARIAN OCCUPATION OF ZONE 2
(The bilingual zone)

From the beginning of the occupation of zone I, Hungary already had the intention of occupying the whole territory of Carpatho Ukraine. The Hungarian army had already made preparations at the border and on the 15th of March 1939 the Foreign Secretary of Hungary, Count Csaky sent an ultimatum to Mgr. Vološin head of State of the independent Carpatho Ukraine, in which he demanded surrender without resistance. Mgr. Vološin had his voluntary army the "Sič" mobilized and they offered some resistance to the Hungarians. However on the 16th of that month Chust, the seat of government, was taken by the Hungarians and on the 18th they had completed the seizure of Carpatho Ukraine. The government in Prague was under heavy pressure of the Germans to insist that Mgr. Vološin resign. The Czechoslovak forces in Carpatho Ukraine crossed the border with Slovakia and a smaller part escaped to Romania.

Postal activities were prepared by the Hungarians and similar types of rubber cancels were used in the beginning as the ones in Zone I. Again in the cancels a number was stated, referring to the post office where they were used. Three different types of such rubber cancels can be distinguished. Normally black ink was used but similarly as in zone I occasionally red or violet was used.

During the hostilities of the 1939 Campaign, the Hungarian forces met with Polish Soldiers at the Verecke pass on 16-03-1939 as illustrated on this picture post card. (Collection Rex Dixon)

Three types were used, which differ in diameter. The cancels show no date nor a name of a post office. The colour of the ink may be black, violet or red.

Cover with rubber number cancel of Magyarkomját (278).

THE METAL NUMBER CANCELS USED IN ZONE 2

During the months March, April and May the rubber number cancels were gradually replaced by standard double circular metal date stamps, but still instead of showing the name of the post office, stating a number which was allocated to a certain post office for a certain period of time.

Provisional postmarks with the name of the post office

As the cancels with a number only state a date but not the name of the post office, a substantial number of post offices used a simple rubber hand stamp with their name and placed it next to the standard number cancel. Below a number of such additional markings are shown.

ISZKA number cancel 331

Registered cover from Nagyszöllös number cancel 324

Cover sent by express from Körösmező number cancel 320

THE BILINGUAL DEFINITIVE DATE STAMPS OF ZONE 2

The definitive date stamps have a diameter of 25 mm. and show the Hungarian name at the top and the Ukrainian name in Cyrillic letters at the bottom. The introduction of these postmarks started at the end of July 1939 and were manufactured with and without a distinguishing letter. A few date stamps show the Ukrainian name in brackets. The spelling of the Ukrainian name in these Hungarian date stamps many times differs from the spelling used during the Czechoslovak sovereignty.

The list on the next pages starts with the Hungarian name, followed by the Ukrainian in the spelling used at that time, and the Czechoslovak name. as used during period 7. Four different types of date stamps are known and the type number is stated. as well as is the distinguishing letter if any.

Type 1
no distinguishing letter

Type 2
distinguishing letter

Type 3
Cyrillic name in brackets
no distinguishing letter

Type 4
Cyrillic name in brackets
distinguishing letter

Remark

When you compare the dates stated in the above list for the closing date of a postal agency (= opening date of post office) with the dates stated in the Hungarian Monográfiája part 6, you may find discrepancies. As mentioned before the stated dates in the list are based on information obtained from Petr Gebauer and Jozef Tekeľ book "České a Slovenské poštovny".

The definitive date stamps pictured below are not listed in part 6 of the Hungarian monography dealing with the date stamps (see the relevant pages 422 to 454). Most probably more can be discovered

BILKE БИЛКИ

TURJAREMETE ТУРЯ РЕМЕТА

ÖKÖRMEZŐ ВОЛОВЕО

DOLHA ДОВГОЄ

Some more examples of the definitive date stamps introduced by the Hungarian postal administration

All the above date stamps are from zone 2, with the exception of Jenke, which is located in Zone 3.

Domestic cover sent on 03-11-1939 from Királymező to Huszt. Postage for a letter of the 2nd weight class 28 fi. Stamps are cancelled by date stamp of Királymező, type I

Domestic local R-cover sent on 16-03-1942 Letter 12 fi, R-fee 30 fi . Total postage 42 fi. The stamps are cancelled by the date stamp of Huszt , type 2 letter D.

Censored foreign R-cover sent on 09-06-1941 from TÉCSŐ to Prague. Letter 20 fi, R-fee 50 fi. Total postage 70 fi. Stamps are cancelled by date stamp of Tecső type 3.

Domestic postcard sent from Budapest to Tekehaza on 31-12-1939. In Tekehaza only a postal agency was operational. For that reason a receiving date stamp of Királyháza is placed on the card. This date stamp originating before Királyháza was transferred to zone I is of the type 4 Postage for the postcard was 10fi.

As mentioned before it is beyond any doubt that in November 1938 Hungary had the intention of annexing the whole territory of Carpatho-Ukraine, nor did it want to grant any autonomy to the province, not even linguistically. This intention is also made clear by the postmarks the postal authorities had prepared before the actual occupation of zone 2. These postmarks were only in the Hungarian language and were prepared for the following post offices in zone 2. All of them had the distinguishing letter "A", except Tecső, which also exists with the letter "B". These postmarks however were never used.

- AKNASZLATINA
- BEREGKISALMÁS
- BEREGKÖVESD
- BEREGLEÁNYFALVA
- BEREGRÁKOS
- BILKE
- DOLHA
- FELSŐVERESMART
- HERINCE
- HUSZT
- ILOVA
- KIRÁLYHÁZA
- MAGYARKOMJÁT
- MEZŐTEREBES
- NAGYLUCSKA
- NAGYSZÖLLŐS
- TARACKÖZ
- TÉCSŐ
- VISK

This postmark of Huszt can be found on philatelic items only. It always shows the date 39 III. 16 at 16 hours.

THE BILINGUAL CANCELS OF THE POSTAL AGENCIES IN ZONE 2 (Hungarian – Ukrainian)

Listed below are all of the postal agencies that once operated in zone 2 during the Hungarian administration of 1939 – 1944. A date between brackets means: the postal agency became a post office at that date.

ALSÓAPSA – НИЖНЯ АПША (01-10-1942) *)	(Nižná Apša)	1942 – 1944
ALSÓBISZTRA – НИЖНЯ БЫСТРА	(Nižný Bystrý)	1940 – 1944
ALSÓKALOCSA – КАЛОЧА	(Koločava)	1942 – 1944
ALSÓKARASZLÓ – ЗАРИЧА (01-02-1944)	(Zariča)	1941 – 1944
ALSÓSZELISTYE – СЕЛИЩЕ	(Nižné Selište)	1940 – 1944
BACSAVA – БАЧОВО	(Bačovo)	1941 – 1944
BARNABÁS – БЕРЛЕБАШЬ	(Berlebaš)	1941 – 1944
BEREZNA – БЕРЕЗОВО	(Berezovo)	1943 – 1944
CSOMÁNFALVA – ЧОМАЛЬЕВО	(Čomalovo)	1940 – 1944
DRÁGABÁRTFALVA – ДОРОБРАТОВО	(Drahobratovo)	1944 – 1944
DRUGETHÁZA – ЗАРИЧОВО	(Zaričovo)	1942 – 1944
DUSZINA – ДУСИНА (1944)	(Dusina)	1939 – 1944
FELSŐKEREPES – ВЬШНИЙ КОРОПЕЦЬ	(Vyšný Koropec)	1940 – 1944
FELSŐNERESZNICE – НОВОСЕЛНЦА	(Novoselica)	1943 – 1944
FELSŐZINEVÉR – СИНЕВИРЬ ПОЛЯНА	(Sinovírska Poľana)	1941 – 1944
FELSŐVERECKE – ВЬШНИ ВЕРЕЦКИ	(Vyšný Verecký)	1943 – 1944
FELSŐVIZNICE – ВЬШНА ВЬЗНИЦА	(Vyšná Viznica)	1942 – 1944
GÁNYA – ГАНИЧИ	(Ganica)	? – 1944
HÁRSFALVA – НЕЛЬПИНО (05-08-1942)	(Nelipino)	1940 – 1942
HOLUBINA – ГОЛЧБИННОЕ	(Holubinné)	1941 – 1941
HORLYŐ – ГЧДЛЬОВО	(Chudlovo)	1939 – 1944
HUSZTSÓFALVA – ДАНИЛОВО	(Danilovo)	1940 – 1944
IGNÉC – ЗНЯЦЕВО	(Zňačovo)	1940 – 1944
KISLUBOKA – ГЛЧБСКА	(Hlboká)	1942 – 1943
MALOMRÉT – ЖОРНАВА (01-03-1944)	(Žornava)	1941 – 1944
NAGYRÁKÓC – ВЕЛИКИЙ (10-07-1944)	(Veľký Rakovec)	1941 – 1944
NEVICKE – НЕВИЦКОЕ	(Nevické)	1940 – 1942
PASZIKA – ПАСЬКА	(Pasika)	1940 – 1942
PODHERING – ПОДГОРЯНЫ (14-11-1941)	(Podhorany)	1939 – 1941
RAKASZ – РОКОСВА (09-04-1942)	(Rokosov)	1940 – 1942
SÓSLAK – СОЛЯ	(Soľa)	1940 – 1942
SZÁLDOBOS – САЛДОБОШЬ	(Saldoboš)	1941 – 1944
SZÖLLŐSEGRES – ЗГРЕШЬ	(Olešník)	1940 – 1941
VUCSKÓMEZŐ – ВУЧКОВОЕ	(Vučkovo)	1941 – 1944

*) ALSÓAPSA was transferred to zone 4 during 1941 and changed over to a monolingual postmark. It became a post office on 01-10-1942.

Postal agency of Karcsava

Postal agency of Száldobos

Postal Agency of Negróc/Негровець

It is very interesting to know that the Hungarians also had the intention of opening a postal agency in Negróc but this was never put into effect. The only proof there is of this intention are the registration labels which were prepared and were used as provisional labels at nearby post office of Alsószinevér.

 KOVÁCSRÉT КУШНИЦА – BEREGSZÁSZ

Similar date stamps, used by the guard on trains without a mail coach.

All these date stamps show the letters "jm or km" at the bottom in between the two circles, or just below the date bridge.

"jm" stands for Jegyzékelőmenet, meaning literally: some one who shows you your seat (train guard).

"km" stands for közvetítőmenet, meaning literally: some one who mediates (in finding a seat).

TARACKÖZ – AKNASZLATINA – MÁRAMAROSSZIGET

Cover* sent on 29-X-1939 by train to Prostějov in Bohemia. The 32 fi. stamp has been cancelled by the guard on the train Királymező-Taracköz, using the date stamp with the letters "jm".

*) from the collection of Dr. J.E. Page

Special postmark used for mail deposited in the railway mailboxes.

These postmarks are similar to the ones used in zone I, but now are bi-lingual.

HUSZT ХУСТЬ used during 1940 – 1944

KIRALYHÁZA КИРАЛЬГАЗА used only from 1940 until 1941 *

KÖRÖSMEZŐ ЯСИНА used during 1940 – 1944

RAHÓ РАХОВЬ used during 1940 – 1944

* KIRALYHÁZA was transferred to zone I during 1941 and ever since, used a single-lingual date stamp. See the chapter on zone 4.

Hungarian domestic 12 fi postcard. Sent by a gentleman living in Alsószinevér and posted at the railway station Huszt, on the 23rd of November 1942, to be forwarded to Debrecen.

Special postmark used when the postage was paid in cash.

This postmark appears on letters and consignments, for which the postage was paid in cash. In Huszt a bilingual cancel was used. It appears normally in red.

HUSZT ХУСТЬ, used from 30-10-1939 until the end of Hungarian presence in 1944.

Irregular marking of Beregrákos

Some time during 1944 a boxed bilingual marking is used in Beregrákos. This marking is from origin an official marking and probably used after the regular date stamp of Beregrákos broke down.

Non-official marking to commemorate the return of Huszt to Hungary

During the first days of the Hungarian occupation a non-official marking appeared to commemorate the return to Hungary of the town of Huszt (Chust). Both red and green ink was used and it is usually found on the small sheet originally issued to celebrate the opening of the parliament of the independent Carpatho Ukraine.

AIRMAIL *)

The Airport of Ungvár was open for some period during the Hungarian occupation. The Hungarian airliner Malert, a relative small airline with three Junkers JU-52/3m and two Savoia-Marchetti SM-79 planes, began a route from Budapest to Ungvár via Miskolc and Kassa on 7 September 1940. Some post cards and air mail letters were carried. Malert continued operations on this route through 1942, but only a small amount of air mail was carried. Newspapers in bulk were the primary mail items.

*) Source: Airmail operations during World War II, by Thomas H.Boyle Jr.

THE HUNGARIAN OCCUPATION OF ZONE 3

(The easternmost part of Slovakia)

After the occupation of zone 2, the Hungarian army also occupied a small sector of land in the east of the then independent puppet state Slovakia. The reason might have been a strategic one. Hitler did not oppose this Hungarian move and left his ally Slovakia without any support. The occupied area was administratively linked to "Kárpátalja" as the occupied area was referred to in Hungary. This area was mainly inhabited by so-called "Prešov Rus" an Ukrainian speaking minority in Slovakia. In the area, 74 villages and hamlets were located, in 7 of them a post office was operating and a further 5 could make use of a postal agency. Two of the postal agencies were upgraded to post offices during this period. The whole of zone 3 was bi-lingual during the Hungarian administration. Similar to the practice in zone 2 the postal administration used rubber number cancellers in the beginning, which however were soon replaced by metallic number cancellers. Later these provisional ones were replaced again by the standard bi-lingual Hungarian cancellers with the crown of St. Stephen.

RUBBER NUMBER CANCELS USED IN ZONE 3

- 118 SZOBRÁNC
- 227 REMETEVASGYAR
- 229 REMETEVASGYAR
- 269 BEZŐ
- 270 KLENOVA (postal agency)
- 273 NAGYPOLANÝ

KELEN 1939 AUG. 30

1939 JÚL 11. Klenova

One of the above additional markings might be found next to the rubber number stamp of Klenova.

METALLIC NUMBER CANCELS USED IN ZONE 3

- 251 KLENOVA (postal agency)
- 301 SZOBRÁNC
- 302 SZOBRÁNC
- 315 BEZŐ
- 316 UTCÁS
- 317 TAKCSÁNY
- 318 UBLYA
- 361 NAGYPOLANÝ
- 362 REMETEVASGYAR
- 365 REMETEVASGYAR

Metallic number cancel 317. Court letter sent on 12-08-1939 from Takcsány.

THE BILINGUAL DEFINITIVE DATE STAMPS OF ZONE 3

BEZŐ ***)	БЕЖОВЦЫ	(BEŽOVCE)
JENKE *)	ЕНКОВЦЫ	(JENKOVCE)
KLENOVA **)	КЛЕНОВА	(KLENOVÁ)
NAGYPOLANÝ	ВЕЛИКА ПОЛЯНА	(VEĽKÁ POLANA)

TAKCSÁNY	СТАКЧИНЬ	(STAKČÍN)
UBLYA	УБЛЯ	(UBLA)
UTCÁS	УЛІЧЬ	(ULIČ)

*) Jenke was originally a postal agency, but became a post office on 17-06-1942
 **) Klenova was originally a postal agency, but became a post office on 01-07-1944
 ***) Bező was originally a postal agency, but became a post office on 29-12-1939

R-cover, sent from Szobránc to Budapest on 14-08-1943.
 Bilingual date stamp of Szobránc. Tariff period 01-07-1943 until the end of the Hungarian administration. 2nd Weight class (up to 250 gr.). Postage 60 fi. and registration fee 70 fi. = 130 fi.
 6 stamps of 20 fi. = 120 fi. + 1x 10 fi. = 130 fi.

THE MARKINGS OF THE POSTAL AGENCIES IN ZONE 3

Including the postal agencies of Jenke and Klenova, which became post offices ultimately, only 5 postal agencies were operational during the Hungarian administration of zone 3.

Klenova р.д.
Кленова

Klenova postal agency also used this bilingually marking for a certain period of time.

- ALSÓHUNKÓC – ХУНЬКОВЦЫ (CHOŇKOVCE) 01-02-1940 until end of Hungarian administration in 1944
- BEZŐ – БЕЖОВЦЫ (BEŽOVCE) until 29-12-1939 after this date it was a post office.
- CIRÓKAÓFALU – СТАРИЧА (STARINA) 10-06-1940 until end of Hungarian administration in 1944. *)
- JENKE – ЕНКОВЦЫ (JENKOVCE) 01-05-1949 until 16-06-1942 after this date it was a post office.
- KARCSAVA – КАРЧАВА (KRČAVA) 15-04-1940 until end of Hungarian administration in 1944.
- KLENOVA – КЛЕНОВА (KLENOVA) 16-05-1939 until 08-02-1941, opened again 23-04-1942 until 01-07-1944, after this date it was a post office.

*) Due to the construction of a large dam in the year 1980 (The Starina dam) Cirókaófalú was abandoned, submerged by the water and does not exist any longer.

ZONE 4, THE TRANSFER OF HUNGARIAN SPEAKING AREAS FROM ZONE 2 TO ZONE 1

In the year 1941 the boundaries of the counties Ugocsa and Marmaros were corrected. A small part of zone 2 which originally was bilingual was transferred to these counties and became part of the mono-lingual zone 1.

This of course had consequences for the date stamps used at the post offices and the postal agency in this area.

The following post offices were affected:

AKNASZLATINA	NAGYSZÖLLŐS
BUSTYAHÁZA	TÉCSŐ
KIRÁLYHÁZA	VISK
KÖZÉPAPSA	

Only the 6 post offices listed below used a modified date stamp, from which the Ukrainian text was removed and replaced by a discontinued bended line. All these modified date stamps were in use from 1941 until the end of the Hungarian administration in 1944.

AKNASZLATINA (SLATINSKÉ DOLY) (also with letter A & B)
 KIRÁLYHÁZA (KRALOVO NAD TISOU) (also with letter A & B)
 KÖZÉPAPSA (STŘEDNÍ APŠA)
 NAGYSZÖLLŐS (SEVLUŠ) (also with letters A, B, C & D)
 TÉCSŐ (ŤAČOVO) (also with letters A & B)
 VISK (VÝŠKOVO NAD TISOU)

The only postal agency in zone 4 was Alsóapsa (Nižná Apša), it became a post office on 01-10-1942. During the time it was a postal agency, it used the date stamp as shown in fig. A

From 1942 until the end of the Hungarian administration the post offices of ALSÓAPSA and BUSTYAHÁZA used the standard monolingual date stamp of zone 1 (fig B). After the transfer of KIRÁLYHÁZA also the date stamp of the railway mailbox was changed to a mono-lingual one as shown in fig C.

Hungarian field post during the Carpatho-campaign 1939 (occupation of zone 3)

Concerned that the German army might start to occupy the remaining part of Carpatho Ukraine (zone 2), would invade Bohemia and Moravia and Germany would recognize an independent Slovakia, the Hungarian government, headed by prime minister count Teleki Pál, during its session on 10-03-1939 decided to occupy zone 2. It informed the German, Italian and Polish governments of this decision but did not seek German approval and emphasized to the Italian and Polish governments that Germany's prospective annexation of Slovakia would put it in a very advantageous strategic position by removing Hungary's border with Poland and also endanger Hungarian, Polish and Italian interests.

On 12-03-1939, the Hitler government advised the Hungarians that Czechoslovakia was about to disintegrate, that Germany would recognize an independent Slovakia but would not recognize an independent Carpatho Ukraine. Hungary was given 24 hours to solve the "Transcarpathian problems". Mgr. Tiso declared Slovakia's independence on the 14th of March, this in line with an earlier agreement with Germans. Mgr. Voloshin followed the same day in declaring independence for Carpatho Ukraine. He also sought approval and protection from the Germans. On the 15th of March the Hungarian Army started its campaign to occupy (re-unite) Carpatho Ukraine. Only the poorly armoured Sich guards offered some resistance, hoping the Germans would grant the request of Voloshin for protection. On the 18th of March the campaign was completed by the occupation of the entire Carpatho Ukraine.

On 23-03-1939 the high command of the Hungarian Army ordered occupation of a part of Slovakia west of the Ung-valley, this to secure the train connection Ungvár-Perecseny-Nagyberezna-Uzsok. The Slovakian Army resisted the Hungarian Army but only during one day. A Slovak-Hungarian committee was established to determine the border. An agreement was signed on the 3rd of April and from then on this part was considered by Hungary as a part of its territory. (Hungarian annexation of this part of Slovakia is referred to in this book as zone 3)

During its campaign to re-conquer Carpatho Ukraine the Hungarian field post was not operational. It started on 24-03-1939 when zone 3 was taken from the Slovaks. Only during a relatively short period in the year 1939, were a number of 44 field offices operational in zone 3, they are listed below.

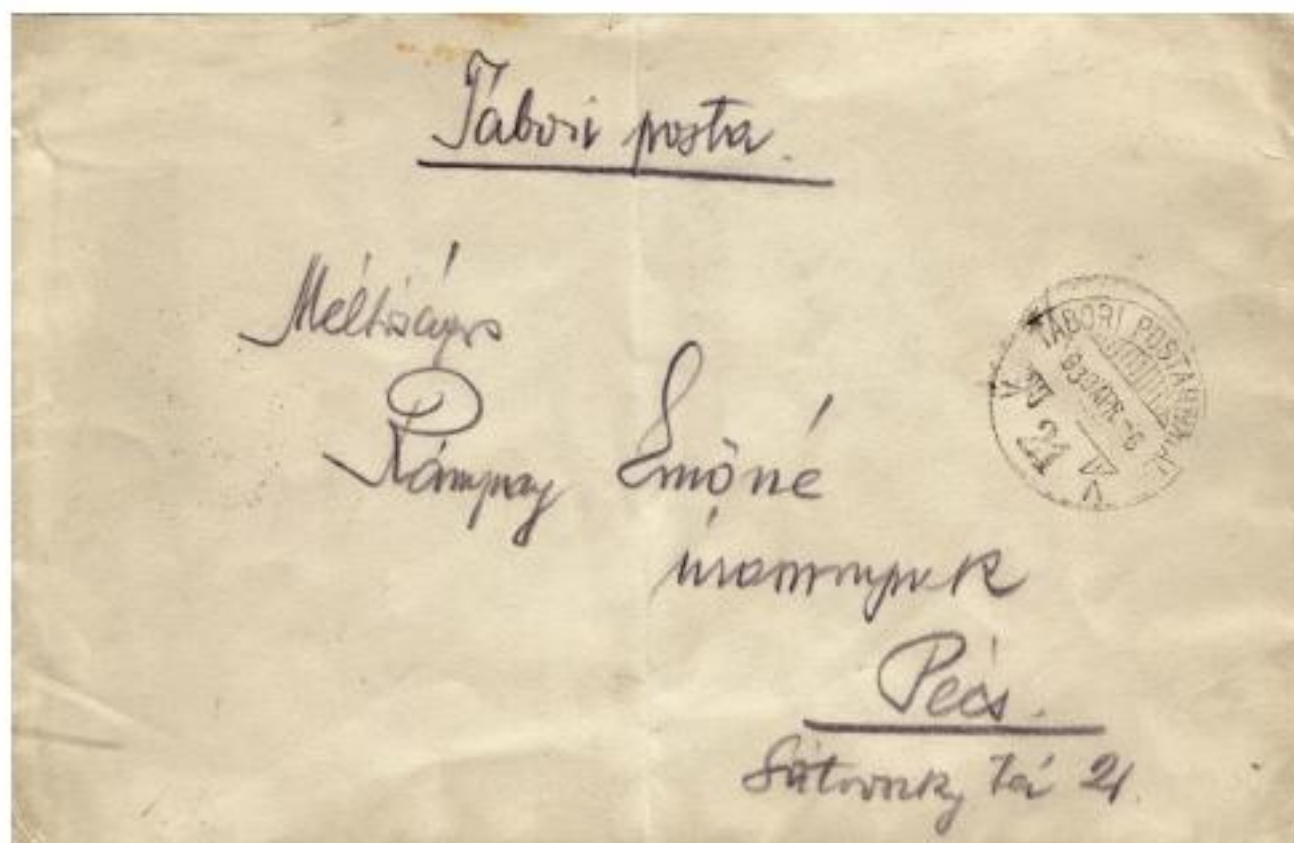

Date stamps of the Hungarian field post

TÁBORI POSTAHIVATAL 13 & 13A	March 25 – April 14
TÁBORI POSTAHIVATAL 14 & 14A	March 26 – April 15

TÁBORI POSTAHIVATAL 68 & 68A	March 25 – April 28

It was also possible to send registered mail via the field post offices. The registration labels used were bicoloured red and green.

The sender's official Army unit is printed on the reverse of the envelope; underneath the official stamp of the same unit.

Cover with date stamp of field post office 21, sent on 06-04-1939 to Pécs. On the reverse the arrival date stamp of Pécs with date 08-04-1939. The envelope is an official one of the Royal Hungarian Army "King Béla" the command of the 8th Infantry battalion.

Two field post cards of the Hungarian army, used during the campaign to occupy zone 3. They show the date stamps of field post offices 47 and 47A, which were operational from 25-03-1939 until 21-04-1939.

Hungarian field post offices and army censorship during WWII 1941 until 1944

The bombardment of Kassa, Munkács and Rahó on the 27th of June 1941 was the motive for Hungary to declare war on the Soviet Union. From Körösmező (Jasina) the "Carpatho division" of the Hungarian Army started its advance in the direction of Kolomea and reached the Dnjestr river between 5 and 7 July. On the 1st of July the Carpatho division crossed the border with the Soviet Union.

László Suurányi carried out a survey and established that the field post offices mentioned below were operational in Carpatho-Ukraine for 7-8 days between 27-06-1941 and the first days of July 1941.

Field post office 4: Huszt, Kárpát-csoport parancsnokság (Command office of the Carpatho division)

Field post office 21: Körösmező, 1. hegyivadász dandár (1st brigade of mountaineers)

Field post office 41: Tiszaborkut, 1. gépkocsizó dandár (1st motorized brigade)

Field post office 45: Tiszaborkut, 2. gépkocsizó dandár (2nd motorized brigade)

Field post office 68: Munkács, 8. határivadász (8th brigade border guards)

The date stamps of the field post offices 21, 42 and 68 were used in Carpatho Ukraine in an earlier stage as well (between March and April 1939). During the war with the Soviet Union the numbers of the field post offices were changed twice. The first change took place during 1942, with a three digit number. The first digit was the number of the Army unit, they belonged to and the other two digits remained unchanged. This first change in field post numbers did not have any consequence for the field post in Carpatho Ukraine as this was not operational there from end July 1941 until 1944. The second change took place during 1943. The numbers were removed and replaced by 2 or 3 letters.

During 1942 mobile field post offices were introduced. The date stamps of these offices also have a number. Knowledge of their operating methods is lacking.

ROYAL HUNGARIAN mobile field post office I6M, with date 43-XI-27

The card depicted above, may lead to the conclusion that mobile field post office I6 was operational on the line Munkács-Volc- Lemberg on the 27-XI-1943. From the message the sender wrote on the card, we know that the card was written whilst he was waiting for the army train, in which the mobile field post station was operating. On the 29th of November 1943, this mobile field post station delivered the card to the post office of Volóc, which took care of forwarding it to its ultimate destination.

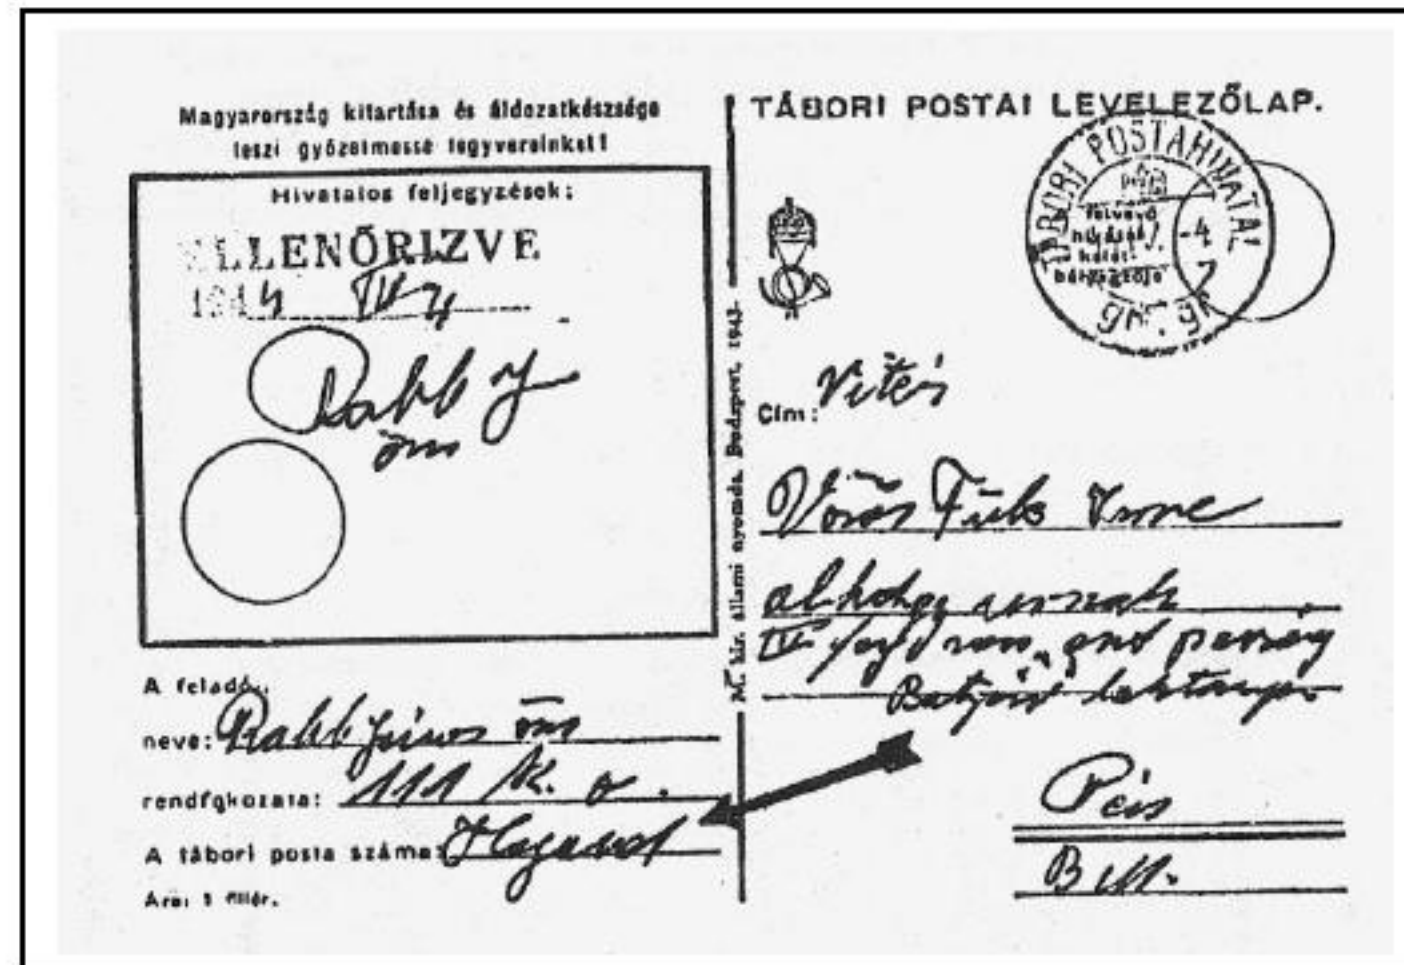

The armament of the 2nd Hungarian army was very poor and when the Soviets started a major attack on the 12th of January 1943 the Hungarians had to take heavy losses. In between 15-01-1943 and 09-02-1943 the Hungarian 1st Army was completely destroyed, whilst their allies, the Germans, had already withdrawn their forces.

In April 1944 the 1st Hungarian Army was ordered to try to stop the Soviet advance. However after a short offensive it fell back to a position 20 km before the Carpatho mountains in the province of Hungadi. The reason for it was the hope that the 1st Army could protect the crucial provinces of Hungary. As Romania had withdrawn itself from the war, the position of the Hungarian army had changed fundamentally and the Carpathian defense

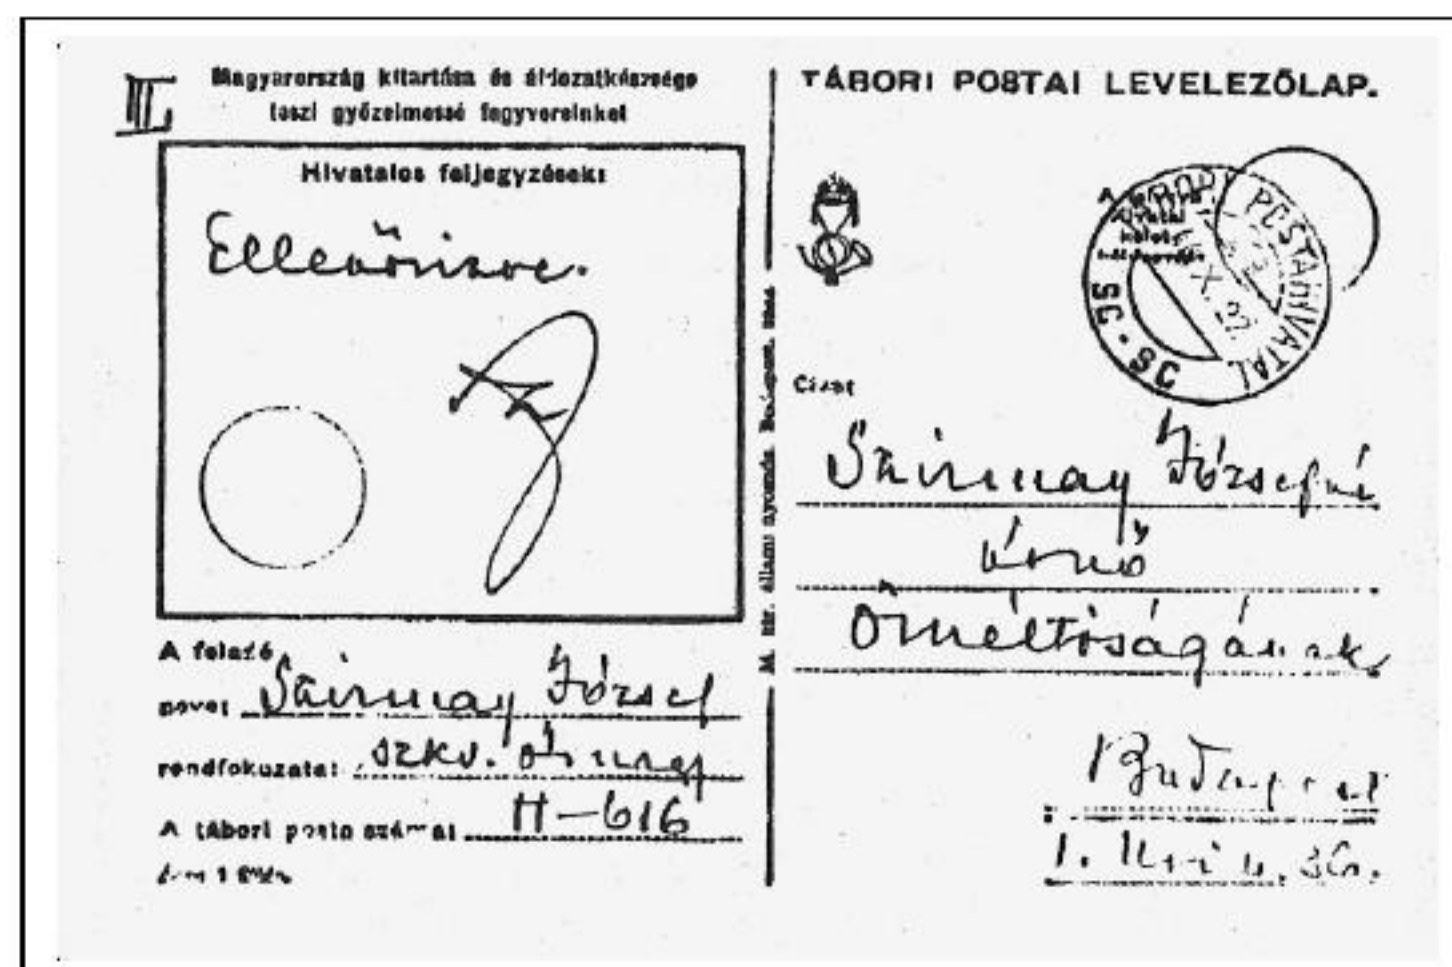

line had lost its significance. When the Soviet Army encircled the 1st Army, the Hungarian president asked for an armistice on 19 – 10 – 1944. The Commander of the 1st Army Miklós Béla Dálnoki surrendered to the Soviets and from October 1944 the Soviets were in control of Carpatho Ukraine.

During the stay of the Hungarian Army in Carpatho Ukraine in the year 1944 the field post offices were operational again. The majority were related to the 1st Hungarian Army.

The date stamps of these field post offices were provided with distinguishing letters. With the help of these date stamps, messages written on the cards and the names of the villages and towns mentioned, we can be sure, that the field post was again operational and also establish which field post offices were located in Carpatho Ukraine.

This field post card was posted on 04-04-1944. The sender and the censor were the same person. This can be established, as in the date stamp as well as in the censor stamp the letters “g” are stated, which belong to the field post office located at Hajasad (Volosianka).

On 27-10-1944 another field post card was sent using the same field post office.. Again the sender and the censor were identical. The message concerns a road repair. Now the letters “sc” appear in the date stamp.

Army censorship

Starting from the beginning of 1941 normal civilian mail was censored as well in Carpatho Ukraine. The reason is not quite clear. On the postcards shown on the next page a hand stamp with the text “Ellenőrizve” (censored) can be seen, next to the date stamp, whilst the other card has a circle censor mark with the text “ELLENŐRIZVE” the Hungarian coat of arms in the middle and at the bottom of the circle the text “PEKIR”.

Starting from September 1944 all domestic mail in Hungary had to be censored. From the censor marks found on domestic correspondence it becomes clear that the censoring was mainly carried out by the field post offices. Although an order was issued to perform this censoring, a fair amount of domestic mail can be found without a censor mark.

From the moment Hungary participated in WWII, a compulsory labour service was introduced similar to the German one. The labourers were accommodated in labour camps. The correspondence from these labourers was also censored by the field post offices. This correspondence was not free from paying postage. They also had to mark "kmsz" on their correspondence, which is an abbreviation of the Hungarian expression 'közérdekű munkaszolgálat' which means "labour service". This helped the censor to identify the letter.

From April 1944 the field post offices of the 1st Hungarian Army were operational again and the censoring of the correspondence of the labour camps was carried out by those field post offices. An oval sized censor mark was placed on the censored mail.

Hungarian censor mark of the field post

Mail of the Hungarian soldiers sent by Polish post during the campaign to occupy zone 2 (Kárpátalja)

Zone 1, as mentioned before, was returned to Hungary as a result of the Munich treaty and the first Vienna arbitration. The remaining part declared itself independent (later referred to as zone 2) but was occupied by the Hungarian Horthy government. The invasion started on the 15th of March 1939 and was completed by the 18th of that month. Hungary thus established again the same borderline with Poland as existed before the area joined the Czechoslovak republic after WWI.

This however did not remain so during the whole period of WWII. On the 1st of September 1939 the Germans invaded Poland and on the 17th September the Soviet Army, as a result of the secret von "Ribbentrop pact" invaded Poland as well. The Soviet Army reached the newly established border between Hungary and Poland on the 28th of September 1939. Due to German counter offensives, (the political situation with the Soviet Union had changed in the mean time,) the Soviet Army was dislodged from this position and the situation remained stable until the autumn of 1944 when the Soviet Army returned.

The re-conquering of Kárpátalja (as looked upon from the Hungarian point of view) was completed so rapidly that no field post existed there during the period 15 to 26 March 1939. Organizing this started on the 24th of March. During these first 11-12 days the soldiers provided their mail with a marking of their army unit and sent it without paying postage. Some of the soldiers made use of an existing Polish travelling post office on the line running from Körösmező (Jasina) to the next Polish station over the border called Worochta. From there the trains ran further north to Stanislav and Lemberg. Instructed by the authorities the Polish postal authorities forwarded the non franked mail of the Hungarian soldiers without any problems. An example of this practice is the post card sent by an Hungarian soldier to his family in Romhányba in the county of Nógrád. (see fig 1). He used a Czechoslovak picture postcard and wrote in the right hand part : 24-III-39 field post Körösmező.

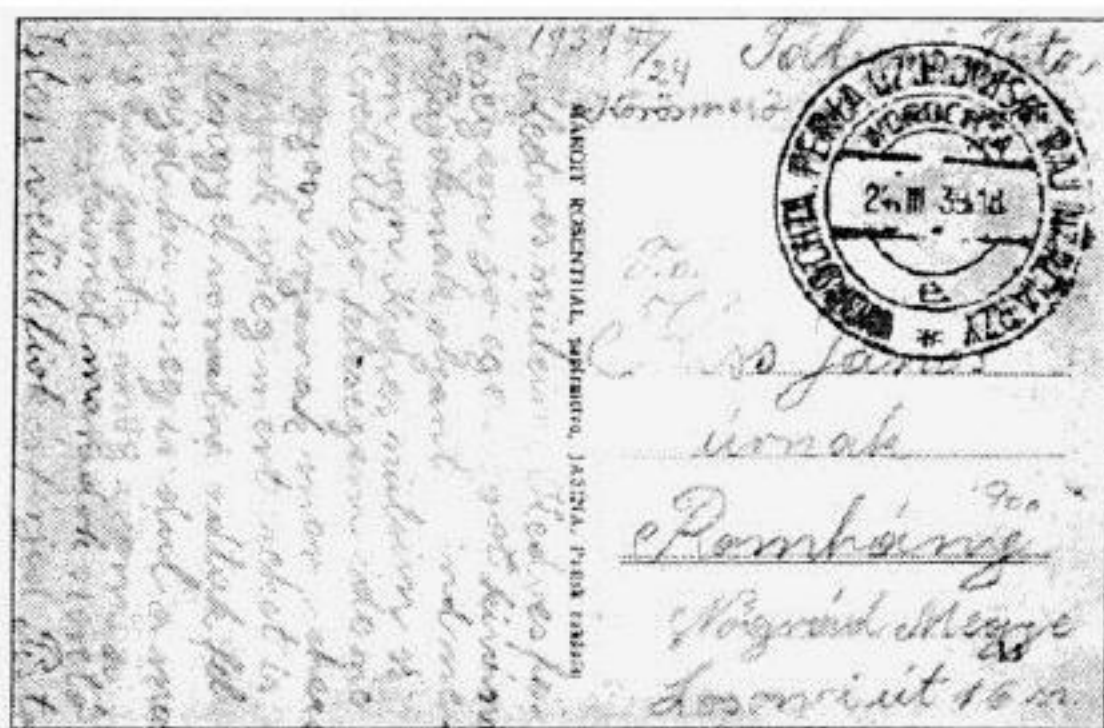

fig. 1

The postmark is from the Polish traveling post office "WOROCZTA, PERLA UZDROWISK RAJ MARCIARZY WOROCZTA 24.III.18e". Interesting is also the message he wrote "Dearest parents and beloved wife, You should not send me any letters as it is difficult to forward them on to me. I have mailed this card on a Polish travelling post office. As soon as the Hungarian mail operates again I will let you know my address. Your loving husband and son Pista. God be with you. This chapter is a free translation of a part of an article, which was published in the Hungarian monthly "BÉLYEGVILÁG" 2003-7-8. This highly interesting period needs definitive further research.

Polish soldiers in Carpatho-Ukraine at the end of 1939

When the Soviet troops invaded Poland on the 17th September 1939, Marshall Edward Rydz-Smigly issued an order for his troops to withdraw to Hungary and Romania. This withdrawal took place via Carpatho-Ukraine. 90,000 Civilians and soldiers fled to Romania and 140,000 to 150,000 went to Hungary. The writer of the article in "BÉLYEGVILÁG" mentions that he has spoken to an eyewitness belonging to the 3rd battalion mountaineers, who reported that on a hill top near Ráho an army camp for the Polish soldiers existed. Also on the 28th of September 1939 Polish soldiers were reported to have been seen in the village of Polena. From the last days of September 1939 until September 1940 a Polish Army Camp was operational in Mukačevo and Horváth Lajos reports in his "Chronicle of the postal history of Carpatho-Ukraine" of a possibility for the Polish soldiers to send mail by using the Polish field post. The Hungarian Army had an Army hospital in Mukačevo and Polish soldiers were treated there as well and they were able to send letters. Also in Jasina (Körösmező) a Polish Army Camp should have existed and one letter is known sent from there to Budapest. It has not been possible to check all of this information and more investigation is needed.

PERIOD 10

RESTORED CZECHOSLOVAK ADMINISTRATION DURING 1944

- 27-09-1944 The red Army crossed the border with Czechoslovakia at the Tátor pass and started the liberation. On 15-10-1944 Bohdan (Tiszabogdany) was liberated by the 4th Ukrainian Army under command of general Petrov followed by (Raho) on the 16th, Chust (Huszt) on the 24th, Mukačevo (Munkács) and Berehovo (Beregszasz) on the 26th and Užhorod (Ungvár) on the 27th.
- 27-10-1944 The Czechoslovak Government delegation, headed by Minister František Nemeč started to operate. Its seat was Chust. Mr. Nemeč appointed Dr. Krudský as head of the Post and Telecommunication services and Michal Fedeleš became the new director of the post office in Chust.
- 08-11-1944 The first rubber hand stamp after the liberation was introduced at the post office of Chust. This handstamp was made by the engraver Izak.
- 11-11-1944 Mr Nemeč, the chairman of the National Delegation, issued a regulation to overprint the available Hungarian postage stamps. (referred to as the Chust overprint) Until the overprinted Hungarian stamps became available at the post offices, the Hungarian postage stamps would remain valid.
- 04-12-1944 The overprinted Hungarian stamps became available only at the post offices under control of the Czechoslovak Government delegation. These offices were: Sevluš, Tačovo, Rachovo, Volové and Chust. The metal handstamp used for the overprinting was again made by Mr. Izak.
- February 1945 Due to complicated political circumstances, the Government delegation was forced to leave Chust and retreated to Košice in Slovakia. A limited number of overprinted stamps were taken to Košice and were used there.

Notes:

1

As the overprint of Chust was carried out by order of the representative of the legal Czechoslovak government, this overprint cannot be a local overprint as some authors have classified it. In fact it was the first legal issue of the liberated reborn Czechoslovak Republic. The validity was not restricted to the CU but it could also be used in the whole of the liberated territory. In the catalogues it should precede the Košice issue. Political circumstances however forced the Czech editors of stamp catalogues to underestimate or, even worse, to ignore this issue.

2

During this period some more overprints were issued. Such as the Mukačevo overprint, this overprint was initiated by local sympathizers in Mukačevo of the reunion of the CU with the Czechoslovak Republic. Mukačevo was then already under control of the NRZU. The postal authorities of the NRZU unofficially accepted this overprint only for a few days. The Mukačevo overprint can be classified as a revolutionary overprint, similar to the revolutionary overprints of 1918 (Mares, Horner and others). Also in Berehovo and Teresva Hungarian stamps were overprinted. They have however never been used and should be looked at somewhat suspiciously. (Was the issue speculative or based on Czech nationalism?)

3

During this period also a great number of postal stationery was overprinted, some at Chust, Mukačevo or Berehovo. Post cards with these overprints were genuinely used. The other postal stationery has not been reported used by the public.

Postal rates

At the time the governmental delegation started its activities, Hungarian currency was used in Carpatho-Ukraine. The overprint on the Hungarian stamps initiated by this body only show the letters ČSP and the year 1944. The letters underline the fact that Carpatho-Ukraine "de jure" and partially "de facto" had become again a part of the undivided Czechoslovak republic. No new face value was shown on the overprinted stamps which may lead to the conclusion that the existing Hungarian postal rates were still valid.

Rates valid from 24-10-1944 until the delegation left Chust (March 1945)

	<u>Local</u>	<u>Domestic</u>
Postcard	12 fi.	18 fi.
Domestic letter up to 20 gr.	20 fi.	30 fi.
Domestic letter 20 up to 250 gr.	36 fi.	60 fi.

LIST OF POST OFFICES WHERE STAMPS WITH CHUST OVERPRINT WERE SOLD.

As only a part in the east of Carpatho-Ukraine had been under control of the delegation headed by Minister Nemeč, only 5 district offices received supplies of these postage stamps.

- CHUST
- VOLOVÉ
- RACHOVO
- SEVLUŠ
- TAČOVO

POSTMARKS USED DURING THIS PERIOD

This postmark is a double circle rubber stamp. In the centre is the coat of arms of the Czechoslovak republic.

No indication of the date and in between the two circles the

Text: CHUST--- XYCT
 ČS. POŠTA

This postmark was used by the Governmental delegation only and was applied on the official cover used by this body. Some times it was also used on correspondence sent to the National delegation as a confirmation of receipt.

This cover was brought to Chust by the governmental delegation. It was taken from London to Moscow and from there to Chust. It was used for official correspondence.

The cover is genuine, as well as the stamps, see expert mark of Blaha.

The cover bears an address in Prague, however a mail connection with Prague was not possible during the presence of the Governmental delegation in Chust. The delegation left Chust during February 1945 and Prague was liberated by the Red Army on 08-05-1945. No mail connections existed between the liberated and the occupied parts of the Republic. Conclusion: the cover has never been sent and the address must have been written on the cover some time later.

First date stamp used in the liberated territory. The colour of the genuine postmark tends to violet, the counterfeited however has a more red colour. The inscription means "Mail of the liberated area". It appears with the dates 8, 13 and 14 XI. only. Apart from the red-violet colour a green shade exists as well, which is extremely rare. This postmark is only found on not overprinted Hungarian stamps

genuine

counterfeit

POSTMARKS used in the area under control of the NATIONAL DELEGATION

As no uniform postmarks were available, the post offices in towns and villages under authority of the government delegation in Chust had their own postmarks prepared. As not exactly the date could be established when these postmarks became available some only appear on Hungarian stamps without an overprint.

At the post office of Chust a nationalized Hungarian postmark was used. The Hungarian name Huszt at the top was removed and replaced by the letters ČSR. For the date the Czechoslovak style (day, month, year) was adopted. It only exists with the code letter "H".

At the post office of Teresva two different postmarks were used. The one shown here exists in two versions. One with date and the other one only with the year. The colour of the ink used was normally red.

The second one used at this post office is a double line postmark which was only applied in black.

Also in Sevlus two postmarks were used. A double circular bi-lingual one, for which red ink was used and an ornamental bi-lingual one only applied in black.

Lipča used a simple one line postmark and used black ink for it.

The provisional cancel of Volove is bilingual, without date and only applied in black ink.

The provisional bilingual postmark of Uhla is not mentioned in the books written by Dr. Simady or by Miroslav Blaha. It was only recently discovered on items in old collections which were auctioned at several auction houses.

POSTMARKS USED ON NOT OVERPRINTED HUNGARIAN POSTAGE STAMPS

Cover with green cancel of Chust

Domestic cover with provisional cancel of Teresva. Postage 2nd weight class 20 up to 250 gramms: 30 filler. Postage stamps of 4+8+18= 30 filler, Arrival postmark of the R.N.V.

POSTMARKS USED ON OVERPRINTED HUNGARIAN POSTAGE STAMPS

Cover with bilingual postmark of SEVLUŠ СЕВЛЮШ

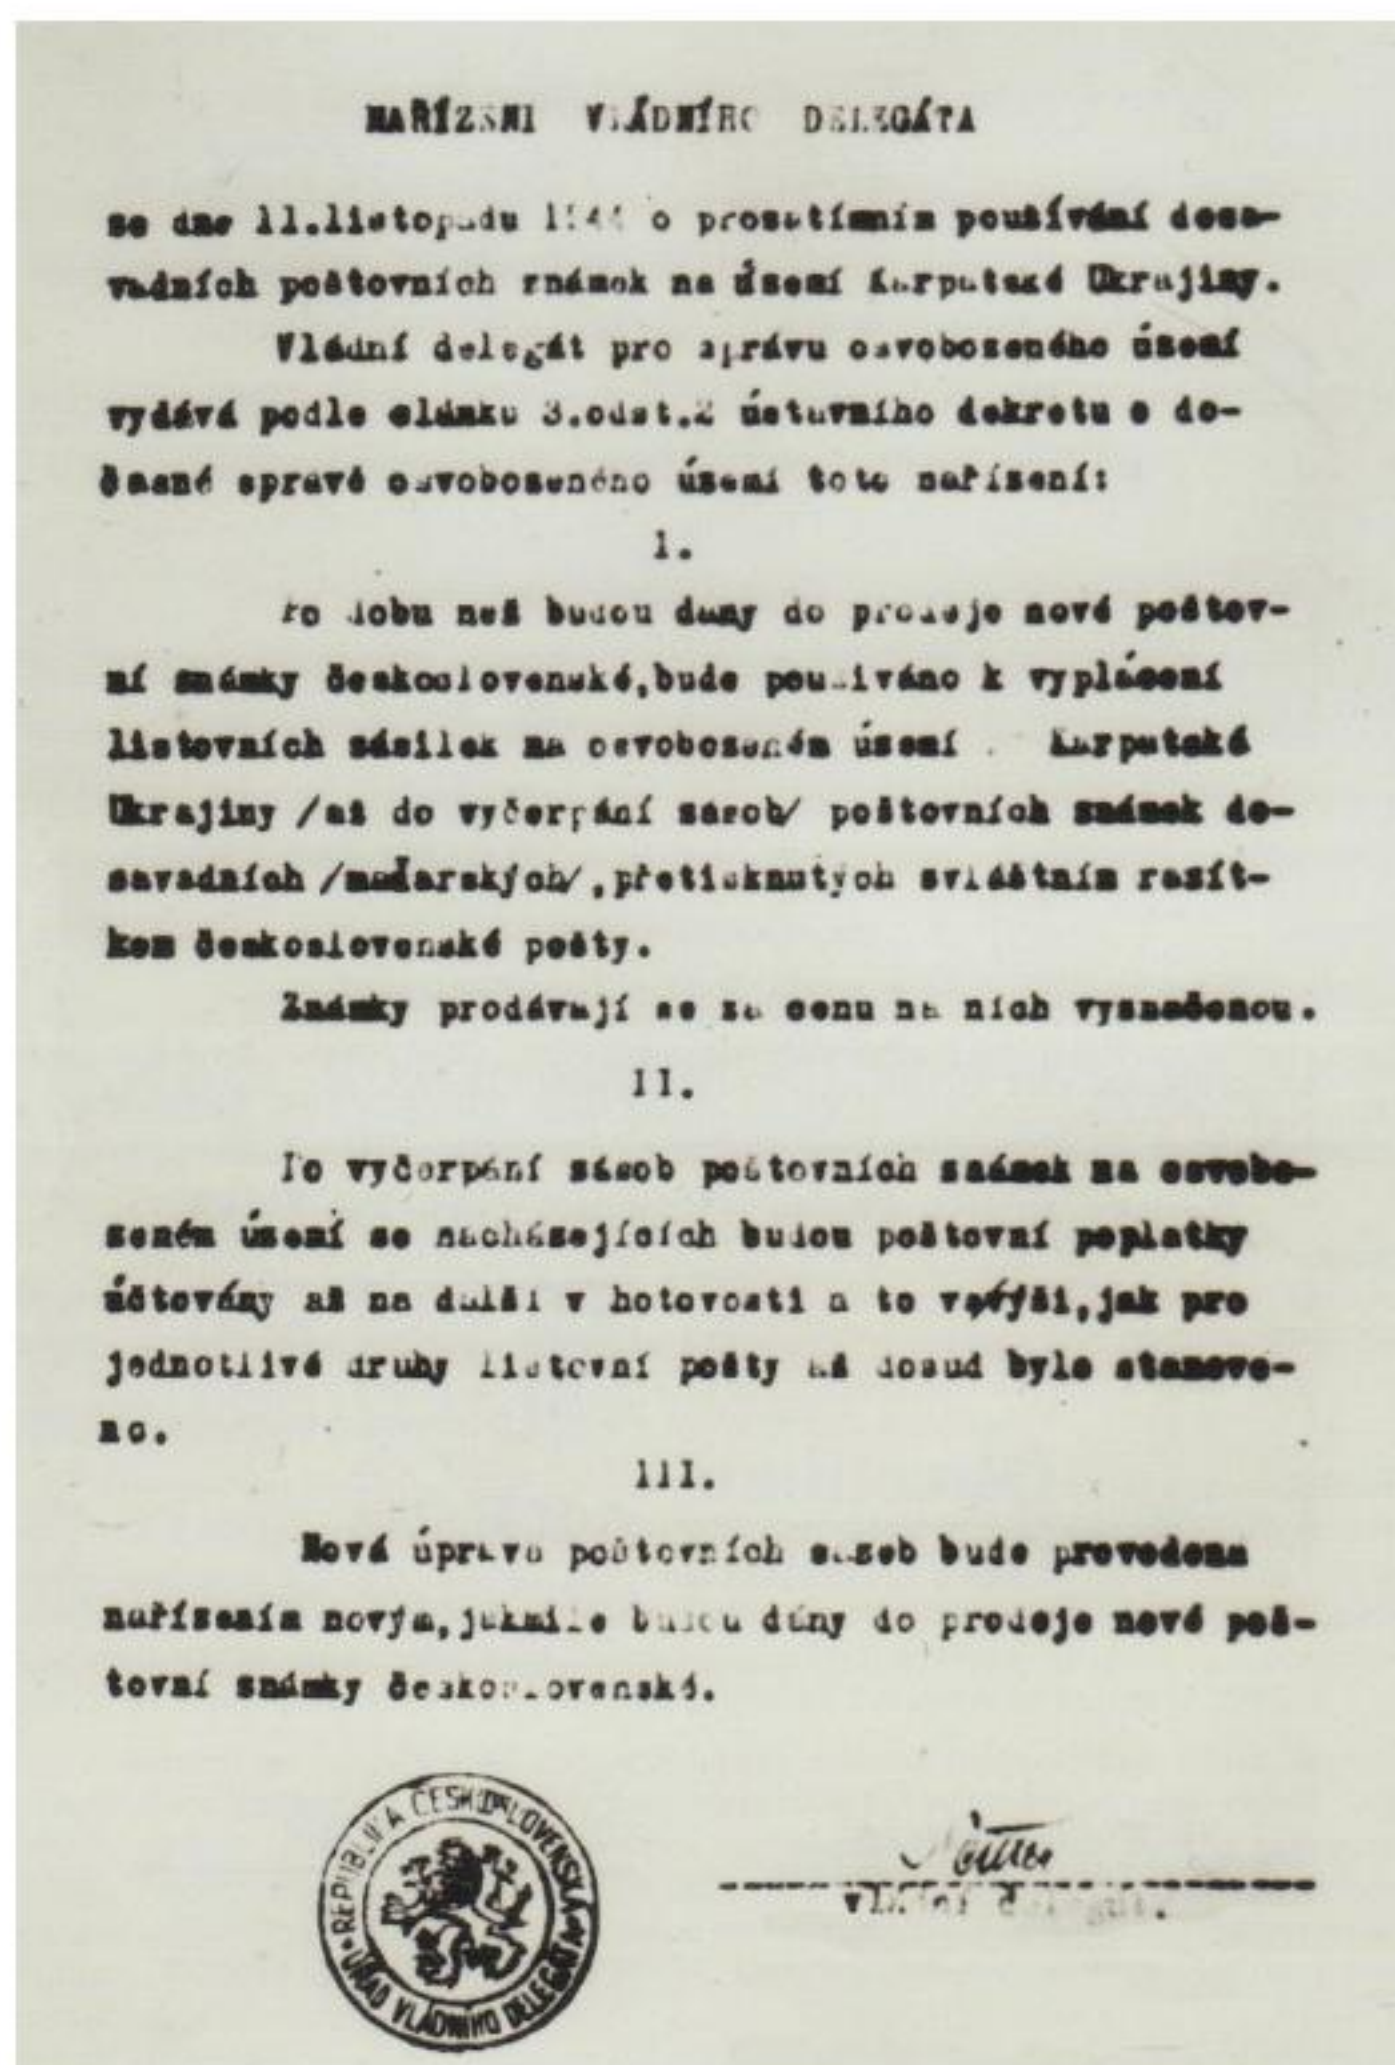

Postcard with bilingual postmark of УТЛЯ UHLA

Examples of the provisional postmarks of SEVLUS – СЕВЛЮШ, VOLOVE – ВОЛОБОВЕ, CHUST – ХУСТ and LIPČA

Decree issued on 11 November 1944 by the Government Delegate Mr. Nemeč regarding the overprinting of the available Hungarian postage stamps.

This is a photo copy of the original decree,
as published in Jiří Majer's special catalogue on the postage stamps of Carpatho Ukraine issued in 2008.

Regulation of the Government Delegate

from the 11th November concerning the temporary use of postage stamps available in the territory of Carpatho Ukraine..

The government delegate for the administration of the liberated territory issues the following regulation, in accordance with Clause 3, Paragraph 2 of the Constitutional Decree on the temporary administration of the liberated territory

I.

Before the new Czechoslovak postage stamps will be available for sale, the still available Hungarian postage stamps, overprinted by a special stamp of the Czechoslovak Post, are to be used for paying the required postage for letters. This until the stocks in the liberated territory are exhausted.

The postage stamps are to be sold at the face value as shown on the stamps.

II.

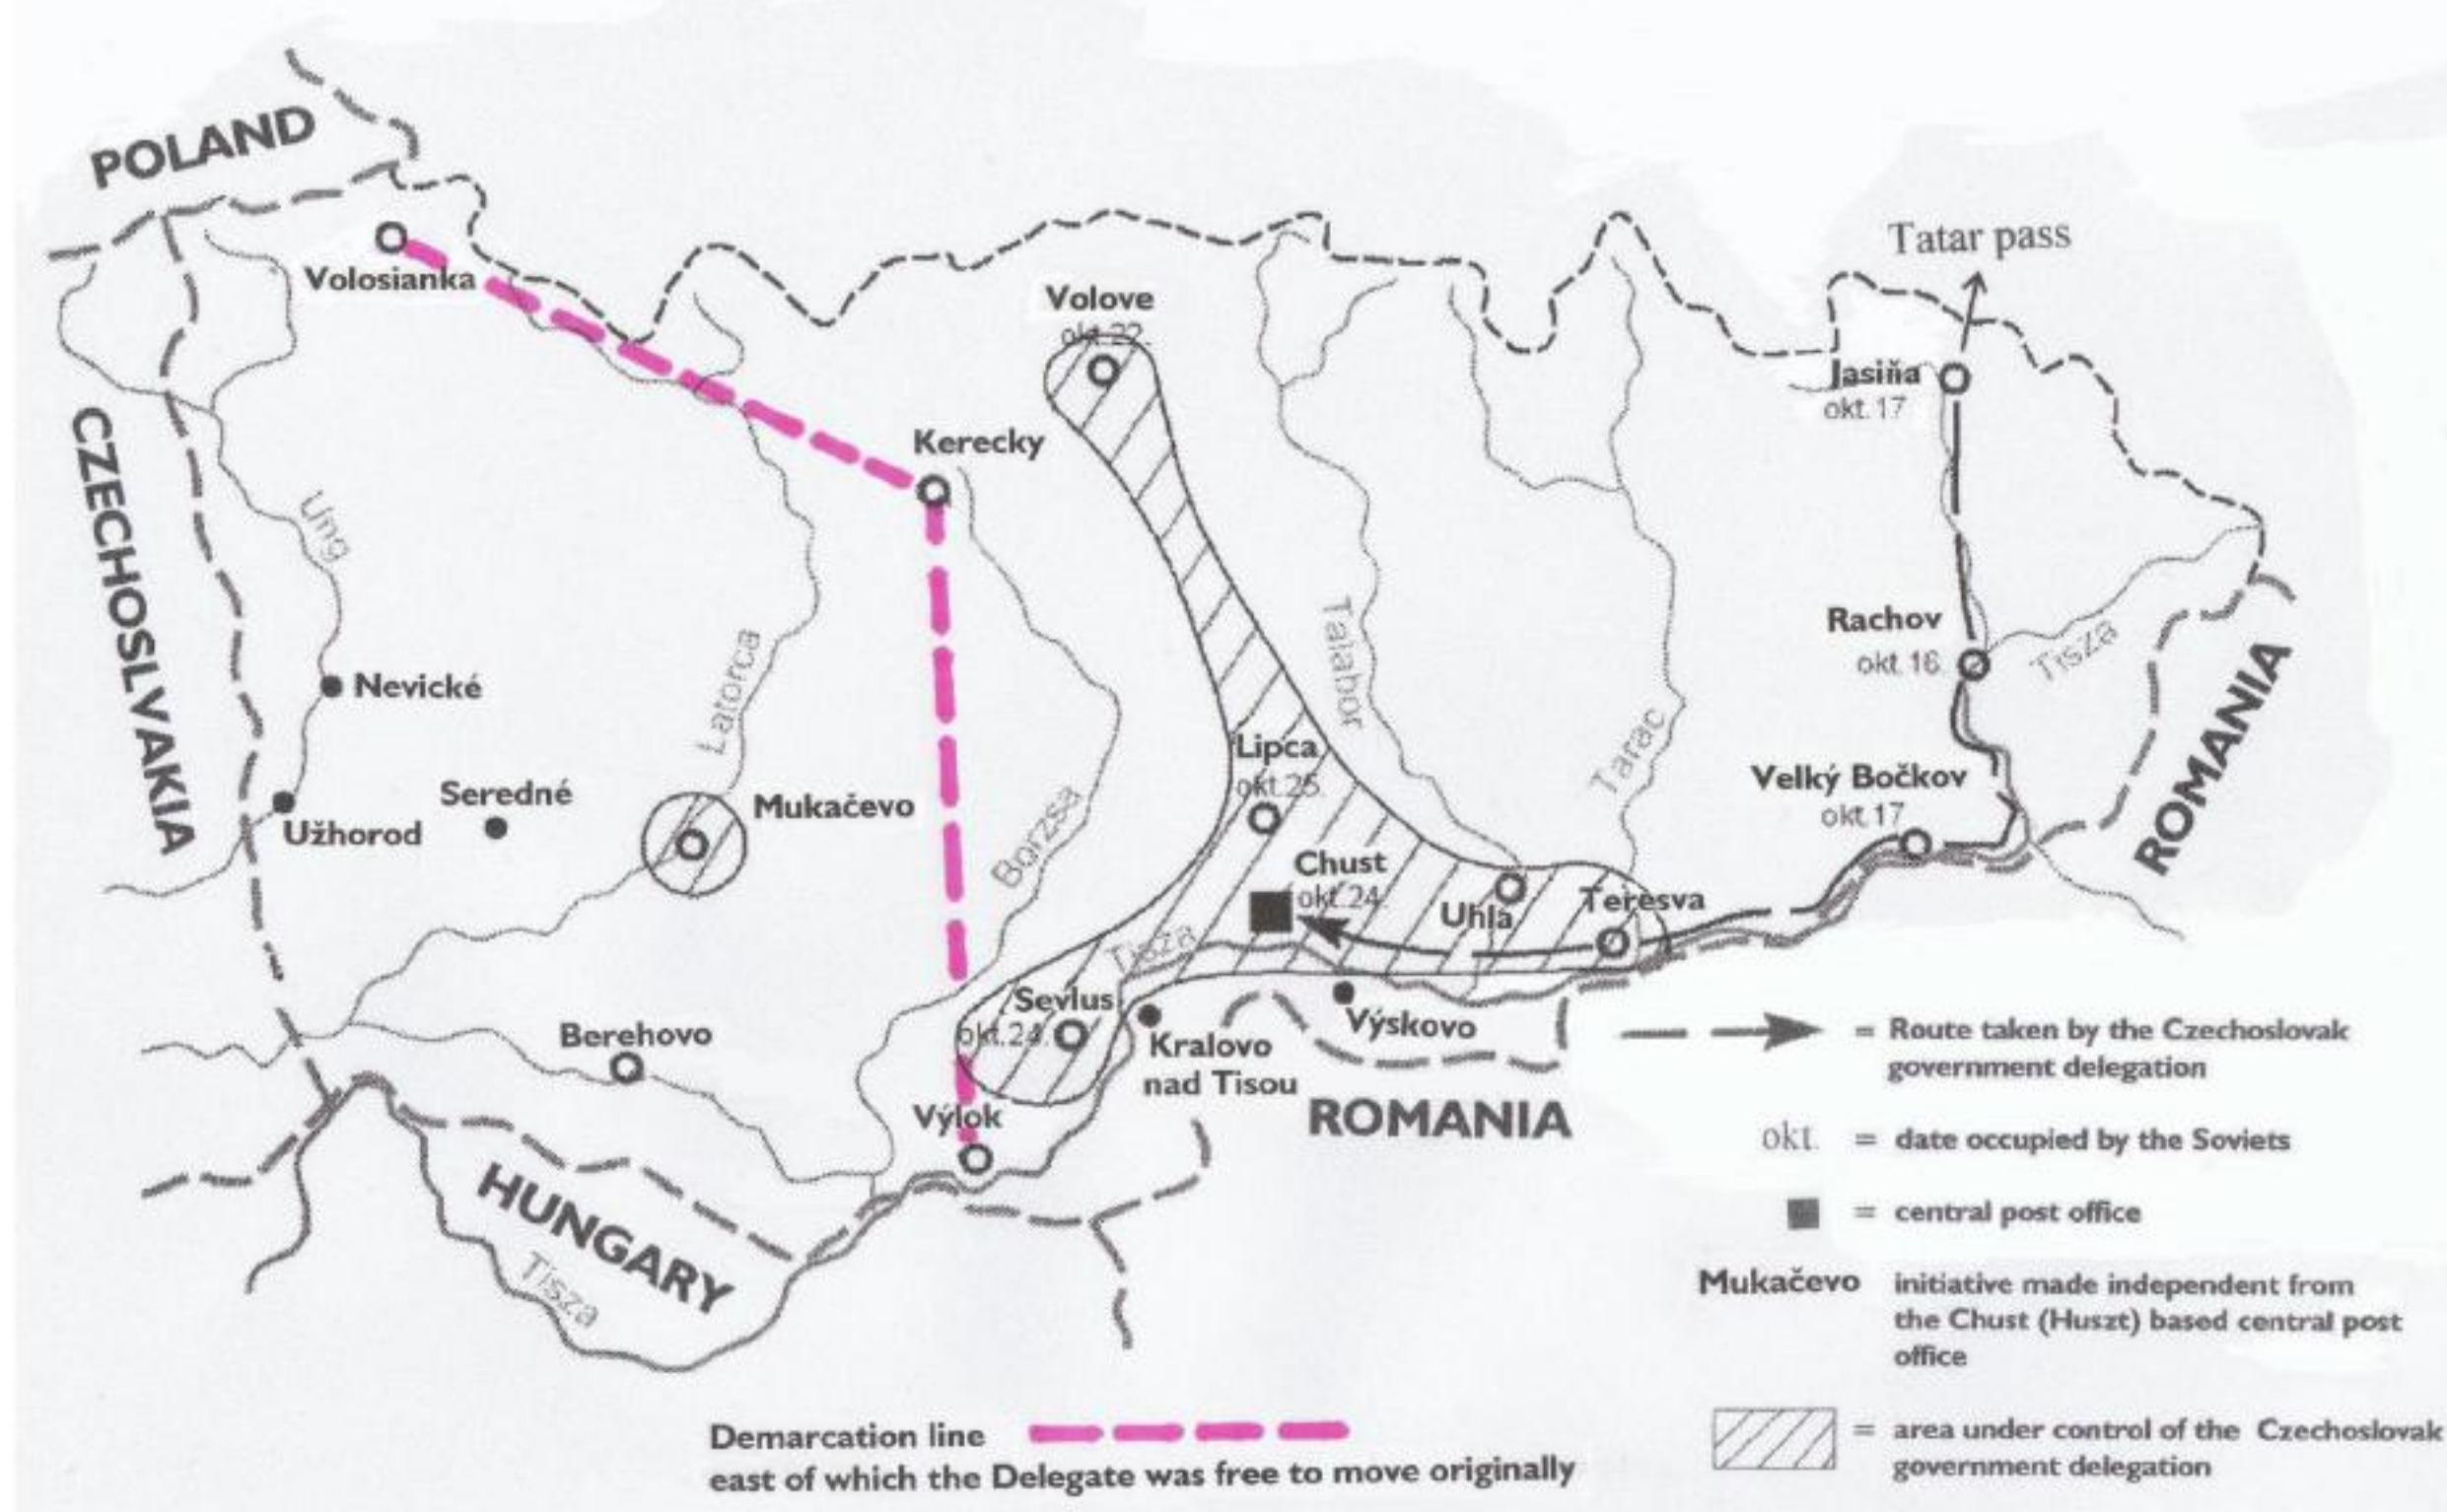

When the stocks of postage stamps in the liberated territory are exhausted, postage is to be paid in cash until further notice.

III.

New tariffs for postage fees will be made public by means of a new regulation as soon as the new Czechoslovak stamps will become available for sale.

Nemeč
Government Delegate

**Area under control of the Czechoslovak government
delegation in Carpatho Ukraine from 8 Nov 1944 until 17 Jan 1945**

Some background information on the Government Delegation.

The London based Czechoslovak government in exile, constituted this Delegation during June 1944. It consisted of 20 persons and was headed by Mr. Nemeč at that time Minister of Commerce and Reconstruction. The main task was to reestablish the Czechoslovak administration. The authority of the Delegate was given by the text of the Czechoslovak-Soviet agreement, especially its articles 2, 5 and 6 and by the decree of the President concerning the Provisory Administration of the Liberated Territories of 03-08-1944. Since it was, however, not known at the time in what particular direction any further progress of the Red Army would be made and whether it would cross the Czechoslovak border into Silesia, Slovakia or Ruthenia, it was decided to send the Delegate to Moscow. The Delegation left London for Moscow on 26-08-1944. On 24-08-1944 a revolt broke out in Banská Bystrica and was expected to be successful with the help of the Red Army. The Delegation then flew to Banská Bystrica on 07-10-1944. The rising however loosed ground and meanwhile the Red Army had crossed the Carpathians and Mukačevo fell on 26-10-1944 and Užhorod the next day. In agreement with President Beneš, the Czechoslovak Government in London decided that the Delegation should leave Slovakia. Consequently the delegation flew to Lwow in Poland whence it progressed by cars to Turka, the then headquarters of the 4th Ukrainian Front. Due to unwillingness of general Petrov, the Delegation was not allowed to establish its seat in Užhorod, but was given to understand to stay east of the line Volosianka (Hajasd) Kerecky (Kerecke) Vylök (Tiszaújlak). The Delegate chose Chust as his seat and arrived there on 28-10-1944. After a visit to Moscow where he was faced with unexpected events and even treacherous manipulations from unexpected sides he left Moscow on 14-01-1945 for Ruthenia very much aware that this province was lost for Czechoslovakia. He arrived in Mukačevo on 16-01-1945 to proceed by car to Chust. Upon having received a kind of ultimatum from the local Chust national council the situation for the Delegate became more and more untenable and preparations were made to leave. On the 2nd of February 1945 he could report to his London Government that the delegation had arrived in Košice, Slovakia.

CENSORSHIP DURING the ADMINISTRATION OF THE GOVERNMENTAL DELEGATION

The following mark may appear on mail from this period to indicate that the correspondence had been approved.

Dimensions are 35 x 20 mm. Colour: violet or green
 ИПОБЕПЕНО = PROVERENO = CENSORED

Censored cover sent by the office of the Government Delegate to Lochovo.

Wm 9

Wm 10

Watermark 9 is a pattern of detached double crosses. It exists in up to 4 positions, depending on how the printing paper was positioned in the printing press. On single stamps it is often not possible to identify the watermark position.

Watermark 10 is a crowned coat of arms with double cross. This also appears in 4 different positions.

Very early use!! Local letter sent 05-12-1944 to Dr. Frantisek Krudský. Dr. Krudský was appointed by Mr. Nemeč as head of the post and telegraph services of the Government delegation. The Hungarian stamps were overprinted on 04-12-1944 a protocol was made to testify this. If the stamps were made available on 04-12-1944 is questionable. The cover might be a first day cover.

Overprinted but not issued stamps

Two stamps were overprinted but were never sold at the counters of the post offices. Some sources reported that the quantities overprinted were considered too low and for that reason not released for sale.

Forged overprints

It is always highly recommended to have overprinted stamps expertised by a well known expert. This is even more essential if no stamps for comparison are available.

One of the forged overprints can immediately be recognized by the form of the "haček" on the "Č", but more details are visible when making an enlargement.

Enlarged picture of a 12 fi. Hungarian stamp (number 9) out of the list. Having a forged overprint. For comparison the genuine 10 fi. postage due.

1. Shape of "haček" very much different.
2. Shape of the lower bend of the "S" is different.
3. Also both "4's" in 1944 deviate from the original one.
4. The height of the letters is different.

Trial prints for the Chust issue an intriguing story

The well known collector Vladimir Markus of Vienna published an article in the German periodical "Forschungsberichte aus der Tschechoslowakei Philatelie" on the highly interesting and unknown history of the trial prints for this issue. It was published in the year 1995, volume 2.

Below is given a shortened translation of his article.

Before the metal hand stamp was produced by the engraver Izak a rubber hand stamp was made to carry out some trials for the planned new issue. Due to shortage of available unused stamps, these trials were carried out using already cancelled stamps or stamps which had too many dirty spots, which made them unsuitable for overprinting. The results however with the rubber hand stamp were of such a poor quality that it was decided not to continue. An order was given to burn the rubber hand stamp and all the available trial prints. An employee of the Chust post office named Filip was ordered to carry it out. Mr. Filip however kept a number of trial prints apart and succeeded in smuggling them out of the premises. Only many years later this was made known by his colleague Zékány. Mr. Zékány was a stamp collector and purchased the trial prints from Mr. Filip. The reason why he sold the stamps was by the government forced clearing of his village Horinčovo in order to construct a large power station. He was in need of money to move and to find himself a new house. As all the persons involved are no longer with us, the story can now be told.

Currently 22 Hungarian postage stamps are known with the trial overprint by means of a rubber hand stamp.

Hungarian heroes and churches (1.1.1943) 1,2,3,4,6,8,10,12,18,20,30 and 50 fi.

Famous women (1.8.1944) 20 and 70 fi.

Postage dues (1941 – 1942) 2,8 and 20f. and only two each of 4 and 40 fi.

Horthy (1942) 2 Pengö.

In his article Mr. Markus mentioned two letters written by Zékány and Fedeleš in which both confirm the story about the trial prints. Both letters are reproduced in the article together with a translation in German. Both letters were written to Mr. Němec a close friend of Mr. Markus. (This Mr. Němec was not a relative of the minister).

Examples of the trial print made with the rubber hand stamp

Hungarian postal stationery issued or prepared by the provisional Czechoslovak authority

Three items were provided with the Chust overprint:

- 244 copies of a 30 fi. Hungarian folded letter card.
- 1600 copies of the Hungarian 18 fi. postcard with Turul bird. The issue of this card was prepared, but political developments prevented this. A number of these cards were provided with a second overprint in Mukačevo and Užhorod as well.
- 180 copies each of both parts of the Hungarian double postcard for domestic use. Both parts were separated and sold individually. All these cards were sold at Chust.

30 filler Hungarian letter card

18 filler Hungarian post card

The revolutionary overprints

A. The overprint of Mukačevo

As mentioned before the Mukačevo overprint is a private overprint, tolerated for a few days during December 1944 by the National Council, which was the ruling authority at that time in Mukačevo. A great number of Hungarian stamps were overprinted as well as many postal stationery and postal forms. Overprinted postcards can be found genuinely used but all of the remaining postal stationery has a speculative character. All covers franked with these overprinted stamps show a large linear postmark in black with the name of the town MUKAČEVO, which appears in two different types. Next to this postmark a former Hungarian date stamp was placed, from which the Hungarian text was removed and the date sequence changed into the former Czechoslovak style. Mail franked with Mukačevo overprints was only accepted for correspondence within the liberated area of the country. Mail addressed to the occupied part was returned to the sender with the mark "Do obsázené části CSR není doprava" (the overprint ČSR is not accepted for the occupied territory).

type 1

Cover sent on 9-12-1944, having the type 1 Mukačevo linear hand stamp. The two rectangular marks with the Cyrillic text are censor marks. These only appear on covers with type 1 Mukačevo postmark.

The modified Hungarian date stamp used on covers with type 1 Mukačevo postmark.

The additional hand stamp used for the date in the above handstamp.

type 2

Cover sent on 15-12-1944, having the type 2 Mukačevo linear hand stamp. An older Czechoslovak censor mark is used. This only appears on covers with type 2 Mukačevo postmark.

From date stamps used on covers with type 2 Mukačevo postmark only the Hungarian name of the post office has been removed. The date is still the original Hungarian style.

Example of a cover sent from Mukačevo to Prague with Hungarian stamps overprinted in Mukačevo. The cover was not admitted and returned to sender. Provided with the mark "Do obsázené části CSR není doprava" (Ex collection Dr. Walter Rauch)

DANGEROUS MANUPULATIONS WITH THE MUKAČEVO OVERPRINT

The two covers shown on the first row are both giving the impression they are registered covers. The left one has a supposed registration number of 27 and the right one number 29. Both are addressed to the same recipient. First of all one should bear in mind that the Mukačevo overprint was only tolerated by the NRZU during a few days in December 1944, whilst on these covers a date is shown in the Hungarian fashion as 945 I. 7. This is already most suspicious as in Rakos, being under NRZU rule, the date sequence would be day-month-year. The Rakos marking is reported to be used during period 9, although Dr. Simady already mentions in his book that the use was against the rules. Also altering the name Rakos into the old Czechoslovak name of Rakošín is something the NRZU would not have appreciated. Both covers have the same date. Why sending two R-covers to the same addressee at the same time and why using a printed address and a manuscript one. Does perhaps a similar one with the R-number 28 also exist?

Cover originating from the collection of Andrew Cronin. It was auctioned on 24-09-2009 at Cherrystone auctioneers of New York. It achieved a hammer price of \$ 425 = € 300

A similar cover is pictured in the Catalogue "Československo 1944 – 1945 with the sub title Zakarpatská Ukrajina" issued by Jiří Majer in 2008

Two more similar items were auctioned in the same auction as the one above. Lots 2028 and 2029 refer. The hammer price was \$ 160 and \$ 170 respectively.

These two window envelopes show the same stamps although not registered. The right one has the phoney date of 945 . I . 9. whilst also one of the markings has the name altered into Rakošín.

Possible conclusion may be that the clerk of the post office of Rákos lent a hand in producing some would be interesting items.

Highly speculative overprints

Apart from the postage stamps listed in the tables on the foregoing pages a great many fiscal labels have been overprinted as well. These overprints are however highly speculative and served no postal need at all. The objective of the initiators of them was mainly to make profits by selling to stamp collectors. The same applies to the postcards provided with the Mukačevo overprint and the numerous overprinted postal forms with imprinted Hungarian postage stamps. Although these forms are catalogued at very high prices in several catalogues the writer's personal opinion is that these products are not really collectable. A few examples of these products are shown below.

B. The overprint of Berehovo

Also in this town several "Hungarian postage stamps were overprinted with the abbreviation "ČSP". Berehovo however was never controlled by the "Government delegation" based in Chust. The overprint is purely a product of civilians sympathizing with the return to Czechoslovakia. Stamps with Berehovo overprint have never been postally used.

The following Hungarian postage stamps were overprinted in Berehovo

number	overprinted Hungarian stamp	Michel no. original stamp	face value overprinted stamp in filler/pengö
1	Crown St Stephen	665	1 purple

C. The overprint of Teresva on Hungarian stamps

Although some literature mention that these overprints appear on letters, the writer has never seen such one. Only for matter of completeness has this speculative issue mentioned here.

PERIOD 11

DE FACTO AUTONOMOUS PERIOD OF THE NATIONAL COUNCIL DURING 1944-1945

The political situation remained very difficult and resulted finally in ceding the territory of Carpatho Ukraine to the Soviet Union.

26-11-1944 The national committees installed by the Soviets and convened in Mukachevo adopted a resolution, in which they expressed their wish to unite Carpatho Ukraine with the Soviet-Union and to secede from Czechoslovakia. A national council of the Transcarpatian Ukraine should be elected and this body should put into effect the decisions of the Congress regarding the reunion of Transcarpathian Ukraine with the Soviet Union.

This national council (NRZU) was headed by Ivan Ivanovič Turjanica and had its head office in Užhorod. Of course this body was not independent from the Soviets, their instructions were always carried out.

The National Council appointed Mr. Langfelder to administer the Post and Telegraph office.

03-01-1945 By order of Mr. Langfelder all available postage stamps and postal stationery would be collected and be sent to the central post office of Užhorod. The intention was to provide them with an overprint. The remaining Hungarian postmarks were nationalized immediately by removing the Hungarian names of towns and villages. Also new postmarks were prepared, with text only in the Ukrainian language with cyrillic letters. These new postmarks would contain the name of the town and the text: Transcarpatian Ukraine post in Also all mail, with the exception of official letters, would be sent to Užhorod to be censored.

end Jan 1945 The post offices started to operate again

10-02-1945 The overprinted Hungarian stamps became available.

04-04-1945 The NRZU gradually gained influence over the whole territory, causing the Czechoslovak delegation to leave Chust. From this date the whole Transcarpatian Ukraine was under control of the NRZU.

29-06-1945 By signing a treaty between the Czechoslovak government and the Soviet Union, the Czechoslovak republic ceded this part of the 1st republic to the Soviet Union.

22-11-1945 Ratification of the treaty by the Czechoslovak parliament. The Soviet parliament followed on the 27-11-1945.

From this date Transcarpathia was incorporated in the Soviet postal system.

Notes:

1 Not only the territory of former Podkarpatska Rus was ceded to the Soviet Union, but also a small piece of land in south-east Slovakia. The railway connection Čop-Užok would be in Soviet hands for obvious reasons and this was also valid for the main connection overland between Čop and Užhorod. As a consequence of this the post offices of Čop and Surty were transferred as well. However during NRZU-times Čop already was under NRZU jurisdiction and the standard NRZU rubber cancel was used at the post office.

2 From 15 November 1945 all NRZU postage stamps became invalid. Mixed frankings with the 2nd and 3rd issue would not be possible in the regular mail service. The rubber hand stamps for cancellations were however still used during a limited period. These types of cancellations, originating from smaller post offices, can be found until the end January 1946.

SUMMARY OF POST OFFICES DURING NRZU-rule

Originally this list was based on the data as published in Dr. Simady's book "Kárpátalja postatörténete". However in his catalogue "Zakarpatská Ukrajina" published in 2008 Jiří Majer " provides us with additional information. He has listed all possible postal offices and indicated the post offices of which cancels were recorded. The cancels recorded are printed in red in the list below. Of course further discoveries may happen. The Hungarian and where possible the Czech names are checked by consulting the Hungarian "Lelkes" This resulted in a few discrepancies with the Majer catalogue.

Previously unrecorded NRZU cancel of Fančikovo on postal stationery type PS 2. Handwritten date 27-IV-1945. It is mailed in a little village near Fančikovo and sent to Tiszaásvány near Csap

Postmark of ПОРОШКОВО (Poroshkovo)
 Cover is sent to Ertinje pod Krkonoše = Rtně v Podkronoši in Czechoslovakia.

POSTMARKS USED DURING THIS PERIOD

The new standard hand stamps were made of rubber having a diameter in between 36 and 44 mm. The date was added manually, or by using the linear date section of a former Hungarian canceller. The name of the town or village was stated in capital Cyrillic letters. An exception was Szeredne. At the post office of this village two hand stamps were used, one with capital letters and one with normal letters. Also the diameter may vary. The ink used may have several colours, depending on what ink was available.

For some time Berehovo also used a provisional postmark. How long this was in operation is not known.

Also Rakosin used a different kind of hand stamp to cancel postage stamps. This was made from an existing bi-lingual one used during period 9, by removing the Hungarian text. This hand stamp was also used as a registration label.

When the Czechoslovak delegation left Chust on the 4th April 1945, the Post office used a provisional postmark, during a limited period of time. This was prepared by changing a Hungarian canceller with code letter "D". The Ukrainian spelling was corrected together with the date order. Further the Hungarian name was removed from the canceller.

Salanki, used a provisional postmark having in the upper segment the Cyrillic spelled name ШАЛАНКИ (SALANKI) and in the bottom segment the Cyrillic letters З.У. (Abbreviation for Zakarpatská Ukraina).

15 V. 45 11

Examples of NRZU cancels

The diameter of the respective cancels varies in between 36 and 44 mm.

The colour of the ink was dependant on what was available at the time.

ТРЕБУЩАНИ – TREBUSAFEJÉRPAK - TREBUŠANY

РАХІВ – RAHÓ - RACHOV

ВІЛОК – TISZAÚJLAK - VÝLOK

ТЯЧОВО – TÉCSŐ - ŤAČOVO

ВАРИ – VÁRI - VARÝ

БІЛКИ – BILKE – BÍLKY

ЕСЕНЬ – ESZENY - ESEŇ

СТАВНИЙ – FENYVESVÖLGY – STAVNÉ

ЧИНАДІЄВО – SZENTMIKLÓS - ČIŇADOVO

РОСВІГОВО – OROSVÉG – ROSVEGO

МУКАЧЕВО Б – MUNKÁCS B - MUKAČEVO B

ГОРИНЧОВО – HERINCSE - HORINČOVO

CENSORSHIP DURING the NRZU-PERIOD

Закарпатська Україна
пробачено цензурою

The mark shown here may appear on mail from this period to indicate that the correspondence has been approved. This handstamp is sized 44 x 18 mm. and can be found with a great variety of inks. The translation of the Ukrainian text is as follows "Transcarpatian Ukraine passed censor"

MANUSCRIPT CANCELED STAMPS

From Silce and Saluš manuscript cancellations exist on the definitive issues. From Sereďnye and Vylok on the overprinted ones.

THE OFFICIAL DOCUMENT ISSUED BY MR. LANGFELDER, which was the legal ground for overprinting the Hungarian stamps.

Народна Рада Закарпатської України.

Число: XII. ^{130.000} 1945.

О б і ж н и и

Всім речтовим урядам і округним та місцевим комітетам З. У.

В інтересі владення хід поштової саухи, ичказую студуючи:

1./ Всі поштові і телеграфичні уряди негайно мають зачари свою діяльність.

а./ Служба у телефону і телеграфу має держатися щодня 24 години /на три зміни/.

б./ Треба негайно організувати пошту по округах і то так, що великий округ або районної пошти організує місцеві поштові уряди, дають прехідження на сіотонізації осіб, т.е. вибору хочаби сауховців. До того часу, поки не організіція не буде проведена по округах, округні пошти будуть торувати писемь для торування місцевими народними комітетам, котрі мають пошту розділяти примитотеляч.

в./ ~~Тільки лише ті самі писемь уряди мають право вести в ніякі пілля, по не суть проведено уряди, а уряди по пошто.~~

2./ Всі засоби поштових марок и цінних гаселів потрібно негайно занести на дирекції пошти в Ужгороді, для пропечатання Народной Рады

3./ Початки негайно треба увести і то у тих початок у котрих тонот був український і мадярський, мадярський надати можна змі і златаноса тільки український, дата тижназово поки нєвих пош, златаноса отаратицтво рік, місяць, день;

4./ При зготування нових писемь на обхідно дбати тогь, по би они були грамотно написані та писемь відлучий зміст: пошта Закарпатської України в /Ужгороді/.

5./ Дуже отрого треба прихерхувати на тарифу, який и цінотом! прохиздає.

6./ Всі посилки поштові уряди, киме пошти урядової, треба відналати до Ужгороду, на дирекції пошт.

7./ Негайно треба поступити на всіх поштових урядах до організації ланкових курсів.

8./ Потрібно також приотупити до полготівки курсів для сауховців.

Ужгород. 3. січня 1945.

Translation of Mr. Langfelder's circular letter.

National Council of Carpatho-Ukraine
Plenipotentiary for Communications
Number: XII. 130.000. 1945

Circular letter

To all Post officials, Districts officials and Municipalities of Carpatho-Ukraine

In order to set up the postal system the following measures must be taken;

- 1) All Post and Telegraph officials have to start their activities at once
 - a) Telephone and Telegraph offices must be operational during 24 hours (3shifts)
 - b) District post offices have to be set up instantly Responsible for this action is the head of the district authority or the head of the district post office. The new to be appointed postmen should be engaged on a temporarily basis.
Until the post offices are fully operational, all the mail should be handed in to the local council , which body is to take care for handing over the mail to the addressee.
- 2) All postage stamps and postal stationery in stock have to be sent to the Postmaster of the post office at Uzhgorod, to be provided with an overprint.
- 3) All cancellers have to be altered at once. The Hungarian text in the Ukrainian-Hungarian date stamps have to be removed. As yet the date bridge remains unchanged, year, month, day.
- 4) When making the new cancellers the correct spelling of the texts have to be guaranteed. These texts should be in line with the following example: ПОШТА ЗАКАРПАТСЬКА УПАВІННА in " name locality" for instance Ужгород.
- 5) Postal tariffs have to be strictly adhered to (see enclosure).
- 6) All uncensored mail, with the exception of official mail, should be forwarded to the post office of Uzhgorod.
- 7) All heads of post offices have to set up a language course.
- 8) It is also necessary to prepare professional courses.

Uzhgorod 3rd January 1945 (Seal)

POSTAGE STAMPS ISSUED BY THE NRZU

The National Council (NRZU) had issued an order to send all available postage stamps and postal stationery to the central post office in Uzhhorod in order to be overprinted . This happened in two editions.

First edition issued on the 1st of February 1945 and printed by Földesi. *)

Second edition issued on the 20th of March 1945 and printed by LITO LAM.

*) Some confusion has arisen about who printed the first edition and who the second. The well known and respected Dr. Simády states in his handbook: LITO LAM produced the first edition and Földesi the second, which is contradictory to the information given by both Táborský and Blahá. In his article published in 1972 in the journal "Filatelistické sešity" Mr. Blahá refers to information received from Mr. A.Dobej who was involved in the preparation of the 2nd issue of the overprint. According to Mr. Blahá Földesi printed the 1st issue and LITO LAM the second. Also Táborský refers at the end of his booklet to the cooperation and assistance of "members of the commission which prepared both overprint editions". The conclusion that Földesi printed the 1st and LITO LAM the 2nd seems to be justified.

First edition (for full list of overprinted stamps see page 173) Types as determined by Simády.

14 type IIIa

17 type II

19 type II

4 type IIIb

5 type IIIc

10 type IIIc

13 type IIIb

3 type IV

Hungarian postage, postage due and wine revenue stamps were overprinted , both in vertical strips of 10. The postage due and wine revenue stamps could be used as normal stamps. Further a great number of fiscal labels were provided with an overprint. Experts however differ with opinion whether these originally were also intended to be used as postage stamps or are trial prints. In fact they have never been issued officially but can be found on a few covers.

For the first edition two styles of overprints were used

Overprint style A

Overprint style B

Style A was used for overprinting the stamps listed on page 173 (numbers 1 – 24)and fiscal labels (numbers 1 – 50) see pages 174 and 175

Style B was used for the wine revenue stamps (numbers 25 – 27) and fiscal labels 51 and 52

Style A overprint

As the printers of this first edition were to face shortages of capital letters of the same type, they used both Grottesque (without serifs) and Antique ones (with serifs). This and a number of further differences made it possible to determine the position in the overprinted strip. Again experts differ somewhat with opinion in establishing the number of types. In the table on the next page the type number is mentioned for each position in the strip in accordance with the opinion of Simády, Blaha and Rauch. Simády goes into greater detail and also determines types 1c and 1d, as well as IIIb and IIIc. Blaha very much differs with opinion in determining the type for position 8. He specifies both the Cyrillic “II” and “3” to be of the “ Antique” type (with serifs) and classifies

position 8 a type IV overprint. It is very clear however the Cyrillic "3" is printed in Grotesque Position 8 is definitively type I overprint and unfortunately wrongly classified by Blaha. In the catalogue of von Steiden the types mentioned are almost identical to the Simady ones. Carrigan in his recently published handbook follows Rauch. In my collection the system of Simady is followed as more details are given to determine the sequence number in the overprinted strip of 10.

The basic types of the style "A" overprint.

type Ia

type Ib

type II

type IIIa

type IIIb

type IV

Style B overprint

Also the wine revenue stamps were overprinted on vertical strips of 10. Different from the second edition (see page 174), the face value of the stamp is printed at the bottom right. One sub-type exists, having the left part of the vertical bar of the Cyrillic "I" broken off. (Position 6 in the strip of 10) This subtype is referred to as type Ia.

type Ia

Cover with Basic style "B" overprint together with type Ia

COMPARISON OF TYPES AS SPECIFIED BY THE MOST WELL KNOWN EXPERTS

Types according to						remarks
	Simady	Blaha	Rauch			
1	IIIa	IIIa	IIIa	П 3		without "a" Закарпатськ [†]
2	II	II	II	П 3		
3	Ia	I	I	П 3		Пошта
4	IIIb	III	III	П 3	у ← same level	" ← pointed
5	Ib	Ia	Ia	П 3		heavily damaged "H" Україна
6	IIIc	III	III	П 3	у ← lower	" ← long, curved
7	Ic	I	I	П 3	thinner	" ← pointed
8	Id	IV	I	П 3	square	" ← top bulbous
9	IV	IV	IV	П 3		
10	IV	IV	IV	П 3		

The words "Закарпатська Україна" are printed at an angle of 36°, however the top position of some stamps of the first edition (position 1), which is of the type IIIa also does occur printed at an angle of 27° or even 23° (very rare).

Forged overprints

The forgeries accounted for so far are mostly forgeries of the 2nd edition. One however is found with similarities to the 1st edition. It can be recognized by the "3" used in Закарпатська this is neither of the Antiqua nor of the Grotesque type and also the "i" in "Україна" has only one dot instead of two. Most striking however is the absence of a face value.

The 1st edition comprises the following regular postage due and wine revenue stamps.

sequence number	overprinted Hungarian stamp	Michel nr. original Hungarian stamp	face value overprinted stamp	colour of the overprint	number of overprinted stamps
1	Hungarian heroes	706	40/2	black	48
2	Hungarian heroes	711	40/8	black	830
3	Hungarian heroes	712	40/10	black	1040
4	Hungarian heroes	714	40/18	red	1490
5	Crown St Stephen	739	200/1P	black	510
6	Saint Margaret	753	60/30	black	2580
7	St. Elisabeth	754	60/20	black	290
8	St. Margaret	755	60/24	black	470
9	St. Margaret	755	60/24	red	24
10	Elisabeth Szilagyi	756	60/30	black	890
11	Dorothea Kanizsai	757	100/50	red	200
12	Susan Lorántffy	758	140/70	black	270
13	Elona Zrinyi	759	200/80	black	270
14	Mathias church	721	200/80	black	24
15	Horty	658	400/2P	black	270
16	Horty	659	1000/5P	black	51
17	Kossuth	745	40/4	black	87
18	Kossuth	748	100/50	black	87
19	Postage due	144	10/2	black	500
20	Postage due	148	20/8	black	490
21	Postage due	149	20/10	black	460
22	Postage due	150	30/12	black	200
23	Postage due	152	40/20	black	410
24	Postage due	154	100/40	black	160

NOTE No. 6 of the above list is not mentioned in the Michel catalogue under Carpatho-Ukraine

List of wine revenue stamps with 1st edition overprint

sequence number	overprinted Hungarian stamp	Michel nr. original Hungarian stamp	face value overprinted stamp	colour of the overprint	number of overprinted stamps
25	Wine revenue	-	40/10	black	852
26	Wine revenue	-	40/20	black	612
27	Wine revenue	-	60/50	black	401

NOTE The new face value of the overprinted wine revenue stamps is at the right side of the stamp. The overprinted postage due and wine revenue stamps were used as normal postage stamps.

SUMMARY OF OVERPRINTED FISCAL LABELS

The fiscal labels were overprinted at the printers Földesi and have consequently all the characteristics of the first edition.

Cover sent locally within the village of Rosvigo (РОСВИГОВО) on 12-02-1945. Made free with overprinted fiscal labels used as normal postage stamps.

*) source: Filatelistické sešity 1972 . 15

Inverted overprints of the 1st edition

Of the first edition only inverted overprints of two revenue stamps are known. They are extremely rare and only 10 copies of each stamp specified below were overprinted.

- no. 20 20/8 postage due
- no. 22 30/12 postage due

Second edition

Again Hungarian postage, postage due and wine revenue stamps were overprinted, but for this edition in vertical strips of 5. The overprinting was done at the printers "Lito LAM". The overprinted wine revenue stamps have the new face value printed at the bottom but on the left side. Both Taborský and Blaha *) mention that philatelists were assisting the printers when preparing the 2nd edition. Blaha even mentions the name of Mr. A Dobej. For this reason this overprint was carried out more carefully.

Local registered cover sent on 10-IV-1945 in Uzgorod (УЖГОРОД) with provisional hand drawn R-label.

Types of the 2nd edition

The stamps were overprinted in vertical strips of 5. Due to minor differences in the overprinting plate, it is possible to distinguish 5 types and thus to determine the position of each individual stamp in the strip of 5.

			type 1	
				
1				
2				
			type 2	type 3
3				
4				
5				
	original strip	reconstruction		
			type 4	type 5
				
			The two points above the "ї" in "Україна" touch each other. The one at the right is longer	The "ш" in "Пошта" has a little point or a small vertical line in between the middle leg and the leg at the right

the left leg of the Cyrillic "H" in **Україна** is slightly deformed

The left one of the two points on the **ї** is longer and the distance between both points is wider.

The right leg of the "ш" in "Пошта" is shorter.

The wine revenue stamps of the 2nd edition

			
			The face value is printed at the bottom left of the little stamp

The 2nd edition comprises the following regular, postage due and wine revenue stamps

Sequence number	overprinted Hungarian stamp	Michel no. original Hungarian stamp	face value overprinted stamp	colour of the overprint	number of overprinted stamps

Inverted overprints of the 2nd edition

From the numbers 28-72 inverted overprints are known. The number inverted is however extremely low and may vary between only one for no. 72 and 17 for no. 33. Needless to say they are very rare and much sought after. Also 3 copies exist of wine revenue stamp number 118

Also the remainder of the stamps already overprinted at Chust were again overprinted with the NRZU (or Užhorod) overprint.

Sequence number	overprinted Hungarian stamp	Michel no original Hungarian stamp	face value overprinted stamp	colour of the overprint	number overprinted stamps
119	Hungarian heroes	705	60/1	black	171
120	Hungarian heroes	706	60/2	black	173
121	Hungarian heroes	708	60/4	black	173
122	Hungarian heroes	711	60/8	black	269
123	Hungarian heroes	712	60/10	black	273
124	Hungarian heroes	713	60/12	black	73
125	Hungaria	714	60/18	black	170
126	Crown St Stephen	715	60/20	black	73
127	Crown St Stephen	717	60/30	black	186
128	Elisabeth Szilágyi	756	60/30	black	73
129	Susan Lorántffy	758	200/70	black	73
130	Kossuth	745	60/4	black	73

The double overprint

Hungarian hero no. 124

Extremely rare are the inverted overprints of the double overprint, but they do exist with all of the above listed stamps. No more than 3 are reported to exist of each item.

Forged overprints 2nd edition

Several forgeries are known. The most common is the one referred to as the "Budapest forgery". This is a poorly done overprint carried out by a rubber handstamp whilst for the original ones typographic printing is used. Size of letters and numerals differ from the genuine ones (fig 1). An other even more poorly done does not show any numerals or only "00". They are very recognizable. (fig 2) Some more forgeries are known, but rather rare. As stated before, only buy your stamps from a reputable source and when in doubt consult an expert.

fig 2

The 3 definitive issues of the NRZU

The 1st Definitive issue.

The first locally by "Litho LAM" produced set consisted of three values. 60, 100 and 200. **The 60** value exists in two types, which can be determined by the position of the "П" in "ПОШТА". In type I the "П" is directly above the O, while in type II the "П" is shifted slightly to the right. Officially the stamps were issued with a 1 1/2 line perforation however imperforated items exist with all three stamps. The printing plate of the 60 and 100 consists of 56 fields, 6 fields are not used for a stamp, but only a little star is shown. As the picture of the complete plate shows, stamps with a coupon are also possible. On the field in the left bottom corner plate number 1 is printed next to the little star. The 200 is printed from 2 different plates. Several colour shades exist of each stamp.

Design and engraving: T. Moškovič

The 60 denomination became available on 01-05-1945

The 100 denomination was supplied to the post offices on 06 and 07-05-1945

The 200 value followed on the 25-05-1945

Trial prints were made with different shaped letters in the word "ПОШТА"

smaller letters

larger letters

Essay of a unapproved design

Only Blaha mentions this essay in his book "Zakarpatsko"
It is printed on thin almost translucent gummed paper. Three copies in the shown colour blue could be traced so far.

Black prints, colour trials, printing errors, perforation errors and printers waste

The value of these items should not be exaggerated.

printers waste, original colour on thick yellow paper

black print on grayish paper

printing error, normal paper without gum

colour brown, normal paper also exists on very thick paper

only horizontal perforation

Censor mark
All letters had to be sent to Uzgorod to be censored

Domestic Cover sent 25-05-1945 from Mukachevo to Uzgorod. The tariff applied was 60 (most probably Hungarian fillers). This is in line with the assumed tariffs.

Censor mark

arrival mark of Budapest

Foreign cover sent 09-07-1945 from Chust to Budapest. To cancel the stamp the adapted post mark of Chust was used (pictured on page 167). The tariff applied was 200, which is in line with the assumed tariffs. (registration fee 140 + domestic letter 60 see page 165)

2nd Definitive Issue end of June 1945

Design: A.M. Dobej and A. A. Kocka

Printers: Lito Lam

Line perforation 11½

Numbers printed (all colour shades together)

10 (f)	227,900	imperforated	11,600
20 (f)	101,600	imperforated	5,400
40 (f)	223,200	imperforated	11,600
60 (f)	325,700	imperforated	17,000
100 (f)	141,600	imperforated	7,400
200 (f)	133,200	imperforated	7,000

The set consists of six values. All were printed in sheets of 200, consisting of side-by-side panes of 100, separated by a horizontal gutter strip. The gutter strip of the 100 and 200 values shows a double coloured line in the middle of the gutter, indicating where the two panes should be separated. Left to printing field 91, the plate number 1 is shown in the sheet's margin. Next to printing field 191 plate number 1A appears. The name of the printers is shown under positions 199 and 200 of the right hand pane, but only in the printing sheets of the 10, 40, 100 and 200 values. All values exist unperforated. Also a great many colour shades are known.

10	olive	soviet star	L11½
10	olive	soviet star	imperforated
10	yellow	soviet star	L11½
20	light grey	soviet star	L11½

20	dark grey	soviet star	imperforated
40	light green	soviet star	L11½
40	light green	soviet star	imperforated
40	dark green	soviet star	L11½
40	dark green	soviet star	imperforated
60	red	soviet star	L11½
60	red	soviet star	imperforated
60	brown-red	soviet star	L11½
100	blue/red	soviet star	L11½
100	blue/red	soviet star	imperforated
200	brown/red	soviet star	L11½
200	brown/red	soviet star	imperforated

Cover sent on 01-10-1945 from Gorincsovo (ГОРИНЧОВО) to Užhorod. 60 was probably the postage for a domestic letter.

Registered domestic cover sent 12-06-1945. The registration fee was 140 (f) and the tariff for a domestic letter was assumed to be 60 (f). The cover is franked in line with the assumed tariffs. Pictured next to the cover is the receipt for mailing a registered cover.

Right pane of a printing sheet of 200 stamps. Under the printing fields 199 and 200, the name of the printers can be seen. The plate number is printed in the sheet margin left of printing field 91.

Letter sent on 06-06-1945 from Ljuta in Carpatho-Ukraine to Prague in Czechoslovakia. Normal foreign letter, correctly franked with a 200 stamp of the second definitive issue.

Design by Dobej for 2nd issue

Mirror image of a pen-drawing. Mr Dobej made of a design for the 2nd issue which was not approved.

Printing errors

The values 100 and 200 were printed in the value tablet during a second printing procedure. Because some sheets with blue stamps were put in the printing press erroneously whilst printing 200 in the value tablet blue stamps with the figure 200 printed have been produced. The same happened when printing 100 in the value tablet and sheets with brown stamps were put in the printing press. Also shifted numerals 100 and 200 exist as well as blue and brown stamps without values.

Also many perforation mistakes can be found. These errors were mostly caused by the rather primitive printing presses available at the time these stamps were produced.

The paper used and the gum varies as well.

blue stamp with 200 in value tablet

double print of 100

brown stamp with 100 in value tablet

shifted 200

The horizontal gutter pairs

Due to the printing technique adopted, gutter pairs of all six values exist perforated as well as unperforated. They came into existence as the two panes of a printing form were not separated as was the intention. There is one remark to be made about the gutters of the grey 20. Most of the existing gutters of this denomination are glued together. One has to be very careful and examine such gutters closely. Almost all of the printed sheets of this stamp have been cut in two as was the instruction. Only one or two sheets survived uncut. Therefore no more than 20 gutter pairs can exist. Catalogues undervalue this item due to insufficient knowledge.

perforated horizontal gutter pair, with 4 stamps

imperforated gutter pair with plate number

3rd Definitive Issue September 1945

Printers: Lito Lam (ЛИТО ЛАМ)

Line perforation 1 1/2

Numbers printed (all colour shades together)

10 (f) 30,000 imperforated 2,000

20 (f) 71,600 imperforated 2,000

perforated set

without "1" in 19 due to overinking

imperforated set

The third definitive issue consists of 2 values, 10 yellow and 20 grey. The stamps were issued in September 1945 and the design is similar to the 2nd issue. The difference is the addition of the numerals "19" and "45" adjacent to the value tablet. On the 10 value portions of these numerals are occasionally obscured by overinking. Shades of grey can be found of the 20 Value. Both stamps are known imperforated.

Both values were printed in a similar way to the 2nd definitive issue. Sheets of 200, consisting of 2 panes of 100 separated by a horizontal gutter strip. The name of the printers appear again under the printing fields 99 and 200 (ЛИТО ЛАМ УЖГОРОД). The plate numbers changed into 2 and 2A and are printed in Italics.

When Carpatho-Ukraine was annexed to the USSR (15-11-1945) all stamps issued by the national council remained valid until 15-11-1945 (see also page 186). The use of the 3rd issue was therefore limited from September 1945 to 15-11-1945. Covers are very rare. This local letter was mailed in Uzhhorod on the 18-09-1945. The correct rate was 40.

Plate number 2

**Official document issued by Mr. Langfelder, plenipotentiary of the NRZU,
announcing the end of the validity of the postage stamps issued by this body.**

21 листопада 1945р.

В 3024/1945

Предмет: Ликвидирование знаков почтовой
оплаты Закарпатської України

Уполномоченный Н.Р.З.У.
по делам финансов

г. Ужгород

В связи с введением в обращение на территории Закарпатской Украины советских денег и советских знаков почтовой оплаты необходимо ликвидировать местные знаки почтовой оплаты Закарпатской Украины, изданные на основании Постановления Народной Рады Закарпатской Украины от 28 февраля 1945 г. В XII-130.660/1945 и бывшие в обращении по 14 ноября 1945г.

Наличные марки управление связи проектирует распродать как филателистическую ценность, но необходимо уничтожить и типографские клише, то есть образцы марок нарисованные на камне и находящиеся в закрытых железных ящиках в Ужгородской конторе связи. По одному ключу от этих ящиков находятся в управлении связи, а по одному контрольному ключу были при окончании печатания марок переданы представителю финотдела Н.Р.З.У., Александру Терентяку /см. письмо финотдела от 12. VI. 1945г., 542.078-IV/1945/.

Просим Вашего распоряжения о том, чтобы представитель финотдела Н.Р.З.У. прибыл с ключами в управление связи и присутствовал при вскрытии упомянутых железных ящиков и уничтожении образцов марок.

Начальник управления
связи З:У.

/Лангфельдер/

Re: end of validity of the postage stamps
and postal stationery of Transcarpathian Ukraine

The plenipotentiary of the peoples council of
Transcarpathian Ukraine, in charge with financial
matters.
City of UZGOROD

In connection with the introduction of Soviet currency and Soviet stamps and postal stationery in the territory of Transcarpathian Ukraine it is imperative to lift the validity of the regional postage stamps and postal stationery, which were issued by order N ° XII-130.660/1945 of 28 February 1945 of the peoples council of Transcarpathian Ukraine and which were in circulation until and inclusive 14th November 1945.

The department of Communication has the intention to sell the remaining stock of postage stamps as objects having a philatelic value, however feels obliged to destroy the printing plates bearing the engraved images of the postage stamps, which are kept in locked steel chests provided with two locks. The key for one lock is kept at the department of Communication and after the printing of the stamps the second one has been entrusted to Aleksandr Terentjak, representative of the financial department of the peoples council of Transcarpathian Ukraine. See letter N ° 42.078-IV/1945 of 12-06-1945 of the financial department.

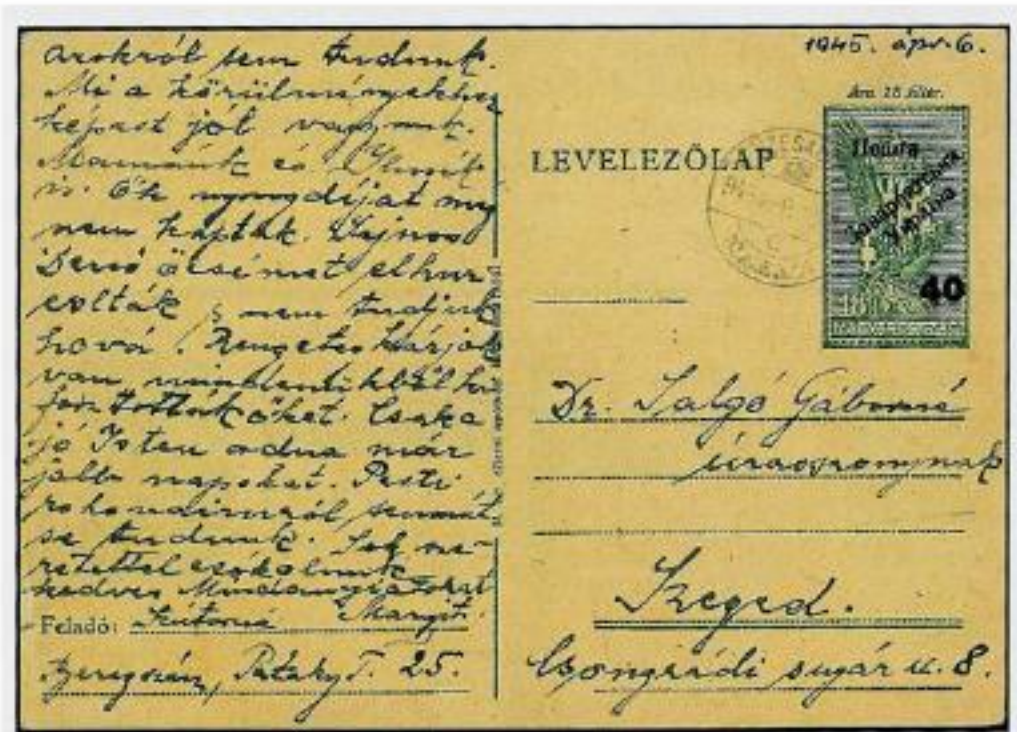

We request you to issue orders to send a representative of the financial department of the peoples council of Transcarpathian Ukraine to the department of Communication to be present when the chests are opened and to witness the destruction of the printing plates

Head of the department of Communications
of Transcarpathian Ukraine

/Langfelder/

POSTAL STATIONERY ISSUED DURING NRZU rule

a) postcards with overprint of Užhorod

Hungarian 18 fi. postcard issued in 1943. Overprinted with the new face value of 40 and the text “Пошта Закарпатська Україна”. Colour of the overprint: black.

According to Blahá this card is extremely rare. It was intended as a trial overprint and the number off cards issued is very low.

reference no. PS 1

Similar Hungarian postcard, same overprint but in addition the Hungarian text on the card itself has been made black and Ruthenian text printed instead. Many shifted overprints of the text are known.

reference no. PS 2

Same as PS 2, but earlier was provided with the overprint of Chust (ČSP 1944) thus creating a double overprint.

Some 5000 copies were overprinted with both overprints, this according to a non official estimate in Užhorod.

reference no. PS 3

b) postcards with overprint of Mukačevo

Hungarian 12f postcard, overprinted with new value of 40h. and diagonal text “ЗАКАРПАТСЬКА УКРАЇНА”. Hungarian text made black and new text in Ruthenian language. Colour of overprint: black. Angle of the overprint 60°

reference no. PS 4

Same as PS 4, but now on Hungarian postcard of 18 fi.

reference no. PS 5

Same as PS 5, but now on earlier overprinted postcard with CHUST overprint (ČSP 1944), thus creating a double overprint.

reference no. PS 6

Hungarian 12 fi. postcard but the overprint is done in red and the new face value is 1 P. The overprinting of the Hungarian text "Levelezolap" was done by a bar having a height of 9 mm.

reference no. PS 7

Hungarian 18 fi. postcard with the same overprint as PS 7.

reference no PS 8

Same overprint, but on a double postcard (message part).

This card was sold on 13-09-2008 at the Jiří Majer auction for a hammer price of 39000 Kč (€ 1560) Lot 999

reference no. PS 9

Overprint on the reply part of a double card. Large bar to hide the Hungarian text. Both parts of the double cards were separated and each part used as a domestic postcard.

reference no. PS 10

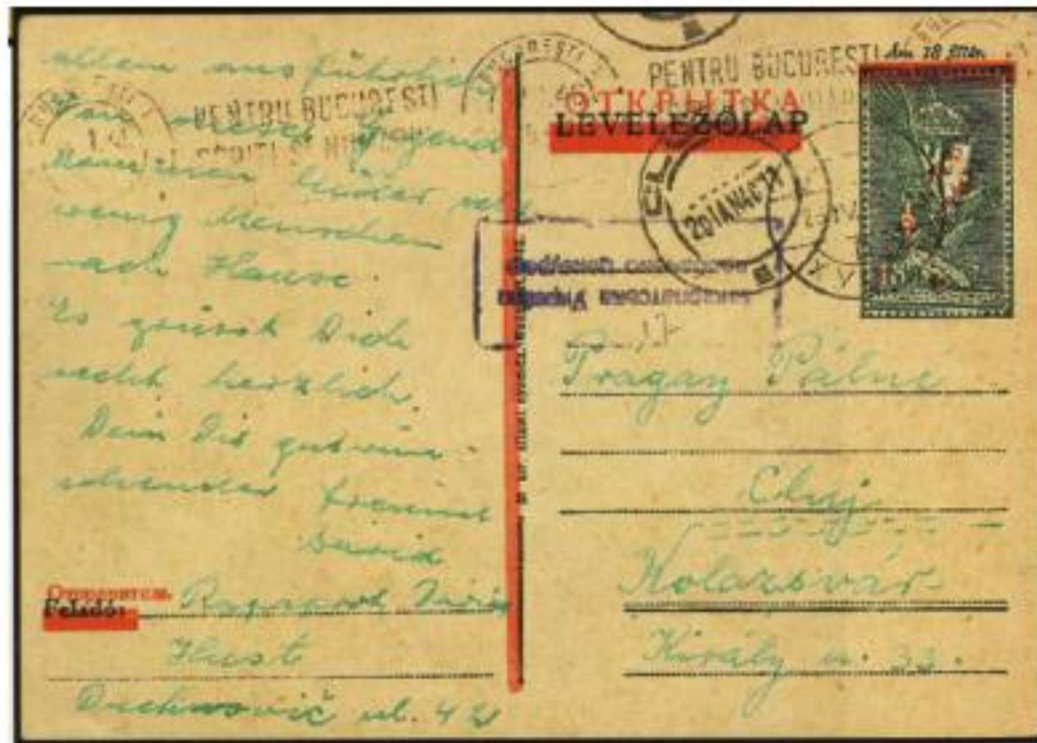

Overprint on earlier overprint of Chust (this was in black). Red overprint on black overprint!

reference no. PS 11

This card is similar to PS 8, however the bar over the Hungarian text has a height of 4 mm.

reference no. PS 12

c) postcards with overprint of Berehovo

Overprint on 18 fi Hungarian postcard, text almost vertical, new face value 40 fi. Black bar above postage stamp has a length of 22 mm.

reference no. PS 13

As PS 13, however the bar above the postage stamp has a length of 18 mm.

reference no. PS 14

Overprint on the reply part of a double card. Large bar to hide the Hungarian text. Both parts of the double cards were separated and each part used as a domestic postcard.

reference no. PS 10

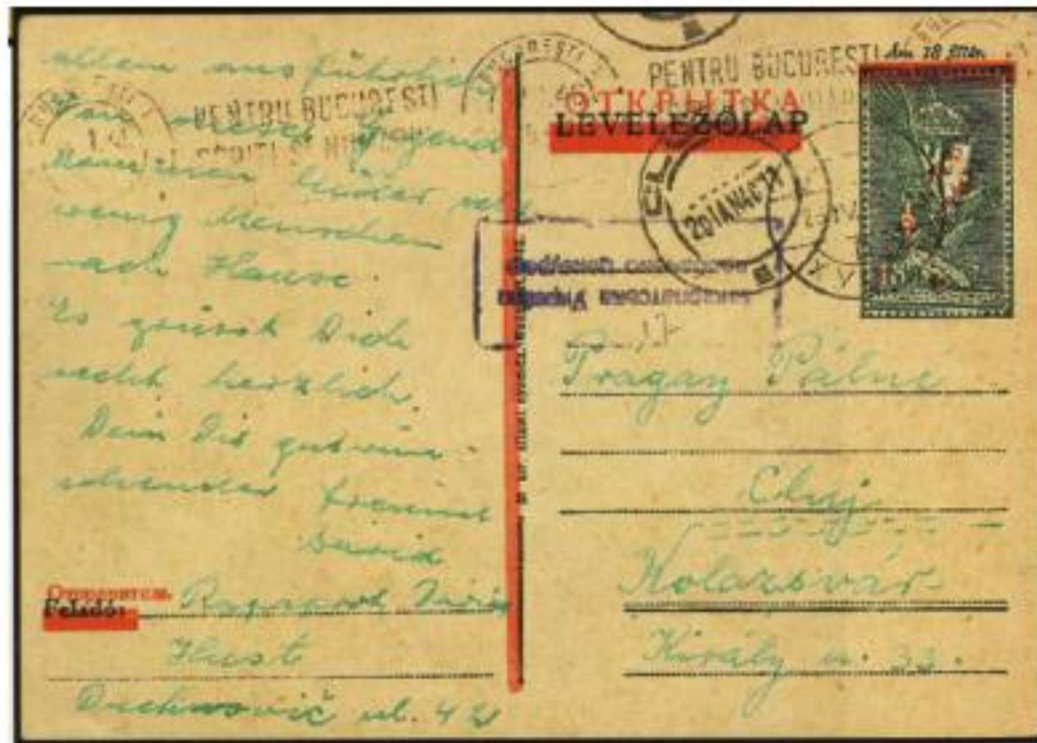

Overprint on earlier overprint of Chust (this was in black). Red overprint on black overprint!

reference no. PS 11

This card is similar to PS 8, however the bar over the Hungarian text has a height of 4 mm.

reference no. PS 12

c) postcards with overprint of Berehovo

Overprint on 18 fi Hungarian postcard, text almost vertical, new face value 40 fi. Black bar above postage stamp has a length of 22 mm.

reference no. PS 13

As PS 13, however the bar above the postage stamp has a length of 18 mm.

reference no. PS 14

reference no. PS 14

Overprint on 18 fi. Hungarian postcard, earlier provided with the Chust overprint ČSP 1944. Double overprint.

reference no. PS 15

d) Overprints on Hungarian field postcards

Hungarian field postcard for the correspondence between the soldiers and home (green-grey colour) and overprinted with the text "Закарпатська Україна" with two Cyrillic written words underneath each other and in between 3 stripes. Over the Hungarian text a black bar and new text in Ruthenian. Face value 40 fi.

reference no. PS 16

Hungarian field postcard for correspondence between home and the soldiers. Pinkish colour. The card was overprinted earlier at Chust, with a boxed text as shown below. Again overprinted in the same way as PS 16. Again a double overprint.

reference no. PS 17

Same Hungarian field postcard as PS 17, however the black bar in the left upper corner is longer.

reference no. PS 18

The overprinting of all these postcards was by no means carried out carefully, therefore shifted overprints and cards overprinted twice occur occasionally. It is always highly recommended that these postcards be examined by an expert, in particular the double overprinted ones.

The philatelic manipulations of the late VIKTOR INDRA

In his article on the above subject, which is published in the AIEP magazine of May 2006, Andrew Cronin writes "After his death (Viktor Indra) in 1988, I eventually acquired some of his material from Carpatho-Ukraine, Mongolia and Tuva. Upon careful examination, I then discovered that he had the most unfortunate habit of "improving" the cards and covers that he addressed to himself as returned registered mail."

After having studied the article of Mr. Cronin I looked with a fair amount of suspicion at every item showing the address of Mr. Indra, who lived in Olomouc Czechoslovakia. It appeared there are good reasons for this attitude.

The following items were pictured by Mr. Cronin

Let us consider this registered cover. The first observation to be made are the Czechoslovak stamps on the cover. These stamps were not valid in Čop at that time.. The registration label is from Czechoslovak origin and was used by the Czechoslovak Army. It is very doubtful whether these registration labels survived the Hungarian occupation period and apart from that this type was never available at the post office of Čop. The Čop postmark itself seems to be alright. The manuscript date must have been added later. See the date in the Čop postmark on the cover pictured here below. If the cover really went to Štěpánov u Olomouce is also doubtful. Most probably the whole letter is fabricated and the date stamp of Štěpánov u Olomouce is a strike on request of Mr. Indra. whilst he himself mounted the R-label.

Let us first of all compare the strike of the Čop postmark on these two covers with the one on the cover with the Czechoslovak stamps. The strike on the covers with the 200 NRZU stamp have a worn look about them, even though dated 06-08-1945 and 08-08-1945 respectively, with the name Cop (ЧОП in Cyrillic) consisting of three blobs. How can that be possible when we have a clear strike on the top letter dated 15-08-1945. The inference must surely be that the COP canceller was discarded at a later date in worn condition and was used by Mr. Indra to concoct the two "registered" covers, with him also drawing in red pencil the two "R" designations No.82 and 112. Also the "3AKA3HOE" remark on the above right hand letter is added by Mr. Indra as can be concluded from further investigated covers shown on the following pages.

When looking at the hand written Russian word “заказное” = registered on the two covers pictured below and compare it with the one on the Carpatho Ukraine cover on the previous page it is obvious that the handwriting is the same.. These two covers were sent from the Soviet republic of TUVU to Mr. Indra in Olomouc. It is highly unlikely that the post official in АДЫР-КЕЖИГ =A dyr-Kejig and the one in МОРЕН = Moren not to mention the post official in Чоп (Carpatho Ukraine) have all the same handwriting. The conclusion can only be that Mr Indra has “ improved” these covers.

This cover is pictured on page 144 of Jiří Majer’s catalogue “Zakarpatská Ukrajina”. Again a cover with the remark “ЗАКАЗНОЕ” in the handwriting of Mr. Indra. Also the postmark of Чоп is the same with the 3 blobs as pictured on the previous page.. Conclusion can only be that again it has been improved by Mr. Indra.

A last subject are the covers addressed to Ivan Popenko of Rachovo, either in Latin script or in Cyrillic..

This cover originates from the Czechoslovak presence in Chust. as of 8 November 1944. In his article on the manipulations of Viktor Indra, Andrew Cronin writes and I quote “The two strikes of the commemorative postmark are genuine, but the EXPRESSZ cover never went to Ivan Popenko in Rachovo. A careful analysis of the address and the typewritten correspondence from Mr. Indra seen by me all indicate that they came from the same typewriter. Moreover, Mr. Indra was living under Axis occupation in Moravia on 8 November 1944, so there was no possibility

that he was then communicating with Ivan Popenko. The inescapable conclusion is that this cover was originally blank, with the address and the Hungarian “EXPRESSZ” label added after World War II to give the impression that it had gone through the post.

The cover on the left is pictured by Andrew Cronin and the one to the right belongs to the writers collection. Both covers are from Horincovo and addressed to Ivan Popenko. All the stamps, overprints and postmarks are genuine but, during the autonomous period in 1945, the supposed date of posting should have been handwritten within the strikes of the postmarks.. Moreover the registration labels of Horincovo are from the Czechoslovak postal administration prior to 16 March 1939 and it is highly unlikely that any such labels would have survived the subsequent Hungarian occupation of 1939 – 1944. Unfortunately the cover on the right is pictured on the first two editions of the handbook but has now been replaced.

PERIOD 12

THE SOVIET POSTAL ADMINISTRATION 1945 UNTIL 1992

Carpatho Ukraine was annexed by the Soviet Union on 15-11-1945. The legal basis was a treaty signed on 29-06-1945 in Moscow between Czechoslovakia and the Soviet Union on a "basis of friendship" as it was officially called. The first paragraph of this treaty reads as follows:

"Transcarpathian Ukraine (referred to as Subcarpathian Ruthenia in the Czecho-Slovak Constitution), which was incorporated as an autonomous unit into the frame of the Czecho-Slovak Republic pursuant to the St. Germain-en-Laye Treaty of September 10, 1919, is being united with its age-old fatherland Ukraine in concurrence with the wishes manifested by the population of Transcarpathian Ukraine and on the basis of a friendly understanding between the two High Contracting Parties and enters the frame of the Ukrainian Soviet Socialist Republic.

The border between Slovakia and Transcarpathian Ukraine that existed prior to September 29, 1938 remains, with introduced changes, the border between Czecho-Slovakia and the Union of Soviet Socialist Republics as depicted on the appended map".

Stalin always had the intention to annex Carpatho-Ukraine, as this would give him access to the Hungarian plains and to Czechoslovakia and to keep a strong hold on these countries as satellites. He kept his intentions hidden from Dr. Beneš, the Czechoslovak President, who believed originally that Czechoslovakia could be re-established within its pre-Munich borders. That was also why he sent a governmental delegation from his London Government in Exile headed by Mr. Němec to Chust. His eyes were opened when the National Committees of all Ukraine adopted a resolution at its congress in Mukačevo, on 26-11-1944. This congress was of course inspired and controlled by the Red Army political officers on instructions from Moscow.

This resolution reads as follows and is referred to in the 1st paragraph of the 15-11-1945 treaty when it referred to the "wishes manifested by the population of Transcarpathian Ukraine"

"The first Congress of the National Committees of all Transcarpathian Ukraine Resolves:

- 1. To unite Transcarpathian Ukraine with its great mother, the Soviet Ukraine and to secede from Czechoslovakia.*
- 2. To ask the Supreme Soviet of the Ukrainian Soviet Socialist Republic and the Supreme Soviet of the Union of Soviet Socialist Republics to include Transcarpathian Ukraine as a part of the Ukrainian Soviet Socialist Republic.*
- 3. To elect a National Council of Transcarpathian Ukraine as the only central authority executing the will of the people in the territory of Transcarpathian Ukraine.*
- 4. To empower and obligate the National Council of Transcarpathian Ukraine to put into effect the decisions of the congress regarding the reunion of Transcarpathian Ukraine with the Soviet Ukraine."*

The effects of the Soviet annexation on the postal services

On 15-11-1945 Soviet postage stamps were made available to the post office and the soviet postal tariffs were applicable. The postage stamps issued by the NRZU (the national council) lost their validity on 14-11-1945. The rubber hand stamps of the Carpatho Ukraine were used until February 1946, when they were replaced by the Soviet metal date stamps. However some letters franked with the 2nd NRZU issue were handled by the Soviet mail after they lost their validity.

Folded letter sent on 25-12-1945 from Veliky Berezny. Postage paid by using Carpatho Ukrainian stamps.

Documents of the transition period

Hungarian postcard with the Berehovo overprint from Period 11. The card was posted on the 17-12-1945, it could only be used when Soviet stamps were used for franking.

Typical triangle letter from the beginning of the Soviet period. NRZU cancel of Uzgorod and separate date 18-XII-45.

Cover with 15 kop Soviet stamp, cancelled with the newly introduced soviet date stamp of Uzgorod and also the NRZU hand stamp of Uzgorod.

Some general remarks about period 12

When preparing the period 12 chapter, during which Carpatho Ukraine was part of the Ukrainian Socialist Soviet Republic a great number of subjects arose which have never been explored in the western world. Possibly also because the postal history of this period was never popular with philatelists and the existing sources are hardly admissible due to language problems. It was only possible to explore this period with the help of many friends, but the chapter is far from complete and needs additions and possible corrections.

The introduction of the first Soviet date stamps

On the 22nd of January 1946 the name of Carpatho Ukraine was officially altered to Zakarpatskoi Oblast =the region behind the Carpathian mountains. (Behind as viewed from the Soviet Union). The first date stamps were introduced by the Soviet postal administration in the year 1946, see types A1, A2, A3 and A4 below. These date stamps were mono-lingual Russian. The upper segment having the Soviet star with hammer and sickle, flanked at one side by СС and at the other by СР. The name of the post office, written in Cyrillic alphabet, is followed by “ЗАКАРПАТ. ОБЛ.” (Type A 1) or “ЗАКАРП. ОБЛ.” (Type A 2). This depends on the length of the name of the post office., whilst in type A 3 the name of Zakarpatska “ЗАКАРПАТСКОЙ” is written in full.

type A 1
Date stamp of Uzhgorod
“ЗАКАРПАТ. ОБЛ.”
mono-lingual

type A 2
Date stamp of Neresnitsa
НЕРЕСНИЦА ЗАКАРП.ОБЛ
mono-lingual

type A 3
Date stamp of Uzhgorod
“ЗАКАРПАТСКОЙ”
mono-lingual

Language- and spellings-difficulties

This is a transit date stamp, which can be found on the reverse of covers sent abroad. These covers were handled by the P.O. of Uzhgorod. Note the spelling used for Uzhgorod, this a transliteration based on the Ukrainian language, see page 190 (diameter 29 mm).

R- cover sent abroad to Slezská in Czechoslovakia on 07-07-1946 from Velikii Bereznyi (Nagyberezna in Hungarian and Velký Berezný in Czech). The Cyrillic spelling used on this mono-lingual date stamp is as follows: БЕРЕЗНЬИЙ ВЕЛИКИЙ. (Bereznyi Velikii)

The post official wrote in the provisional R-label Vel. Berezna, which is a mixture of Russian or Czech and Hungarian. This illustrates the language difficulties at the beginning of period 12.

Another example of these language difficulties is the first date stamp of Tychevo the name was spelled ТЯЧЕВО (Tyachevo) originally instead of ТЯЧЕВ, which name was used in the later date stamps. Perhaps attentive collectors find more.

First date stamp
mono-lingual ТЯЧЕВО.

Later used bi-lingual date
stamp ТЯЧЕВ / ТЯЧІВ.

The introduction of the first Soviet date stamps

On the 22nd of January 1946 the name of Carpatho Ukraine was officially altered to Zakarpatskoi Oblast =the region behind the Carpathian mountains. (Behind as viewed from the Soviet Union). Language- and spellings-difficulties

This is a transit date stamp, which can be found on the reverse of covers sent abroad. These covers were handled by the P.O. of Uzhgorod. Note the spelling used for Uzhgorod, this a transliteration based on the Ukrainian language, see page 190 (diameter 29 mm).

R- cover sent abroad to Slezská in Czechoslovakia on 07-07-1946 from Velikii Bereznyi (Nagyberezna in Hungarian and Velký Berezný in Czech). The Cyrillic spelling used on this mono-lingual date stamp is as follows: БЕРЕЗНЬИЙ ВЕЛИКИЙ. (Bereznyi Velikii)

The post official wrote in the provisional R-label Vel. Berezna, which is a mixture of Russian or Czech and Hungarian. This illustrates the language difficulties at the beginning of period 12.

Another example of these language difficulties is the first date stamp of Tiatchev the name was spelled ТЯЧЕВО (Tiatchevo) originally instead of ТЯЧЕВ, which name was used in the later date stamps. Perhaps attentive collectors find more.

First date stamp
mono-lingual ТЯЧЕВО.

Later used bi-lingual date
stamp ТЯЧЕВ / ТЯЧІВ.

The name of Sevloch (Sevluš / Nagyszöllös) changed to Vinogradov

On 25-06-1946 the name of Sevluš was changed to Vinogradov.

As can be seen on this R-cover the post official in 1948 still used a registration stamp with a transcript of the old name (Sevloch).

Also interesting to note is that the date stamp of Vinogradov was bi-lingual in 1948.

type F I

Also the date stamp used on this cover is special. As mentioned before the first date stamps were all mono-lingual Russian having a diameter of 25 mm. This date stamp with the date 03-05-1948 is however bi-lingual Russian/Ukrainian and its diameter is 29 mm. This date stamp was probably introduced at the time of change of name from Sevloch to Vinogradov. This is the only bi-lingual date stamp with only "ЗАКАПАТ." in the lower segment and having a diameter of 29 mm. This date stamp is classified as type F I.

Also during 1953 the name of Volové (Ökörmező) was changed to MEJGORE

Apart from the classified date stamps A 1 to A 3 two more date stamps of the same type were found which in this book have classification numbers A 4 and A5. Type A 4 has the addition "К.РА" to the name of the post office. It was only traced in connection with the post office of Ujgorod (УЖГОРОД). Type A5 has the addition "УКР. РСР."

A 4

A 5

K.PA short for: Комендатура, which can be translated as the management (of the GPO at Ujgorod)
 УКР РСР short for: Українська Радянська Соціалістична Республіка = Ukrainian Soviet Socialist Republic

Also transliteration could give rise to confusion.

Transliterations can be made from the Russian Cyrillic spelling as original position or the Ukrainian ditto, this leading to a different Latin spelling. But even if the Cyrillic spelling in both languages is the same a different transliteration may be possible as the Russians and Ukrainians sometimes use the same letter for a different sound. To explain this, the Russian "Г" is in Latin a "G" whilst the Ukrainian "Г" is an H in Latin. This is noticeable in the transliteration of УЖГОРОД. The Russians would transliterate Uzgorod, the Ukrainians however Uzhorod. It becomes even more complicated when the UPU (Union postale universelle) gets involved. French is the language used by the UPU for international postal communications. That is the reason why the Latin transcriptions on the international Latin R-stamps as well as on other forms for international usage the UPU transliterations are used, which for УЖГОРОД is UJGOROD. In the Latin date stamp of the capital the Ukrainian transliteration is used although a date stamp with UJGOROD was also used (see page 211). In general in this book, to aid readers, the UPU transliteration is used, with exceptions where it is more appropriate to use the Ukrainian one.

Domestic R-cover sent from Mukatchevo to Khust on 03-06-1960. Date stamp type A2. The tariff for registered domestic letters amounted to 1 Rubel. This tariff was unchanged from 16-09-1948 until the money reform of 01-01-1961.

International R-cover sent from Khust to Horni-Litvinov in Bohemia, Czechoslovakia on 01-03-1949. Date stamp A1. The tariff for a registered foreign letter amounted to 1.30 R. This tariff was in force until 10-06-1950.

Domestic cover sent 16-09-1958 from Tarnovtsy to Ujgorod. The tariff for an ordinary domestic letter was 49 kop. This tariff was valid from 16-09-1948 until 01-01-1961. The postage stamp is cancelled by a date stamp type A2.

International-registered airmail cover, sent 18-05-1957 from Ujgorod to Elisabethville in Belgian Congo. Date stamp type A 1.

From 1960 onwards, gradually new date stamps were supplied to the post offices.

These new date stamps were bi-lingual Russian-Ukrainian in case the spelling of the post office's name was different. If the spelling was the same the date stamps were mono-lingual. At the bottom the text "УКР ССР" or "УССР ЗАКАРПІ" is to be seen, meaning Ukrainian Socialist Soviet Republic. The diameter of the date stamps of type "B" is 29 mm. In cases of long names two concentric text circles were used. The usage was continued also after new date stamps were introduced in 1975, together with postal codes. (see page 201).

type B1
Bi-lingual date stamp of Duszino (Russian) Duszina (Ukrainian)

type B2
Mono-lingual date stamp of Volosyanka, the Russian and Ukrainian spelling is identical

type B3
Text in two concentric circles Bi-lingual Kovsovskaya Polyana/ Kosovskaia Poliana (Russian)

type B4
Bi-lingual date stamp of Volovets, at the bottom УССР ЗАКАРПІ.

Illustrated airmail cover with imprinted stamp of 6 kop. Additional stamp of 6 kop.

Stamps were cancelled by the mono-lingual date stamp type B2 of Ujgorod

It was sent in 1961 from Ujgorod to a soldier of the Red Army in Czechoslovakia

The boxed postmark with the Cyrillic text "МЕЖАУНАРОДНЕ" means international

International R-label hand stamp of Ujgorod 5 and boxed postmark "RECOMMANDÉ" meaning registered

The cover was sent shortly after the money reform of 1961. The 12 kop. covers the postage for a registered domestic letter sent by airmail

International registered airmail cover sent from Svaliava to Toronto, Canada on 15-01-1963. The letter never reached Canada as it was returned to the sender on the instruction of the customs office at Tchop. The cover contained postage stamps and at that time this was not allowed. Special postage stamps exchange offices existed for this purpose. The tariff for a registered international airmail letter was 28 kop. Tariff period 01-01-1961 until 10-09-1977. The date stamp is type B2

This marking was made by the customs office of Tchop and states: To be returned to the sender.

Type C I

Not only the date stamps of the B-types were used (see page 197) but also a C-type was used before the postal codes were introduced. This C-type had a diameter of 25 mm and only the mono-lingual version of Peretchin was recorded by the writer.

THE SOVIET POSTAL RATES (The postal rates stated below are preliminary data and are not complete. It was for instance not possible to indicate the tariffs for higher weight classes)

from the start of the annexation until 15-09-1948

- local postcards 10 kop
- Intercity (trunk) postcards 20 kop
- Ordinary local letters 15 kop
- local letters above 20 grams 20 kop
- Ordinary intercity (trunk) letters 30 kop
- Foreign postcard 30 kop
- Foreign letter 50 kop
- International airmail postcard 60 kop
- International airmail letter 1 Rubel

kop is short for kopecks

From 16-09-1948 the tariffs were as follows

- postcards 25 kop (no difference between local and intercity postcards and only valid for cards with imprinted stamp)
- Ordinary domestic letters and postcards without imprinted stamp 40 kop
(no difference between local and intercity letters)
- Letters above 20 grams 60 kop
- Illustrated postcards without imprinted stamp 40 kop The Ministry of Communication of the USSR now started to issue illustrated postcards with imprinted stamps (Imprinted stamp of 25 kop *)
- Registered domestic postcard 1 Rubel
- Registered domestic letter 1 Rubel
- Domestic airmail letter 1 Rubel
- International letter 50 kop
- Registered international letter 130 kop
- International airmail letter 150 kop
- Registered international airmail letter 230 kop
- International postcard 30 kop
- Registered international postcard 110 kop

*) see next page The money reform of 1961

On 10-06-1950 the rates for international mail were lowered the other tariffs remained unchanged

- International postcards 25 kop
- Registered international postcards 95 kop
- Ordinary international letters 40 kop
- Registered international letters 110 kop
- International airmail letter 140 kop
- Registered international airmail letter 210 kop
- International airmail postcard 125 kop
- International registered airmail postcard 195 kop

On 01-07-1950 the rate for domestic airmail was changed, the other tariffs remained unchanged

domestic airmail letter 60 kop

On 01-09-1957 some rates were changed again

- International postcards 40 kop
- Illustrated international postcards 55 kop
- Registered international postcard 140 kop
- Registered illustrated international postcard 155 kop
- Ordinary international letters 60 kop
- Registered international letters 160 kop
- International airmail letter 160 kop
- Registered international airmail letter 260 kop
- International airmail postcard 140 kop

Registered international cover, sent on 20-05-68 from Peretchin (Перечин) to Hořice v Podkroňoši. For Czechoslovakia the domestic postal tariffs were applicable, in this case 10 kop for a registered letter not exceeding 20 gr. Tariff period 01-01-1961 – 10-09-1977 .
Date stamp type C I (Peretchin is the UPU transliteration)

International registered airmail postcard 240 kop

From 01-01-1961 until 10-09-1977 *)

(On 01-01-1961 a money reform took place, which made completely new tariffs necessary).

10 old Rubels = 1 new Rubel

Note: CIS countries at domestic rates.

Domestic cover sent on 25-10-1962 from Dolgoe (Долгое) to Ujgorod (Ужгород). Postage 4 kop, according to tariffs valid from 01-01-1961 – 10-09-1977 .

Cover sent on 11-01-1989 from Guklivy to Eindhoven, The Netherlands. The tariff for an international letter amounted to 30 kop in accordance with the tariff valid from 01-01-1986 until 01-01-1991 (1 x 15 + 3 x 5 = 30 kopecks).

The money reform of 1961

On 1 January 1961 the Soviet Union carried out a money reform, a new Ruble was introduced, which value was 10 old Rubles. In fact this money reform was a hidden devaluation. This of course could not be advertised as such under the political circumstances of that moment. This becomes more clear when comparing the gold contents to which the Ruble was coupled.

The old Ruble represented the value of 0.222168 grams of gold and the new Ruble 0.987412 grams. This is not 10 times as much but only 4.44 times as much. A devaluation of roughly 56%. This can also be determined when comparing the official rate of exchange for the US Dollar. The old Ruble had a value of 25 dollar cents, the new Ruble 90 dollar cents. Based on Dollars the Ruble lost 64% of its value.

The new Ruble banknote

The impact of the money reform on the postal tariffs

In general the postal tariffs did not change. Simply a zero was deleted and old rates not ending in a zero were rounded off upwards because a coin of half a kopek did not exist. Be careful however as without giving notice two changes in the existing tariffs were made. The R-fee for an international letter was increased from 1 Ruble to 12 new kopeks, which is an increase of 20%. The 2nd change refers to the difference made between postcards and picture postcards. In the period preceding the money reform, the tariff for postcards without an imprinted postage stamp was the same as for an ordinary letter (40 kopeks), whilst the postage for a picture post card with imprinted stamp was 25 kopeks. This distinction was abandoned now and the new tariff for picture postcards with and without imprinted stamp became to be 3 kopeks (same as a domestic postcard).

The validity of postal stationary issued before the money reform

Old stationary in possession of the public could be used until 30-04-1961. Below two postcards are pictured. The one to the left has a 3 kop imprinted stamp, corresponding with the new tariff introduced on 01-01-1961 for domestic postcards. The one to the right is an old one with a 25 kop imprinted stamp used on 21-03-1961

New domestic postcard, 3 (new)kop imprinted stamp. Sent on 23-04-1961 from ЧОП (ČOP in Czech or CSAP in Hungarian) to XYCT (Chust in Czech or Huszt in Hungarian). Arrival date stamp of XYCT type B2 with date 24-04-1961.

Old domestic postcard, 25 (old)kop imprinted stamp. Sent on 21-03-1961 from ЧОП (ČOP in Czech or CSAP in Hungarian) to XYCT (Chust in Czech or Huszt in Hungarian). Arrival date stamp of XYCT type B2 with date 22-03-1961

Picture postcard with imprinted stamp of 25 kopecks sent from Pürksi in Estonia to Koluvere in Latvia on 06-03-1961. Arrival date stamp of Koluvere with date 09-03-1961.

Stocks of old stationary available at the post offices.

Some of the old stationary available at the post offices were provided with a hand stamp indicating in Cyrillic the new price. An example is pictured below as well as a cover with this additional hand stamp.

The translation is as follows:

Starting from 1st January 1961 the price of two covers with imprinted stamps amounts to 9 kopeks.

In other words for 2 covers a price of 1 kopek was to be paid, whilst per cover 4 kopeks was charged for the postage.

Two covers were sold together as a coin of half a kopek did not exist.

It is very well possible that similar hand stamps were applied at different post offices and on different postal stationary. The writer would be pleased to receive any additional information you might have available..

Cover with hand stamp as described here above.

Cover was sent on 18-07-1962 from Brakški in Latvia to Riga

In the beginning of January 1961 also postal stationary appeared on with the text was printed. This printed text is always in the same colour as the imprinted stamp. This could lead to the assumption that a special edition was printed with this text before the new postal stationary with the new stamps became available.

Cover sent from Roja in Latvia to Riga on 27-01-1961. The text next to the imprinted postage stamp of 40 old kopeks reads as follows: From the 1st of January 1961 the price of this envelope is 5 kopeks. (4 kopeks for the postage stamp and 1 for the envelope itself)

Picture postcard with imprinted postage stamp of 25 (old)kopeks. On 23-03 1961 this card was sent from Vilnius to Baldone in Latvia. The text next to the imprinted stamp reads as follows: From the 1st of January 1961 the price of this picture postcard is 4 kopeks. (3 kopeks for the postage stamp and 1 for the picture post card itself)

Mixed frankings, stamps with face value in old kopeks and ditto in new kopeks.

Also the stamps with face value in old kopeks could be used until the 1st of April 1961. This made mixed franking possible with stamps in the old and new currency.

International cover sent on 01-01-1961 from Khust (Xyct, Chust, Huszt) to Budapest. Starting from 01-01-1960 the postal rates for Hungary were the same as the domestic rates. On 01-01-1961 the new postage for a domestic letter was 4 (new)kopeks. The postage was paid by 1 stamp of 2 new kopeks and 1 stamp of 20 old kopeks = 2 new kopeks. Total 4 new kopeks.

For the 2 new(kopeks) stamp this is the first day of use.

International R-cover sent on 05-03-1961 from Mukatchevo to Zábřeh (Czechoslovakia). Postal rates for Czechoslovakia were the same as the domestic rates.. On 01-01-1961 the new postage for a domestic R-letter was 10 (new) kopeks. The postage was paid by 1 stamp of 4 new kopeks and 1 stamp of 60 (old) kopeks 6 new kopeks. Total postage 10 (new) kopeks.

The handling of insufficiently franked mail

The penalty for insufficiently franked mail was up to 1961 one Ruble. After the money reform this was 10 kopeks. However the postal authorities in the Soviet Union decided to take a generous attitude during the first months and not to charge extra postage. How long this period lasted could not be established, but probably six months.

Local cover posted in Riga on 27-01-1961. Sent without paying postage. On the cover is a handstamp of a post official reading "ДОПЛАТИТЬ РИГА = DOPLATIT RIGA = postage due Riga" Originally the postmen filled out 10 kopeks with a red pencil, which was the fine to be paid. But on second thought he corrected this with black pencil to 4 kopeks, which is the normal postage without any surcharge..

This cover with imprinted stamp of 40 old kopeks is not up rated by means of a hand stamp or additional print (as shown on pag 200b). It is probably sent on 05-05-1961 and was no longer valid. The post official again was in doubt, should he charge 10 kopeks or 4 but ultimately it became 4 kopeks. At the rear the cover is backstamped Riga 06-05-1961

Cover sent from Dedovsk near Moscow to Riga on 30-08-1961. Postal stationery with imprinted stamps in old kopeks were only valid until 01-04-1961. This cover with old 40 kopeks stamp was consequently no longer valid. In Riga 10 kopeks postage was charged. The period of a generous approach was apparently over.

The introduction of the postal codes (Zip codes)

During the year 1975 the Soviet postal administration started the introduction of postal codes. All postcodes have six numerals. The code for the Uzhgorod is 294000, whilst all the other post offices in the "Zakarpatska Oblast" have codes starting with 295. The introduction of these postcodes was also the reason for providing gradually new date stamps to the post offices. Two types were recorded, type "D" with a diameter of 25 mm and type "E" having a diameter of 29 to 30 mm. Type D exists in a mono-lingual and a bi-lingual version and of type E two bi-lingual versions exist. Over the years new post offices have been opened and below is a list of post offices with their postal code as existed in the year 1988. In case the Russian and Ukrainian spelling is identical the name in Cyrillic is only given once.

type D 1

Mono-lingual date stamp
of Svaliava СВАЛЯВА

type D 2

Bi-lingual date stamp of Gukliiv
ГУКЛІВЬЙ – ГУКЛІВІЙ

type E 1

Bi-lingual in two concentric
circles

СОКІРНІЦА - СОКІРНІЦЯ

all have СССР in the upper segment

The postal code is not on the new date stamps but they are a great help in determining the name of the source village or town where the mail has been posted. During Soviet times it was very common to use envelopes with imprinted stamps. On these envelopes a special provision was made where the sender could write his address with postal code. This also applied to the postcards. The 4th numeral of the code is allocated to a district, but apparently the districts borders during Soviet times changed several times. You may find the list below helpful, but the district borders indicated on the map on page 207 do not entirely correspond with the ones at the time the postal codes were introduced.

2951 is for district Uzhgorod
2952 is for district Irchava
2953 is for district Svaliava
2954 is for district Mukatchevo
2955 is for district Vinogradov
2956 is for district Beregovo
2957 is for both district Tiachev
2958 is for district Rachov
2950 is for district Peretchin

See map on page 207

The list below has the name of 319 localities in Carpatho Ukraine. Not every little village or hamlet had its own post office. Available literature mentions a total number of about 300 post offices in Zakarpatska Oblast. In the larger towns more post offices were operating

UPU Transliteration	Russian spelling/Ukrainian spelling	Hungarian	Czech
295622 ALEKSANDROVKA	Александровка/Олександрівка	Ósándorfalva	Šandrovo
295123 ANTONOVKA	Антоновка/Антонівка	Antalócz	Antalovce
295438 BABITCHI	Бабичи/Бабичі	Bábakút	Pokuč'a
295507 BAKOSH	Бакош	Bakos	Bakoš
295104 BARANINTSY	Баранинцы/Баранинці	Baranya	Baranince
295433 BARKASOVO	Баркасово	Barkaszó	Barkasovo
295501 BATRAD	Батрадъ	Bótrágy	Botrad'
295730 BEDAVLIA	Бедевля	Bedőháza	Bedevľ'a
295815 BELAIA TSERKOV	Белая Церковь/Біла Церква	Tiszafejéregyház	
295210 BELKI	Белки/Білки	Bilke	Bílky
295304 BELOSOMITSIA	Белосовиця/Біласовиця	Bagolyháza	Belasovice
295801 BELIN	Белин/Білин	Bilin	Belín

295739	BELOVARTSI	Беловарцы/Біловарці	Kiskirva	Belovarec

295533	BOBOVOE	Бобовое/Бобове	Tiszabökény	Bobovo
295403	BOBOVISTCHE	Бобовище	Bubuliska	
295526	BODOLIV	Бодолов/Бодолів	Badaló	
295810	BOGDAN	Богдан	Tiszabogdány	Bohdan
295613	BEREZOVO	Березовое/Березове	Berezna	Berezo vo
295552	BORJAVSKOE	Боржавское/Боржавське	Nagyborzsova	Boržava
295634	BORONIAVA	Боронява/Боронява	Husztbaranya	
295426	BORODIVKA	Бородовка/Бородівка	Bárdháza	
295528	BORZHAVA	Боржава	Nagyborszava	Vel'ký Boršava
295205	BROD	Брод/Брід	Boród	Brod
295213	BRONKA	Бронька/Бронька	Szuhabaranka	Broňka
295570	BUSHTYNA	Буштына/Буштина	Bustyaháza	Buštino
295290	BUKOVETS	Буковец/Буковець	Beregbárdos	Bukovec
295556	BUKOVOE	Буковое/Букове	Fakóbükk	
295414	BYSTRITSA	Быстрица/Бистриця	Repede	
295620	CHERNAYA	Черная/Чорна	Csarnató	Černá
295555	CHIROKOE	Широков/Широке	Felsősárad	
295621	DANILOVO	Данилово/Данилове	Husztsófalva	Danilovo
295813	DELOVOE	Деловое/Ділове	Trebusafejérpatak	Trebušany
295502	DERENKOVETS	Деренковец/Деренковець	Beregsom	Šom
295535	DJAKOVO	Дьяково/Дякове	Nevetlenfalu	Ďakovo
295741	DIBROVA	Диброва/Діброва	Alsóapsa	Nižná Apša
295129	DIBROVKA	Дибровка/Дібрівка	Ungtölgyes	Dubrovka
295731	DOBRANSKOE	Добрянское/Добрянське	Nyágova	
295522	DOBROSELE	Доброселье/Добросілля	Bene	Beňa
295212	DOLGOE	Долгое/Довге	Dolha	Dovhé
295203	DOROBRA TOVO	Доробратово/Доробратове	Drágabártfalva	Drahobratovo
295346	DRATCHINY	Драчын/Драчино	Ujtövösfalva	Dračina
295624	DRAGOVO	Драгово/Драгове	Kövesliget	Drahovo
295545	DROTINTSI	Дротинцы/Дротинці	Tiszaszirma	Sirma
295436	DRYSINA	Дрисина/Дрисина	Dercen	Drysina
295754	DUBOVOE	Дубовое/Дубове	Dombó	Dubové
295072	DUBRINITCH	Дубринич	Bercsényifalva	Dubriniče
295223	DUBROVKA	Дубровка/Дібрівка	Cserhalom	Dubrovka
295798	DULOVO	Дулово/Дулове	Dulfalva	
295209	DUNKOVITSA	Дунковица/Дунковиця	Nyíresújfalu	Dunkovica
295350	DUSINA	Дусино/Дусина	Zajgó	Dusina
295544	FANTCHIKOVO	Фанчиково/Фанчикове	Fancsika	Fančikovo
295112	GALOTCH	Галоч	Gálocs	Goloč
295752	GANITCHI	Ганичи/Ганичі	Gánya	Ganica
295517	GARASDOVKA	Гараздовка/Гараздівка	Gut	
295513	GAT	Гать	Gát	Hať u Berehova
295128	GLUBOKOE	Глубокое/Глибоке	Mélyút	Hluboka
295742	GLUBOKIJ POTOK	Глубокий Поток/Глибокий Потік	Szorospaták	Hlybokyj Potok
295315	GOLIATIN	Голятин	Tarfalu	
295341	GOLUBINOE	Голубиное/Голубине	Galambos	Holubinne
295611	GORINTSCHEVO	Горинчово/Горінчеве	Herincse	Horinčovo
295225	GREBLIA	Гребля	Felsőkaraszló	Hreblja
295740	GRUCHEVO	Грушево/Грушеве	Szentmihálykörtvélyes	Hrusovo
295307	GUKLIVY	Гукливый / Гукливиий	Zúgó	Huklivý

295638	JABLUNIVKA	Яб луновка/Яб лунівка	Fenes	
295103	JAROK	Ярок	Árok	Jarok
295116	JAVOROVO	Яворово/Яворове	Eszeny	Eseň
295803	JASINJA	Ясиня/Ясіня	Körösmező	Jasina
295568	JULIVTSI	Юливіць/Юлівці	Szőllősgyula	
295204	ILNITSA	Ильница/Ільниця	Ilonca	Ilnice
295222	IMSTITCHOVO	Имстичово/Імстичове	Misztice	Imstičevo
295200	IRCHAVA	Иршава/Іршава	Ilosva	Iršava
295511	IVANOVKA	Ивановка/Іванівка	Makkosjánosi	Jánošovo
295401	IVANOVTSI	Ивановць/Іванівці	Iványi	Ivanovce
295610	IZA	Иза/Іза	Iza	Iza
295332	IZKI	Изки/Ізки	Izka	Izky
295302	JDENEVO	Жденево/Жденеве	Szarvasháza	Žďěňovo
295437	JNIJATINO	Жнятино/Жнятинне	Iznyéte	Žňatino
295020	JORNAVA	Жорнава	Malomrét	Žornava
295753	KALINY	Калинь/Калини	Alsókálfalva	Kalyny
295406	KALNIK	Кальник	Beregsárrét	Kalník
295090	KAMIANITSA	Каменица/Кам'яниця	Ókemenca	Kamjanyča
295201	KAMIANSKOE	Каменское/Кам'янське	Beregkövesd	Kivjažd
295411	KARPATI	Карпаты/Карпати	Beregvár	
295337	KELECHIN	Келечин	Kelecsény	
295351	KERETSKI	Керецьки/Керецьки	Kerecke	Kerecky
295565	KHIZHA	Хизжа	Kistarna	Chyži
295226	KHMELNIK	Хмельник/Хмільник	Komlós	Chomluš
295106	KHOLMETS	Холмець/Холмець	Korláthelmec	Chlumec u Užhorodu
295113	KHOLMOK	Холмок	Homoc	Chomok
295122	KHUDLOVO	Худлове	Horlyó	Chudl'ovo
295600	KHUST	Хуст	Huszt	Chust
295639	KHUSTETS	Хустець/Хустець	Husztcepatak	
295125	KIBLIARY	Кибляры/Кибляри	Köblér	Kybljary
295609	KIRESHI	Киреши/Кіреши	Körösös	Kireši
295407	KLUTCHARKI	Ключарки	Várkulcsa	Kl'učárky
295823	KOBYLETSKAIA POLJANA	Кобылецкая Поляна/ Кобилецька Поляна	Gyertyánliget	Kobylecká Polana
295603	KOCHELEVO	Кошелево/Кошелеве	Keselymező	Košel'ovo
295415	KOLCHINO	Кольсино/Кольчине	Kölcvény	Kolčino
295726	KOLODNOE	Колодное/Колодне	Darva	Kolodne
295322	KOLOTCHAVA	Колочава	Alsókálocsa	Koločava
295108	KOMAROVTSI	Комаровць/Комарівці	Palágykomorócz	
295632	KOPACHNOVO	Копашнево/Копашневе	Gernyés	Kopašňovo
295408	KOPINOVTSI	Копиновць/Копинівці	Nagymogyorós	Kopinovce
295110	KORITNJANI	Корытняны/Коритняни	Kereknye	Koryťňany
295560	KOROLEVO	Королєво/Королєве	Királyháza	Kráľovo nad Tisou
295822	KOSOVSKAIA POLJANA	Косовская Поляна/Косівська Поляна	Kaszómező	Kosivs'ka Poljana
295812	KOSTILEVKA	Костылевка/Костилівка	Barnabás	Berlebaš
295503	KOSINY	Косинь/Косини	Mezőkaszony	Kosino
295030	KOSTRINA	Кострина	Csontos	Kostrina
295627	KRAINIKOVO	Крайниково/Крайникове	Mihálka	
295755	KRASNA	Красна	Tarackraszna	Krasna
295725	KRITCHEVO	Кричево/Кричове	Kricsfalva	Kryčovo
295605	KRIVA	Крива	Nagykirva	Křiva
295214	KUCHNITSA	Кушница/Кушниця	Kovácsrét	Kušnice
295440	KUTCHAVA	Кучава	Nemetkucsova	Nemecká Kučová
295527	KVASOVO	Квасово/Квасове	Kovászó	Kvasovo
295802	KVASY	Квасы/Кваси	Tiszaborkút	Kvasy
295421	LALOVO	Лалово/Лалове	Beregleányfalva	Lalovo
295804	LAZESTCHINA	Лазещина	Mezőhát	Lazeščyna
295292	LAZY (district Tiatchev Тячев)	Лазы/Лазы	Lázi	Lazy

295711	LAZY (district Volovets)	Воловец	Лазы/Лазы	Timsor	Lazy
295604	LIPETSKAJA POLJANA	Липецкая Поляна/Липецька Поляна		Lipcsemező	Lypc'ka Poljana
295509	LIPOVOE	Липовое/Липове		Hetjen	Lipovo
295318	LISKOVETS	Лесковец/Лісковець		Lengyelszállás	
295215	LISITCHEVO	Лисичево/Лисичеве		Rókamező	Lisičevo
295032	LJUTA	Люта		Havazköz	Ljutá
295402	LOKHOVO	Лохово/Лохове		Lohó	Lochovo
295757	LOPUKHOV	Лопухов/Лопухів		Brusztura	Brustury
295317	LOZIANSKO	Лозянское/Лозянський		Cserjés	
295814	LUG	Луг		Lonka	Luh
295811	LUGI	Луги		Láposmező	
295216	LUKOVO	Луково/Лукове		Lukova	Lukovo
295311	MAIDAN	Майдан		Majdánka	Majdan
295425	MAKARJEVO	Макарьёво		Makarja	Makarjevo
295117	MALAJA DOBRON	Малая Добронь/Мала Добронь		Kisdobrony	Mala Dobroň
295221	MALYI RAKOVETS	Мальй Раковец/Малий Раковець		Kisrákóc	Malý Rakovec
295060	MALYI BEREZNYI	Мальй Березный/Малий Березний		Kisberezna	Malý Berezný
295539	MATIEVO	Матиево/Матійово		Mátyfalva	Mat'ejovo
295310	MEJGORE	Межгорье/Міжгір'я		Ökörmező	Volové
295612	MONASTIRETS	Монастырец/Монастирець		Monostor	Monastír
295525	MOTCHOLA	Мочола		Macsola	Močola
295521	MUJIEVO	Мужиево/Мужієве		Nagymuzsaly	Mužijovo
295400	MUKATSCHEVO	Мукачево/Мукачеве		Munkács	Mukačevo
295630	NANKOVO	Нанково/Нанкове		Husztköz	Nankovo
295321	NEGROVETS	Негровец/Негровець		Felsőkalocsa	
295353	NELEPINO	Нелепино/Неліпине		Hársfalva	Nelipino
295734	NERESNITSA	Нересница		Nyéresháza	Neresnice
295631	NIJNEE SELISHCHE	Нижнее Селище/Нижне Селище		Alsószelistyé	
295515	NIJNIE REMETY	Нижние Реметы/Нижні Ремети		Felsőremete	
295301	NIJNIE VOROTA	Нижние Ворота/Нижні Ворота		Alsóvereczke	Nižní Verecky
295614	NIJNII BYSTRYI	Нижний Быстрый/Нижній Бистрий		Alsóbisztra	Nižný Bystrý
295441	NIJNII KOROPETS	Нижний Коропец/Нижній Коропец		Alsókerepec	Nižný Koropec
295330	NIJNII STUDENYI	Нижний Студеный/Нижній Студений		Alsóhidegpatak	
295121	NIJNJA SOLOTVINA	Нижня Солотвина/Нижне Солотвино		Alsószlatina	Slatinské Doly
295721	NOVOBAROVO	Новобарово/Новобарове		Újbárd	Nové Barovo
295430	NOVOE DAVIDKOVO	Новое Давыдково/Нове Давидково		Ujdávidháza	Nove Davidkovo
295516	NOVOE SELO	Новое Село/Нове Село		Beregújfalva	Nové Selo
295735	NOVOSELITSA(district Meshgorje)	Новоселица/Новоселиця		Tarújfalu	Novoselice
295569	NOVOSELITSA(district Vynogradov)	Новоселица/Новоселиця		Sósfalu	Novoselice
295422	NOVOSELITSA (district Mukatschewe)	Новоселица/Новоселиця		Kisrétfalu	Novoselice
295413	OBAVA	Обава		Dunkófalva	Obava
295712	OKRUGLAIA	Округлая/Округла		Kerekhegy	Kerekhed'
295542	OLECHIK	Олешник		Szőllősegres	Olešnik
295744	OLKHOVCHIK	Ольховчик/Вільхівчик		Olhovcsik	Vulchovčik
295732	OLKHOVTSY	Ольховцы/Вільхівці		Irhóc	Vulchovce
295733	OLKHOVTSY-LAZI	Ольховцы-Лазы/Вільхівці-Лазы		Irhóc-Lazi	Vulchovce-Lazy
295224	OLKHOVKA	Ольховка/Вільхівка		Ölyvös	Vlachovo
295626	OLSHANI	Ольшаны/Вільшани		Egermező	
295550	ONOK	Онок		Ilonokújfalva	Onok
295101	ONOKOVTSY	Оноковцы/Оноківці		Felsődomonya	
295523	OROSIEVO	Оросиево/Оросиево		Sárosoroszi	Orošovo
295208	OSOJ	Осой/Осїй		Szajkófalva	Osoj
295347	PASEKA	Пасека/Пасіка		Kishidvég	Pasika

- 9) Khust district
- 10) Tiatchev district
- 11) Rachov district

Machine cancellations at Post offices

At the post offices of UZHOROD, MUKATCHEVO, KHUST and BEREGOVO machine cancellations were introduced. Up till now 4 types were recorded.

Type 1, 3 wavy lines, bi-lingual, only recorded being used in Beregovo.

Type 2, 3 wavy lines, mono-lingual was used in Khust, Uzhorod and Mukatchevo.

Type 3, Evidence was obtained that the machine cancel with 7 wavy lines was used not only at the Khust post office, but also at Uzhorod. It is not clear whether more post offices used this type of machine cancellation.

A 4th type of machine cancellation was introduced in the 1980's. The wavy lines have a different shape. It was recorded being used in Khust and Uzhorod.

Official cover sent by the Ujgorod branch of the Ministry of Post and Telecommunications. This ministry was exempt from paying postage. The machine cancellation of Ujgorod is of the type 4.

The official marking of the ministry of Post and Telecommunications

The above machine cancels also appear as arrival postmarks on the reverse of covers.

The marking of registered letters

It is important to distinguish between domestic and international mail. The reason is that in case of domestic mail the Cyrillic alphabet was used for the text in the markings, whilst for international mail the Latin alphabet was used. The Soviet post used several types of hand stamps as a registration label, but also labels appear sporadically as well. In the case of domestic mail a Cyrillic capital letter "З" was placed in the left compartment of a hand stamped label and the name of the post office. In the right hand compartment for foreign mail the letter "R" was used and the name of the post office written in the Latin alphabet. The registration number was to be filled in manually. The "З" is an abbreviation of "Заказное" which means registered. Occasionally a hand stamp with this word was also placed on the cover, but it also appears hand written in full as well as abbreviated "Зак". Occasionally R-labels were used.

ЗАКАЗНОЕ

RECOMMANDÉ

The additional marking in Cyrillic for domestic use

The additional marking in French for international use

Starting from the year 1960 after the money reform and the introduction of the type "B" date stamps, the appearance of the Registration stamp changed as well.

Illustrated cover, as issued by the Soviet postal authority in great numbers. The envelope was provided with an imprinted postage stamp and also a large space, where the sender had to state the postal code of the receivers address. The R-cachet now also mentions the district (ЗАКАРПАТ. ОБЛ.)

This R-cover was sent from Mukatchevo to Chmelnisk on 16-01-1985. It was received at its destination on 21-01-1985. The post office of Chmelnisk marked this with an additional arrival date stamp. This was not standard practice and if this occasionally also happened at post offices in Carpatho-Ukraine could not be established.

THE STORY OF THE POST OFFICE OF KIROVO (КИРОВО in Russian or КІРОВО in Ukrainian)

When you try to trace this postmark in any of the lists of post offices in this chapter, you will not find it.

What is the story behind it ? In the vicinity of Mukatchevo very near to the little village

of Koltchino was the site of the large mechanical engineering company "KIROVO" named after the high ranking Soviet Party official S.M. Kirov (1889 – 1934). In order to accommodate the workers a post office was established here. The period this post office was in operation could not be determined. The date in the pictured postmark is: 25-05-1960.

THE COMMEMORATIVE CANCELS

During the Soviet postal authority only 2 commemorative cancels were used in the Zakarpatska Oblast. The first one was devoted to the 20th anniversary of the incorporation of Carpatho Ukraine into the USSR. This was employed at the Ujgorod post office only on 09-06-1965. Although some literature mention that only red ink was used for this commemorative stamp, it also appears in violet as can be seen from the example below.

Cover issued on the same occasion as the commemorative cancel. It is very philatelic inspired and was never posted.

Same cover, but with a violet commemorative cancel. It was sent on 09-06-1965 from Ujgorod to the well known Czechoslovak expert Miroslav Blaha. The postage for a R-cover to Czechoslovakia was the same as for domestic R-Covers and amounted to 10 kop. Tariff period 01-01-1961 until 01-01-1991

A second commemorative cancel was used at Ujgorod during the XIX international Sport Days for students from 30-06-1990 until 03-07-1990.

TRAVELLING POST OFFICES

The following TPO's were recorded

- PV UJGOROD – KIJEV
- PV UJGOROD – KHARKOV
- PV SOLOTVINO – LVOV
- PV SOLOTVINO – UJGOROD
- PV KUSNICA – BEREGOVO

Most probably these TPO's were operational during the whole period 12, as the same date stamps were recorded also during period 13. The line Kusnica – Beregovo was reported as not being operational for some time.

The two Cyrillic letters "ПВ" preceding the indication of the railway section in the date stamp, are short for "ПОШТОВИЙ ВАГОН", meaning mail carriage.

Cover sent by airmail from Ujgorod to Elisabethville in the Belgian Congo on 31-08-57. Date stamp of TPO Solotvino – Ujgorod (ПВ СОЛОТВИНО – УЖГОРОД). From 01-09-1957 until 01-01-1961 the postage for an international airmail letter was 160 kop.

ADDITIONAL POSTMARKS

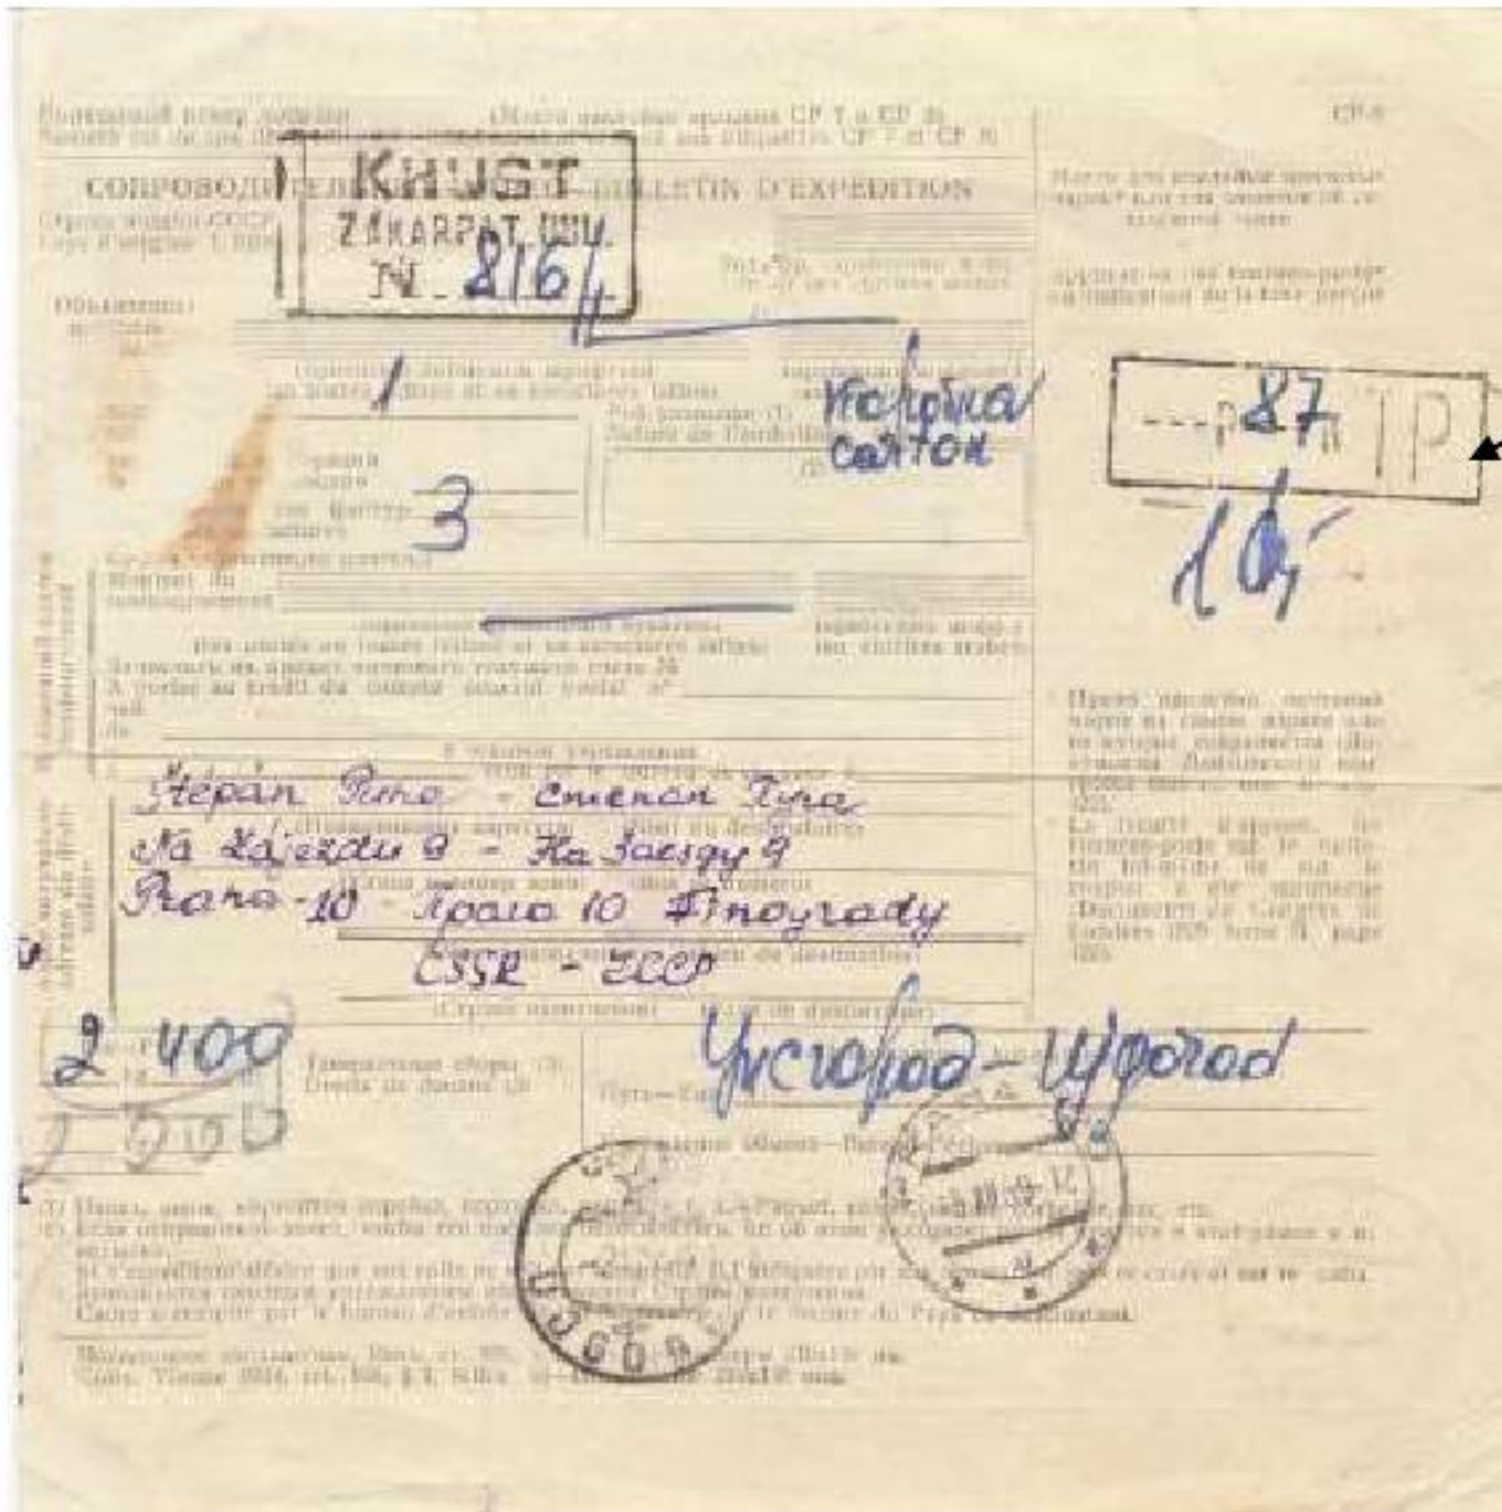

This mark is used by the customs office in case a letter was not allowed to be sent abroad and was returned to the sender.

This boxed postmark is found on foreign correspondence and means: abroad.

INTERNATIONAL DISPATCH NOTE

This postal form provides the evidence that apart from the already pictured date stamp on page 193 another double circle date stamp using the Latin alphabet was used in Uzhorod. For the spelling of the name of the post office the French (UPU) transliteration was used.

This form was used for a consignment sent by parcel post from Khust to Prague. It was handled by the post office of Uzhorod.

Space for either postage stamps or to write the payable postage. In this case the notation that 87 kopeks were paid.

To indicate the consignment number the Latin version of the registration stamp was used in Khust. An attempt was made to leave the "R" out. Apparently no Latin version of the required hand stamp was available

Upper part of a similar dispatch note. In Ujgorod the correct hand stamp was used.

Advise note in Ukrainian language for a registered letter

Advise note in Russian language for a parcel

Postage stamps with a Carpatho-Ukraine related subject, issued during period 12.

The Soviet postal administration issued only 2 such stamps.

Stamp issued in 1969 to commemorate the 125th birthday of the painter Mihály Munkácsy (see also page 130) Michel 3648

Stamp issued in 1983, to commemorate the commissioning of the natural gas pipeline from Urengoj to Uzhgorod (Michel 5325)

Cinderella's issued by nationalistic organizations during Soviet rule (more exist)

Issued by the Munich exile government in 1948. Also appears unperforated. It shows the parliament building in Chust.

Also issued by the Munich Government in Exile on the occasion of the 10th anniversary of the 1st session of the Carpatho Ukraine parliament in Chust in 1949. It appears in different colours and varieties.

Commemorative sheets, issued for UKRAINPEX 84.

Franking machines

Governmental offices and state owned companies used franking machines for their correspondence.

Franking machine used by the provincial administration of "Zakarpatska Oblast"
 This local cover was sent on 27-05-1988.
 The postage is inclusive of registration (10 kop.)

address: Leninstreet 4
 ОБЛИСПОЛКОМ= Provincial administration

ILLUSTRATED COVERS AND POSTCARDS

A great many illustrated postcards and covers with topics related to Carpatho-Ukraine have been issued over the years. Below 4 such covers are shown all with the image of Fedor Feketa a postmaster of the 19th century to whom a memorial plaque is devoted at the entrance of the Church of Turia Remety

T
b

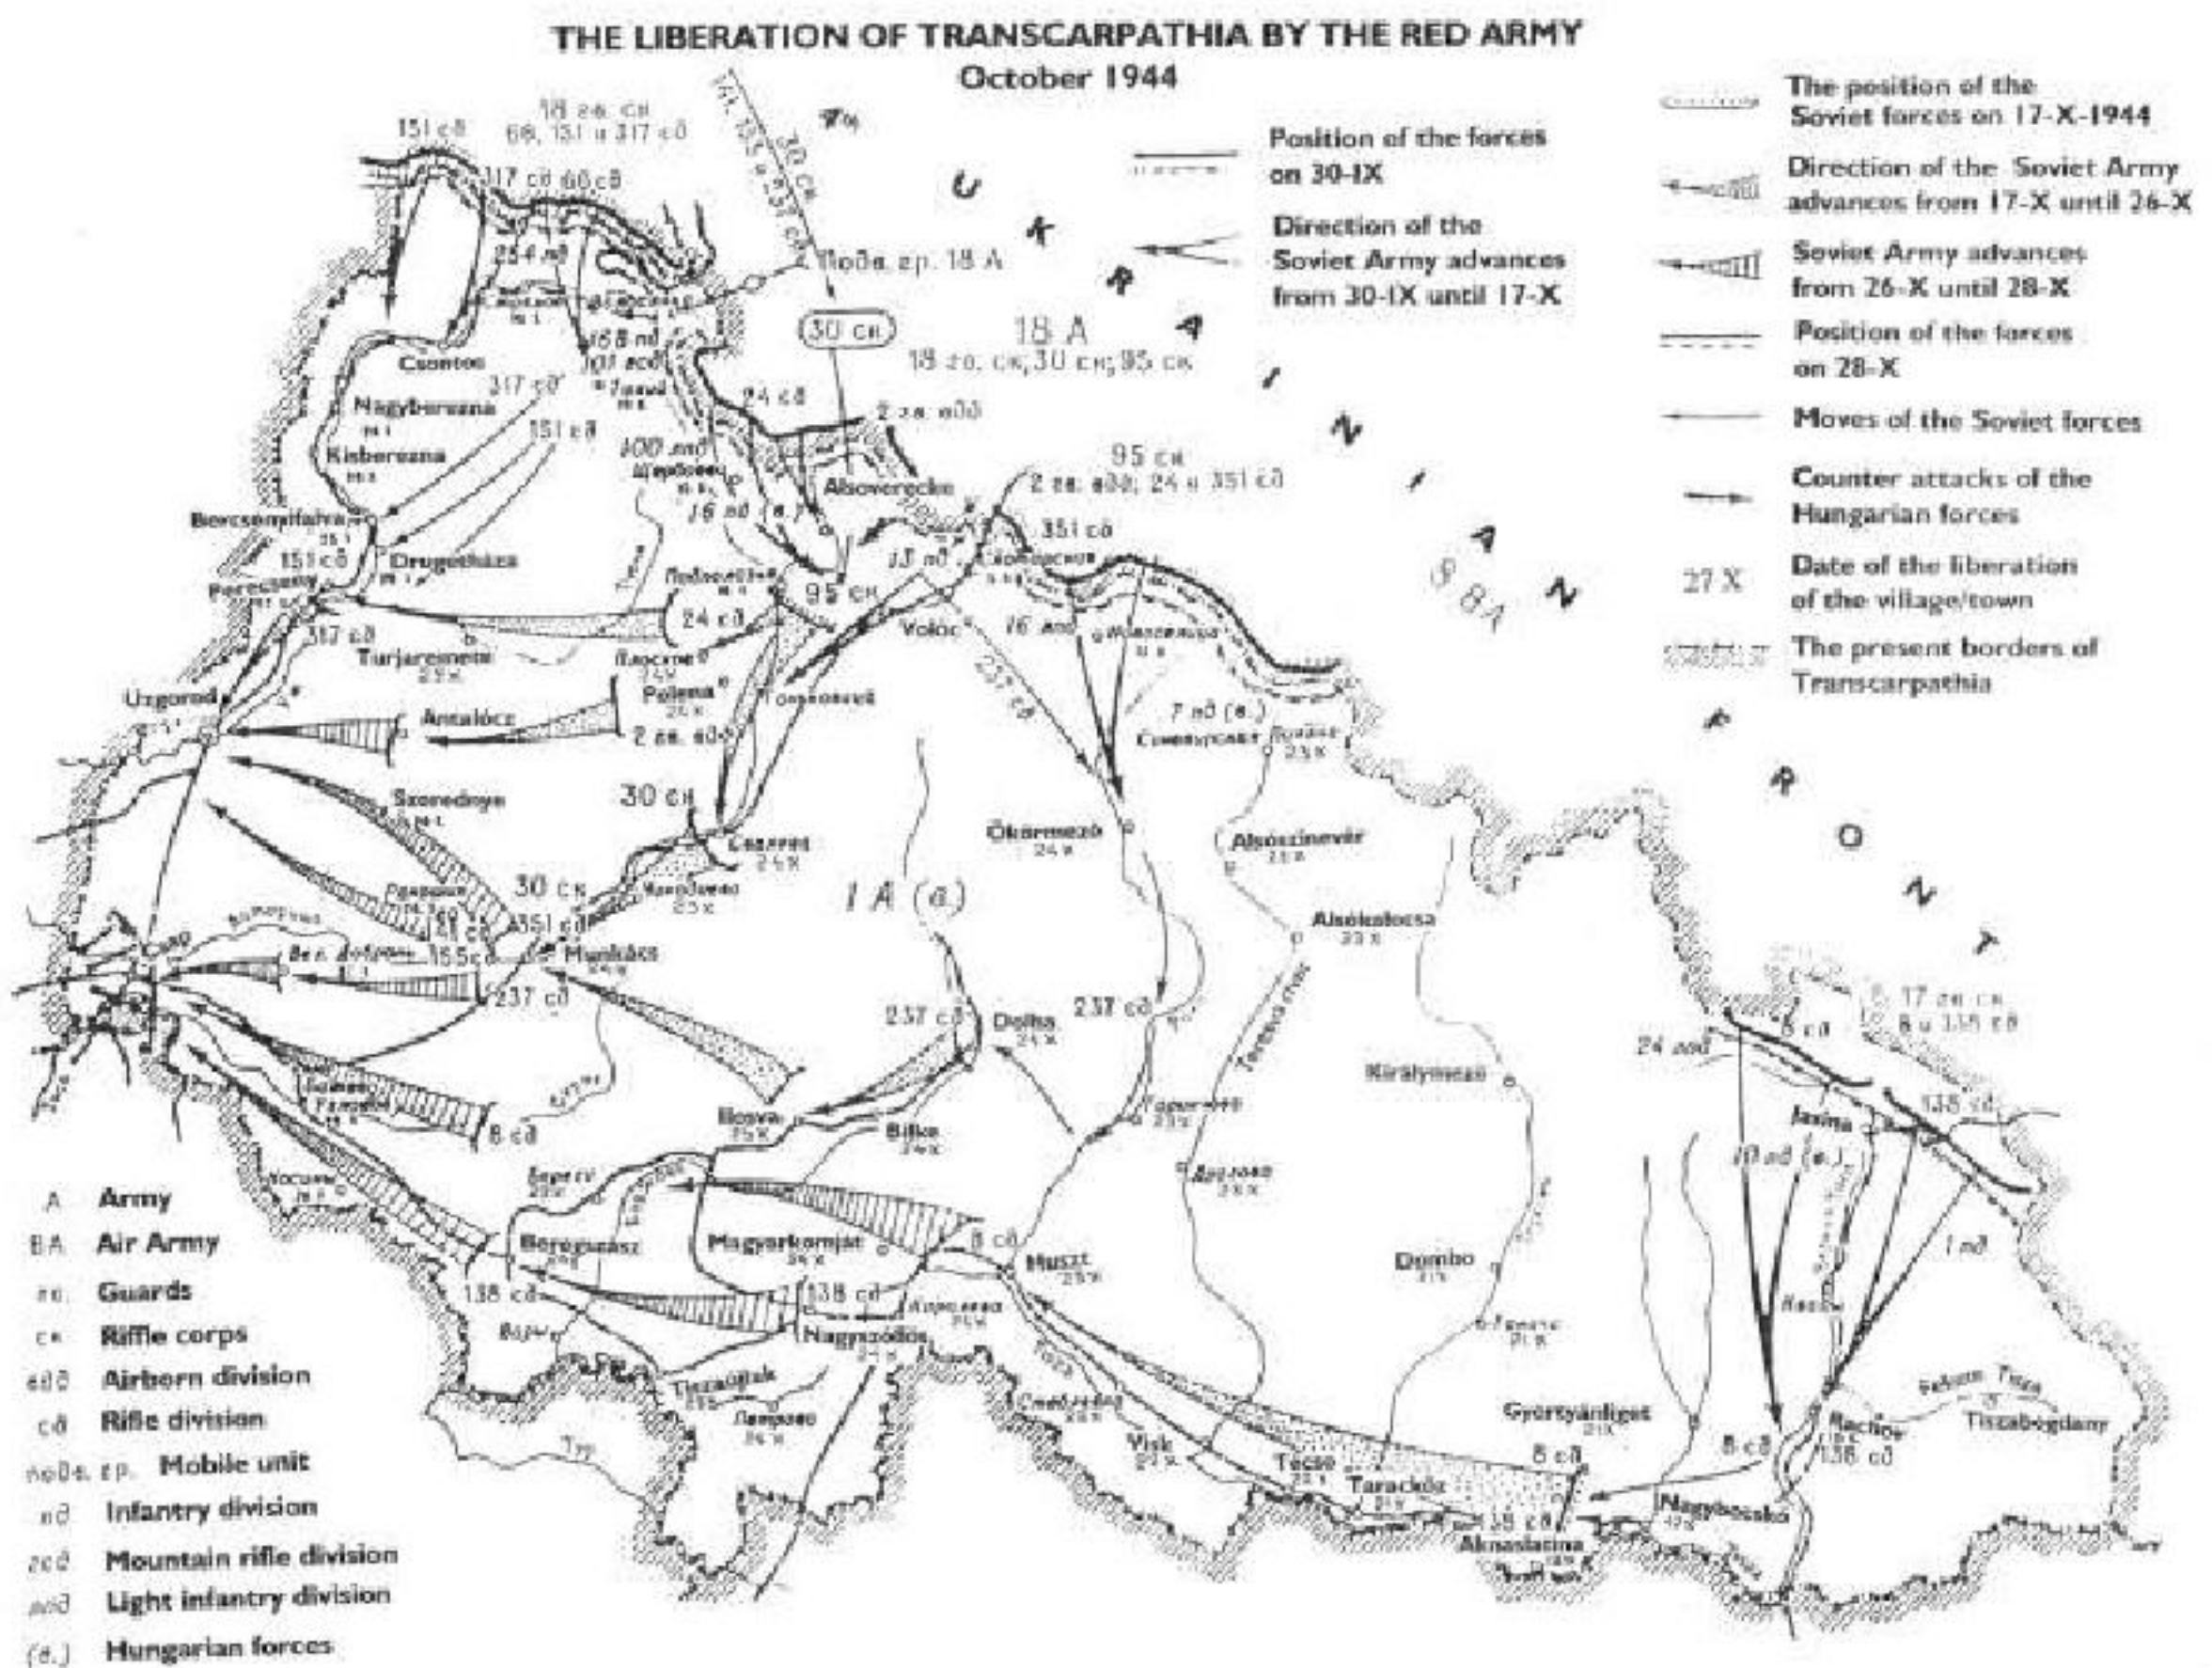

The field post of the Red Army during the Carpathian campaign of October 1944

When trying to get a picture of what happened during the advance of the Red Army in 1944, when the area we focus on was liberated, only two sources could be traced providing some information useful for writing this chapter. All the information given is preliminary and could not be checked by consulting the original sources.

- 1) A map taken from a book published in 1982 in Kiev by the Historical Institute of the National Academy of Sciences, titled "History of towns and villages of the Ukrainian SSR (Transcarpathian county)"
Written in the Russian language.
- 2) The 1st booklet out of a series of 6 written by Lajos Horváth titled "Postal history of Kárpátalja". These booklets are written in the Hungarian language.

Upon comparing both publications some differences were found mainly in the dates that are stated for the start of military operations and the liberation of towns and villages.

The Russian text of the original map is replaced by an English translation. A fair number of the names of villages and towns are replaced by the former Hungarian names for two reasons.:

- 1) These names are familiar to most of us
- 2) Lajos Horváth uses these names in his publication and using same names avoids misunderstanding when comparing data.

The from Hungarian into English translated article of Lajos Horváth reads as follows:

On the 27th of September 1944 the 17th Rifle corps, belonging to the 18th Army of the 4th Ukrainian Front crossed the

Ivan Yefimovich Petrov
* 18-09-1896 Trubchevsk
† 07-04-1958 Moscow

Tatar pass and started the liberation of the Transcarpathian region. The commander of the 4th Ukrainian Front was general Petrov. On Sept 28 they reached the area of the "Fekete Tisza" (Black Tisza river) and the surroundings of Jasina.. The 8th division of the 17th Rifle corps withdraw along the Tisza valley to Galicia. The 138th Rifle division passed Jasina at the east and advanced along the Lazescina valley to the south in the direction of Rachov. It reached the following towns and villages at the dates specified:

So far the relevant part of the article by Lajos Horváth

When comparing the dates stated in the Soviet map with the dates mentioned in the above article, the first thing that strikes the eye is that according to the map the Soviet advance started not only at the Tatar pass (also referred to as the Jablonitsa pass) but simultaneously at the Uszok and Verecke passes. at 30-09-1944, whilst Horváth mentions 27-09. Also there are discrepancies in the dates of liberation of towns or villages mentioned in the map and stated by Horváth. Most probably the source on which the article of Mr. Horvath is based is an Hungarian one, whilst the map originates from Soviet sources. Some more investigations are to be undertaken but this may be a start of a further discussion.

As mentioned before the Hungarian forces in Carpatho Ukraine were defeated by the forces of the 4th Ukrainian front on their way to Budapest(via the Tatar pass) and Prague (via the Uszok pass). The 4th Ukrainian front is a large unit of the Red Army comparable with an Army group of the Western Allies.

Banner of the 4th Ukrainian Front
as kept in a Moscow museum

Postal historical evidence of the presence of the Red Army in Carpatho Ukraine.

It was forbidden to mention any dates or places from where a letter was sent in the soldiers correspondence, also the unit numbers were not stated in the date stamps of the field post. The reason was that by this measure the Red Army tried to prevent that the enemy could obtain any information about the position of their troops in case military correspondence was captured. The only information a soldier had to mention on the cover was his unit number. Some information on the regulations of the Soviet field post during WWII can be obtained from volume 2 issued by the German Society for Russland/UdSSR philately in October 2003 in their series "Forschungsberichte der Philatelistischen Arbeitsgemeinschaft Russland/UdSSR. The title of this volume is "Feldpostbestimmungen und Feldpostnummern der Roten Armee ab 1.4.1943. (Field post regulations and Field post numbers of the Red Army from 01-04-1943 onwards).

The absence of any indication from where a field post cover is posted makes it very difficult to trace from where a letter is sent. One needs to know which unit took part of a certain military operation and which unit number was used by them. This information is almost impossible to obtain. There is however another possibility to trace from where the correspondence is sent. Letters are censored and the censor sometimes used an additional marking in which the place was mentioned where they operated.

On the next page 2 such covers are pictured.

Soviet field post cover sent on 24-06-1945 from Uzhgorod to Chulkovo (district Vatchskij, region Gorkov

The one line marking at the rear means Field Post Uzhgorod

The 3 lines marking reads "Просмотрено военной цензурой" = censored by military censor 21870

П.П. = ПОЛЕВАЯ ПОЧТА = Field Post УЖГОРОЛ = Uzhgorod = Užhorod = Ungvár

The number 14033 at the top of the front is the unit number of the soldier

Soviet field post cover sent on 01-04-1945 and received on 02-05-1945

The triangular marking with the Cyrillic letters X.П.П. means Chust Field Post

X = ХУСТ (Khust = Chust = Huszt) П.П. = ПОЛЕВАЯ ПОЧТА = Field Post

The letter is censored by the military censor 08147

The unit the Soldier belonged to is 33073

The two folded letters pictured here originate from the collection of the well known collector and expert Andrew Cronin. His collection was auctioned on 24-09-2009 by the auction house Cherrystone of New York.

These survived letters can be regarded as true rarities of the times the red Army was present in Carpatho Ukraine.

PERIOD 13

THE UKRAINIAN POSTAL ADMINISTRATION 1992 UNTIL 2000

(Of course C.U is still part of the Ukraine, but its postal history after the year 2000 is not dealt with in this book.) In this chapter the transliteration of the Ukrainian names is used for towns and villages.

- 24-08-1991 Ukraine declared independence, it had already declared sovereignty on 16-07-1990
- 01-01-1992 The existing combined Postal authority of the "CIS" republics was dissolved and Ukraine was to set up its own Postal authority.
- 01-03-1992 The first Ukrainian stamps were issued.
- 12-11-1992 The Soviet Rubel, which was up to this date still valid, was replaced by the Karbovantsiv= 100 kopek (rate 1:1).
- 01-01-1993 Soviet stamps were no longer valid.
- 16-11-1996 The Karbovantsiv was replaced by the Hryvni = 100 kopijka.

Following the ratification of Ukraine's independence on December 1991. The new Ukrainian state was to set up its own Postal administration and responsible for this task was the governmental Committee for communications. Soviet stamps initially remained valid for postage until the end of 1992. In an attempt to cope with sharply rising inflation but also with the constant shortage of postage stamps, provisional measures were taken to overcome the problem. In a telegram from the Committee for communications sent on 14-01-1992 all post offices were made responsible for applying the correct tariffs in accordance with the new published rates. They were requested to use hand stamps in which the tariff could be written or to use a franking machine. This period is also very confusing because a number of soviet stamps were privately overprinted and even fantasy stamps were manufactured, initiated by nationalists or people who were trying to make money from collectors.

A remarkable solution to cope with the high inflation was the issue of postage stamps having a denominational value assigned to the stamp by means of a letter of the alphabet. Each letter has a specific purpose and its value is either in the local currency (Karbovantsiv) or US Dollars, this dependent on the destination of the correspondence. This however is explained later when dealing with the details of the complicated postal tariff system. (See page 214)

Carpatho Ukraine (Zakarpattia) is presently one of the provinces (oblasts) of the republic Ukraine and is divided into the following 13 districts and 2 urban regions.

1. Veliky Berezyi- Великий Березний
2. Perechin- Перечин
3. Uzhgorod-Ужгород
4. Volovets-Воловець
5. Svalyava-Свалява
6. Mukachevo-Мукачево
7. Beregovo-Берегово
8. Mezhyr'ya-Міжгір'я
9. Irshava-Іршава
10. Vinogradiv-Виноградів
11. Khust-Хуст
12. Tyachiv-Тячів
13. Rakhiv-Рахів

Uzhgorod town-Ужгород, місто
Chop town-Чоп, місто

Soviet stamps and postal stationery valid until 31-12-1992

Although Ukraine introduced its own currency on 12-11-1992 Soviet stamps could be used until the end of 1992 and Rubel and the new Karbovantsiv had the same value.

Rapidly increasing inflation was a major problem the new republic had to deal with. This of course also had its impact on postal tariffs. To give an example , the postage for a normal foreign letter sent by surface mail was 30 kop on 24-08-1991 (Independence declared), whilst on 02-01-1992 the tariff was increased to 3.60 Ruble.

Cover sent 14-09-91 from Gukliviy to the Hague. Postage was 30 kop. Cover is 5 kop over franked due to shortage of 5 kop stamps. Although Ukraine had declared its independence, sender still mentions СССР in his address

Cover sent 22-01-1992 from Gukliviy to The Hague. It is franked with 3.60 R which was the postage for a normal foreign letter sent by surface mail. This tariff was only valid from 02-01-1992 – 09-07-1992. Not only were Soviet stamps still valid but also the Soviet date stamps were still in use as was the Soviet postal code system.

Mixed franking Soviet and Ukrainian postage stamps.

Mixed franking was only possible in the period from 01-03-1992 until 31-12-1992. On the first of March Ukrainian stamps were issued for the first time and on the last day of December the Soviet stamps lost their validity.

Cover sent by surface mail from Hukliviy to the Hague on 25-06-92. The postage was 3.60 Rubel. Tariff period 02-01-1992 – 09-07-1992. The postage was paid by 3.40 R in Russian stamps and 0.30 using the first two Ukrainian stamps. The cover is 0.10 over franked due to the shortage of stamps with a nominal value of 10 kop.

Inflation problems and quickly rising postal rates.

Due to the very high inflation the first postage stamps issued by the newly established Ukrainian Republic were very soon of no use for franking purposes due to the low face value. This caused Ukraine's Ministry of communications to issue a decree on 06-06-1994 ordering the removal from circulation of all stamps having a face value of 50 Krb. or less. This to take effect on 10-05-1994 (Decree No. 71). The inflation also caused a shortage of postage stamps at the post offices as the printers could not cope with the constantly changing rates.

Provisional measures to overcome the shortage of postage stamps.

In line with the instructions obtained from the Committee for Communications the post office of Chop (Чоп) used a hand stamp with movable numbers and could, doing so, cope with all the rapidly changing tariffs and was not handicapped by shortage of postage stamps.

This cover was sent on 28-04-1992 from Chop to Ujgorod (Ужгород). The Soviet envelope with imprinted 7 kop. stamp could still be used, but the postage was now 50 kop. For that reason the postage hand stamp shows the additional 43 kop. This tariff was valid, only from 02-01-92 – 10-05-92 !!!!!

The post office of Svaliava found another solution to cope with the problems. Here a hand stamp was used in which the postage due was written manually.

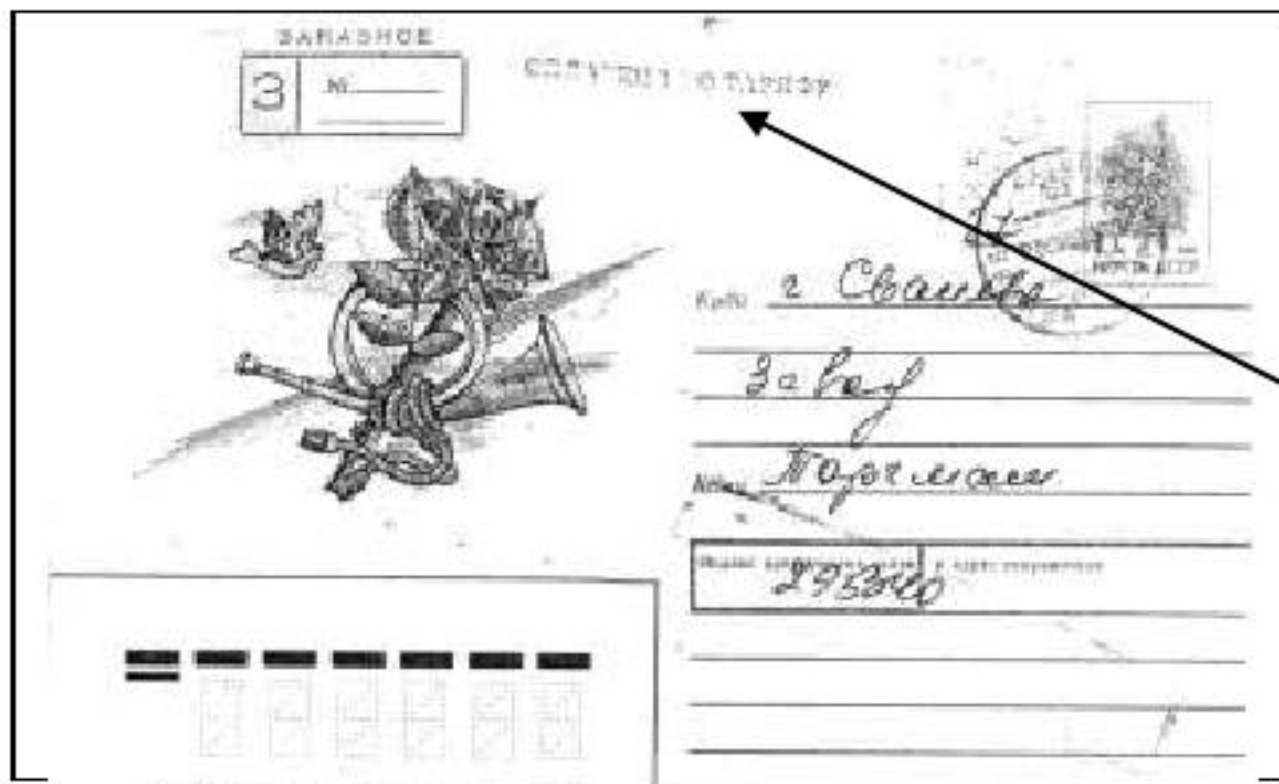

This domestic cover was sent on 14-12-1993 from Svaliava to Keretski. In the period from 10-09-93 until 06-12-93 the postage for a domestic private letter amounted to 27 Krb. The imprinted 1 Krb. stamp was not taken into account.

This cover was sent on 05-05-1994 from Tiatchev to Ujgorod. The Post office of Tiatchev used a hand stamp in which the required postage was written manually. The expression "ОПЛАЧЕНО" means: paid. (100 Krb) From 06-12-1993 until 09-11-1994 the postage for a domestic letter sent by a private person, and not exceeding 20 gr. amounted to 100 Krb. The imprinted 1 Krb. stamp lost its validity on 31-08-1994.

More provisional measures to overcome this difficult period can be found, such as a postmark stating: correct postage paid.

Cover sent on 23-09-95 to Svaliava It is a domestic cover sent by a private person. Tariff was 5000 Krb. Tariff period 01-06-1995 to 01-04-1996 This postmark states: Correct postage paid. "ОПЛАЧЕНО ПО ТАРИФУ"

This cover was sent from the little village of Kolotschava. At the post office no stamps were available and the post official marked the cover with a little hand stamp "ОПЛАЧЕНО" which means paid.

SOVIET DATE STAMPS USED UNTIL 1996

It was reported in the newspapers that the last Soviet date stamp was used at the post office of Svaliava on 14-11-1996, however a later one was found used at the post office of Kvasovo.

Cover sent from Kvasovo to Uzhorod on 19-12-1996 which is the last recorded day a Soviet date stamp was used in Carpatho-Ukraine.

The one newspaper reported as last use of a Soviet date stamp at the post office of Svaliava. 14-11-1996

PRIVATE OVERPRINTS AND FANTASY ISSUES

During this period of high inflation and shortage of stamps several Oblasts in the Ukraine had to deal with speculative overprints on old Soviet stamps but also on Ukrainian stamps. In fact the great majority could better be considered as cinderellas. Also in Carpatho Ukraine several such issues appeared. Sometimes they are even used on fabricated covers which have a genuine appearance. The date stamps on such covers are mostly genuine, but applied to the "cinderellas" as a favour on request.

The following overprinted stamps are known originating from Uzhorod

1993

overprint on Michel nr. 5894

overprint on Michel 5895

overprint on Michel 6177A

overprint with an ornamental crown
new face value at the bottom
colour of overprint violet

same ornamental crown
face value now in a box
colour overprint violet, but face value black

Also the following issues appeared in Carpatho-Ukraine

Overprint of a trident on a shield (negative overprint) on Soviet stamps Michel no. 5897

Coat of arms as overprint on a block of 4 standard USSR postage stamps. The other ones are individually overprinted with the Carpathian bear and the new face value.

Part of a fabricated cover. The address of the recipient is referring to a post box number, as is usual for this type of fabricated covers. The overprinted "bear stamp" is not a valid postage stamp and for that reason the cover is not sufficiently franked.

FANTASY PRODUCTS (CINDERELLAS)

Both stamp alike products are inspired by the 1st and 2nd definitive issue of the NRZU issued in 1945 see page 180 and 183.

Ingeniously fabricated cover showing prominently one of the cinderellas used as a postage stamp. The date in the date stamp is 15-02-1994, but the postage stamp at the bottom of 20 Krb. was no longer valid. The correct postage however to Moscow amounted to 3528 Krb at that time.

THE INTRODUCTION OF THE FIRST DATE STAMPS OF INDEPENDENT UKRAINE

The new date stamps were gradually introduced during 1996 and became available in two versions: a Cyrillic one and a Latin one for foreign destinations where the Latin alphabet is used. However not always have post officials been very strict in applying these rules. The diameter of the new date stamps is 28 to 29 mm.

Latin version of Hukliviy

Cyrillic version of Hukliviy (Гукливій)

The independent Ukraine used the same postal codes as were used by the Soviet administration. This situation lasted until 2003 when new postal codes were introduced.

TRAVELLING POST OFFICES

In general the same TPO were operational as mentioned on page 210. However the line Kusnica – Beregovo was reported to be no longer operational.

The date stamps of the TPO's are usually red.

Date stamp of section Uzhorod – Kijiv.

The service with TPO's was terminated during 1999

WAR VETERANS ARE EXEMPT FROM PAYING POSTAGE

For war veterans special covers are available with an imprinted postmark “letter of veteran” in Cyrillic letters. When using this cover no postage has to be paid.

The triangle imprinted postmark has the following text:
 ПИСЬМО = letter
 ВЕТЕРАНА = veteran

COMMEMORATIVE CANCELS

In the period up to the year 2000 the Ukrainian post issued a large number of such postmarks used on post offices in Carpatho-Ukraine., or elsewhere having a Carpatho-Ukraine related subject.

No.	Date of issue	Post office	Description/ in commemoration of
1	10-10-1992	Uzhgorod	1100 th anniversary of the foundation of Uzhgorod , ancient coat of arms
2	11-01-1993	Uzhgorod	100 th anniversary of the birth of Stefan Agoston
3	11-01-1993	Uzhgorod	Same occasion as 2 but slightly different appearance
4	12-01-1993	Beregovo	Vasil Pachovskij, Professor at the Grammar-school of Beregovo
5	15-03-1993	Uzhgorod	155 th anniversary of the birth of the Hungarian writer Iván Szilvay
6	15-03-1993	Svaliava	Same occasion as 5 , but from the post office of Svaliava
7	24-04-1993	Uzhgorod	100 th anniversary of the birth of Oleksandr Dukhnovych, Ruthenian nationalist
8	14-16-05-1993	Uzhgorod	Ukrainian poetry festival
9	01-04-09-1993	Uzhgorod	Carpatho-Ukraine cultural conference
10	12-12-10-1993	Rakhiv	To memorize the scientific biosphere conference 25 years ago.
11	17-10-1993	Uzhgorod	To memorize the painters Boksai and Erdélyi
12	17-10-1993	Uzhgorod	1100 th anniversary of the foundation of Uzhgorod..
13	March 1993	Uzhgorod	210 th anniversary of the birth of the poet Vasil Dovgovic.
14	March 1993	Khust	Same occasion, but from the post office of Khust
15	21-01-1994	Khust	Commemoration of the National council of Khust 75 years ago, which claimed reunification with Ukraine.
16	21-01-1994	Vinogradov	135 th anniversary of the birth of the painter Imre Révész
17	14-03-1994	Khust	Opening session of 1 st Carpatho Ukraine parliament 55 years ago at Khust
18	15-03-1994	Khust	Same occasion as 17
19	17-03-1994	Uzhgorod	120 th anniversary of the birth of Mgr. A. Voloshin
20	17-03-1994	Khust	120 th anniversary of the birth of Mgr. A. Voloshin
21	17-03-1944	Khust	120 th anniversary of the birth of Mgr. A. Voloshin
22	17-03-1994	Khust	120 th anniversary of the birth of Mgr. A. Voloshin
23	17-03-1994	Uzhgorod	120 th anniversary of the birth of Mgr. A. Voloshin
24	17-03-1994	Kelechin	120 th anniversary of the birth of Mgr. A. Voloshin
25	06-05-1994	Volovets	100 th anniversary of the birth of the writer Luka. Demian
26	09-10-1944	Uzhgorod	1100 th anniversary of the foundation of Uzhgorod
27	09-10-1944	Uzhgorod	1100 th anniversary of the foundation of Uzhgorod
28	28-10-1994	Uzhgorod	50 th anniversary of the liberation of Carpatho Ukraine
29	20-11-1944	Mukatchevo	150 th anniversary of the birth of the painter Mihály Munkácsy
30	1944	Uzhgorod	70 th anniversary of the Sporting Club of Uzhgorod
31	28-01-1995	Uzhgorod	1100 th anniversary of the founding of Uzhgorod
32	27-02-1995	Jasinja	100 th anniversary of the birth of S. Klochurak, president Hutzul republic
33	01-05-1995	Uzhgorod	50 th anniversary of the day the 1 st postage stamps of CU were issued
34	29-06-1995	Uzhgorod	50 th anniversary of the Treaty of unification with Czechoslovakia
35	06-06-1995	Velikie Komiaty	90 th anniversary of the birth of the writer Gyula Borsos-Komjászky
36	28-09-1995	Uzhgorod	50 th anniversary of the Zakarpattia Library
37	18-10-1995	Uzhgorod	50 th anniversary of Uzhgorod University
38	03-11-1995	Khust	75 years ago Dimitri Vakarov (poet) and Ferenc Pataki constituted a resistance group in Budapest
39	28-02-1996	Uzhgorod	100 th anniversary of the birth of Leonid Bachinski, founder of Scouting
40	21-23-04-1996	Užhgorod	350 years union of Roman catholic and Greek catholic dioceses in Užhgorod
41	16-24-08-1996	Uzhgorod	1 st all Ukrainian scouting jamboree
42	23-04-1997	Mizhhiria	100 th birthday of Vasil Hrendzha Donskyi, writer
43	24-04-1997	Uzhgorod	150 th anniversary of publishing Oleksandr Dukhnovych's book on the Ruthenian alphabet
44	26-09-1997	Rakhiv	550 years Rakhiv
45	28-11-1977	Mukatchevo	50 years Russin theater in the Transcapatian district
46	17-03-1999	Vinogradov	60 th anniversary of the Proclamation of independence by Mgr. A. Voloshin *)
47	17-03-1999	Khust	125 th anniversary of the birth of Mgr. A. Voloshin *)

*) no pictures available , data of the years 1977-2000 missing or incomplete

The list of commemorative cancels could be supplemented and the pictures on the pages 220a – 220c could be published by courtesy of Mr. Lajos Horváth, who granted permission to use this information originally published in part 4 of "Kárpátaljai postatörténeti", issued in 2007.

No. 26 Commemorative cancel as used at Volovets on 08-08-1994

FIRST DAY COVERS (fdc)

The Ukrainian post office only issued one FDC having a commemorative cancellation of a Carpatho Ukrainian post office. This happened on the occasion of the 1100th anniversary of the founding of the city of Uzhgorod (no. 31 of the list list)

Mgr. Avhustyn Ivanovych Voloshin

On page 115 some background information is given on the role he played in the history of Carpatho Ukraine. It is interesting to note that Ukraine posthumously awarded him a high decoration in 2002. He was awarded the title of "Hero of the Ukraine"

Oleksandr Dukhnovych (born 24-04-1803 died 30-03-1865) Олександр Духнович

Son of a Greek Catholic priest, poet, writer, pedagogue, social activist and priest.

He saw his role as a defender of Ruthenian culture against Magyarization. His most famous patriotic poem was *la rusyn byl, ies'm I budu* (I was, am and will be a Ruthenian). His most famous scholarly works were " The History of the Eparchy of Prjašev (1877) and a " History of Carpathian Ruthenians (1853). He died in Prešov.

THE UKRAINIAN ALPHABET STAMPS

Within a period of 2 years 11 such alphabet stamps were issued, 8 shown above and 3 of a larger type shown below.

As already mentioned on the introductory page of period 13 these so-called alphabet stamps were intended to cope with the almost uncontrollable inflation. The value was either floating or coupled to a specific postal rate. The table below indicates the value or states the purpose it was intended for. Until 02-09-96 the value is in Karbovanets and after this date in Hryvne.

		1994	15-12-94	10-03-95	01-06-95	01-04-96	02-09-96	01-11-98
A	floating value	5000	5000	5000	5000	100000	1 Hr	1 Hr
B	floating value	10000	10000	10000	10000	10000	10 kop	10 kop
Б	domestic letter	100	500	500	5000	20000	20 kop	30 kop
Г	letter CIS-countries	250	1800	2000	18000	40000	40 kop	40 kop
Д	domestic letter	100	500	500	5000	20000	20 kop	30 kop
Е	letter CIS countries	250	1800	2000	18000	40000	40 kop	\$0.13
Є	domestic airmail letter	\$0.20	\$0.20	\$0.20	\$0.56	\$0.66	\$0.66	\$0.66
Ж	foreign surface mail	\$0.15	\$0.15	\$0.15	\$0.42	\$0.49	\$0.49	\$0.49
І	floating value				1000	1000	1 kop	1 kop
К	floating value				2000	200000	2 Hr	2 Hr
3	floating value				3000	3000	3 kop	3 kop

On 01-05-2001 the alphabet stamps lost their validity.

To determine the Karbovanets franking rate when the American dollar tariff was used it was a requirement to use that day's Dollar/Karbovanets exchange rate supplied by the Ukrainian Central Bank.

It seems a philatelist needs to be an excellent puzzler too if he wants to understand the Ukrainian postal tariffs during the high inflation period. The following examples may be of help in understanding complex frankings.

This cover was sent on 11-12-97 from Carpatho-Ukraine to the Netherlands by surface mail. It was to be franked with a "Ж" stamp

Postage could however also be paid differently. This cover was sent abroad on 20-09-98. The tariff for a foreign letter sent by surface mail was \$ 0.49 . At that time the rate of exchange was 2.04 Hr for a dollar. \$0.49 = 0.999 Hr. The value of a “Д” stamp was at that moment 20 kop. The 5 stamps together make 100 kop = 1Hr, which is the correct tariff.

The stamps are cancelled by the TPO Lviv – Charkiv (red cancel)

Domestic cover, postage paid with a “Д” letter stamp. The cover was sent on 20-11-1997. The postage was 20 kop and the value of the “ Д” also 20 kop.

The stamp is cancelled by the TPO cancel Uzhgorod - Kijiv

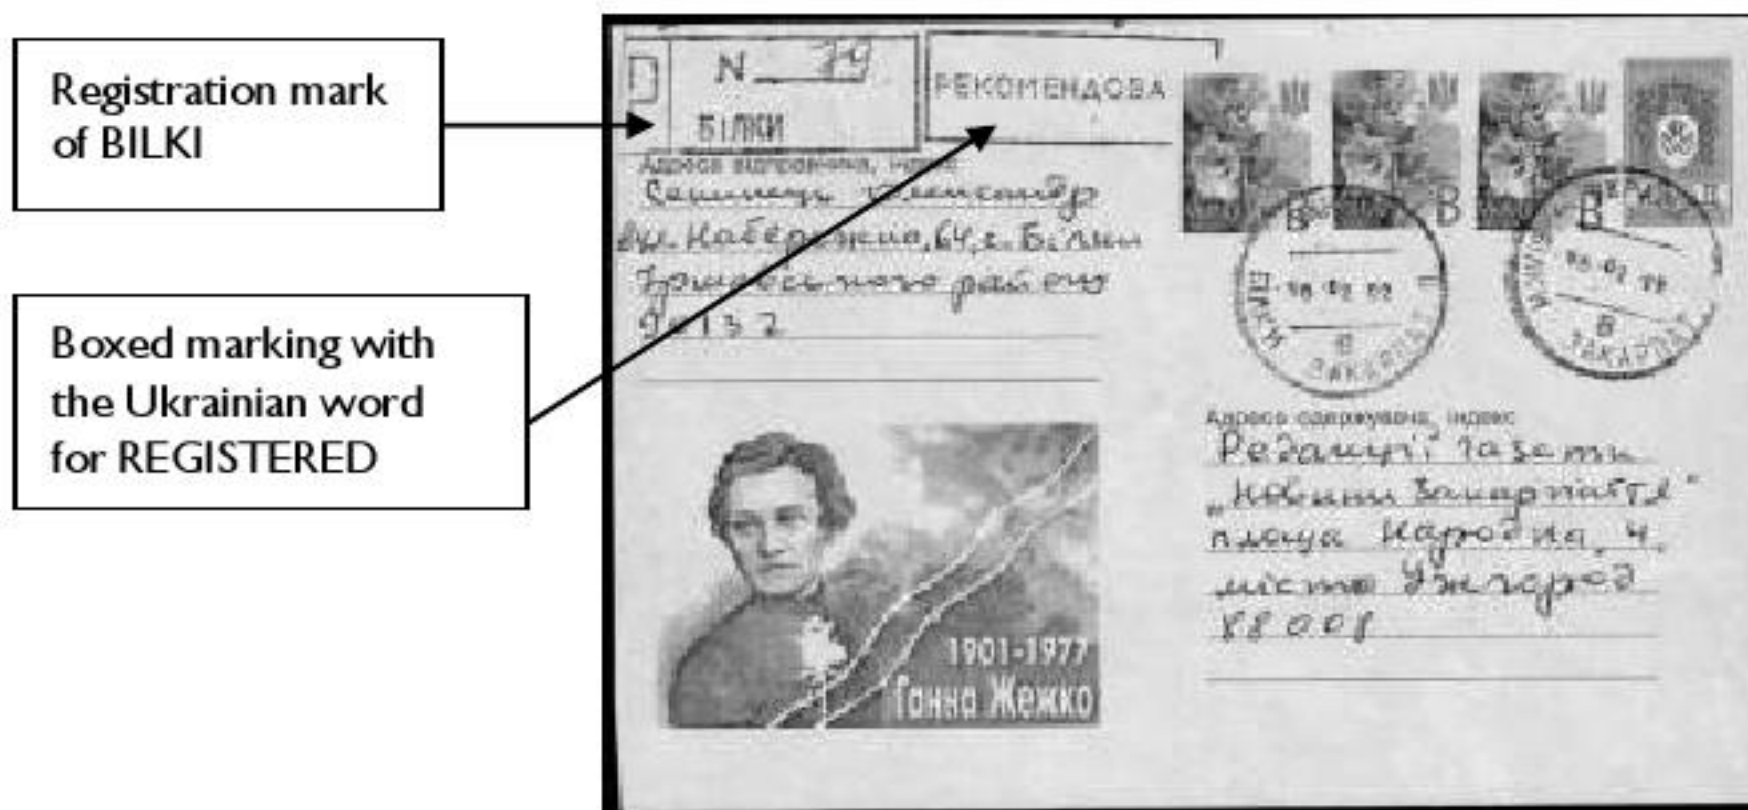

UKRAINIAN POSTAL CODES

The old Soviet postal codes were used until 2002 when Ukraine introduced its own postal codes. These can be downloaded from the internet at the following address: <http://ukrindex.otrok.ru/07>

The labels for registered letters

Although it was the intention not to exceed the year 2000 when dealing with Carpatho-Ukraine’s postal history in this book, in the case of registration labels it is thought desirable to do so for the first new labels which were issued by the Ukrainian Post Office at the beginning of the new millennium.

The Ukrainian word for registered is “РЕКОМЕНДОВАНЕ”. This sometimes appears in a separate boxed cancel on registered covers. The registration markings also have a “P” instead of the Russian “3”.

Registration mark of BILKI

Boxed marking with the Ukrainian word for REGISTERED

Ukrainian Postal rates 1992 – 2002

Due to an almost uncontrollable inflation the postal rates during this period were subject to constant changes. Also new phenomena occurred as the Ukrainian postal authorities introduced different postal rates for private persons and commercial enterprises. Apart from this the tariffs for commercial enterprises were for a certain period stated in US \$ and on the stamps appeared letters which were related to a specific rate (letter for domestic correspondence, foreign correspondence, registered domestic- or foreign letter etc.). These measures avoided the need to constantly issue new postage stamps with the new face values.

A) Domestic postal rates for private persons.

An impression of rural Hukliviy (2006)

3rd Private edition

The quality of a number of pictures is increased.

Text on several pages is adjusted to advancing knowledge.

The text in a few chapters is elaborated and extra pages were required. To maintain the same page numbering these extra pages have letter suffix.

Amongst others the following pages were adjusted:

Page 7 and 8 in connection with the 1st postmaster postmark of Ungvar.

The extra pages are in the chapters on:

Period 4, pages 20a and 20b. Page 20a shows the original regulation introducing the first Austrian postage stamp. This was published in the German language and page 20b shows the translation into English.

Page 25a is added dealing with money letters and 25b the use of newspaper stamps.

Period 5, page 26a is added to highlight the newly discovered date stamp of Veresmárt in the colour brownish red. The paragraph on the double circle date stamps of the Royal Hungarian mail is rewritten and the pages 29a, 29b, 29c and 29d were added. Also the paragraph on the date stamps of the postal agencies needed adjustments and page 30a was added.

ADDENDA

THE POSTAL CODES IN UKRAINE

1. Veliky Berezny region

ženijní jednotka	corps of engineers	з'єднання інженерних військ
ženijní oddíl	sapper engineering unit	відділ інженерних військ

LOCALITIES IN CARPATHO UKRAINE ARRANGED TO THEIR HUNGARIAN NAME and their Czech equivalent.

Based on information obtained from "A TÖRTÉNELMI MAGYARORSZÁGATLASZA ÁE ADATTÁRA 1914" and "MAGYAR HELYSÉGNÉV-AZONOSÍTÓ SZÓTÁR" by Lelkes György. Also the book on Czechoslovak postal agencies "České a Slovenské Poštovny" by Petr Gebauer and Jozef Tekel" was a very helpful source for the Czech names of the towns, villages and hamlets.
