Little but efficient collector at the Tag Day proclaimed by Mayor Bernard Samuel in Philadelphia, November 1, 1947. (Miss Gloria R. Harasym)

Mayor Samuel, of Philadelphia, Pa., proclaims Ukrainian tagday with Dr. Walter Gallan and Major Michael Darmopray

## ORGANIZATION IN THE UNITED STATES

The United Ukrainian-American Relief Committee (UUARC), was organized and incorporated June 24, 1944, under the law of the State of New Jersey as a charitable corporation. The United Ukrainian-American Relief Committee was granted a Certificate of Authorization by the Commonwealth of Pennsylvania June 6, 1945, and received a Permit of Operation from the President's War Relief Control Board September 25, 1945. On September 16, 1947, the Agency was approved by the Advisory Committee on Voluntary Foreign Aid of the U. S. Government.

The United Ukrainian-American Relief Committee is composed of several hundred civic, religious, educational and fraternal organizations whose membership consists of American citizens of Ukrainian descent.

The United Ukrainian-American Relief Committee is a member of Cooperative for American Remittances to Europe and the American Council of Voluntary Agencies for Foreign Service and the Program, budgets and audits voluntarily recorded for public inspection with the Advisory Committee on Voluntary Foreign Aid of the United States Government.

## PURPOSE OF THE ORGANIZATION

The Agency was organized for the purpose of providing all forms of aid to the Ukrainians rendered needy by the war and its effects. Its resources are derived from membership dues, voluntary donations and contributions in money and in kind.

## UUARC ACTIVITIES IN EUROPE

Upon cessation of hostilities in Western Europe and before the Agency was officially recognized by the Occupying Authorities and UNRRA, the Agency gave aid through the International Red Cross,

Cooperative for American Remittances to Europe and other relief agencies, to the needy Ukrainians who were found in England, Austria, Germany, Poland, Czechoslovakia, Italy, France and Belgium. In Paris, a Branch Office was established in June 1946 - in our own building, 13 rue taine, Paris 12, France.

#### UUARC IN GERMANY AND AUSTRIA

The first accredited representative of the Agency, Roman I. Smook, was granted Military Permit to enter the United States Zone of Germany on July 29, 1947. He arrived in Frankfurt, Germany, on September 18, 1947. After several conferences with the personnel of the Displaced Persons' Section of EUCOM, he proceeded to the Preparatory Commission for International Refugee Organization's Headquarters in Geneva where the plans for relief operation were formulated and on October 8, 1947, articles of agreement were executed by Roman I. Smook, as representative for the United Ukrainian-American Relief Committee. This agreement of operation was approved by the United States Occupying Authorities on October 28, 1947.

On November 6, 1947, definite plans were adopted for the Relief in U. S. Zone and an agreement was executed by Roman I. Smook for the United Ukrainian-American Relief Committee and Paul B. Edwards, Chief of Operations in the U. S. Zone, for PCIRO. The first office of the United Ukrainian-American Relief Committee was opened in Munich-Pasing on December 1, 1947.

#### UUARC IN THE FRENCH ZONE

The overall agreement of relief operations of the United Ukrainian-American Relief Committee in Europe takes under consideration the Ukrainian Displaced Persons in the French Zone of Germany and Austria. This agreement was approved by the French Occupying

Authorities and the Agency has now representatives in the French Zone in Baden-Baden.

UUARC IN AUSTRIA

The application for Military Permit to enter Austria was made by the representative of the Agency October 15, 1947. The permit was granted December 22, 1947, when the first meeting of the representative of UUARC and the representatives of PCIRO in Vienna was held. The plans of relief operations in all three zones in Austria were formulated and a formal agreement of operations between UUARC and PCIRO was executed March 30, 1948. The first office of the Agency in Austria was opened in Salzburg on February 15, 1948.

MANAGEMENT

The management of the United Ukrainian American Relief Committee is in charge of the Board of Directors of 28 members.

The Executive Committee of 6 members is in charge of operations, and the Auditing Committee of 5 members makes periodical audit of books.

Present members of the Executive Committee:

Respectfully submitted

Lieber Prutzmann!

Der General der Infanterie Stapf hat bezüglich des Donetz-Gebietes besondere Befehle. Nehmen Sie mit ihm sofort Fühlung auf. Ich beauftrage Sie, mit allen Kräften mitzuwirken. Es muss erreicht werden, daß bei der Räumung von Gebietsteilen in der Ukraine kein Mensch, kein Vieh, kein Zentner Getreide, keine Eisenbahnschiene zurückbleibt daß kein Haus stehen bleibt, kein Bergwerk vorhanden ist, das nicht für Jahre gestört ist, kein Brunnen vorhanden ist, der nicht vergiftet ist. Der Gegner muss wirklich ein total verbranntes und zerstörtes Land vorfinden. Besprechen Sie diese Dinge sofort mit Stapf und tun Sie Ihr menschenmöglichstes.

TRANSLATION

Dear Prutzmann!

Infantry General Stapf has special orders relative to the territory of Donetz. Communicate with him immediately. I order you to cooperate with all your might. The following must be done, upon evacuating parts of this territory in the Ukraine, no human being, no head of cattle, not a centner of grain, not a single railway track, is to remain; there shall not be a building, nor a mine, which for years should remain destroyed, neither shall there remain a well, that has not been contaminated. The enemy must find a totally burned and destroyed country. Discuss these matters immediately with Stapf and do all that is most humanly possible.

Heil Hitler!

Ihr

Heil Hitler!

Yours (H)

(Hitler)

## CAUSES FOR UKRAINIAN EMIGRATION

1. The principal cause for Ukrainian emigration is best explained in a letter from Himmler to Prützmann, a photostatic copy of which is attached to this report. (Page 5-A)

2. The partition of Poland by Hitler and Stalin, and the subsequent occupation of Western Ukraine by Bolshevik forces compelled Ukrainian Patriots to leave their native land in order to save their lives or escape banishment to Siberia.

3. Ukrainians were arrested by the German Gestapo and confined into prisons and concentration camps.

4. Ukrainians have been forcibly evacuated and deported to Germany for various reasons, mainly for forced labor in the German factories and farms.

5. Some of the Ukrainian young men were forcibly drafted into the German military forces.

Mr. Roman I. Smook, Director for Western Europe, and his office workers in Munich, Germany

Food and Welfare Department at work at 847 N. Franklin St., Phila., Pa. Mrs. Helen Stogryn (left) Chairman, Mr. R. Karbiwnyk (center) and Miss Mary Omelan.

6. Nansen Passport Holders; A group of Ukrainian emigrants from the World War I who, for various political reasons, had never returned to Ukraine, at the end of World War II were grouped together with the rest of the Ukrainian Displaced Persons.

I enumerated these categories of Ukrainian emigration because I found that, contrary to the PCIRO constitution, many Ukrainians are denied the DP status. It is my solemn duty to give these people proper information and advice as to their legal status and their rights and privileges under the PCIRO constitution.

Upon my arrival in Germany I found that Ukrainian Displaced Persons and Refugees were fully organized in civil, relief, educational and religious associations, as shown in the attached statistics on pages 4 and 5.

Because the Ukrainian organizations have done so much good for the Displaced Persons and Refugees, and especially for the young people, the United Ukrainian-American Relief Committee is taking these organizations under its protection and care.

The UUARC director has called into existence an Advisory Board composed of chairmen of various branches of the organizations in the zones. The duty of this Board is to advise the director of the United Ukrainian-American Relief Committee in all matters pertaining to the problems of Displaced Persons and Refugees in all zones in Austria and Germany.

#### WELFARE DEPARTMENT

The main objective of UUARC, as defined in paragraph 4 of the general agreement with PCIRO, is as follows: To give supplementary assistance to Displaced Persons and Refugees of Ukrainian ethnic origin. Such assistance included material aid in the form of food, clothing, medical and other supplies.

The United Ukrainian-American Relief Committee's Welfare Department is fully organized and manned with experienced personnel in all of its offices in Germany and Austria. A tremendous difficulty had to be overcome in the purchase of supplies through IRO channels. Today, the Agency has in its warehouse Ten-in-One Rations, fat, powdered milk, sugar, coffee, other food and medical supplies. The Agency has established a steady supply line from the United States and Canada. In addition, the Agency and Headquarters in Philadelphia obtained 2,500 CARE packages, the distribution of which was completed during the month of April.

The United Ukrainian-American Relief Committee is establishing supplemental aid in critical food shortages such as milk, sugar, cocoa and fat. In addition to the regular meals, the children attending kindergartens will be issued an extra supply of milk, cocoa, sugar and fat during each school day.

The United Ukrainian-American Relief Committee has established a method of distribution of supplemental food to the most needy cases in the following categories:

1. Tubercular patients in homes, camps and hospitals
2. Over 40 percent disabled political prisoners and invalids
3. Sick children and orphans
4. Political prisoners of the totalitarian regimes
5. Sick and undernourished students. Other students receive supplemental aid in fats through their school kitchens. (one pound per person per month)
6. Needy artists, scientists and journalists
7. Needy persons living out of camp who are not included in the above categories.

In addition to the above distribution, the Welfare kitchens will receive monthly supplies of fat. This system of distribution of supplies is being followed in all zones of Germany and Austria. The 10 in 1 rations and other supplies are divided equally among all needy Ukrainians in proportion to the Ukrainian DP population as stated in the attached statistics. The Agency has prepared lists of persons and families in all zones in Germany and Austria who are receiving and will receive UUARC assistance in food supplies.

## MEDICAL AID

The United Ukrainian-American Relief Committee has obtained a large supply of medicine and other supplies needed for sick people and hospitals. These are administered to the patient through the visiting physician or the hospital physician. All requests are verified by experienced and able personnel of the Agency. The Medical Department is located in Munich; its services are performed and carried out by the Welfare personnel, DP doctors and nurses in different zones.

The Academy of Sisters of St. Basil The Great has inaugurated and is conducting a program known as "Children for Children." Large quantities of children's and infants' clothing and food is being collected by the children in America and distributed to the needy children in Germany and Austria through the offices of the UUARC.

## EMIGRATION AND RESETTLEMENT

Emigration is one of the most important tasks confronting the United Ukrainian-American Relief Committee. We are faced with 138,000 Ukrainian Displaced Persons and Refugees who are waiting to be resettled in some friendly country. Our present records indicate the following resettlement of Ukrainian Displaced Persons:

United States	917
Canada	1,437
England	25,721
Venezuela	490
Brazil	456
Belgium	1,640
France	706
Netherlands	19
Australia	19
Other Countries	340
	<hr/>
	37,745

According to the above statistics, England took the greatest number of the Ukrainian Displaced Persons and Refugees. We hope that in the future the average monthly emigration quota of the Ukrainians will be main-

tained on the same level. Moreover, we hope that the standard of health and the marriage status in selection of emigrants will be relaxed to the extent that married people with children will be eligible for emigration to England.

Emigration to the United States of the Ukrainian DP's is also on the upward trend; however, the Agency is handicapped in that it does not issue corporate affidavits which are most essential in emigration. Most of the Ukrainian emigrants are required not only to produce personal affidavits from relatives or friends in the United States but also to obtain a Corporate affidavit under the present policy of the United States Consular directives.

We hope that if and when the new emigration law is passed in the United States this condition will be remedied. In the anticipation that more Ukrainian DP's will be granted visas to the United States, the UUARC has prepared an extensive program to provide needed assistance to the emigrants upon their arrival in the United States ports, especially in obtaining jobs, housing accommodations and orientation and vocational training.

Emigration to Belgium is at a standstill at the present time for the reason that working conditions and future status of citizenship of emigrants are not favorable for resettlement purposes. The Belgian authorities have not granted an opportunity for the resettlers equal rights in becoming citizens of their country.

Emigration to Canada is slowly increasing each month, and we hope that many Ukrainians will be able to resettle in Canada this year.

At the present time, emigration to Argentina is negligible in numbers. However, the UUARC was fortunate to establish contact with the Emigration Department in Buenos Aires, through the Ukrainian Committee of that country. The Committee has obtained approximately 10,000 promises for visas which could be secured by the prospective emigrants from the Argentinian Consuls who are located in different capitals of Europe. Because emigration to Argentina is most hopeful and realistic, UUARC is now training a sufficient number of emigration personnel to take care of the documentation and other necessary requirements needed in mass emigration.

The UUARC is planning either to purchase or to build an emigration building in a port city of Argentina. The Ukrainian Committee in Argentina is helping Ukrainian emigrants to obtain jobs and housing accommodations.

The UUARC is not encouraging emigration to the other countries in South America until living conditions in such countries are changed.

The United Ukrainian-American Relief Committee maintains Emigration Departments in all of its offices in Germany and Austria, and is ready and willing to develop this Department further as soon as the emigration policy of IRO is more clearly defined.

The United Ukrainian-American Relief Committee has requested the IRO Resettlement authorities in Germany for permission to place its personnel in the Emigration Assembly Centers in order to help the Ukrainian emigrants. Even though the application was made three months ago the Agency has received neither permission nor rejection from the IRO authorities.

The UUARC Emigration and Resettlement Department gives information and advice to approximately 100 persons daily.

## UKRAINIAN LABOR CAMP-GIESSEN

The United Ukrainian-American Relief Committee has obtained a labor contract with the Military Authorities of the Quartermaster's Depot at Giessen, whereby over a thousand Ukrainian DP's will have an opportunity to obtain jobs and more favorable living conditions. At present, about 200 persons are employed. We are advised by the Military Authorities that as soon as housing accommodations are provided the remaining 800 persons will be hired.

## LEGAL DEPARTMENT

The Legal Department of UUARC is rendering legal advice and assistance wherever it is found necessary. It has obtained releases for Ukrainian prisoners who were unjustly accused of offenses which they did not commit. In fact this department has attained its objective by almost 100 percent.

The UUARC inaugurated a project of vocational training of the prospective emigrants and is now preparing a publication of dictionaries and textbooks for the purpose of teaching languages of the countries most favorable for resettlement purposes.

## EDUCATIONAL AND PUBLIC INFORMATION PROGRAM

In addition to the schools and other institutions of learning, as revealed in the attached statistics, the UUARC is organizing programs such as exhibitions of Ukrainian Art, domestic industry, concerts, plays and other cultural programs. Under this project the UUARC has just concluded a successful "Week of Ukrainian Culture" which, of its own significance, requires a special report.

The foregoing report constitutes but a fragment of many activities and accomplishments attained by the United Ukrainian-American Relief Committee in the past six months.

Respectfully submitted,

*Roman I. Smook*

Roman I. Smook  
Director

S T A T I S T I C S

No people paid a higher price for victory in World War II than the Ukrainians. Ukraine provided the main battlefields of the war between Germany and Russia. From beginning to end, armies fought, destroyed and plundered the country and the people. It is estimated that this nation, with a population of 45 million, lost more than 10 million human lives. These figures do not include men and women who perished in the armed forces of the USSR, Poland and with the Ukrainian guerrillas.

During the war, the Ukrainian people were glad to sacrifice their lives and property for they were inspired by hope and faith that victory would bring them their freedom and the independence of their country. The fates, however, have decreed otherwise. A reign of terror now grips the nation, and abroad, in Western Europe, there are 200,000 Ukrainians classified as "Displaced Persons" and "Refugees".

What will be the fate of these people? If they return to their country, they can expect to endure slow death as slave laborers. Even if the prospect were brighter, many would still refuse to go home as long as their nation is crushed under the heel of totalitarian Russian Communism, where they would be denied all personal rights and freedom to worship.

There seems to be no hope in the immediate future that conditions in the Ukraine will change. For this reason, they are patiently waiting, not only for the liberation of their country, but for some other free country to offer them asylum and the opportunity to start life anew. They, too, have much to offer to that country for these displaced persons and refugees are the products of a high culture and civilization.

It is the purpose of this brochure to give statistics and other information to indicate how this wealth of manpower might be absorbed to the economic and cultural advantages of some friendly country and people in

North and South America.

The Ukrainians classified as "Displaced Persons" and "Refugees" are men and women of culture and skill. They belong to nations based upon the principles of humanity, freedom and Christianity. Their history is a long struggle against slavery and barbarity. They seek only the human rights and justice which is the heritage of a civilized people. They say, "Give us a piece of land and some tools, and we will build homes, cultivate and improve that land so that not only we and our children will benefit, but also, we shall become an important contribution to your strength and civilization. We will build churches, schools, libraries and theaters. We will work shoulder to shoulder with your people for a free and better world. We will be good citizens of the country which will offer us a new lease on life."

The following statistics are based on a total of 138,622 Ukrainian Displaced Persons and Refugees in the U. S. Zone, British Zone and French Zone of Germany and Austria.

<u>GERMANY</u>	<u>TOTAL</u>	<u>IN CAMP</u>	<u>OUT OF CAMP</u>
U. S. Zone	78,370	53,648 - 68.4%	24,722 - 31.6%
