Embroidery -- Ukraine -- Patterns ;  
Vyshyvka -- Ukrayina -- Vizerunky ; Stickereien - Ukraine - Muster

The embroidery designs shared in this volume were developed in middle Europe during the early 20<sup>th</sup> century by rural and semi-rural women in the area that would become the country of the Ukraine. During this earlier period the average person tried to live his or her life without major disruption even though there were multiple social and political disturbances, including major international wars. As political control changed, official place names could change as the political alliances and governances changed. The table provides a combination of locations identified by Habdank-Rohozynskyj and the probable equivalent names used in 2025.
