DIRECTORY

Of Ukrainian Publishing Houses, Periodicals, Bookstores,
Libraries and Library Collections of Ukrainica in Diaspora,

by Roman Weres.

Chicago,
Ukrainian Bibliographical-Reference Center

1976.

Preface

This Directory has a very practical purpose: to aid individuals who come in contact with Ukrainian books or periodicals, i.e. librarians in charge of selection or acquisition of Ukrainian books or periodicals, book dealers and individuals interested in Ukrainica.

This Directory consists of : 1. A list of Ukrainian publishing houses. 2. List of Ukrainian periodicals and serials. 3. A list of Ukrainian bookstores. 4. A list of collections of Ukrainian materials in American and Canadian libraries. 5. A list of Ukrainian libraries in countries outside the Iron Curtain.

Publishing houses, bookstores, collections of Ukrainica and Ukrainian libraries have been arranged in the following order: United States of America, Canada, other countries - listed alphabetically. Entries of each country have been arranged alphabetically by states (provinces), cities and entries.

When an English name of a publishing house or a scholarly institution is used in the address, this term is used in alphabetical order. An Index of publishing houses alphabetically arranged has been added, with all necessary crossreferences from names in other languages to names used in addresses.

All periodicals, serials and calendars have been arranged in one alphabet.

If a society or organization publishes more than one serial publication, all of its publications are listed alphabetically under the name of the society with necessary crossreferences from single titles.

Small churches, organization and juvenile bulletins have been omitted.

Periodicals and serials published in the U.S.S.R. and East European countries have not been listed due to the difficulty to obtain them through direct subscription. Usually they can only be ordered through certain bookstores importing foreign books and periodicals. These bookstores issue catalogs of periodicals and serials which can be ordered.

I was not able to verify all of the periodicals and serials listed in Directory. In many cases I used information supplied by the sources listed below.

Consequently, I could not be sure if all the listed publications are still being published, terminated or temporarily interrupted, and whether address and price information is correct.

In the list of library collections of Ukrainica and Ukrainian libraries, predominantly larger collections have been listed. In some cases smaller collections have been listed if they are parts of a larger library or institution, are currently in a developing stage or include rare or valuable items. In most cases these are small Ukrainian libraries in the Eastern states of the U.S. or in Canada, established before World War I, and containing many rare out of print materials. In most cases these private libraries are only partly Ukrainian and most of the holdings are professional books in English or other languages.

Transcription: In the transcription of Cyrillic titles and names, simplified rules of the Ukrainian and other Cyrillic alphabets established by the Library of Congress--minus diacritical marks--have been used.

Acknowledgments:

The following publications, articles and typescripts have been used in the preparation of this Directory:
